Land Board Members:

SUBJECT: REQUEST FOR DELEGATION OF AUTHORITY FOR PERMITS AND ACTIONS UNDER HAWAII ADMINISTRATIVE RULES CHAPTERS 13-122 AND 13-123, TO THE CHAIRPERSON, THE ADMINISTRATOR AND BRANCH MANAGERS OF THE DIVISION OF FORESTRY AND WILDLIFE

AND

AUTHORIZE THE CHAIRPERSON, AND THE ADMINISTRATOR AND BRANCH MANAGERS OF THE DIVISION OF FORESTRY AND WILDLIFE TO DETERMINE AND APPROVE CHAPTER 343, HAWAII REVISED STATUTES (HRS) ENVIRONMENTAL COMPLIANCE REQUIREMENTS, INCLUDING APPROVAL OF DECLARATIONS OF EXEMPTIONS, AS APPLICABLE, FOR PERMITS ISSUED UNDER THE RULES REGULATING HUNTING IN HAWAII ADMINISTRATIVE RULES CHAPTERS 13-122 AND 13-123.

SCOPE: STATEWIDE

STATUTE: HAWAI'I REVISED STATUTES ("HRS") CHAPTERS 183D, 195D

SUMMARY

The Division of Forestry and Wildlife ("Division") requests Board of Land and Natural Resources ("Board") approval to adopt delegations of authority for permits and actions pursuant to Hawaii Administrative Rules ("HAR") Chapters 13-122, and 13-123. These chapters regulate the hunting of game birds, and game mammals respectively.

BACKGROUND

The Board approved the amendment of HAR Chapters 13-122 and 13-123 on October 24, 2014. These chapters contain rules regulating game bird and game mammal hunting. They were signed

by the Governor on April 24, 2015 and went into effect on May 9, 2015. Prior to this, the rules had not been amended since October of 1999. These two rules chapters are attached to this submittal as Exhibits A and B.

The purpose of this submittal is to obtain the board approval to delegate certain authorities under the newly amended hunting rules in HAR chapters 13-122 and 13-123 from the Board to the Chairperson, and the Division of Forestry and Wildlife.

The Division requests that the Board delegate its authority to issue permits and take administrative actions to the designated representatives in Table 1 below. By delegating its authority, the Board will: 1) expedite the permits to the public by reducing turn-around time, and reducing administrative process, 2) relieve the Board of a large quantity of routine paperwork, 3) reduce the amount of paperwork within the Department and Division and 4) provide the framework for improvements in the Division's permit process and administrative actions.

AUTHORITY & ANALYSIS

Authority to establish rules for conserving wildlife and regulate hunting are given to the Department of Land and Natural Resources ("Department") by HRS Chapters 183D, and 195D. Under this authority, HAR Chapters 13-122, and 13-123 were created to regulate certain aspects of hunting and wildlife. Pursuant to §183D-3, subject to chapter 91, the department amended the rules concerning game management areas and public hunting under both HAR Chapters, 13-122 and 13-123, which became effective on June 9th, 2015. The Division, upon examination of the two revised HARs, has undertaken to review all of the related permits and actions and propose ways to expedite the administrative processes related to the review and issuance of permits. HAR Chapters 13-122, and 13-123 each provide that the Board or its authorized representative may issue permits for activities that are otherwise prohibited in the rules.

The following is a brief summary of the rules the Division is requesting authority be delegated, a short analysis of the reason to delegate, and to whom the authority is being requested be delegated. They are organized by chapter and rule section:

HAR Chapter 13-122

DELEGATION

The Division is requesting approval to delegate certain authorities under HAR Chapters 13-122, and 13-123 from the Board to the Chairperson and the Division of Forestry and Wildlife. The Division notes that the delegations of authorities to issue permits and execute actions as identified in Table 1 below represent potential procedures that may be followed based on a case-by-case review of permit requests. In some cases, however, such as those dealing with new or unforeseen issues, the delegated authority may conclude that a higher authority should review a permit request in order to determine whether the request should be approved or denied. In those cases the request will be forwarded to the appropriate authority for decision. The recommendations are summarized in Table 1.

HRS CHAPTER 343

The Division requests that the Board authorize the department staff identified in table 1 to determine and approve Chapter 343, Hawaii Revised Statutes (HRS) environmental compliance requirements, including approval of declarations of exemptions, as applicable, for the activities authorized under permits issued pursuant to chapters 13-122 and 13-123, HAR.

Each permit request will be reviewed by the department staff it has been delegated to for potential impacts resulting from the requested activities. The delegated staff will make a determination as to whether the activities require preparation of an Environmental Assessment, or, as provided by CH 343, HRS, and chapter 11-200 HAR, determine whether the activities are

exempt from the preparation of an Environmental Assessment in accordance with the current Exemption List for the Division of Forestry and Wildlife of the Department of Land and Natural Resources.

For projects that are eligible for a declaration of exemption, the Division will consult with agencies and individuals having expertise before seeking a project exemption as required under Chapter 11-200, HAR. For projects that require the preparation of an environmental assessment, an environmental assessment for the project will be developed and published.

RECOMMENDATIONS

That the Board of Land and Natural Resources:

1. Delegate the authority to issue permits under Hawaii Administrative Rules Chapters 13-122, and 13-123 to the Department Chairperson, Administrator, and Branch Managers of the Division of Forestry and Wildlife as identified in Table 1.
2. Authorize the department chairperson and administrator and branch managers of the Division of Forestry and Wildlife to determine and approve Chapter 343, Hawaii Revised Statutes (HRS) environmental compliance requirements, including approval of declarations of exemptions, as applicable, for permits issued under the Rules regulating Game Birds and Game Mammals, as detailed in Table 1.
