Departmental permits and emergency permits are processed by the department and approved by the chairperson. Site plans are processed by the department and approved by the chairperson, or his designated representative.

(b) Unless provided in this chapter, land uses shall not be undertaken in the conservation district. The department shall regulate land uses in the conservation district by issuing one or more of the following approvals:

- (1) Departmental permit (see section 13-5-33) ;
- (2) Board permit (see section 13-5-34);
- (3) Emergency permit (see section 13-5-35);
- (4) Temporary variance (see section 13-5-36);

(c) In evaluating the merits of a proposed land use, the department or board shall apply the following criteria:

- (1) The proposed land use is consistent with the purpose of the conservation district;
- (2) The proposed land use is consistent with the objectives of the subzone of the land on which the use will occur;
- (3) The proposed land use complies with provisions and guidelines contained in chapter 205A, HRS, entitled "Coastal Zone Management" where applicable;

- (4) The proposed land use will not cause substantial adverse impact to existing natural resources within the surrounding area, community or region;
- (5) The proposed land use, including buildings, structures and facilities, shall be compatible with the locality and surrounding areas, appropriate to the physical conditions and capabilities of the specific parcel or parcels;
- (6) The existing physical and environmental aspects of the land, such as natural beauty and open space characteristics, will be preserved or improved upon, whichever is applicable;
- (7) subdivision of land will not be utilized to increase the intensity of land uses in the conservation district; and
- (8) The proposed land use will not be materially detrimental to the public health, safety and welfare.

The applicant shall have the burden of demonstrating that a proposed land use is consistent with the above criteria.

(d) For uses on submerged lands and in state marine waters the requirements of this chapter are satisfied by complying with provisions of chapters 171 (public lands), 184 (state parks), 187A, 188, 189, and 190 (marine life management), 190D (ocean leasing), 195 (natural area reserves system), 195D (conservation of aquatic life and wildlife), and 200 (boating and ocean recreation), or their implementing rules. The one hundred and eighty day time period provided by law shall not commence until a completed application is accepted by the department. Physical receipt of an application by the department does not constitute acceptance.

(d) If within one hundred and eighty days, or a time period as provided by law, after the department's acceptance of a completed application, the department, the chairperson, or the board shall fail to render a decision thereon, the landowner may automatically put the land to the use or uses requested in the application, subject, however, to the conditions contained in section 13-5-42.

(e) No permit application shall be processed by the department until any violations pending against the subject parcel are resolved.

The department will use its best efforts to notify any interested person who complies with this section. However, failure of the department to comply with this subsection shall not invalidate any departmental permit issued under this chapter.

(g) Any person may appeal the chairperson's decision by filing a written appeal to the department not later than fourteen days after the date of the department's determination of the departmental permit. The written appeal shall provide all relevant information and shall state with specificity the reasons for the appeal.

(1) Repair or reconstruction of a structure to the same condition as existed prior to the damage. Permits under this clause shall be expedited by the department;

(2) Reconstruction involving minor deviations (no more than twenty per cent increase in footprint) of the damaged structure, such as enlargements of a dwelling or additions to the structure; and

(3) The chairperson may designate a time frame during which authorization shall not be required for activities exempt from the building permit requirements as set forth in the applicable county building code, provided that repairs exempt from the building code requirements shall not include any addition, change, or modification in construction or land use.

(c) The department may elect to route certain applications as board permits. This may occur when an application involves one or more of the following situations:

(2) Change in land use;

(3) Substantial change in the height of the structure (for example, second floor additions); or

(4) Where the department determines that a potential for substantial adverse environmental impact exists.

(d) The repair, reconstruction, or modification under this chapter are only for land uses that have been established or are legally nonconforming. If there is a question regarding legality, the burden of proof shall be upon the applicant. For nonconforming structures, this section shall not supersede the provisions contained in section 13-5-37.

(e) Repair and replacement of any structure being investigated for possible violation of this chapter, or in situations in which fines for a violation have not been collected, shall not be processed until the violation is resolved.

- (1) There are special and unique circumstances applying to the proposed land use at its particular location;
- (2) The applicant proves with clear and compelling evidence that the proposed land use is for the benefit of public health and safety or that there are no other reasonable economic uses of the property;
- (3) No reasonable and prudent alternative promotes the public interest as well as the proposed land use; and
- (4) The variance and any conditions imposed on the land use authorized by the temporary variance is not inconsistent with the intent and purpose of the subzone in which the land use is located.

(b) No temporary variance shall be approved for more than one year, and no extension thereof or reapplication therefore shall be approved.

(c) Temporary variances require a board permit.

(d) This section shall not apply to the removing, harvesting, dredging, mining, or extraction of any material or natural resource on land.

(e) The application for temporary variance shall be accompanied by:

- (1) An application fee of \$100.

(e) Repairs or reconstruction of the nonconforming structure shall not exceed the size, height or density of the structure which existed immediately prior to October 1, 1964 or at its inclusion into the conservation district. [Eff DEC 12 1994] (Auth: HRS §183C-3) (Imp: HRS §183C-5, 183C-6))

- (3) On applications requiring a board permit in the protective subzone; and
- (4) On all applications determined by the chairperson that the scope of proposed use, or the public interest requires a public hearing on the application.

(b) The hearing shall be held in the county in which the land is located. The hearing may be conducted by the board or may be delegated to an agent or representative of the board as designated by the chairperson and shall afford all interested persons a reasonable opportunity to be heard.

Three of the copies will be returned to the applicant. Plan approval by the chairperson does not constitute approval required from other agencies;
