# Review of Special Funds, Revolving Funds, Trust Funds, and Trust Accounts of the University of Hawai‘i

A Report to the Governor  
and the Legislature of  
the State of Hawai‘i

**Report No. 26-01**  
January 2026

**OFFICE OF THE AUDITOR**  
STATE OF HAWAII

## OFFICE OF THE AUDITOR STATE OF HAWAII

### Constitutional Mandate

Pursuant to Article VII, Section 10 of the Hawai'i State Constitution, the Office of the Auditor shall conduct post-audits of the transactions, accounts, programs and performance of all departments, offices and agencies of the State and its political subdivisions.

The Auditor's position was established to help eliminate waste and inefficiency in government, provide the Legislature with a check against the powers of the executive branch, and ensure that public funds are expended according to legislative intent.

Hawai'i Revised Statutes, Chapter 23, gives the Auditor broad powers to examine all books, records, files, papers and documents, and financial affairs of every agency. The Auditor also has the authority to summon people to produce records and answer questions under oath.

### Our Mission

*To improve government through independent and objective analyses.*

We provide independent, objective, and meaningful answers to questions about government performance. Our aim is to hold agencies accountable for their policy implementation, program management, and expenditure of public funds.

### Our Work

We conduct performance audits (also called management or operations audits), which examine the efficiency and effectiveness of government programs or agencies, as well as financial audits, which attest to the fairness of financial statements of the State and its agencies.

Additionally, we perform procurement audits, sunrise analyses and sunset evaluations of proposed regulatory programs, analyses of proposals to mandate health insurance benefits, analyses of proposed special and revolving funds, analyses of existing special, revolving and trust funds, and special studies requested by the Legislature.

We report our findings and make recommendations to the Governor and the Legislature to help them make informed decisions.

## Foreword

This is a report of our review of the special funds, revolving funds, trust funds, and trust accounts of the University of Hawai‘i.

Section 23-12, Hawai‘i Revised Statutes (HRS), requires the Auditor to review all existing special, revolving, and trust funds, once every five years. Although not mandated by statute, we include trust accounts as part of our review. This is our seventh review of the revolving funds, trust funds, and trust accounts of the University of Hawai‘i. It is our third review of its special funds since Section 23-12, HRS, was amended by Act 130, Session Laws of Hawai‘i 2013, to include reviews of special funds.

We wish to express our appreciation for the cooperation and assistance extended to us by the University of Hawai‘i.

Leslie H. Kondo  
State Auditor

# Chapter 1

## Introduction

---

This review encompasses the special funds, revolving funds, trust funds, and trust accounts administered by the University of Hawai‘i (UH). Section 23-12, Hawai‘i Revised Statutes (HRS), requires the Auditor to review each state department’s special, revolving, and trust funds every five years. Although not mandated by Section 23-12, HRS, we have included trust accounts as part of our review. Trust accounts, like special, revolving, and trust funds, are funded outside of the General Fund appropriation process and are therefore generally subject to less legislative scrutiny than the State’s General Fund. For each fund and account, our review included:

1. An evaluation of the original intent and purpose of the fund or account, both as expressed by the Legislature and as understood by the expending agency;
2. The degree to which the fund or account achieves its stated and claimed purposes;
3. An evaluation of the fund or account’s performance standards as established by the agency; and
4. A summary statement reflecting total fund transactions in the preceding five fiscal years, including the fund or account balance at the beginning of each fiscal year, total deposits and withdrawals, amount of interest earned, total expenditures made from the fund or account, and the ending balance for each fiscal year.

This is our seventh review of UH’s revolving funds, trust funds, and trust accounts.<sup>1</sup> It is our third review of UH’s special funds, since Act 130, Session Laws of Hawai‘i (SLH) 2013, amended Section 23-12, HRS, to require review of special funds along with revolving funds and trust funds. We last examined these funds and accounts in 2019.

---

<sup>1</sup> Prior to 2013, Section 23-12, HRS, did not require reviews of departments’ special funds.

## Description of Special Funds, Revolving Funds, Trust Funds, and Trust Accounts

### ***Special funds***

Section 37-62, HRS, defines a special fund as one that is “dedicated or set aside by law for a specified object or purpose, but excluding revolving funds and trust funds.” According to the State’s *Accounting Manual*, special funds are funds used to account for revenues earmarked for particular purposes and from which expenditures are made for those purposes.

### ***Revolving funds***

Section 37-62, HRS, defines a revolving fund as one “from which is paid the cost of goods and services rendered or furnished to or by a state agency and which is replenished through charges made for the goods or services or through transfers from other accounts or funds.” Activities commonly financed through revolving funds include loan programs, which are initially established by general fund seed moneys and are then replenished through the repayment of loans.

### ***Trust funds***

Section 37-62, HRS, defines a trust fund as one in which “designated persons or classes of persons have a vested beneficial interest or equitable ownership, or which was created or established by a gift, grant, contribution, devise or bequest that limits the use of the fund to designated objects or purposes.” Trust funds invoke a fiduciary responsibility of state government to care for and use the assets held only for those designated to benefit from the funds. A pension fund is an example of a trust fund. Contributions and payments are to be held for the beneficiaries of the pension fund. Another example is tenants’ security deposits, which are held in trust for the future benefit of tenants and landlords. Until forfeited or returned, deposits are the property of the tenants and should be accounted for accordingly.

### ***Trust accounts***

The Department of Accounting and General Services (DAGS) defines a trust account as a separate holding or clearing account for state agencies. Trust accounts also serve as accounting devices to credit or charge agencies or projects for payroll or other costs.

---

## **Criteria for Reviewing Special Funds, Revolving Funds, Trust Funds, and Trust Accounts**

### ***Special and revolving fund criteria***

In 2002, the Legislature set the requirements for establishing and continuing special and revolving funds. Sections 37-52.3 and 37-52.4, HRS, state that special and revolving funds may only be established by statute. The criteria used to review special and revolving funds are the extent to which each fund:

- Serves a need, as demonstrated by: (a) the purpose of the program to be supported by the fund; (b) the scope of the program, including financial information on fees to be charged, sources of projected revenue, and costs; and (c) an explanation of why the program cannot be implemented successfully under the General Fund appropriation process;
- Reflects a clear nexus between the benefits sought and charges made upon the program users or beneficiaries, or a clear link between the program and the sources of revenue – as opposed to serving primarily as a means to provide the program or users with an automatic means of support removed from the normal budget and appropriation process;
- Provides an appropriate means of financing for the program or activity that is used only when essential to the successful operation of the program or activity; and
- Demonstrates the capacity to be financially self-sustaining.

### ***Trust fund and trust account criteria***

Unlike the requirements for special and revolving funds, the law is silent on whether a trust fund or trust account must be established by statute. The criteria used in this report to review trust funds and trust accounts are the extent to which the fund or account:

- Continues to serve the purpose and intent for which it was originally created, and
- Meets the definition of a trust fund or trust account, respectively.

The first criterion is derived from the objectives of Section 23-12, HRS, which requires the Auditor to evaluate the original intent of each fund and account and the degree to which each fund and account achieves its stated purpose. The second criterion assesses whether a fund is held by the State only for the benefit of those with a vested interest in the assets or an account is held as a separate or clearing account.

---

### **Objectives of the Review**

1. Identify and review all special funds, revolving funds, trust funds, and trust accounts of UH.
2. For each special fund, revolving fund, trust fund, and trust account, determine whether the fund or account meets the respective criteria.
3. Provide a five-year (FY2020 – FY2024) unaudited financial summary for each fund and account of UH.

---

### **Scope and Methodology**

We reviewed all special funds, revolving funds, trust funds, and trust accounts administered by UH during the five-year period under review (FY2020 – FY2024). Funds and accounts included those established by statute as well as administratively.

To identify funds subject to this review, we used a variety of sources, including our prior reviews, accounting reports from DAGS, non-general fund reports, legislative budget briefing documents, and other records. To gain an understanding of fund operations, we reviewed applicable agency administrative rules and interviewed key fiscal and program personnel, as necessary.

We obtained a summary statement for each fund that reflects total fund transactions in the preceding five fiscal years (July 1, 2019 to June 30, 2024), including beginning fund balances, total revenues, amount of interest earned, total expenditures, transfers, and ending fund balances for each fiscal year. We requested explanations for

---

discrepancies between ending balances for FY2019 reported in our last review and opening balances reported for FY2020. We did not audit the department's financial data, which we provide for informational purposes only.

Procedures were performed on each fund using relevant criteria as stated above. We reviewed fund information for consistency with the intent of each fund's use and to ascertain the relationship between charges on users and expenditures. We reviewed information on performance standards established for the funds or accounts and performed other procedures as necessary.

Where appropriate, we relied on our prior reports, including Report No. 20-03, *Review of Special Funds, Revolving Funds, Trust Funds, and Trust Accounts of the University of Hawai'i*.

Our review was conducted from December 2024 to December 2025. Recommendations were made where applicable.

# Chapter 2

## University of Hawai‘i

---

This chapter presents the results of our review of twenty-five special funds, sixteen revolving funds, eleven trust funds, and two trust accounts. Total fund fiscal year-end balances for UH were at least \$525 million per year during the period reviewed.

Exhibit 2.1 summarizes the totals for these fund balances at the end of each fiscal year.

**Exhibit 2.1**  
**Cash Balances for University of Hawai‘i’s Non-General Funds**

In FY2024, the special funds, revolving funds, trust funds, and trust accounts collected approximately \$713 million and spent or transferred approximately \$616.2 million.

Exhibit 2.2 presents totals for the combined revenue and interest, expenses and transfers, and ending fund balances for the different fund types for FY2024.

**Exhibit 2.2**

Fund Type	Revenue and Interest	Expenses and Transfers	FY2024 End Cash Balance
<b>Special Funds</b>	\$492,389,000	\$428,688,000	\$712,087,000
<b>Revolving Funds</b>	108,639,000	77,470,000	180,323,000
<b>Trust Funds/ Trust Accounts</b>	112,022,000	110,058,000	112,399,000
<b>Total</b>	<b>\$713,050,000</b>	<b>\$616,216,000</b>	<b>\$1,004,809,000</b>

For each fund and account, we present a five-year financial summary, the purpose of the fund, and conclusions about its use and whether it meets the definition of the type of fund or account. This review does not include an assessment of the effectiveness of the program or its management. Funds are presented in alphabetical order.

### Kuali Financial System

In 2012, UH implemented the Kuali Financial System (KFS) as its systemwide financial management system. KFS is a modular financial accounting system that records and manages all of UH's financial transactions and fiscal activity on an accrual basis and was designed to meet the specific needs of higher education. UH explained that because its reporting needs are more "granular" than what DAGS' Financial Accounting and Management Information System (FAMIS) reporting functions can provide, KFS is UH's primary financial management system. And, as a result, FAMIS financial data related to UH's funds is not current. UH previously performed a quarterly reconciliation of its FAMIS/KFS balances by recording activity into FAMIS via state journal vouchers. However, UH stated that it ceased updating FAMIS as of July 1, 2022.

As a result, we relied primarily on the financial data reported in UH's responses to our questionnaires for each special fund, revolving fund, trust fund, and trust account. UH provided KFS accrual basis figures to be reported. We note that certain funds' financial data indicates negative cash balances and/or encumbrances that exceed the fiscal year's ending cash balance. UH explained that expenditures can exceed current cash

balances on a “temporary basis” so long as sufficient balances exist to accommodate these expenditures and the expenditures do not exceed the appropriation limit within a given Program ID and fund type (e.g., special, revolving, etc.). UH added that, generally, negative balances are discouraged and plans to eliminate negative balances are being implemented.

Exhibit 2.3 presents UH funds that did not meet criteria for continuance and should be closed or reclassified.

**Fund Summary**

<b>Account Type</b>	Special fund
<b>How was the fund created?</b>	Act 294 (SLH 1996), as recodified by Act 75 (SLH 2006)
<b>Why was it created?</b>	The fund was used to support the planning, land acquisition, design, construction, and equipment purchase necessary for the development of the permanent campus of, and infrastructure and other common facilities necessary for, the University of Hawai'i-West O'ahu (UHWO).
<b>Fund meets criteria?</b>	This fund does <i>not</i> meet the criteria of a special fund because it no longer serves the purpose for which it was originally established. According to UH, UHWO no longer utilizes this fund as all land and construction matters are currently handled by the UH System. During our review period, there was no activity in the fund other than a transfer out of the remaining balance to the repairs and replacement reserves under the University Revenue-Undertakings Fund to support campus facilities. <b><i>The fund should be closed.</i></b>
<b>Performance standards</b>	No, the fund does not have performance standards.
<b>Revenues</b>	Revenues were to be from appropriations, the sale of public lands, lease rents, licenses, permits, interest, and proceeds from public land development rights. According to UH, the fund had minimal activity beginning in FY2018 as no land sales were anticipated.
<b>Expenditures</b>	Expenditures were to include costs of planning, land acquisition, design, construction, and equipment necessary for the development of UHWO.

\*Transfers from the Mānoa Tuition and Fees Special Fund to fund tuition funded scholarships and from other campus tuition and fees accounts to offset scholarship expenses.

\*\*According to UH, negative ending balances in FY2023 and FY2024 are temporary due to a policy decision to incentivize higher enrollment by increasing scholarships. The negative balances will be cleared in FY2026 as increased tuition revenues will offset scholarships offered.

## Observations on Reporting and Accounting for Funds

---

Special, revolving, and other types of non-general funds are not subject to the same level of legislative scrutiny as the General Fund. Accurate and complete reporting of all funds, as required by law, would greatly improve the Legislature's oversight and control of these funds and provide increased budgetary flexibility. Fund reports are one of the primary means through which the Legislature tracks non-general funds. The reports are used to monitor fund balances and identify excess moneys for possible transfer to the General Fund.

### **Non-General Funds Were Reported as Required by Law**

Section 37-47, HRS, requires departments to submit to the Legislature an annual report of each non-general fund account, including information such as the intended purpose of the fund, current program activities supported by the fund, and financial data. The Director of Finance annually issues a memorandum requesting all departments complete and submit Form 37-47, *Report on Non-General Fund Information*, to the Department of Budget and Finance for each of their non-general funds. The Department of Budget and Finance compiles a report of all non-general fund accounts and submits it to the Legislature prior to the start of each legislative session.

Section 37-48, HRS, enacted by the Legislature through Act 87 in 2021, requires departments to submit to the Legislature an annual program measures report of each non-general fund account, including information such as program objectives, program activities, metrics for target population, and metrics for assessing effectiveness over the ensuing six fiscal years. The report must be filed no later than October 1 annually.

Section 37-49, HRS, also enacted by the Legislature through Act 87 in 2021, requires departments to submit to the Legislature an annual cost element report of each non-general fund account, including information such as budget details by cost element and non-general fund names and account codes for each item or object code. The report must be filed no later than October 1 annually.

Section 37-52.5, HRS, requires the Judiciary and any department that administratively establishes a new fund or account to submit a report to the Legislature. The report must be filed within 30 working days of a fund or account's creation and should include a justification for the

fund or account and identification of its sources of revenue. In addition, prior to the start of each legislative session, the law also requires each department to submit to the Legislature a listing of all administratively established funds or accounts along with a statement of their revenues, expenditures, encumbrances, and ending balances for each fund or account. This report is separate from the non-general fund report required under Section 37-47, HRS.

During our review, we noted no noncompliance with statutory requirements to report financial activity and balances, as required by Section 37-47, HRS, program measures, as required by Section 37-48, HRS, cost elements, as required by Section 37-49, HRS, or fund information for administratively established funds and accounts under Section 37-52.5, HRS.

### **Research Corporation of the University of Hawai‘i**

The Research Corporation of the University of Hawai‘i (RCUH), a state agency established by the Legislature in 1965, is attached to UH for administrative purposes. Its mission is to support and enhance research, development, and training in Hawai‘i with a focus on UH. According to RCUH, the majority of its business is from research and training projects supported by extramural contracts and grants to UH faculty.

In Report No. 14-18, *Review of Special Funds, Revolving Funds, Trust Funds, and Trust Accounts of the University of Hawai‘i*, we reported that RCUH maintained approximately five hundred (500) “revolving fund accounts” to hold moneys for UH projects and that these accounts have never been included in the scope of our prior fund reviews. We continue to believe these RCUH accounts (subsequently renamed by RCUH to “revolving accounts”) do not function as special, revolving, or trust funds, as defined under Section 37-62, HRS, and therefore, do not fall within the scope of our fund review under Section 23-12, HRS.

RCUH’s revolving accounts are UH accounts that are self-sustaining, income-generating projects established for the purpose of supporting a Specialized Service Facility, a Recharge Center, or Other Sales and Services activities. For example, the UH Marine Center is a specialized service facility that charges for ship scheduling, provision of shipboard crew and technicians, and vessel chartering, among other things. Revolving accounts, like the one established for the UH Marine Center, are intended to be breakeven and self-sustaining (but not profit-making).

According to RCUH’s policies and procedures, revolving accounts must be renewed at least biennially and any account seeking to make significant changes or modifications to its purpose must re-submit a service order request to RCUH. Moreover, any account that is inactive

---

or no longer needed (as determined by the original purpose of the account) must be closed and its surplus balance refunded to UH.

Based on the above, we do not believe that RCUH's revolving accounts function as special, revolving, or trust funds as defined under Section 37-62, HRS. Moreover, in light of the policies and procedures that govern RCUH's management and oversight of the revolving accounts, namely that the accounts must be renewed at least biennially, the likelihood of funds sitting dormant for extended periods in a revolving fund seems low.

## Office of the Auditor's Comments on the University of Hawai'i's Response

### Comments on Agency Response

**WE MET WITH** the University of Hawai'i (UH) Vice President for Budget and Finance/Chief Financial Officer and their staff to discuss the draft report. UH subsequently provided written comments to the draft report, generally agreeing with the findings and providing additional information. The additional information did not change our conclusions and recommendations. UH's comments are attached in their entirety as Attachment 1.

Dear Mr. Kondo:

Thank you for providing the University of Hawai'i (UH or University) the opportunity to respond to your draft report entitled: *Review of Special Funds, Revolving Funds, Trust Funds, and Trust Accounts of the University of Hawai'i*. Please extend our appreciation to your staff as well. We have reviewed the draft and respectfully offer the following comments:

#### Agency Fund

We have no objection to the findings and will work to reclassify this trust account as a trust fund.

#### Library Special Fund

We generally agree with the findings that the Library Special Fund currently is not financially self-sustaining. However, this fund serves multiple campuses and the fund at one campus may be self-sustaining while not at another. If this fund were to be repealed, it would eliminate the revenue stream used to offset the cost of replacement library items and equipment.

Since the onset of the pandemic, library usage has shifted considerably and library operations have been changing over time to match the new utilization model. Moving forward, the fund is projected to be self-sustaining with the current fund balance at over \$250,000 and the annual use of these reserves of about \$10,000.

Mānoa Flood Trust Fund – October 2024

The University has no objection to the findings and is actively working to close this fund and create a new fund to fulfill the same purpose (holding and disbursing funds related to incidents for which insurance claims are filed) with a more appropriate title.

Systemwide Information Technology and Services Special Fund

We have no objection to the findings, although there is no significant difference for efficiency or transparency with reclassifying a special fund as a revolving fund and vice versa. UH's special funds are exempt from the central services assessment. The process of converting a special fund to a revolving is nontrivial, and with no foreseeable benefit to doing so, the University is not supportive of such a conversion.

Ulu'ulu: The Henry Ku'ualoha Giugni Moving Image Archive of Hawai'i Special Fund

We agree that during the review period the fund was not financially self-sustaining. However, during the 2025 Legislative Session, the Legislature appropriated over \$700,000 in state general funds on an ongoing basis to support the archiving, digitization, and preservation of moving images in Hawai'i. As a result, the financial burden on this fund should be significantly decreased in the future which will address concerns regarding its fiscal strength.

Unexpended Plant Fund

UH has no objection to the findings and will work to reclassify this trust account as a trust fund.

University of Hawai'i - East-West Center Support Trust Fund

We agree with the findings that this fund should be closed and have launched the steps to complete that process. The remaining fund balance will be used to provide services for the East-West Center by transferring those funds to three departments at UH: Library Services, Parking and Security, and Telecommunications. Once the balance is exhausted, the fund will be closed.

University of Hawai'i - West O'ahu Special Fund

The University agrees with the finding that this fund should be closed. We would be in support of a legislative vehicle that would repeal this fund.

University of Hawai'i at Mānoa Intercollegiate Athletics Special Fund

The University agrees with the finding that this special fund is not financially self-sustaining. However, we respectfully disagree that the fund should be repealed. Intercollegiate athletics programs across the country, with the exception of a distinct few, do not generate enough revenues to cover expenses. Additionally, recent changes in the financial and regulatory framework surrounding intercollegiate athletics are increasing the uncertainty of these programs.

As we continue intercollegiate athletics programs at the University, we will monitor its progress and hope to work with the Legislature and the entire community of Hawai'i to advance intercollegiate athletics in Hawai'i in a fiscally prudent manner.

As the final report will be released after the deadline for submission of proposals for inclusion in the Administrative Package for the 2026 Legislative Session, it is too late for the University to propose the introduction of a measure to address the findings in this upcoming Session. However, we will evaluate submitting a bill for legislative consideration at the next opportunity.

Again, thank you for your and your team's time and consideration with this review of our non-general funds and we look forward to working with you and your office in the future.

Sincerely,

Wendy F. Hensel  
President
