However, adequate provision shall be made for the protection of traditional and customary Hawaiian rights, the protection and procreation of fish and wildlife, the maintenance of proper ecological balance and scenic beauty, and the preservation and enhancement of waters of the State for municipal uses, public recreation, public water supply, agriculture, and navigation. Such objectives are declared to be in the public interest.*

Explain below how the uses in your application are consistent with the public interest as described above. Attach additional sheets if necessary.

We are proposing in our application to continue the existing use of water to support irrigation and other agricultural uses. We are currently using the water to grow dragon fruit, bananas, and sweet potatoes, and for livestock activity (goats, cattle, etc.) These uses are consistent with the public interest stated in the State water code.

We do not anticipate that our proposed use will interfere with any existing legal use or the rights of the Department of Hawaiian Home Lands .
