

**REPORT TO THE TWENTY-FIFTH HAWAII STATE
LEGISLATURE 2009**

**IN ACCORDANCE WITH THE PROVISIONS OF
ACT 213, PART 7, SECTION 210
SESSION LAWS OF HAWAII (SLH) 2007**

**DEPARTMENT OF HUMAN SERVICES
Benefit, Employment, And Support Services Division
January 2009**

quarter of FFY 2008, 31.3% of mandatory households were meeting the work participation requirements. Therefore, Hawaii is currently exceeding the required participation, 31.3% compared to 27%.

The percentage of TANF recipients in work programs exiting due to employment fell below our planned outcome level. We believe that this outcome is due to the success that we have been having with our new “Up-Front Universal Engagement (UFUE)” program (aka “Grant Diversion” program). UFUE is successfully diverting new applicants to TANF into the job market, instead of welfare, within the first four months of their applications. As a result, those who need more than four months of assistance, job readiness and job placement are transferred to our First-To-Work units, resulting in “harder to serve” clients who require more protracted help from us to exit welfare through employment. However, we will retain our planned ambitious outcome goal in this coming year and are encouraged that our overall federal work participation rate has continued to incrementally improve.

The Department has developed and implemented eight performance measures to measure the success of our employment initiatives.

For Federal Fiscal Year 2008:

- 1&2) The percentage of clients employed 40+ hours increased 12.8%.
- 3) The percentage of clients exiting TANF due to employment increased 78%.
- 4) The percentage of clients with zero hours of employment decreased by 2.9%.
- 5) The average hours of employment increased 3.9%.
- 6) The average hourly wage increased 3.5%
- 7&8) The SEE program participation increased 14%.

Following the TANF Five-Year Strategic Plan, DHS uses its TANF annual block grant to both provide TANF benefits for needy families and to fund poverty prevention contracts with a wide variety of community-based social service agencies statewide.

To determine the effectiveness of these initiatives, DHS commissioned a study by The Lewin Group, a nationally respected human services consulting firm. These experts determined that our TANF-funded anti-poverty community-based programs use research-based approaches proven to reduce teen pregnancies, improve school performance and completion rates, discourage drug and alcohol abuse, build character, develop life skills and promote work preparedness. A copy of the analysis is available online at www.hawaii.gov/dhs/main/reports.

The following are some of the welfare-to-work initiatives implemented by the Department.

SEE Hawai`i Work (Supporting Employment Empowerment)

SEE Hawai`i Work (Supporting Employment Empowerment) gives generous wage subsidies to a wide variety of companies to hire welfare clients and train them on the job, where they learn valuable work skills. Most of the SEE clients are eventually hired by the companies that trained

them or obtain employment with other businesses. Prior to SEE, most of these companies had not hired from the welfare rolls.

This business-friendly program is a win-win-win for welfare clients, employers and State taxpayers because SEE:

- Transforms lives by helping welfare moms and dads break multigenerational cycles of poverty, find rewarding jobs in the private sector and stay engaged in gainful employment;
- Stimulates the economy by helping companies meet their labor demands with minimal cost and effort; and
- Saves taxpayer dollars by reducing our welfare rolls.

As of July 31, 2008, 1,322 welfare recipients have participated in SEE, of which 301 are currently in active SEE placements. Of the 553 SEE participants who have successfully completed their SEE assignments, 434 (78.5%) have already transitioned into unsubsidized employment – many of them for the first time in their life – and have exited TANF.

To date, 785 employers have participated in the SEE program and 377 of those employers hired welfare recipients. Currently, 323 employers have job openings for welfare recipients to fill over 900 available positions at their companies.

Up-Front Universal Engagement (UFUE)

To divert clients away from welfare and into the workforce, DHS in 2005 launched Up- Front Universal Engagement (UFUE). This program connects people with the job market at the time they apply for government assistance. From October 1, 2007 to May 31, 2008, about 2,237 households applied for government assistance and were referred to the UFUE program.

Of these 2,237 households, 1,729 (77.2%) were diverted away from the TANF program and into the job market.

Reward Work

In 2006 DHS began offering new financial incentives that encourage clients to seek and maintain employment. This “Reward Work” initiative allows welfare recipients who are participating in employment activities to keep 100% of their monthly cash assistance while they work during the first two years on welfare. Previously, welfare checks were reduced when clients began working, which was a disincentive to employment. In addition, Reward Work provides two months of rent payments to help clients stabilize their housing.

So far, 7,069 employed welfare recipients have received work incentive subsidies and/or these Reward Work payments along with their employment wages. These payments total \$8,015,543.

The percentage of clients who have exited the financial assistance programs increased from 45% in FY 2007 to 50% in FY 2008. Even more significant is that those who exited financial assistance due to unsubsidized employment increased from 21% in FY 2007 to 50% in FY 2008.
