

Minimum Qualification Specifications
for the Class:

HEAVY VEHICLE/CONSTRUCTION EQUIPMENT MECHANIC I
(HEAVY VEH/CONSTR EQUIP MECH I)

Experience Requirements

Four (4) years of progressively responsible automotive repair experience under a journey-level mechanic. One (1) year of this experience must have included heavy vehicle and/or construction equipment repair work.

Substitutions Allowed

1. Training received at an accredited community college or technical school in an Automotive Mechanics Technology curriculum may be substituted for experience on the basis of half a school year for six (6) months of experience up to a maximum of two (2) years. However, the training may not be substituted for the heavy vehicle and/or construction equipment repair work experience.
2. Training received at an accredited community college or technical school in a Heavy Equipment Maintenance and Repair curriculum may be substituted for experience on the basis of half a school year for six (6) months of experience up to a maximum of two (2) years, including the heavy vehicle and/or construction equipment repair work experience.

Quality of Experience

Possession of the required number of years of experience will not in itself be accepted as proof of qualification for a position. The applicant's overall experience must have been of such scope and level of responsibility as to conclusively demonstrate that he/she has the ability to perform the duties of the position for which he/she is being considered.

License Required

Applicants must possess a valid license to drive in the State of Hawaii and an appropriate Commercial Driver's License.

Selective Certification

Specialized knowledge, skills and abilities may be required to perform the duties of some positions. For such positions, Selective Certification Requirements may be established and certification may be restricted to eligibles who possess the pertinent experience and/or training required to perform the duties of the position.

Agencies requesting selective certification must show the connection between the kind of training and/or experience on which they wish to base selective certification and the duties of the position to be filled.

Tests

Applicants may be required to qualify on an appropriate examination.

Physical and Medical Requirements

Applicants must be able to perform the essential functions of the position effectively and safely, with or without reasonable accommodation.

This is an amendment to the minimum qualification specifications for the class HEAVY VEHICLE/CONSTRUCTION EQUIPMENT MECHANIC I, which were approved on May 17, 2005.

DATE APPROVED: 8/20/12
