(HONOLULU) - The Department of Land and Natural Resources (DLNR) is accepting proposals for projects or programs submitted by public or private agencies or organizations to increase water security in the State of Hawaii.

Act 172 Session Laws of Hawaii 2016 requires DLNR to establish a two-year pilot program for a Water Security Advisory Group (WSAG) to enable public-private partnerships that increase water security by providing one-for-one matching funds for projects or programs that:

1. Increase the recharge of groundwater resources;
2. Encourage the reuse of water and reduce the use of potable water for landscaping irrigation; and
2. Improve the efficiency of potable and agricultural water use.

Public or private agencies or organizations are encouraged to submit proposals to the WSAG at the address provided in the Request for Proposals by Tuesday, April 18, 2017.

The Request for Proposals (RFP) may be viewed or downloaded at:
