MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2018

This section of the annual financial report presents management's discussion and analysis of the Division's financial performance during the fiscal year ending June 30, 2018. It should be read in conjunction with the Division's financial statements which follows this section.

FINANCIAL HIGHLIGHTS

- The Division ended with a net position of \$6,814,000 at June 30, 2018, which was an increase of \$3,866,000 or 131.1% from the prior year. The increase is primarily attributable to net increase in operations and investment earnings.
- The Division's current assets were \$15,945,000 which increased by \$2,418,000 or 17.9% from the prior year. The increase was primarily attributable to decreases in grant related accounts receivable, and increases in cash.
- The Division's investment in capital assets, net of depreciation were \$1,338,000 which increased by \$195,000 or 17.1% from the prior year. The increase is primarily attributable to addition of computer equipment.
- The Division's current liabilities were \$6,261,000 which decreased by \$920,000 or 12.8% from the prior year. The decrease is primarily attributable to decreases in amounts due to other divisions.
- The Division's total revenues were \$30,358,000 which was an increase of \$5,633,000 or 22.8% from the prior year. The increase was primarily attributable to increases in assessments.

OVERVIEW OF FINANCIAL STATEMENTS

The financial statements consists of six parts: a transmittal, Management's discussion and analysis, which discusses the Division's financial performance during the fiscal year; a financial section which presents the Division's financial statements, notes to the financial statements and supplementary information; reports on internal controls and compliance; schedule of prior audit findings and questioned costs; schedules of findings and questioned costs; and the Division's corrective action plan. These components are described below:

Government-Wide Financial Statements

The government-wide financial statements reports information about the Division as a whole using accounting methods similar to those used by private sector companies. The *Statement of Net Position* provides both short-term and long-term information about the Division's financial position, which reflects the Division's financial condition at the end of the fiscal year.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)
JUNE 30, 2018

OVERVIEW OF FINANCIAL STATEMENTS (Continued)

The *Statement of Net Position* presents the Division's assets and liabilities with the difference between the two reported as "net position". The *Statement of Activities* reflects the operations of the Division during the fiscal year and the resultant change in the net position. All of the current fiscal year's revenues and expenses are accounted for in the *Statement of Activities* on the accrual basis of accounting.

Fund Financial Statements

The fund financial statements provide detailed information about the Division's significant funds. A fund is a grouping of accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Funds are either reported as a major fund or a non-major fund.

The Division has two types of funds:

- Governmental Funds:

Special Revenue Funds - The Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Special Revenue Funds were established to account for the contracts that the State entered into for the Division with the U.S. Department of Transportation, Federal Highway Administration (FHWA) and Federal Transit Administration (FTA). The Special Revenue Funds also include the transactions and balances of Aloha Tower Development Corporation (ATDC), a blended component unit.

- Fiduciary Funds:

Agency Fund - The Agency Fund is used to account for assets held by the Division in an agency capacity for other divisions of the Department of Transportation (DOT). These assets include receipts of bid deposits for contracts with the DOT. These assets can only be used or applied if certain requirements are met. The Division's fiduciary activities are reported in a separate "Statement of Fiduciary Net Position." These activities are excluded from the Division's basic financial statements because the Division cannot use these assets to finance its operations.

Notes to Financial Statements

The Notes to Financial Statements provide additional disclosures for the information reflected in the financial statements, which is essential to understanding the financial data provided in the government-wide fund financial statements.

Other Reports

Following the Notes to the Financial Statements and supplementary information are the Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards and a Report on Compliance with Requirements Applicable to Each Major Program and on Internal Control over Compliance in Accordance with the Uniform Guidance. The schedules of prior and current findings and questioned cost and the Division's corrective action plan accompany these reports.

Government-wide Financial Analysis

The Statement of Net Position reflects the Division's financial condition at the end of the fiscal year. As of June 30, 2018, the Division's total net position was \$6,814,000.

The following presents a summarized comparison of net position and changes in net position for the fiscal years ended June 30, 2018 and 2017.

OVERVIEW OF FINANCIAL STATEMENTS (Continued)

Investment in capital assets (i.e. furniture and fixtures) and restricted funds for transportation projects, represent a large portion of the Division's net position. The Division uses these capital assets for the benefit and use by government agencies; consequently, these assets are not available for future spending and cannot be used to liquidate any liabilities. The remaining restricted assets of \$4,180,000 and \$5,002,000 at June 30, 2018 and 2017 represents resources that are subject to external restrictions or enabling legislation on how they may be used. Unrestricted assets (deficits) were \$1,296,000 and \$(3,197,000) at June 30, 2018 and 2017, respectively.

The Statement of Activities reflect the Division's current fiscal year's revenues and expenses on the accrual basis of accounting.

SPECIAL FUND BUDGETARY ANALYSIS

The annual budget for the Division is based on assessments to the Harbors, Highways and Airport Divisions of the DOT, as detailed in the Notes to the Financial Statements. The significant differences between budgeted and actual revenues and expenditures in the Special Funds were primarily attributed to decreases in federal grant programs. Total revenues differed by \$9,975,000 or 24.6% below budget, and total expenditures were \$12,919,000 or 34.4% below budget.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

As of June 30, 2018 and 2017, the Division had \$1,338,000 and \$1,143,000, respectively, in capital assets, net of accumulated depreciation. The 2018 amount represents a net increase of \$195,000 or 17.1% from 2017. For the fiscal year ended June 30, 2018, there was \$496,000 in net additions, which consisted primarily of computer hardware and software. Disposition of capital assets totaled \$77,000 for the fiscal year ended June 30, 2018.

Net capital assets (Rounded to nearest \$1,000) are as follows:

	<u>2018</u>	<u>2017</u>
Capital assets:		
Furniture and equipment	\$ 4,303,000	\$ 3,884,000

STATE OF HAWAII
DEPARTMENT OF TRANSPORTATION, ADMINISTRATION DIVISION
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2018

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Department of Transportation of the State of Hawaii was formed shortly after Hawaii became a State in 1959. It has three divisions, Airports, Harbors and Highways, which are supported by 10 departmental staff offices. The State of Hawaii Department of Transportation, Administration Division (Division) consists of the Office of the Director of Transportation, Departmental Staff Services Offices, and the Statewide Transportation Planning Office. Collectively, these offices provide the overall administrative support of the Department of Transportation.

The Statewide Transportation Planning (STP) Office is responsible for the administration of certain Federal Transit Administration (FTA) and Federal Highway Administration (FHWA) federal grants awarded to the Department of Transportation.

The Division's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for State and Local Governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the Division is discussed below.

Reporting entity - The financial statements reflect only the Division's financial activities as well as the financial activities of Aloha Tower Development Corporation (ATDC), a blended component unit of the Division. The State Comptroller maintains the central accounts for all State funds and publishes financial statements for the State of Hawaii (State) annually, which includes the Division's financial activities.

Government-Wide and Fund Financial Statements - (the statement of net position and the statement of activities) report information of all of the nonfiduciary activities of the Division. In general, the effect of interfund activity has been removed from these government-wide statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include charges to customers who purchase, use or directly benefit from goods or services provided by a given function. Program revenues also include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

program revenues are reported instead as general revenues. Resources that are dedicated internally are reported as general revenues rather than as program revenues. The Division does not allocate general government (indirect) expenses to other functions.

Net position components are classified restricted when legally enforceable enabling legislation places restrictions or are externally imposed by citizens and/or public interest groups. Additionally, restricted net position are re-evaluated if any of the resources raised by the enabling legislation are used for a purpose not specified by the enabling legislation or if the government has other cause for reconsideration. Internally imposed designations of resources are not presented as restricted components of net position. When both restricted and unrestricted resources are available for use, generally it is the Division's policy to use restricted resources first, then unrestricted resources as they are needed.

Separate financial statements are provided for Governmental Funds and Fiduciary Funds. However, the Fiduciary Funds are not included in the government-wide financial statements. Major Governmental Funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government Wide Financial Statements - are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental Funds Financial Statements - are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Division considers revenues other than federal grants and assistance awards to be available if they are collected within 60 days of the end of the fiscal year.

Federal grants and assistance awards made on the basis of entitlement periods are recorded as revenues when available and entitlement occurs which is generally within 12 months of the end of the current fiscal year. All other federal reimbursement-type grants are recorded as intergovernmental receivables and revenues when the related expenditures or expenses are incurred and funds are available.

STATE OF HAWAII
DEPARTMENT OF TRANSPORTATION, ADMINISTRATION DIVISION
NOTES TO THE FINANCIAL STATEMENTS (Continued)
JUNE 30, 2018

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Encumbrances are recorded obligations in the form of purchase orders or contracts. The Division records encumbrances at the time purchase orders or contracts are awarded and executed. Encumbrances outstanding at fiscal year-end are reported as restrictions, assignments, or commitments of fund balances since they do not constitute expenditures or liabilities.

Fiduciary Fund - financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, similar to the government-wide financial statements described above. Agency Funds do not have a measurement focus, and report only assets and liabilities.

Fund Accounting - The financial statements of the Division are recorded in individual funds, each of which is deemed to be a separate accounting entity. The division uses fund accounting to report on its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

The financial activities of the Division that are reported in the accompanying fund financial statements have been classified into the following major Governmental Fund. In addition, a description of the Fiduciary Fund follows.

Governmental Fund Type

The Division reports the following major Governmental Fund:

Special Revenue Fund - are used to account for the proceeds of specific revenue sources that are restricted to expenditures for specified purposes. The Special Revenue Funds were established to account for the contracts that the State entered into for the Division with the U.S. Department of Transportation, Federal Highways Administration (FHWA), Federal Transit Administration (FTA) and those between the Division and FTA prior to enactment of the Intermodal Surface Transportation Efficiency Act of 1991. The special revenue funds also includes the transactions and balances of ATDC, a blended component unit.

Fiduciary Fund Type

The Division reports the following Fiduciary Fund:

Agency Fund - is used to account for assets held by the Division in an agency capacity. These assets include the receipt of bid deposits for contracts with the Department of Transportation (DOT) in accordance with the Taxpayer Relief Act of 1997. These assets can only be used or applied if certain requirements are met. The Division's fiduciary activities are reported in a separate Statement of Fiduciary Net Position. These activities are excluded from the Division's basic financial statements because the Division cannot use these assets to finance its operations.

Net Position - In the government wide financial statements, net position is reported in three categories: net investment in capital assets, net of related debt; if any; restricted; and unrestricted. Restricted components are restricted by parties outside of the State (such as citizens, public interest groups or the judiciary) or imposed by law through enabling legislation.

Fund Balance Reporting - In the fund financial statements, Governmental Funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

In accordance with GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, the Division classifies fund balances based primarily on the extent to which it is bound to follow constraints on how resources can be spent. Classifications used by the Division are:

Restricted - Represents resources that are restricted to specific purposes usually imposed by external parties such as creditors, grantors, or other governments.

Committed - Represents resources that can only be used for specific purposes pursuant to formal action of the Legislature.

Assigned - Represents resources that are constrained by management's intent to be used for specific purposes, but are neither restricted nor committed.

Unassigned - Represents residual balances that are neither nonspendable, restricted, committed or assigned.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Encumbrance balances at year-end are reflected as assigned. The Division's Special Funds consist of specific revenue sources restricted or committed to expenditure for specific purposes other than debt service or capital projects. Restricted and committed revenues are expected to comprise a substantial portion of the fund inflows. Funds not meeting these criteria are reported in the general fund. The spending policy of the Division's Special Funds is, in order of priority, restricted, committed, and then assigned. The Division's classification of Special Fund inflows are restricted (federal grants), program revenues (committed), transfers from other funds (assigned), investment income (assigned unless restricted), and miscellaneous revenues (assigned). The Division's Special Funds are not encumbered.

Assessment Revenues - In accordance with Section 30, Chapter 36, of the Hawaii Revised Statutes (HRS), the Division reports as assessment revenues a percentage of the Airports, Harbors, and Highways Divisions' State allotted appropriations for the cost of the general administration expenses of the DOT.

On a quarterly basis, the divisions of DOT transfer their pro-rata share of their budgetary appropriation to cover their share of the operation expenses incurred by the Division. The unencumbered cash balances at the end of each fiscal year are transferred back to the respective divisions in accordance with their pro-rata share percentage. *Due to Other Divisions and Funds* as of June 30, 2018 was \$4,180,215. The \$4,772,852 reflected as *Other financing sources - Transfers, net* is the amount of unencumbered cash balances transferred back to the other divisions and other funds during 2018.

Risk Management - The Division is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; and workers' compensation. The Division is insured under the State of Hawaii (the State) as follows: The State generally retains the first \$1,000,000 per occurrence of property losses, the first \$4,000,000 with respect to general liability claims, and the first \$500,000 of losses due to crime. Losses in excess of those retention amounts are insured with commercial insurance carriers. The limit per occurrence for property losses is \$200,000,000, except for terrorism, which is \$50,000,000 per occurrence. The annual aggregate for general liability losses is \$9,000,000 per occurrence, \$50,000,000 for cyber liability losses and, for crime losses, the limit per occurrence is \$10,000,000 with no aggregate limit. The State also has an insurance policy to cover medical malpractice risk in the amount of \$35,000,000 per occurrence and \$39,000,000 in the aggregate. The State is generally self-insured for workers' compensation and automobile claims.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The estimated reserve for losses and loss adjustment costs includes the accumulation of estimates for losses and claims reported prior to fiscal year-end, nonincremental estimates (based on projections of historical developments) of claims incurred but not reported, and nonincremental estimates of costs for investigating and adjusting all incurred and unadjusted claims. Amounts reported are subject to the impact of future changes in economic and social conditions. The State believes that, given the inherent variability in any such estimates, the reserves are within a reasonable and acceptable range of adequacy. Reserves are continually monitored and reviewed, and as settlements are made and reserves adjusted, the differences are reported in current operations. A liability for a claim is established if information indicates that it is probable that a liability has been incurred at the date of the basic financial statements and the amount of the loss is reasonably estimable.

Interfund and Intrafund Transfers - Significant transfers of financial resources between activities within the same fund are offset within that fund. Transfers of revenues from funds authorized to receive them to funds authorized to expend them are recorded as operating transfers in the financial statements.

Compensated Absences - The Division's policy to permit employees to accumulate earned but unused vacation and sick leave benefits. There is no liability for unpaid accumulated sick leave since sick leave is not convertible to pay upon termination of employment. All vacation pay is accrued when incurred. A liability for these amounts is reported only if they have matured, for example, as a result of employee resignations and retirements.

Deferred Compensation Plan - The Division offers its employees a deferred compensation plan (Plan) created in accordance with Internal Revenue Code Section 457. The Plan, available to all Division employees, permits employees to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

All Plan assets are held in a trust fund to protect them from claims of general creditors. The Division has no responsibility for loss due to the investment or failure of investment of funds and assets in the Plan, but does have the duty of due care that would be required of an ordinary prudent investor. Accordingly, the assets and liabilities of the Division's deferred compensation plan are not reported in the accompanying basic financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash and Cash Equivalents - Cash and cash equivalents include all cash, repurchase agreements, U.S. government securities and time certificates of deposits with original maturities of three months or less.

Investments - The State's investments are reported at fair value within the fair value hierarchy established by generally accepted accounting principles.

Fair Value Measurements - The State measures the fair value of assets and liabilities as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants at the measurement date. The fair value hierarchy distinguishes between independent observable inputs and unobservable inputs used to measure fair value, as follows:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted market prices included in Level 1 that are observable for an asset or liability, either directly or indirectly.
- Level 3 - Unobservable inputs for an asset or liability reflecting the reporting entity's own assumptions. Level 3 inputs are used to measure fair value to the extent that observable Level 1 or 2 inputs are not available.

Capital Assets - Capital assets of the Division include furniture and equipment with estimated useful lives greater than one year and acquisition costs greater than the following amounts:

Furniture and equipment	\$5,000
-------------------------	---------

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at their estimated fair market value at the date of donation. Transfers are recorded at cost, net of the depreciation which would have been charged had the asset been directly acquired by the Division. Major outlays for capital assets and improvements are capitalized as projects are constructed to the extent the State's capitalization thresholds are met. Interest incurred during the construction phase of the capital assets is reflected in the capitalized value of the asset constructed, net of interest earned, on the invested proceeds over the same period. Maintenance and repairs are charged to operations when incurred. Betterments and major improvements which significantly increase values, change capacities, or extend useful lives are capitalized. Upon sale or retirement of capital assets, the cost and the related accumulated depreciation, as applicable, are removed from the respective accounts, and any resulting gain or loss is recognized in the statement of activities.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

	<u>Useful Lives</u>
Furniture and equipment	5 - 7 years

Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results could differ from those estimates.

Grants - Revenues for all federal reimbursement-type grants are recorded as receivables when costs are incurred.

2. BUDGETING AND BUDGETARY CONTROL

The Division's budget is established through the State of Hawaii's (State) budgetary process.

The budget of the State is a detailed operating plan identifying estimated costs and results in relation to estimated revenues. The budget includes (1) the programs, services, and activities to be provided during the fiscal year; (2) the estimated revenues available to finance the operating plan; and (3) the estimated spending requirements of the operating plan. The budget represents a process through which policy decisions are made, implemented, and controlled. Revenue estimates are provided to the State legislature at the time of budget consideration and are revised and updated periodically during the fiscal year. Amounts reflected as budgeted revenues in the general fund statement of revenues and expenditures - budget and actual (budgetary basis) are those estimates as compiled by the Council on Revenues and the Director of Finance. Budgeted expenditures are derived primarily from the General Appropriations Act, Supplemental Appropriations Act, and from other authorizations contained in the State Constitution, the Hawaii Revised Statutes, and other specific appropriations acts in various State Legislative Hearings.

All expenditures of appropriated funds are made pursuant to the appropriations in the biennial budget.

The General Fund and Special Revenue Funds have legally appropriated annual budgets. The Capital Projects Fund's appropriated budgets are for projects that may extend over several fiscal years.

The final legally adopted budget in the accompanying general fund statement of revenues and expenditures - budget and actual (budgetary basis) represents the original appropriations, transfers, and other legally authorized legislative and executive changes.

The legal level of budgetary control is maintained at the appropriation line item level by department, program, and source of funds as established in the appropriations acts. The Governor is authorized to transfer appropriations between programs within the same department and source of funds; however, transfers of appropriations between departments generally require legislative authorization. Records and reports reflecting the detail level of control are maintained by and are available at the Department of Accounting and General Services.

To the extent not expended or encumbered, the General Fund's appropriations generally lapse at the end of the fiscal year for which the appropriations are made. The State Legislature specifies the lapse dates and any other contingencies which may terminate the authorizations for other appropriations.

2. BUDGETING AND BUDGETARY CONTROL (Continued)

Budgets adopted by the State Legislature for the General Fund are presented in the general fund statement of revenues and expenditures - budget and actual (budgetary basis). The State's annual budget is prepared on the modified-accrual basis of accounting with several differences, acquired through long-term financing (basis difference) and (2) the accounting for transfers of principally related to (1) the encumbrance of purchase order and contract obligations and equipment debt service payments through the General Fund (perspective difference), which represent departures from GAAP.

Adjustments necessary to convert the results of operations and fund balances for the year ended June 30, 2018 from the GAAP basis to the budget basis are as follows:

Excess of revenues and expenditures over transfers, GAAP basis	\$ 3,637,222
Increase (decrease) in revenues:	
Current year receivables	(1,058,082)
Prior year receivables	<u>1,206,270</u>
	<u>148,188</u>
Increase (decrease) in expenditures:

Prior year accrued liabilities	1,633,733
Current year encumbrances, net of adjustments	4,297,648
Prior year encumbrances	<u>(1,578,207)</u>
	<u>2,724,290</u>
Excess of revenues over expenditures and transfers, budgetary basis	\$ <u>1,061,120</u>

3. CASH AND CASH EQUIVALENTS AND INVESTMENTS

The Director of Finance is responsible for the safekeeping of all monies deposited into the State Treasury. The Director of Finance pools and invests any monies of the State, which in the Director of Finance's judgment, are in excess of the amounts necessary for meeting the specific requirements of the State. Investment earnings are allocated to the Division based on its equity interest in the pooled monies. Legally authorized investments include obligations of or guaranteed by the U.S. government, obligations of the State, federally-insured savings and checking accounts, time certificates of deposit, auction rate securities, and repurchase agreements with federally-insured financial institutions.

Pension Plan

Plan Description

Generally, all full-time employees of the State and counties are required to be members of the ERS, a cost sharing multiple-employer defined benefit pension plan administered by the State's pension benefits program. Benefits, eligibility, and contribution requirements are governed by HRS Chapter 88 and can be amended through legislation. The ERS issues a publicly available financial report that can be obtained at ERS's website: <http://www.ers.ehawaii.gov>.

Benefits provided

The ERS Pension Trust is comprised of three pension classes for membership purposes and considered to be a single plan for accounting purposes since all assets of the ERS may legally be used to pay the benefits of any of the ERS members or beneficiaries. The ERS provides retirement, disability, and death benefits with three membership classes known as the noncontributory, contributory and hybrid retirement classes. The three classes provide a monthly retirement allowance equal to the benefit multiplier (generally 1.25% or 2%) multiplied by the average final compensation multiplied by years of credited service. Average final compensation for members hired prior to July 1, 2012 is an average of the highest salaries during any three years of credited service, excluding any salary paid in lieu of vacation for members hired January 1, 1971 or later and the average of the highest salaries during any five years of credited service including any salary paid in lieu of vacation for members hired prior to January 1, 1971. For members hired after June 30, 2012, average final compensation is an average of the highest salaries during any five years of credited service excluding any salary paid in lieu of vacation.

Each retiree's original retirement allowance is increased on each July 1 beginning the calendar year after retirement. Retirees first hired as members prior to July 1, 2012 receive a 2.5% increase each year of their original retirement allowance without a ceiling. Retirees first hired as members after June 30, 2012 receive a 1.5% increase each year of their original retirement allowance without a ceiling. The annual increase is not compounded.

The following summarizes the provisions relevant to the largest employee groups of the respective membership class.

7. RETIREMENT BENEFITS (Continued)

Employees' Retirement System (Continued)

Noncontributory Class

- Retirement Benefits - General employees' retirement benefits are determined as 1.25% of average final compensation multiplied by the years of credited service. Employees with ten years of credited service are eligible to retire at age 62. Employees with 30 years of credited service are eligible to retire at age 55.
- Disability Benefits - Members are eligible for service-related disability benefits regardless of length of service and receive a lifetime pension of 35% of their average final compensation. Ten years of credited service is required for ordinary disability. Ordinary disability benefits are determined in the same manner as retirement benefits but are payable immediately, without an actuarial reduction, and at a minimum of 12.5% of average final compensation.
- Death Benefits - For service-connected deaths, the surviving spouse/reciprocal beneficiary receives a monthly benefit of 30% of the average final compensation until remarriage or re-entry into a new reciprocal beneficiary relationship. Additional benefits are payable to surviving dependent children up to age 18. If there is no spouse/reciprocal beneficiary or dependent children, no benefit is payable.

Ordinary death benefits are available to employees who were active at time of death with at least ten years of credited service. The surviving spouse/reciprocal beneficiary (until remarriage/reentry into a new reciprocal beneficiary relationship) and dependent children (up to age 18) receive a benefit equal to a percentage of member's accrued maximum allowance unreduced for age or, if the member was eligible for retirement at the time of death, the surviving spouse/reciprocal beneficiary receives 100% joint and survivor lifetime pension and the dependent children receive a percentage of the member's accrued maximum allowance unreduced for age.

7. RETIREMENT BENEFITS (Continued)

Employees' Retirement System (Continued)

Contributory Class for Members Hired prior to July 1, 2012

- Retirement Benefits - General employees' retirement benefits are determined as 2% of average final compensation multiplied by the years of credited service. General employees with five years of credited service are eligible to retire at age 55.
- Disability Benefits - Members are eligible for service-related disability benefits regardless of length of service and receive a one-time payment of the member's contributions and accrued interest plus a lifetime pension of 50% of their average final compensation. Ten years of credited service is required for ordinary disability. Ordinary disability benefits are determined as 1.75% of average final compensation multiplied by the years of credited service but are payable immediately, without an actuarial reduction, and at a minimum of 30% of average final compensation.
- Death Benefits - For service-connected deaths, the surviving spouse/reciprocal beneficiary receives a lump sum payment of the member's contributions and accrued interest plus a monthly benefit of 50% of the average final compensation until remarriage or re-entry into a new reciprocal beneficiary relationship. If there is no surviving spouse/reciprocal beneficiary, surviving children (up to age 18) or dependent parents are eligible for the monthly benefit. If there is no spouse/reciprocal beneficiary or dependent children/parents, the ordinary death benefit is payable to the designated beneficiary.

Ordinary death benefits are available to employees who were active at time of death with at least one year of service. Ordinary death benefits consist of a lump sum payment of the member's contributions and accrued interest plus a percentage of the salary earned in the 12 months preceding death, or 50% Joint and Survivor lifetime pension if the member was not eligible for retirement at the time of death but was credited with at least ten years of service and designated one beneficiary, or 100% Joint and Survivor lifetime pension if the member was eligible for retirement at the time of death and designated one beneficiary.

- Retirement Benefits - General employees' retirement benefits are determined as 1.75% of average final compensation multiplied by the years of credited service. General employees with ten years of credited service are eligible to retire at age 60.
- Disability and Death Benefits - Members are eligible for service-related disability benefits regardless of length of service and receive a lifetime pension of 50% of their average final compensation plus refund of contributions and accrued interest. Ten years of credited service is required for ordinary disability. Ordinary disability benefits are 1.75% of average final compensation for each year of service for police officers and firefighters and are payable immediately, without an actuarial reduction, at a minimum of 30% of average final compensation.

Death benefits for contributory plan members hired after June 30, 2012 are generally the same as those for contributory plan members hired June 30, 2012 and prior.

Hybrid Class for Members Hired Prior to July 1, 2012

- Retirement Benefits - General employees' retirement benefits are determined as 2% of average final compensation multiplied by the years of credited service. General employees with five years of credited service are eligible to retire at age 62. General employees with 30 years of credited service are eligible to retire at age 55.
- Disability Benefits - Members are eligible for service-related disability benefits regardless of length of service and receive a lifetime pension of 35% of their average final compensation plus refund of their contributions and accrued interest. Contributions

Contributions are governed by HRS Chapter 88 and may be amended through legislation. The employer rate is set by statute based on the recommendations of the ERS actuary resulting from an experience study conducted every five years. Since July 1, 2005, the employer contribution rate is a fixed percentage of compensation, including the normal cost plus amounts required to pay for the unfunded actuarial accrued liabilities. The contribution rates for fiscal year 2018 were 18.00%. Contributions to the pension plan from the State was \$470,548,000 for the fiscal year ended June 30, 2018.

On May 18, 2017, the Governor signed into law Act 17 SLH 2017. Per Act 17, future employer contributions from the State and counties are expected to increase pursuant to a phased-in contribution rate increase over four years beginning July 1, 2017. The rate increases to 18.00% on July 1, 2017; 19.00% on July 1, 2018; 22.00% on July 1, 2019; and 24.00% on July 1, 2020.

The employer is required to make all contributions for noncontributory members. Contributory members hired prior to July 1, 2012 are required to contribute 7.8% of their salary. Contributory members hired after June 30, 2012 are required to contribute 9.8% of their salary. Hybrid members hired prior to July 1, 2012 are required to contribute 6.0% of their salary. Hybrid members hired after June 30, 2012 are required to contribute 8.0% of their salary.

State Policy

Actuarial valuations are prepared for the entire ERS and are not separately computed for each department or agency. Information on vested and nonvested benefits and other aspects of the ERS is also not available on a departmental or agency basis. Accordingly, the State's policy on the accounting and reporting for pension benefits is to allocate a portion of the net pension liability, pension expense, and deferred inflows and outflows of resources required under GASB Statement No. 68 only to component units and proprietary funds that are reported separately in stand-alone departmental financial statements or in the State's Comprehensive Annual Financial Report (CAFR). The basis for the allocation is the number of covered employees for each component unit and proprietary fund for pension benefits.

Post-Retirement Health Care and Life Insurance Benefits

Plan Descriptions

The State provides certain health care and life insurance benefits to all qualified employees. Pursuant to Act 88, SLH of 2001, the State contributes to the EUTF, agent multiple-employer defined benefit plan that replaced the Hawaii Public Employees Health Fund effective July 1, 2003. The EUTF was established to provide a single delivery system of health benefits for state and county workers, retirees, and their dependents. The EUTF issues an annual financial report that is available to the public. That report may be obtained by writing to the EUTF at PO Box 2121, Honolulu, Hawaii 96805-2121.

For employees hired before July 1, 1996, the State pays the entire monthly contribution for employees retiring with ten years or more of credited service, and 50% of the base monthly contribution for employees retiring with fewer than ten years of credited service. A retiree can elect a family plan to cover dependents.

For employees hired after June 30, 1996 but before July 1, 2001, and who retire with less than ten years of service, the State makes no contributions. For those retiring with at least ten years but fewer than 15 years of service, the State pays 50% of the base monthly contribution. For those retiring with at least 15 years but fewer than 25 years of service, the State pays 75% of the base monthly contribution. For those employees retiring with at least 25 years of service, the State pays 100% of the base monthly contribution. Retirees in this category can elect a family plan to cover dependents.

For those retiring with at least 15 years but fewer than 25 years of service, the State pays 75% of the base monthly contribution. For those employees retiring with at least 25 years of service, the State pays 100% of the base monthly contribution. Only single plan coverage is provided for retirees in this category. Retirees can elect family coverage but must pay the difference.

State's Policy

The actuarial valuation of the EUTF does not provide OPEB information by department or agency. Accordingly, the State's policy on the accounting and reporting for OPEB is to allocate a portion of the State's Annual Required Contribution funds ("ARC"), interest, and any adjustment to the ARC, to component units and proprietary funds that are reported separately in stand-alone departmental financial statements or in the State's CAFR. The basis for the allocation is the proportionate share of the State's total covered employee headcount by each component unit or proprietary fund for retiree health benefits.

The State's CAFR includes the required footnote disclosures and required supplementary information on the State's OPEB plans. The State's CAFR can be found at the Department of Accounting and General Services' website: <http://hawaii.gov/dags/rpts>.

The Division's share of the non-pension post-retirement benefits is expended by the Department of Budget and Finance and is not reflected in the Division's financial statements.

The State's CAFR also includes financial disclosure and required supplementary information on the State's pension and non-pension retirement benefits.

7. COMMITMENTS AND CONTINGENCIES

Accumulated Sick Leave Pay

Sick leave accumulates at the rate of one and three-quarters working days for each month of service without limit, but may be taken only in the event of illness and is not convertible to pay upon termination of employment. However, a state employee who retires or leaves government service in good standing with 60 days or more of unused sick leave is entitled to additional service credit in the ERS. The Division's accumulated sick leave as of June 30, 2018, was approximately \$4,552,000.

General Contingencies

The Division operates throughout the State of Hawaii. National and international events can have severe, adverse effects on economic conditions in Hawaii. The effects on the financial statements of the Division, from such changes in economic conditions, if any, are not presently determinable.

8. BLENDED COMPONENT UNIT - ALOHA TOWER DEVELOPMENT CORPORATION

Aloha Tower Development Corporation (ATDC), a blended component unit of the Division, is a state agency established under HRS Chapter 206J, primarily to redevelop the Aloha Tower complex in Honolulu. The complex encompasses Piers 5 to 23 of Honolulu Harbor. In September 1993, the State of Hawaii, Department of Transportation, Harbors Division (Harbors), entered into a lease with the ATDC which grants a leasehold interest in portions of the Aloha Tower complex to ATDC. ATDC is required annually to reimburse Harbors for any losses in revenue during the term of the lease caused by any action of ATDC or the developer of the Aloha Tower complex and to provide replacement facilities for maritime activities at no cost to Harbors.

ATDC subleased lands surrounded by Piers 8 and 9 and a portion of land surrounded by Pier 10 to a developer and entered into a capital improvements, maintenance, operations, and securities agreement with the developer and Harbors. Harbors continues to operate the harbor facilities at Piers 8, 9, and 10.

9. BLENDED COMPONENT UNIT - ALOHA TOWER DEVELOPMENT CORPORATION
(Continued)

The sublease between the ATDC and the developer requires the developer to construct, at the developer's cost, various facilities as designated in the developer's proposal, including a Marketplace, and to reimburse Harbors for all losses in revenue and increased expenses which may be incurred by Harbors. The lease was subsequently amended and requires ATDC to pay \$225,000 each year to Harbors as a minimum base payment for losses in revenue related to fiscal years beginning July 1, 2005, that, subject to approval, may be reduced for certain expenses incurred by ATDC. The Amendment also requires an equity participation payment to be made in an amount of 50% of the difference between the total revenues and total operating expenses of ATDC for a fiscal year (the equity payment), provided that if the equity payment exceeds two and one-half times the actual operating expenses of ATDC for such fiscal year, ATDC must make a supplemental payment equal to 75% of the difference between the equity payment and the product of two and one-half times the actual operating expenses of ATDC. These payments were to be applied to reduce the amount owed to the Harbors for losses in revenue by ATDC prior to July 1, 2004. During the year ended June 30, 2018, there were no equity payments made.

During the year ended June 30, 2015, the State of Hawaii entered into a successor memorandum of understanding with ATDC and Hawaii Lifestyle Retail Properties, LLC (HLRP) whereby ATDC agreed to abate rent in the amount of \$1 million under the lease between ATDC and HLRP for the period retroactive to July 1, 2014 to June 30, 2015 in consideration for the construction of HLRP improvements at Aloha Tower Marketplace to create student and faculty residences and various university spaces for Hawaii Pacific University and to memorialize the understanding of the parties with respect to various aspects of its agreement. ATDC did not receive any rent revenue during this period and was unable to make any equity participation payments to Harbors. Rent collection resumed for the year ended June 30, 2016, resulting in collections of \$1 million for that year.

The successor memorandum of understanding also amended the obligations owed to Harbors, which arose from the original Aloha Tower Marketplace construction. The obligations are valued at \$3.5 million, depending upon when actual payments are made by the operator of Aloha Tower Marketplace within a six year timeframe ending June 2016. The amendment provides that in consideration of ATDC's issuance of any renewed leases, HLRP shall pay the Harbors Division the sum of \$1,750,000 on or before December 31, 2021.

Rental income collected under the agreement was \$1,000,000 for the year ended June 30, 2018.

10. NOTE PAYABLE TO DEPARTMENT OF TRANSPORTATION, HARBORS DIVISION

During the year ended June 30, 2012, the administration of ATDC was assigned to the Department of Transportation by Act 152, Session Laws of Hawaii (SLH) 2011. Accordingly, the balance of an outstanding note payable from ATDC to Harbors of \$4,923,067 was recognized as a transfer to the Division during the year ended June 30, 2012 (See Note 9). During the year ended June 30, 2018, a payment of \$392,165 was made on the balances of the outstanding note. As of June 30, 2018, the balance of the note amounted to \$2,980,902. The note does not require specific payments of interest. Supplemental payments to Harbors are required under an amendment to the sublease agreement between ATDC and the developer of land surrounded by Pier 10, which reduce the amount owed to the Harbors Division for losses in revenue by ATDC prior to July 1, 2004 (see Note 9).

11. CORRECTION OF AN ERROR, PRIOR PERIOD ADJUSTMENT

The June 30, 2017 financial statements have been restated for an error in the classification of a payment of \$387,500 on the Note payable to Department of Transportation, Harbors Division. Beginning net position increased, and Note payable decreased by \$387,500 for this payment.

NOTE A - BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the federal grant activity of the Department of Transportation, Administration Division and is presented on the accrual basis of accounting. The information in this Schedule is presented in accordance with the requirements of the Uniform Guidance. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the general purpose financial statements.

*Denotes major program expenditures, comprising 43% of total expenditure of federal awards of a low-risk auditee.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The expenditures are recognized following the cost principles contained in Title 2 CFR, Subtitle A, Chapter II, Part 225, *Cost Principles for State, Local, and Indian Tribal Governments*, wherein certain types of expenditures are not allowable or are limited as to reimbursement. In addition, pass-through entity identifying numbers are presented where available.

Of the federal expenditures presented in the Schedule, sub-recipients were provided federal awards as follows:
