REMARKS:

Governor's Executive Order No. 97 to the County of Kauai was issued on April 30, 1921 for Wailua Park purposes and is now known as Wailua "Lydgate" Park. This is the site of the Wailua Munciple Golf Course.

Currently, power to the golf course clubhouse supplies electricity to the offices, retail shop, restaurant, starters booth and a separate golf cart barn.

KIUC determined that given the state of the current power lines, power maybe lost permanently in a future storm. The existing electrical feeder line is an original "direct buried" line installed in the 1960's.

Two (2) 35' poles with anchors and overhead lines will be the most cost effective choice.

Applicant has not had a lease, permit, easement or other disposition of State lands terminated within the last five years due to non-compliance with such terms and conditions.

Comments were solicited from:

State Agencies:

DOFAW	No comments or concerns See Exhibit 'F'
DOH	No environmental health concerns
Historic Preservation	No response by suspense date
OCCL	Construction area lies within the Limited subzone of the Conservation District, a CDUA application is necessary See Exhibit 'G'
OHA	No objections

County Agencies

County Planning	No response by suspense date
Parks & Recreation	No response by suspense date
Public Works	No flood plain requirements
Dept. of Water	Submit construction drawings for review & approval - no conflict w/ existing water facilities

Such use has resulted in no known significant impacts, whether immediate or cumulative, to the natural, environmental and/or cultural resources in the area. As such, staff believes that the proposed use would involve negligible or no expansion or change in use of the subject area beyond that previously existing.

This overhead electrical transmission line, poles, etc. will require KIUC to obtain access and utility easement over Governor's Executive Order No. 97.

RECOMMENDATION: That the Board:

1. Declare that, after considering the potential effects of the proposed disposition as provided by Chapter 343, HRS, and Chapter 11-200, HAR, this project will probably have minimal or no significant effect on the environment and is therefore exempt from the preparation of an environmental assessment.
2. Subject to the Applicant fulfilling all of the Applicant requirements listed above, authorize the issuance of a perpetual non-exclusive easement to Kauai Island Utility Cooperative covering the subject area for access and utility purposes under the terms and conditions cited above, which are by this reference incorporated herein and further subject to the following:
 - A. The standard terms and conditions of the most current perpetual easement document form, as may be amended from time to time;
 - B. Review and approval by the Department of the Attorney General; and
 - C. Require the County of Kauai, Parks & Recreation Division to file a Conservation District Use Application with the Office of Conservation and Coastal Lands (OCCL);
 - D. Such other terms and conditions as may be prescribed by the Chairperson to best serve the interests of the State.

Respectfully Submitted,

Marvin Mikasa
Land Agent

We have no comments or concerns. This proposed action, to install two new 35' poles and a powerline, is covered under the federal ESA incidental take permit and draft HCP as well as the draft HCP currently in review under the state endangered species law (HRS 195D). However, because of the specific location of the proposed line, no take of listed species is expected.

MEMORANDUM

TO: Marvin Mikasa, Land Agent
Kauai District Land Office

FROM:  Samuel J. Lemmo, Administrator
Office of Conservation and Coastal Lands

SEP 16 2011

SUBJECT: Perpetual, Non-Exclusive Easement to KIUC for Access and Utility Purposes
Located at Lydgate Park, Wailua, Lihue, Kauai, TMK: (4) 3-9-002: portion of 004

The Office of Conservation and Coastal Lands (OCCL) has reviewed the draft Board submittal regarding the subject matter. The OCCL notes the subject area lies within the Limited subzone of the Conservation District.

The proposed placement of two 35' poles with anchors and overhead lines is an identified land use pursuant to the Hawaii Administrative Rules, §13-5-22, P-9, Structures Existing (C-1) Demolition, removal, or alteration of existing structures, facilities and equipment. The decision to allow, modify or deny the application will be at the discretion of the Chairperson. Therefore this land use would require the filing of a Conservation District Use Application for a Departmental permit.

Should you have any questions regarding this memorandum, contact Tiger Mills of our Office at (808) 587-0382.
