Pearl Harbor Water Shortage Plan Adopted by the Commission on Water Resource Management

The Commission on Water Resource Management unanimously voted to adopt the Pearl Harbor Water Shortage plan at its August 18, 2020 meeting. Water use permit holders in Pearl Harbor will be subject to the conditions in the plan should a water shortage be declared in Pearl Harbor by the Commission.

The Commission will continue to accept comments on the plan and any interested parties are encouraged to do so. Please mail your comments to Commission on Water Resource Management, State Department of Land and Natural Resources, PO Box 621, Honolulu, Hawaii 96809, or email to dlnr.cwrm@hawaii.gov.

County Drought Committee Meetings

Commission staff convened four county drought committee meetings in June to hear about current and expected drought conditions in the upcoming dry season. These committees also heard about drought impacts from stakeholders and any drought preparedness, mitigation and response actions planned or being taken.

We are currently in ENSO-neutral conditions (neither El Niño nor La Niña) and there is a chance that La Niña may develop in the fall/winter of 2020. At the beginning of June the expectation was that drought conditions would worsen and expand in the islands' dry leeward areas throughout the summer months. Widespread impacts will be to surface water supplies, unirrigated agriculture/pasture, and increased risk to wildland fire. USDA designated Hawai'i County as a primary disaster area due to drought (https://www.fsa.usda.gov/news-room/emergency-designations/2021/ed_2021_0706_rel_0099).

For more information on water conservation please see the Hawai'i Water Conservation Plan website (<https://dlnr.hawaii.gov/cwrm/planning/conservation/>). For more drought information, see the U.S. Drought Monitor website (<https://droughtmonitor.unl.edu/CurrentMap/StateDroughtMonitor.aspx?HI>) and the National Weather Service, Honolulu Forecast Office Drought Information Statement (<https://www.weather.gov/hfo/DGT>).
