#### A. New Notices

- In an effort to provide more timely and cost-effective notices, we have updated our Bulletin to be more user friendly in finding applications which may be of interest to our readers. We have also included a letter offering our subscribers the option to receive future Bulletins via e-mail, and we are posting the Bulletin on our new web site, URL <http://www.hawaii.gov/dlnr/dworm/dworm.html>.
- The Commission on Water Resource Management has selected Frank D. Padgett as its independent legal counsel for the Waiahole Ditch Contested Case Hearing (Case No. CCH-OA-95-1) appeal.
- On January 23, 1997, the Commission approved the 'Hawaii Well Construction and Pump Installation Standards' which provide minimum standards for such work. As part of this approval, the Commission delegated authority to the Chairperson to approve: 1) well construction permits statewide, and 2) pump installation permits in aquifer systems that are not designated water management areas and where estimated water usage is less than 70% of sustainable yield. Additionally, unless deemed otherwise by the Chairperson, no additional permit application is required statewide for the replacement of pumps less than or equal to the existing pump capacity. All applications will be listed in this Bulletin, and approval dates may reflect Chairperson approval or Commission approval.
- The Commission on Water Resource Management will be holding a public hearing to gather testimony regarding the Water Use Permit Application for the Waiahole Ditch System, Oahu from Kamehameha Schools Bishop Estate for 4.2 mgd for agricultural and urban use. In accordance with Department of Land and Natural Resources Administrative Rules 13-171, objections filed by persons having standing to file an objection require that a public hearing be held before the Commission may proceed to approve or reject the permit application.

## D. Petitions for the Designation of Water Management Areas

- **Ahupua'a of Punalu'u as a Surface Water Management Area** - On January 20, 1994, the Punalu'u Community Association (PCA) filed a petition "in order to protect surface water including stream flow, to guarantee the statutory rights of kuleana land owners as well as the riparian and appurtenant rights of others and also to preserve and protect the agricultural base and natural habitats which depend on such surface water." Moreover, PCA alleges ongoing "serious disputes". On March 16, 1994, the Commission approved continuing the designation process to investigate and determine the need for designation.
- **Ahupua'a of Laie as a Surface Water Management Area** - On May 13, 1996, Dawn Wasson, et. al filed a petition citing diminishing surface water supply for future needs and serious disputes occurring within the area. Decision-making for continuing the process is deferred pending results of Laie CCH-OA96-2, which has been completed on December 7, 1998.
- **Island of Molokai** - On March 28, 1990, 39 individuals filed a petition to designate Molokai as both Ground and Surface Water Management Areas. On May 13, 1992 the Commission designated Molokai and its 16 aquifer systems as groundwater management areas. Surface water designation has been deferred pending further study.
