

WILSON, JOHN HENRY
PERSONAL CORRESPONDENCE(1934-1935)

2 M-182

A. H. HALSTED
4723 RUBIDOUX AVENUE
RIVERSIDE, CALIFORNIA

Feb. 18, 1934

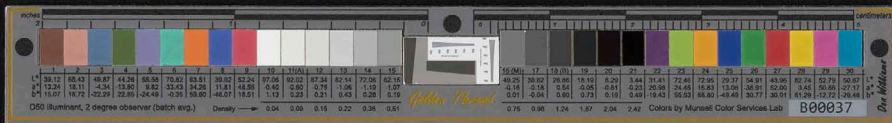

Dear John;

a line in haste to reach
you in time. (Written in a car.)

I'll be looking for you in
Los Angeles on Monday the 26th. Have
an engagement to run up to Fillmore
on Sunday to show a man a
newspaper plant. It is in Ventura
county and he might have to change
his mind so if you get in earlier
than Monday call Riverside 4587.

We, my sister, Father & I had planned
to go to Boulder Dam on Saturday

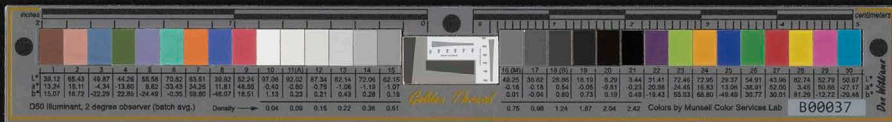

START

and Sunday the first week in March
and it would be a fine thing for
the four of us to go so plan on
it. Sis teaches school so couldn't
go any other time. She has a fine car.

My mother says for you to
get off at San Bernardino &
come over by the Santa Fe taxi instead
of going on in to Los Angeles on
Monday. Also to stay as much
with us as you can.

Say hello to Northman,
Tashiro & Zimmermann for me.
Tell Tashiro we will call on his
Sister, Father & Mother when you

A. H. HALSTED
4723 RUBIDOUX AVENUE
RIVERSIDE, CALIFORNIA

get here. I've been there once.
When you know definitely
what train you will be on
send me an Air Mail special
and say if I am to meet
you in San Bernardino or
later in Los Angeles.
Remember Mocher says to
stay at our house as long
and as often as you can.
It isn't pretentious, but it
is cozy.

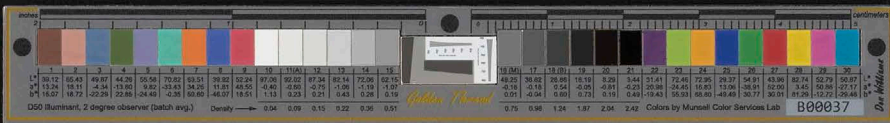

You I read about Ponderter
before I wrote you last time
It made me mad but I
had realized "the Navy never
is wrong" so knew the
dice were apt to be loaded.
Am glad Ponderter is one
of your men.

Business is well but anxious
as to our future. It is always
hard to sit tight
My best to you.

Sincerely

Sam.

END

Dear Harmon;

Wilson is in Chicago and probably at the Morrison. He expects to leave for the West on Friday night I believe.

I pulled out rather rapidly in December after I had good news from my wife and that our little girl had arrived safely over on Maui. Made two attempts to see the Fair people but did not reach them.

Not on his account however.

Excuse my letting your letter get buried. I've been rushing around here checking on some mining properties for people and also helping a man sell newspaper establishments. However with the let up of cold weather permitting concrete construction I should be heading towards Illinois unless something else better turns up.

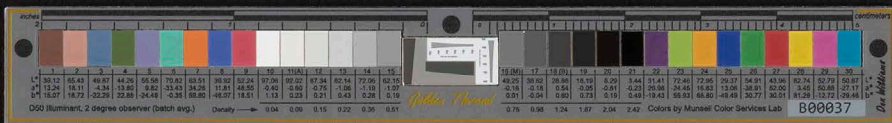

You ought to come out and get some sun-tan at Palm Springs and elsewhere and drive back with me. Oranges and other flowers are just beginning to bloom here.

Sincerely,

Dear Johnnie;

A letter came yesterday from Lindau saying that Harmon had gotten in touch with

START

him and wanted my address again claiming that he had something for me and was ready to pay me \$20.00 per month. I take all this with a grain of salt but I thought it might be well to write him and smoke him out in case he is trying to do something on the Polynesian Show business and he wont get this letter until Thursday morning over at Paine Webber and Co. so it will be too late for him to interfere. If it is necessary to "put him in line" call on Charlie Fernald. He seems to know Charlie pretty well and Charlie has the dope on him. Give Charlie my regards. Just learned that one of his nieces or young cousin from Ventura married a boy I watched grow up here and his mother lives in our block here.

Looking for you Monday if I don't hear from you sooner as to difrerent plans.

*Best
Sam.*

Hawaiian Poultry Producers, Ltd.

QUINN LANE
 TELEPHONE 3955
 HONOLULU, T. H.

March 9, 1934.

Mr. John H. Wilson
 Oili Road
 Honolulu, T. H.

Dear Sir:

At a meeting of the Directors held at the office of the President, 7:30 P.M. March 1, 1934 serious consideration was given to the liquidation of this Company. The Company has been working with impaired capital during the past two years and at this time appears to have a value of less than \$10.00 per share.

It was unanimously agreed that as the minority stockholders were not responsible for the present condition of the Company that all of the loss should be sustained by the large stockholders who were responsible for the conduct of the business. It was accordingly moved, seconded and unanimously carried that the Company offer to buy in at par the following outstanding stock:

Wm. Pogue Estate	25 shares	Haleakala Dairy	10 shares
Paul Gantt	1 "	Y. W. Ou	5 "
R.H.H. Farrar	1 "	Philip Hong	1 "
Christina Cha Kin	5 "	E. Ikinaga	5 "
Daniel Hugo	3 "	P. Palmeira	5 "
J.E. Gamalielson	5 "	S. Sirikaku	3 "
Heia Poultry Farm	3 "	R. W. Davis	5 "
R. A. Goff	3 "	J.H. Wilson	2 "
S. Campaignha	1 "	H. Koelling	1 "
F. P. Johnson	12 "	Robt. Wall	2 "
Bromley Estate	2 "	S. Matsura	10 "

The Stock records show that you have Certificate No. 32 covering 2 shares. If you are agreeable to accepting \$20.00 per share for the above mentioned stock please endorse certificates and forward them to the below address. We will then forward the Company's check to you for \$ 40.00.

Yours very truly,

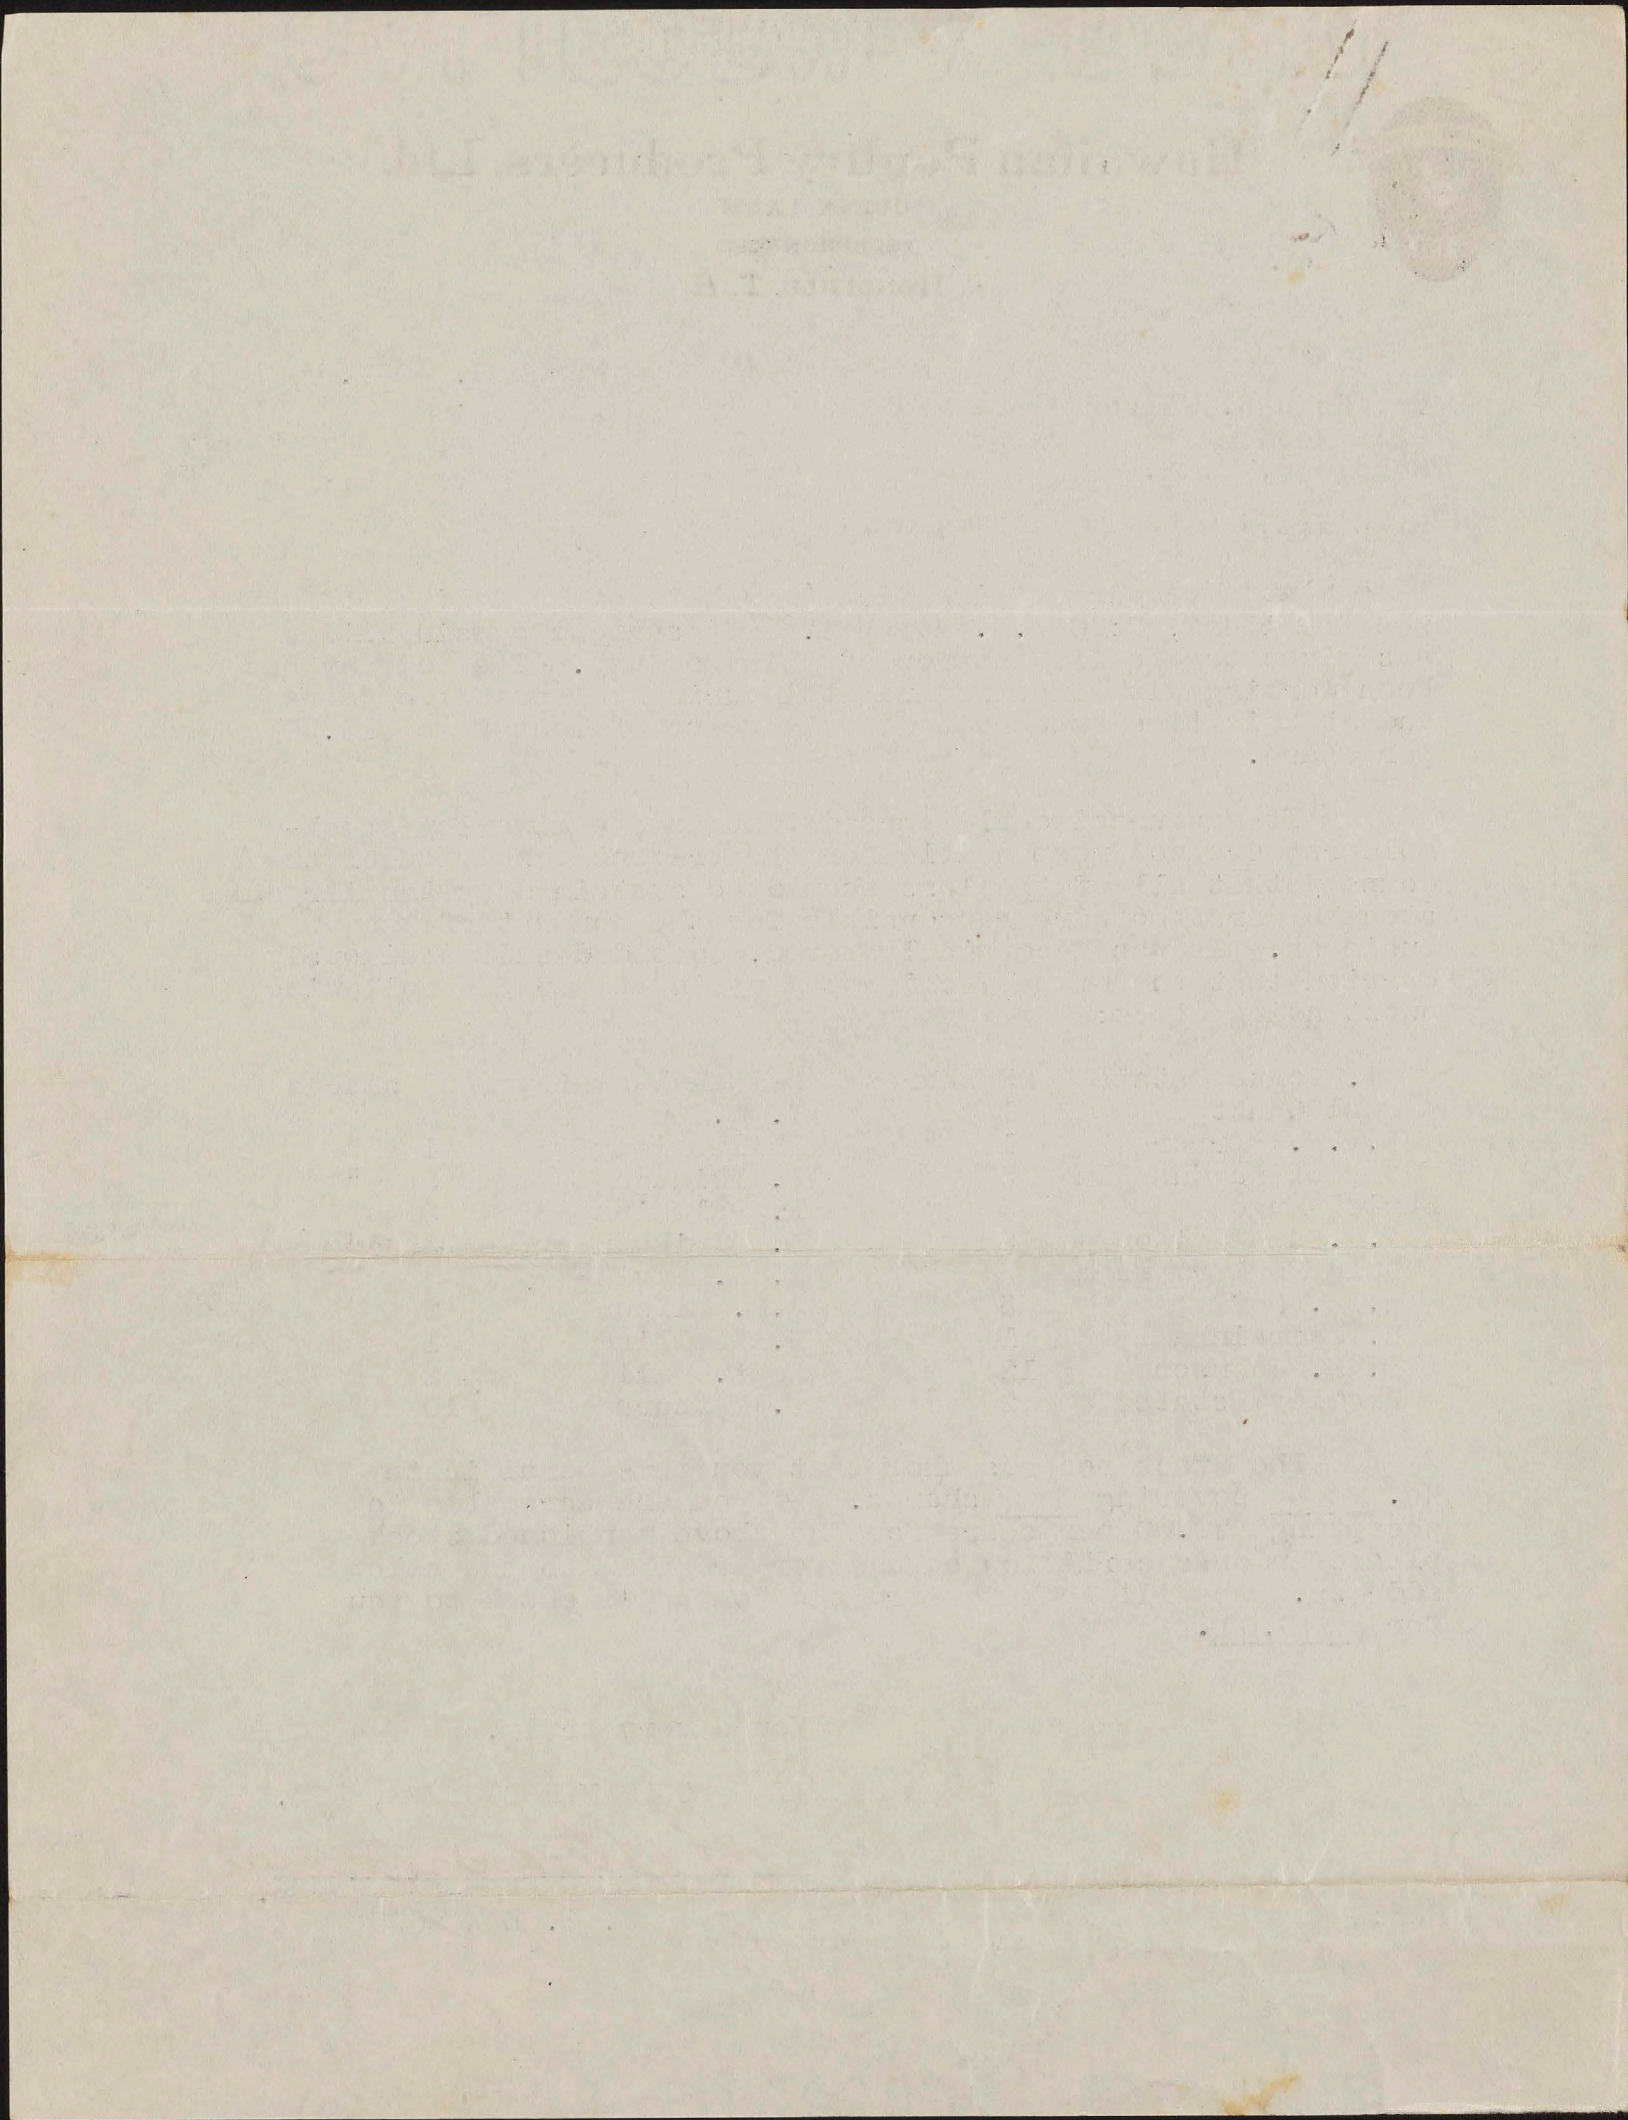

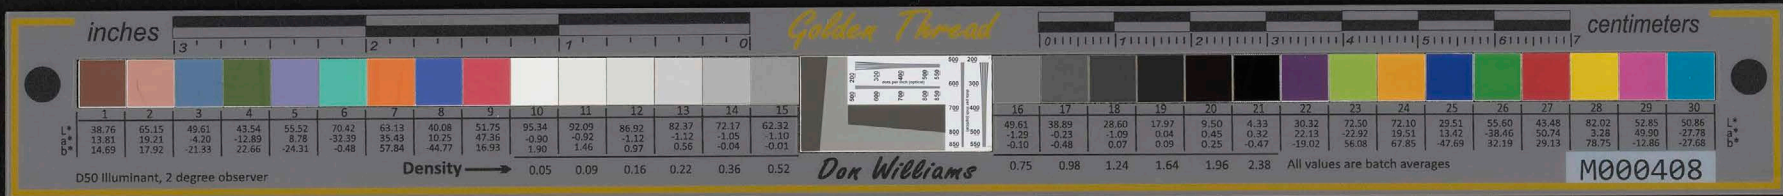

HAWAIIAN POULTRY PRODUCERS, LTD.

Mr. John Wilson
Democratic National Committeeman
Honolulu, Hawaii

My dear John :-

Was sorry you did not get back from Peoria as I had a proposition come up in your absence which I thought would be of interest to you. Perhaps you remember talking to Jerry Reid the afternoon you were at the Club. He was an early aviator and, since the war, has been in engineering construction work. He has specialized all this time in a comparatively new process of restoration of any concrete, stone, brick or even wooden surfaces. This is accomplished by the use of special equipment; the principal machine being one which dry mixes sand and cement under high air pressures. This mixture is then forced through a hose, the cement being hydrated at the nozzle point by a water spray, and the concrete "shot" against the surface to be treated is as dense as glass and has over three times the strength of any ordinary concrete. It is also impervious to moisture and the action of salt water.

Mr. Reid has a book of photographs containing before and after pictures of hundreds of big jobs he has done. Most of the work has been done for municipalities and the trunk line railroads, such as the New York Central, Santa Fe, Rock Island, Pennsylvania, etc. Some of the outstanding jobs are :

- Repair of old stone breakwater, Buffalo, N.Y. for U.S. Govt.
- Encasement of wooden piling, piers for City of New Orleans, La.
- Relining of tunnel for Rock Island Railroad.
- Repair and waterproofing of water tunnels, City of Chicago.
- Repair of 50 Million gallon reservoir, Pittsburgh, Pa.
- Repair of 35 Million gallon reservoir, Wheeling, W.Va.
- Repair of sewage disposal plants, Milwaukee, Wis.
- Repair of dam for Consolidated Paper Co., Stevens Point, Wis.
- Repair of reservoirs for City of Duluth, Minn.
- Restoration of ore docks below water line, U.S. Steel Co. Duluth.
- Restoration of coaling stations for Santa Fe R.R.
- Repair of twenty bridges and viaducts for Rock Island R.R.
- Restoration of sewage treatment works, City of Chicago.
- Repair of 50,000 concrete lighting poles, Toronto, Ont.
- Restoration of brick viaduct, Canadian National Ry.

From the above you can see that his system of repairs is applicable to a very wide and varied field and he surely must be getting results or the same clients would not be giving him repeat orders year after year. Naturally I am not familiar with

The City of New York
Department of Public Works
Bureau of Street Cleaning

No. 100-100000

New York, N.Y.

January 1, 1900

To the Honorable Mayor

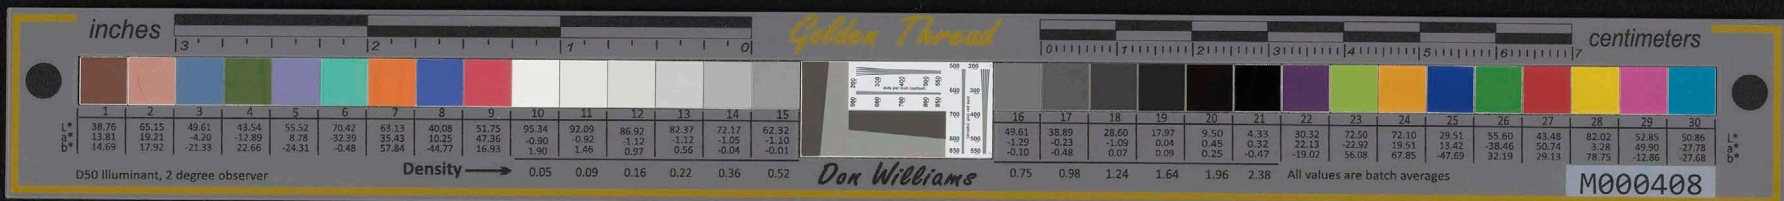

and the Honorable Board of Estimate and Apportionment

of the City of New York

I have the honor to acknowledge the receipt of your letter of the 27th inst. in relation to the proposed extension of the street cleaning system to the blocks bounded by the streets of ...

The Board of Estimate and Apportionment has considered the same and has resolved to ...

Very respectfully,
John A. ...

the technical side of the picture, but this much I am convinced of - the work is handled in such a way that the damage is not only repaired but the original cause of the damage is eliminated. In this way permanent results can be guaranteed. I know of one case where he repaired a big dam for a power company up in northern Minnesota. The dam was of concrete, sixty foot thick at the base, was leaking like a seive and the downstream face was disintegrating. He cut away the unsound concrete but, before making any replacement, he forced a special grout, under high air pressure, into every path of seepage in the interior mass of the masonry; effectively sealing the inside of the structure before going ahead with the surface repairs. This method of " internal sealing " seems to be a trade secret with him and is undoubtedly quite a trick.

After you left the Club Jerry asked about your work and I told him. He was much interested in view of the fact that he feels there is much along his line to be done in the Islands right now on docks, piers, breakwaters, reservoirs, sewage plants, protection of wood piling against borers, etc.

His idea is that he has the special equipment and the experience and a small local company could be formed with you and one or two of your friends and himself. The field is highly specialized with practically no competition and, if the selling expense could be eliminated, it should show a most attractive profit. All of the working force could be recruited from your local regular labor and he would need, for the present only, about two experienced men from here besides himself and my son Harold. This should also make a fine plave for Sam with his knowledge of engineering.

I feel that this is worthy of your fullest consideration and you may know how highly I regard Jerry when I say I would like my son to be associated with him five thousand miles away from home. Think the thing over and see what you can figure out.

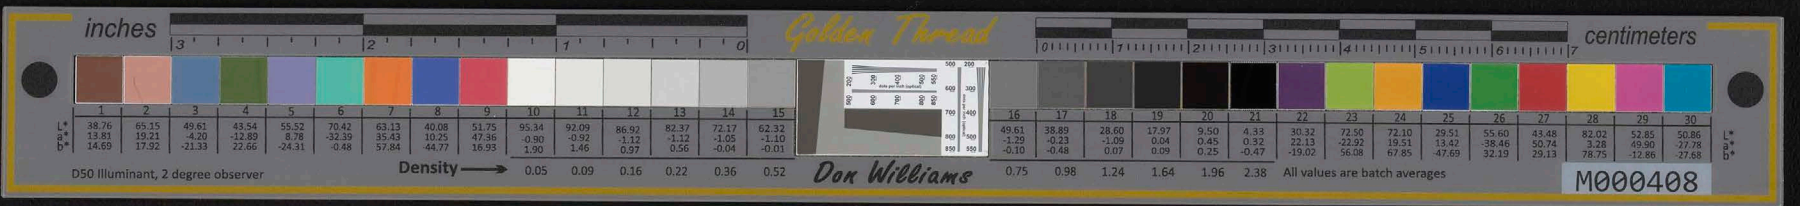

Had a letter from my sister-in-law in San Francisco who was much pleased that you looked her up and sorry she did not see more of you. And don't forget that keg of OKE.

Hope your wife had a good rest and that you found her happy and well on your return. Certainly hope whenever you are in the States you will let me know.

Kindest regards and best wishes ,

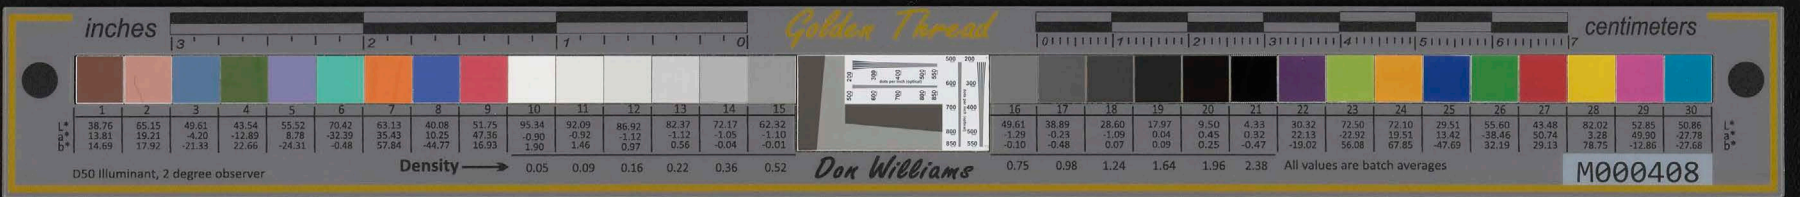

J E Northam

Honorable John H. Wilson
Democratic National Committeeman
Honolulu, Hawaii

My dear Mr. Wilson:

The memory of Jessie Woodrow Sayre, beloved daughter of the great President Wilson, is to be perpetuated by the establishment of a Foundation for the Study of International Cooperation.

Carrying on the Democratic principles honored by Jessie Sayre and her distinguished father, we are endeavoring to make this a far-reaching project, and are advising all the outstanding Democrats in the country of our plans. Believing that you would be interested in being part of such an international movement, we are forwarding this information to you first--having received your name from the National Committee as one of the leaders of Democracy in your district.

Please feel free to make your contribution any amount commensurate with your circumstances at the present time, even though it may not be exactly what you would prefer to have represent your interest in the matter; that, in itself, will be evidenced by the fact that you have shown a willingness to be among those who are making this Foundation possible.

Checks may be sent to my attention, drawn to the order of the Jessie Woodrow Sayre Scholarship Foundation, care of Mr. W. H. Sprague, Vice President of the Harvard Trust Company of Cambridge, Massachusetts.

Sincerely,

Mary Ward

Post Office Department
OFFICE OF THE SOLICITOR
Washington

April 2, 1934.

Mr. John H. Wilson,
P. O. Box 2744,
Honolulu, Hawaii.

My dear Sir:

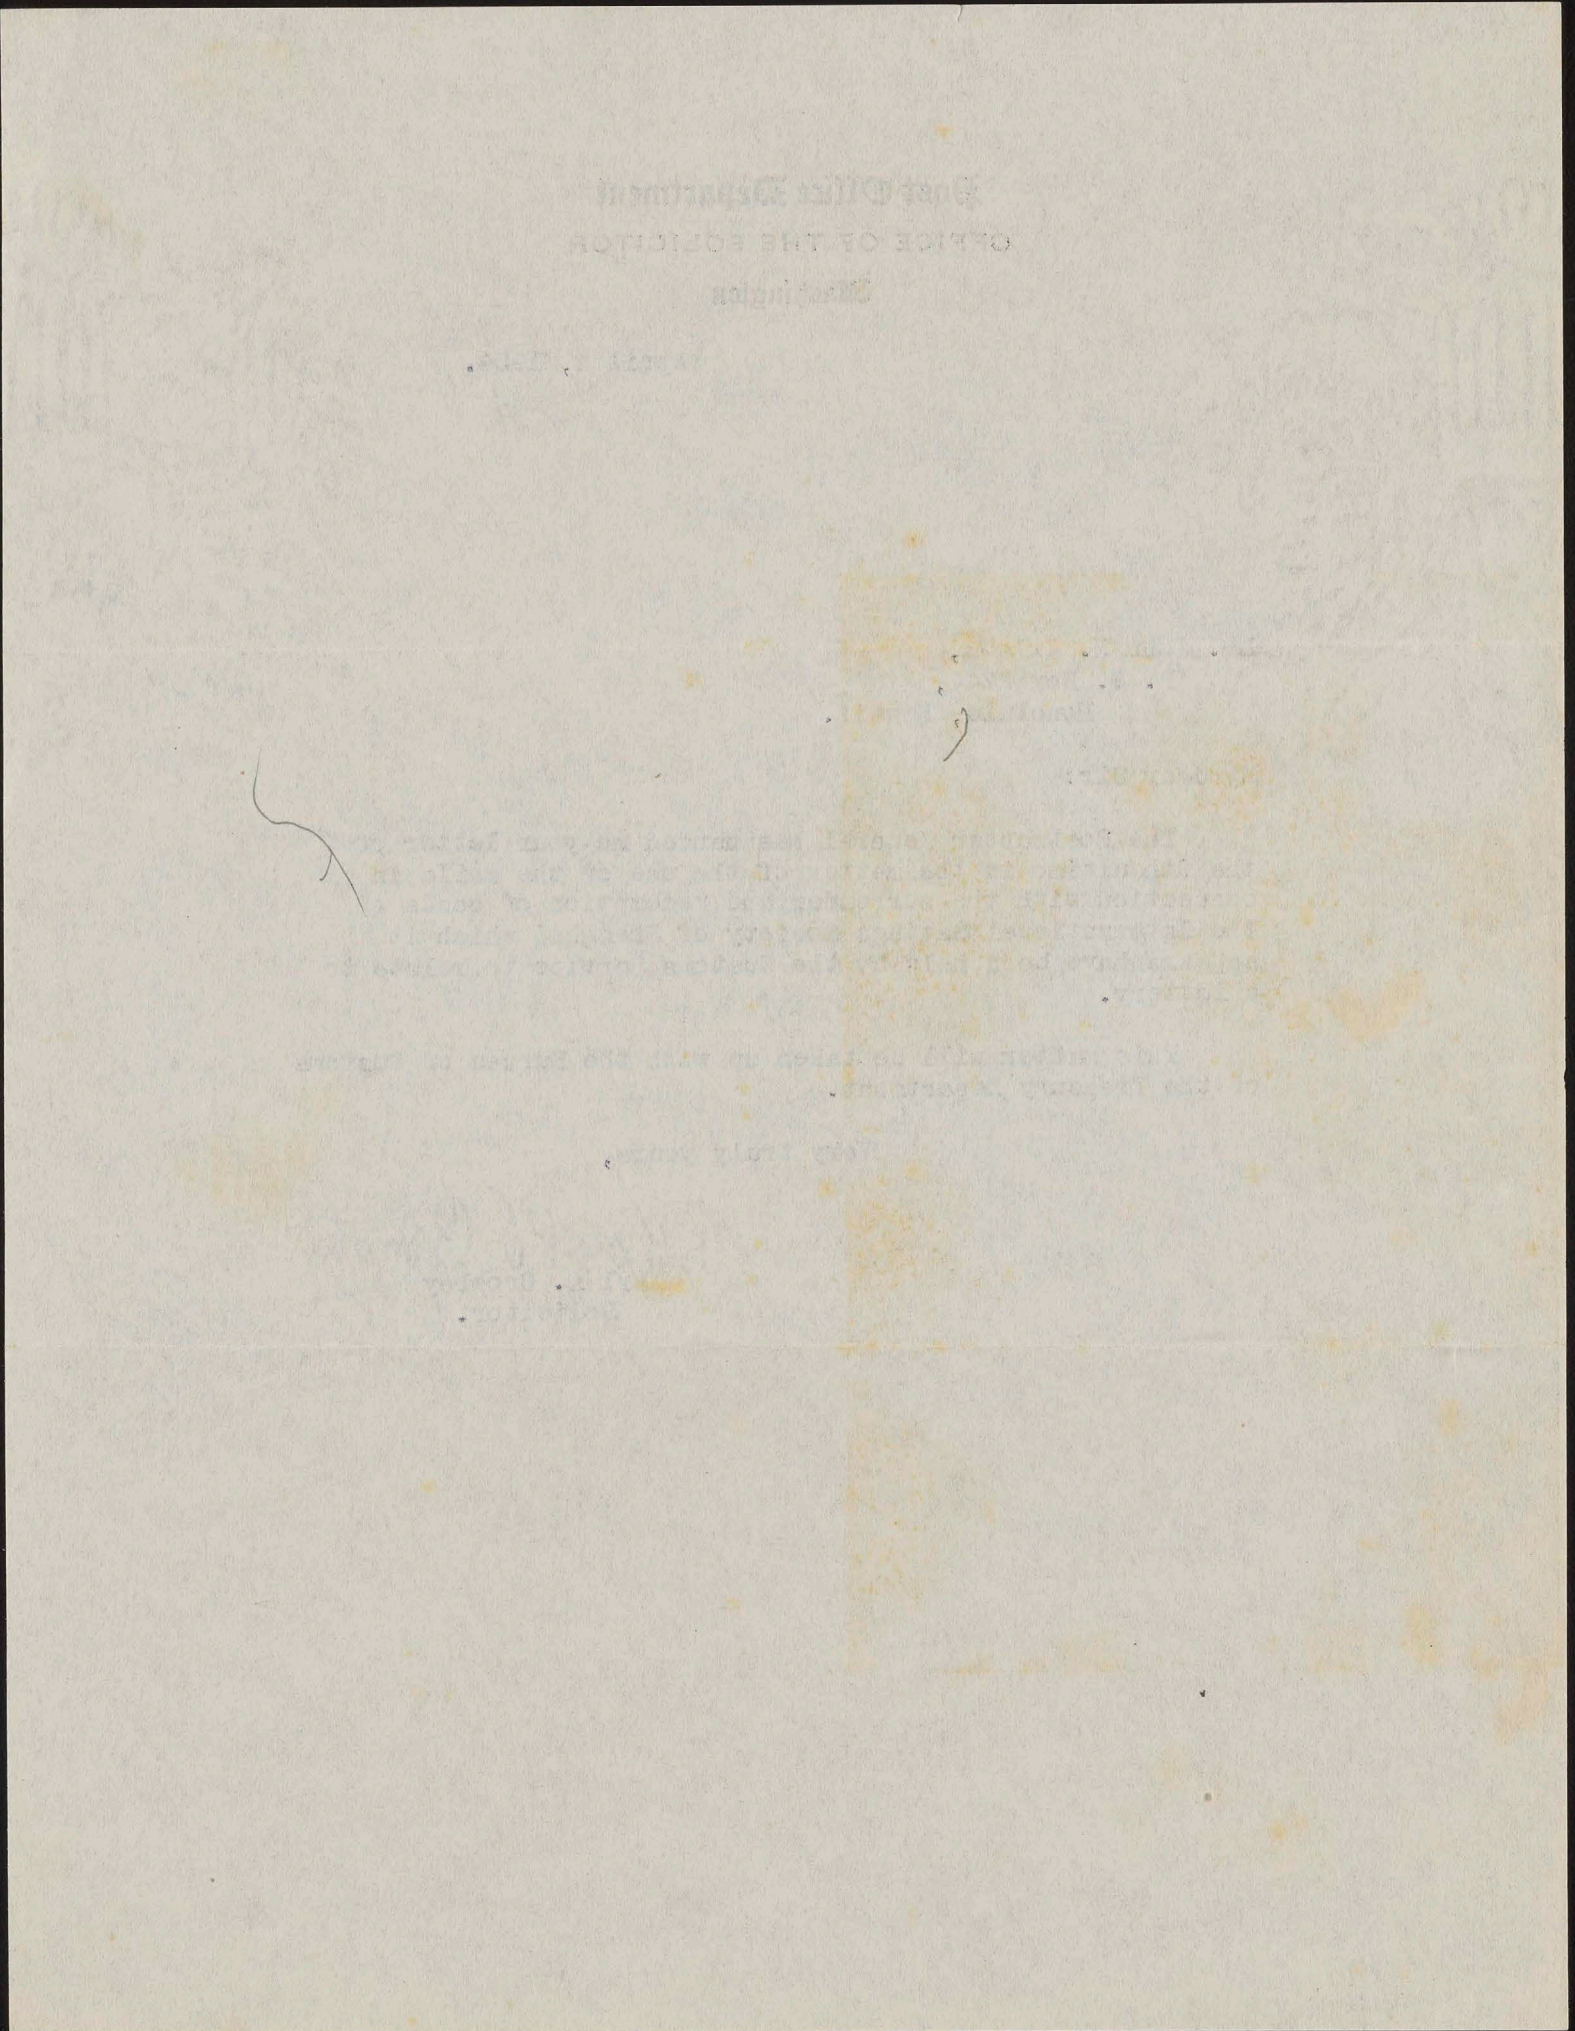

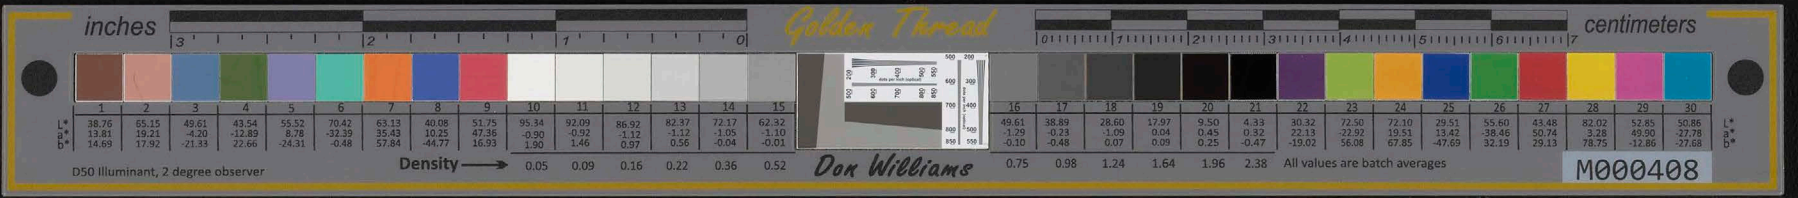

The Postmaster General has handed me your letter of the 9th ultimo in the matter of the use of the mails in connection with the surrender and redemption of bonds of the International Savings Society of Shanghai which it appears have been held by the Customs Service to relate to a lottery.

This matter will be taken up with the Bureau of Customs of the Treasury Department.

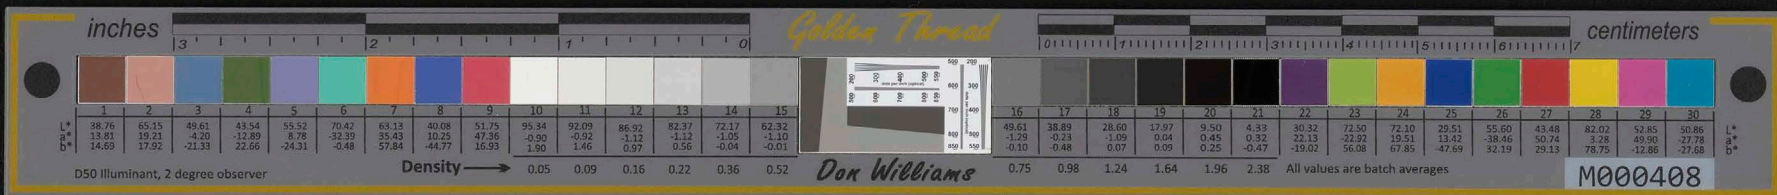

Very truly yours,

Karl A. Crowley

Honolulu, Hawaii,
April 4, 1934.

Dear Mam:

For the sole purpose of re-organization, to get your Hawaii Chapter No. 1 started, Aliiainokua Lane, Deputy Aliiainokua Chung-Hoon, Jr. and Kankualii Hui Aluli, were named by the Aliiainokua at the gathering last week, there being no quorum, as a committee to submit names to be voted or rejected (or have others elected by you), to be the officers of your Chapter. Please be assured the list hereunder submitted is only to get things started. By your vote at the meeting to be held at Moke Hall on April 9, 1934 at 7:30 p.m., the officers will be elected, whoever they may be.

The report of the special finance committee can be presented after the election of officers as they have to hear from Mam Richardson now on Maui. The securing of officers to enable the Chapter to act is the only thing left to be done, and it must be done at said meeting.

We urge upon you the necessity of electing the officers, for the parent Chapter of the Order of Kamehameha. Your Chapter must send delegates to the convention to be held at Hilo in June.

Please come to the meeting on April 9, 1934 at 7:30 p.m. at Moke Hall, 1559 Queen Emma Street, Honolulu, T. H., to elect your officers. The names we suggest are as follows:

- KAUKUALII ----- CHARLES H. ROSE
- LAUALII ----- JOHN KE, SR.
- KAKAOLELO ----- F. LANG AKANA
- KUAHAU ----- WM. CHUNG-HOON, JR.
- AIPUUPUU ----- JOHN SOO KIM
- KAHUNA ----- JOSEPH G. KALANU
- KOHIKOHIPUONE ----- EDWARD AYAT
- PUKAUA HUI ----- JAMES AKIMO
- PUKAUA IKI ----- BENJAMIN K. KAAPUNI
- KIAI LOKO ----- SIMON AKAKA
- KIAI WAHO ----- FRED H. B. KAHEA

BOARD OF TRUSTEES

- VICTOR S. K. HOUSTON
- WILLIAM H. ABBY
- DAVID L. DESHA

Fraternally yours

Honolulu, Hawaii.

Dear Sir:

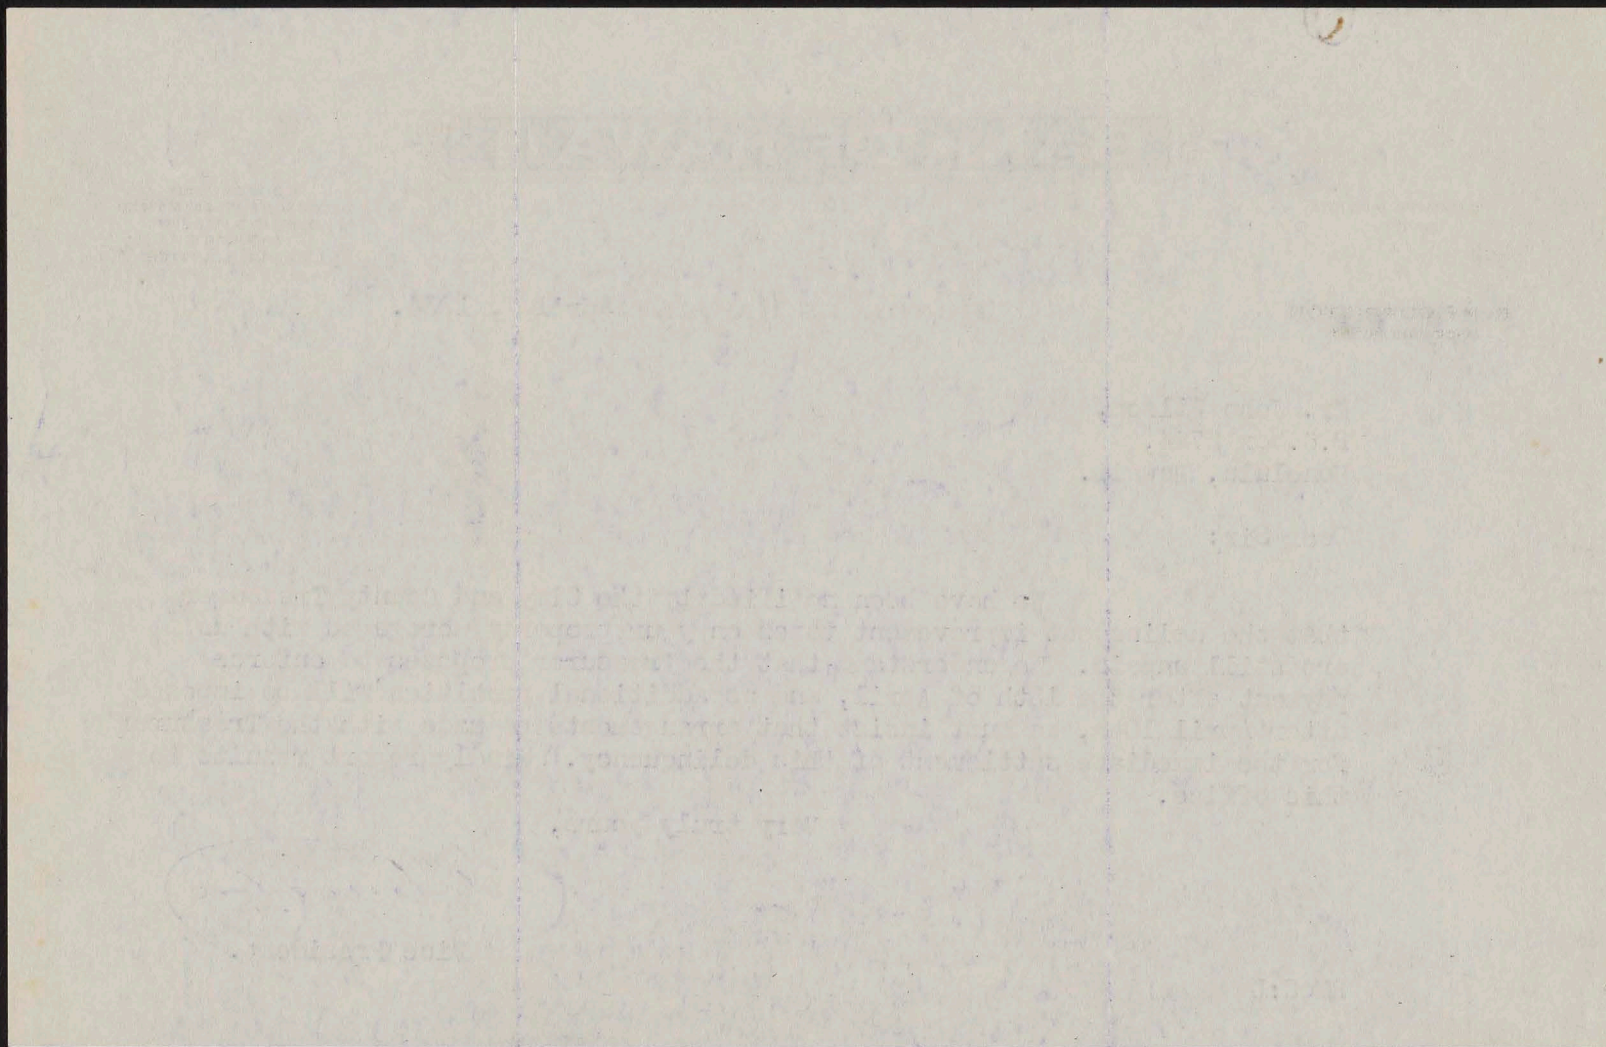

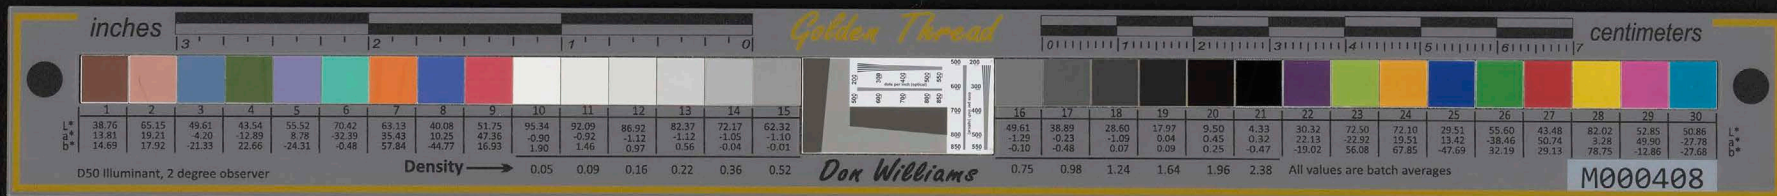

We have been notified by the City and County Treasurer that the delinquent improvement taxes on your property mortgaged with us are still unpaid. We understand that the Treasurer proposes to enforce payment after the 15th of April, and as additional penalties will be imposed after April 10th, we must insist that arrangements be made with the Treasurer for the immediate settlement of this delinquency. Kindly report results to this office.

Very truly yours,

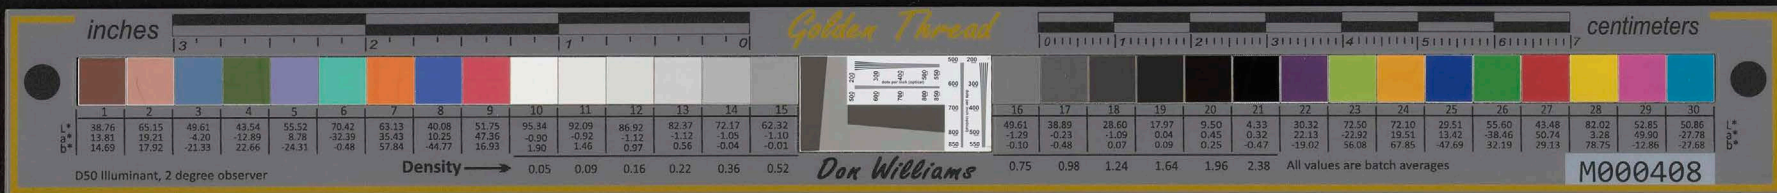

Vice President.

RmC:L

START

END

3108 Francis Street,
Honolulu, Hawaii,
April 20, 1934.

The Honorable Franklin D. Roosevelt,
President of the United States,
Washington, D. C.

Mr. President:

I have waited five years for a chance to prove my worth.

I am a war veteran of the World War, entering the United States Navy at Pearl Harbor, T.H. 24 August 1917 with Overseas services to August 7, 1919 and was released as a Yeoman first class.

From 1920 to 1925 I was employed as bookkeeper at the Hawaiian Gas Products and my services terminated when I was charged with misappropriating some funds. Making good the loss to the manager's satisfaction, I started life a new.

In 1926 I passed the Post Office Clerks examination and was appointed 4 May 1926 and served the required six months probation period. On 23 March 1929, after 2 years, ten months and 20 days as a postal clerk in the Honolulu office, I was ordered to be dismissed from the Postal Service as I was not a fit person to be retained in the service. I asked the Postmaster in Honolulu if I had done any wrong during my term as clerk, I was given a letter of recommendation. Now if the Department at Washington feels that I was not a fit person to be retained in the services, why had I not been removed during my probation period so why wait until I was almost three years in the service. At the end of my six months probation period, I was offered a job with the local fire department, as I had passed the examination, but as my services seemed satisfactory with the Post Office I was given permission to continue. I think a justified punishment of suspension or demotion would have been sufficient otherwise. I should not have been given a letter of recommendation. I have been asked quite a number of times by different people as to why I was dismissed while I was seeking employment and still hold a letter of recommendation.

I served in the United States Navy from 1917 to 1919 and in the Naval Reserve from 1919 to 1921, from 20 September 1922 to 18 September 1926, from 14 April 1927 to 13 April 1931 and still in the Naval Reserve from 14 April 1931. I hold three Honorable Discharge from the Naval Service. I am still in the Naval Reserve as Storekeeper first class, especially upholding the United States Government and ready for any national emergency. I have made almost every cruise for training purpose during my whole four enlistments to be prepared to serve my country, but it seems, the official do not see it fit to give me a chance to prove my worth.

[The page contains several paragraphs of text that are extremely faint and appear to be bleed-through from the reverse side of the paper. The text is largely illegible due to its low contrast and the texture of the paper.]

After leaving the postal service, I was advised by the Civil Service Commission Secretary that after about a year if I had proved myself honorable, I may apply for a re-instatement.

On 11 March 1930, I applied for a re-instatement with the Postmaster in Honolulu, which was forwarded on to Washington, D.C. On May 7, 1930 I received a reply where the Department was unable to consider my re-instatement.

During January 1931, I took the examination for storeman, Navy Yard, Pearl Harbor, T.H. and passed with my marking 90.15 Preference allowed but have never been called for employment.

In March 1931, I was advised by the Secretary of the Civil Service Commission that my application and eligibility was cancelled. So what chances has a War Veteran, to prove his worth to the country he fought for, and what appreciation is the government giving him.

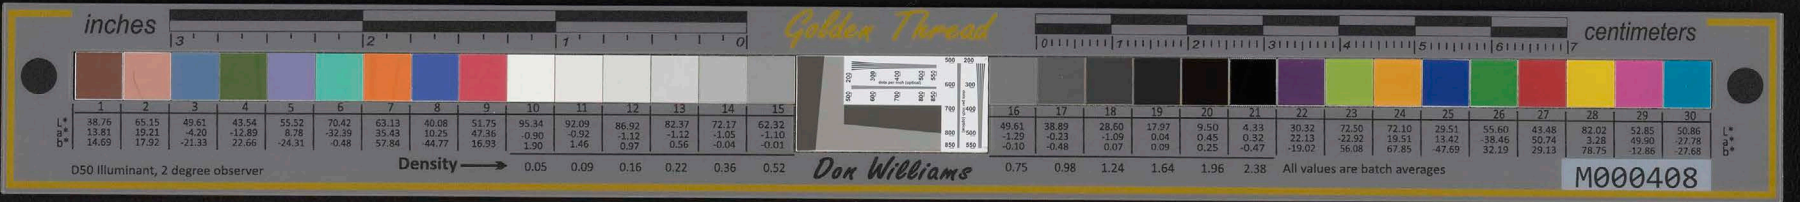

I have been working forth^e county since coming out of the postal service and copies of letters and recommendations attached.

I am married and have seven children to support with a small home to pay up. I have applied to the Home Owners Loan Association for assistance on my mortgage about five months ago and to date have not had any reply yet. As a War Veteran, and holder of a War Service Certificate, and still not even recognize for a loan on my home.

I have patiently waited to take this matter up again, but your election to the highest award, was like God sending a new guiding star to the people, and trusting that with the help of the Almighty, the government would give me a chance to prove my worthiness.

Your humble servant,

Geo. K. Maile

Mr. John H. Wilson,
Democratic National Committeeman
for Hawaii,
P. O. Box 2744,
Honolulu, Hawaii.

Sir:

I am in receipt of your letter of March 9, 1934, addressed to Mr. James A. Farley, U. S. Postmaster General, relative to the importation of checks or drafts in payment for surrendered bonds of the International Savings Society of Shanghai, which has been referred to me for reply.

After a careful consideration of the contents of your letter I have issued instructions to the Collector of Customs at Honolulu, Hawaii, to release checks or drafts addressed to persons residing in his district in payment for surrendered bonds of the International Savings Society of Shanghai.

A copy of the letter addressed to the Collector of Customs at Honolulu, Hawaii, which is self-explanatory, is inclosed for your information.

Respectfully,

J. H. Moyle
JAMES H. MOYLE
Commissioner of Customs.

The Collector of Customs,

Honolulu, T. H.

Sir:

Reference is made to the Bureau's letter of November 17, 1933, (File 53-15/2a) relative to the importation into your district of premium bonds and literature issued by the International Savings Society of Shanghai.

The Bureau has been advised that your office is detaining checks or drafts received in the mails addressed to residents of Hawaii in payment for premium bonds surrounded by them.

In connection with the above, the Bureau has been formally advised by the Post Office Department that in cases where it is the desire of holders of premium bonds to surrender such bonds for the purpose of obtaining monies already invested, no objection to the use of the mails for the transmission of the bonds to China and for the return of the checks to the bond holders will be raised.

The Bureau concurs in the views expressed by the Post Office Department. Accordingly, no action looking to the seizure and forfeiture of checks and drafts sent to residents of Hawaii in payment for premium bonds surrendered by them should be taken and you are authorized to release any such matter now detained.

Respectfully,

(Signed) James H. Moyle

Dear John:

This will introduce to you my neighbor and friend Lieutenant Albert A. Horner, who has been assigned to duty in the War Department, in the Hawaii Division.

Mr. Horner has been for many years a resident of Fort Crook, which is an Army post just outside the city of Omaha.

As Mr. Horner expects to be a resident of your part of the world for some time, I have suggested that it would be well for you two to become acquainted. Mr. Horner is a responsible man, and has a good standing in the community in which he lives. Likewise, he has a good standing in the Army.

I assure you that any attentions shown him will be greatly appreciated by me.

Yours sincerely,

(Arthur F. Mullen)

P.O. Box #2744
Honolulu, Hawaii.
May 1st. 1934.

Ting Poultry Farm,
Wailuku, Maui.

My dear Mr. Ting:-

In accordance with your instructions I will be sending you about 180 Barred Plymouth Rock eggs by the steamer Waialeale sailing from here on Sunday the 6th. inst.

You will find each egg marked with the date layed and the A, B, C, would signify the Class of the hen laying same. I have graded my hens in exactly the same way as Dryden has classified his.

My wife ran the farm while I was away and did not know whether or not I wished to breed this year, hence the lateness in mating. However, since March 21st the date of my first hatch, I have been getting 70 to 80 per cent fertility and hatches. My leghorns have averaged a little better both in fertility and hatches. The leghorns are also of the Dryden strain. I have had no other birds on the farm that has not come from the Dryden Farm.

In checking up on steamer sailings, I have learned that there are but two sailings each week, for Kahului, Wednesdays and Sundays. You stated you expected eggs on the Malolo which is not due until Thursday morning, hence your first boat out after the Malolo arrives, will be Hualalai on Friday for Lahaina and the Waialeale for Kahului Sunday. I do not suppose you want to haul them across Maui from Lahaina, so will ship them as stated above by the Waialeale on Sunday unless I hear from you before then to ship by the Hualalai.

I saw Isame at the convention, who said he and your son would come to my farm some day, but to date I have not seen anything of him. I will let you decide on the price of these eggs yourself as they will be the first I have ever shipped out of Honolulu.

Hoping they will reach you in good shape, I am,

Yours very truly,

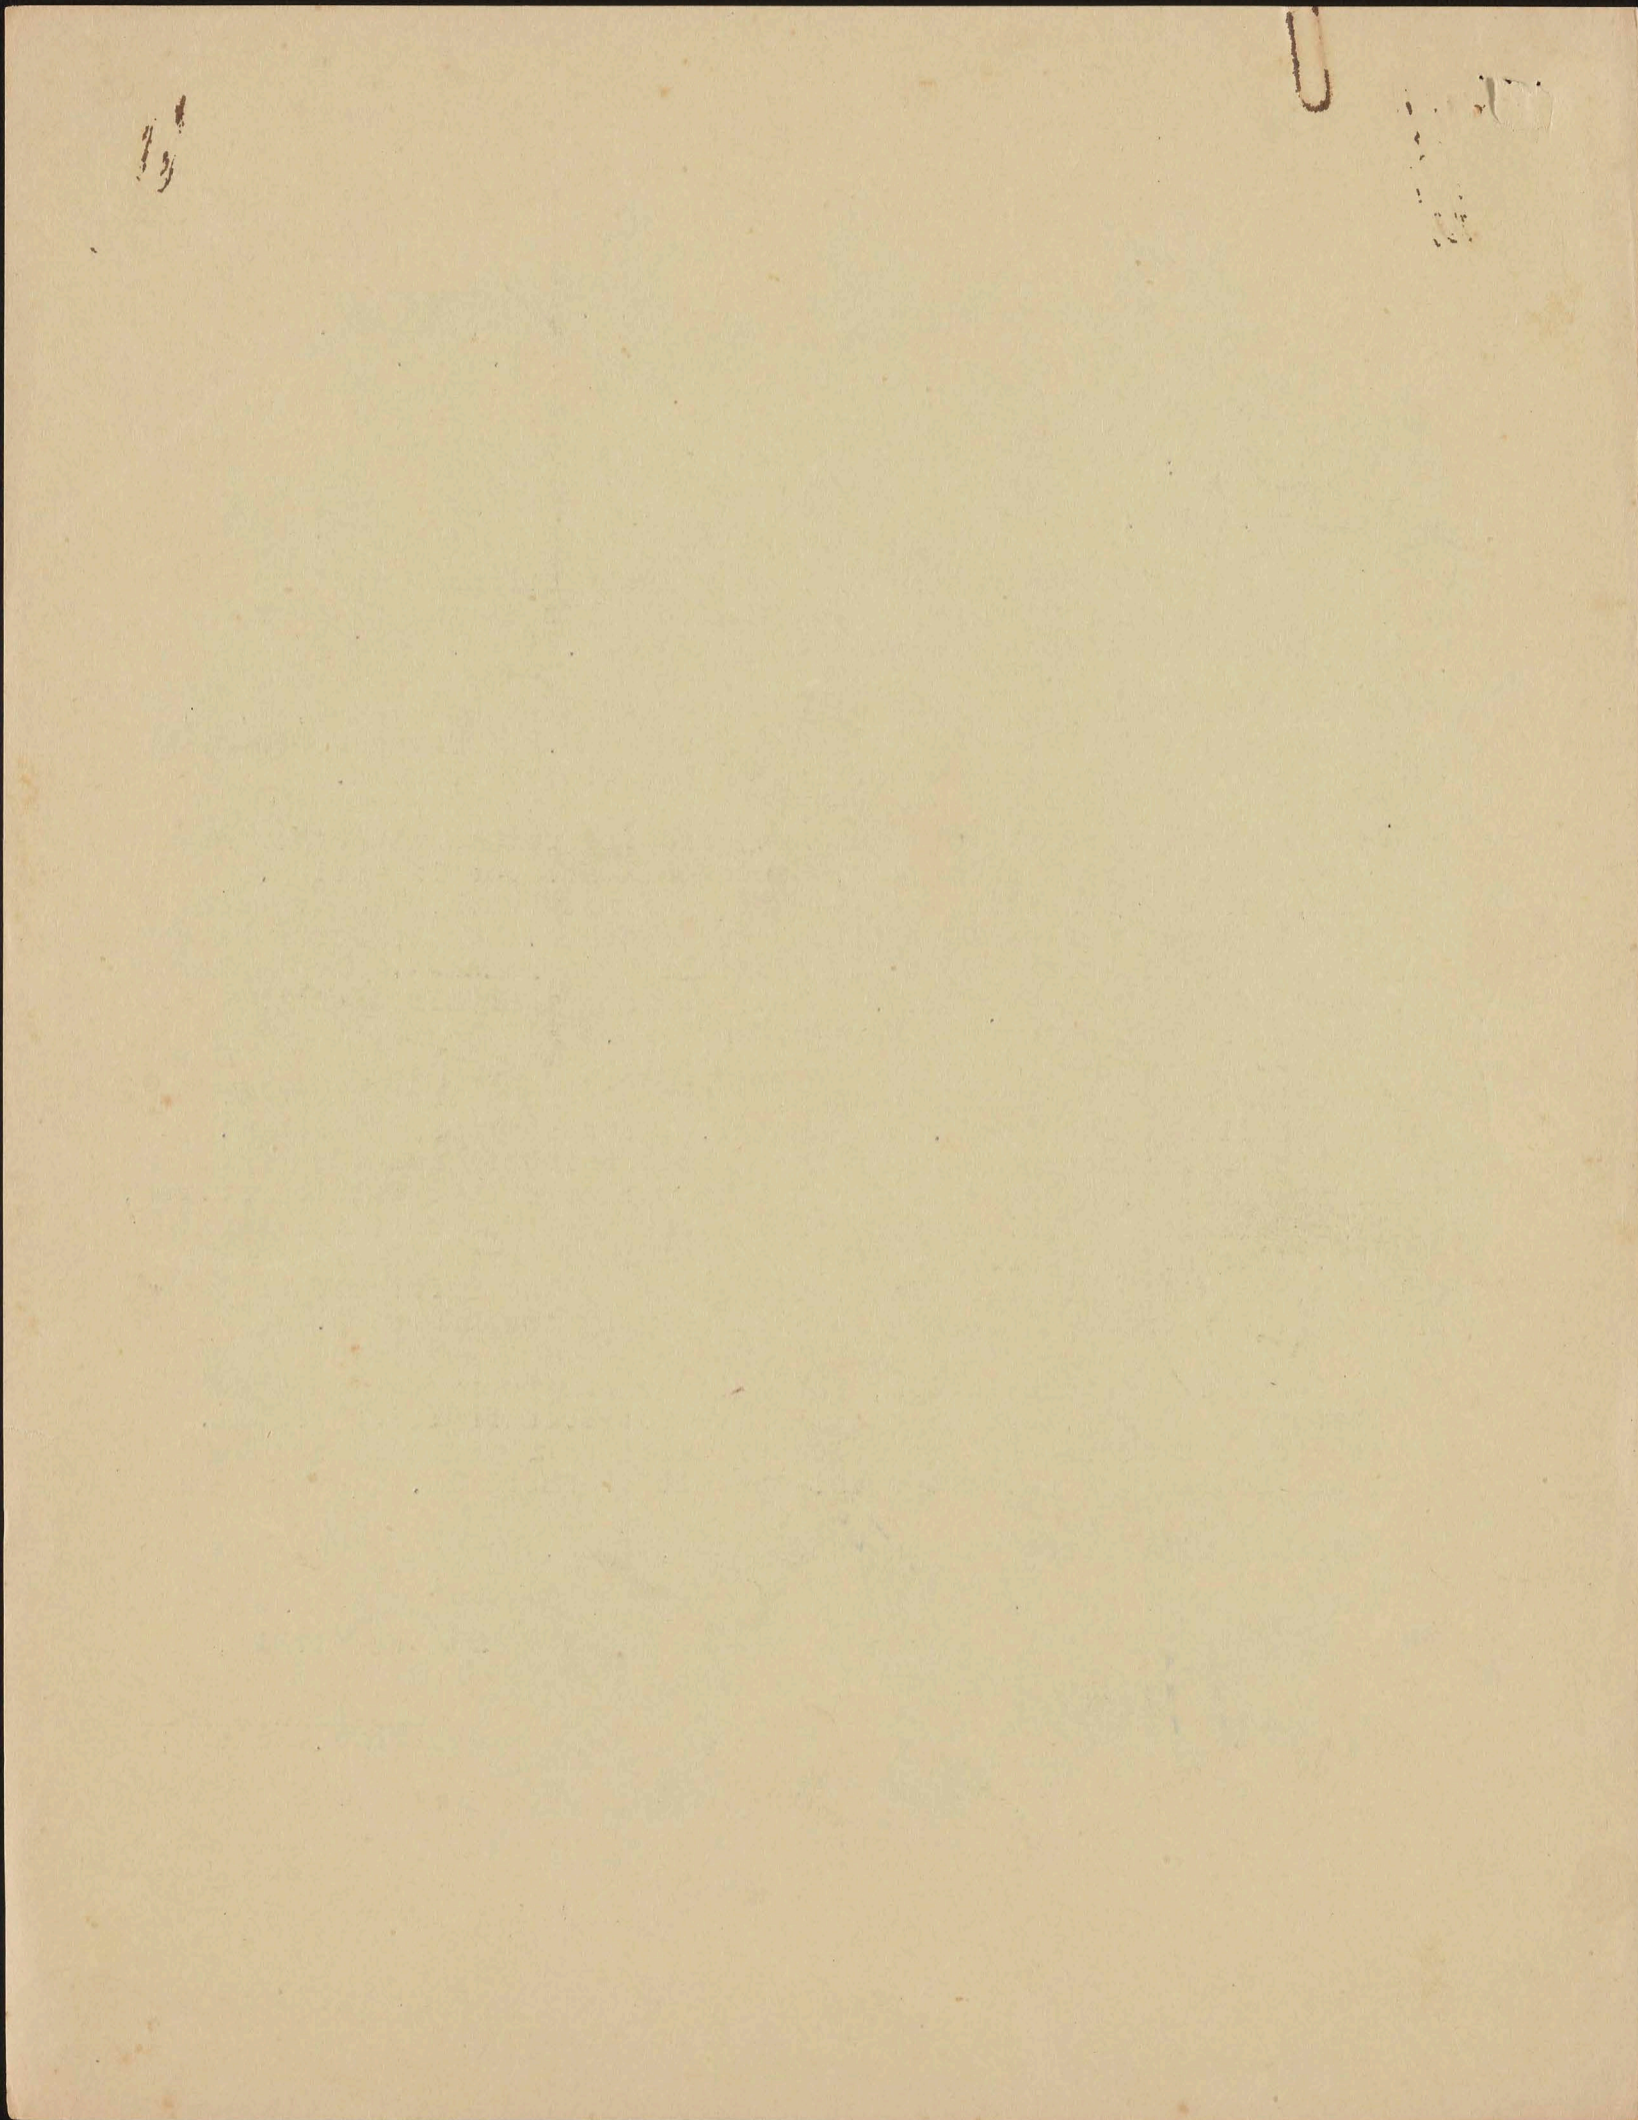

John H. Wilson,

TING POULTRY FARM

BREEDER OF

HIGH EGG STRAIN S. C.

WHITE AND RED LEGHORN

WAILUKU, MAUI, T. H., May 2nd, 1934

Mr. John H. Wilson,
P. O. Box 2744
Honolulu.

My dear Mr. Wilson:-

Received your letter of the 1st inst. this morning and we are glad to note that you are able to ship the 130 Barred Plymouth Rock eggs as ordered.

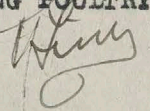

We like very much to get about 100 of your **Dryden White Leghorn** eggs at the same time if possible. Altho the hatching season is over and the fertility and hatchability are low, nevertheless we are very anxious to get some of your stock started in our farm and if they prove up to quality, you will no doubt get large orders from us when the hatching season begins again.

If you happen to see Mr. Isame Ching, ask him to bring the eggs up for us. He told the writer before he left for your city that he is willing to ^{do} that for us to save too much handlings. And if Mr. Isame is not available, then ship on Waiialeale on Sunday and would suggest that you give the eggs to the Purser and ask him to give same to Mr. Weng at the wharf ^{at Honolulu}. Be sure to mark plainly on top of box "Hatching eggs" Handle with care. Mr. Weng is a personal friend of us and he knows just what to do. He is in charge of the wharf.

In regard to price, we appreciate your broadness, but we cannot decide for we have not seen your stock. So please send us a bill for we need same for our file.

Thanking you in advance and hope that you will have no trouble in shipping the eggs to us, we are,

Yours very truly,
TING POULTRY FARM,

A handwritten signature in cursive script, likely the name of the proprietor, Young Ting.

THE POLITRY FARM

BREEDER OF

WHITE AND RED LEGHORN

AND OTHER BREEDS

1000 W. 10th St., Lincoln, Neb.

Dear Mr. Wilson:

I received your letter of the 1st inst. and am glad to hear that you are interested in the 100 variety Leghorn eggs as ordered.

We like very much to see about 100 of our Leghorn White Leghorn eggs at the same time. Also the matching season is over and the Leghorn and Leghorn eggs are very scarce and some of your stock is in our farm and if you would like to order a few more orders from us now the Leghorn season is still open.

If you wish to see Mr. Lewis Olin, please call on him at his home. He will be glad to help you in any way he can. He is willing to take for me to have two more Leghorns. And if you have any Leghorns, please call on Sunday and would suggest that you give the water and ask him to give you some of the eggs. He is a very kind and helpful man. What kind of Leghorns you want, Mr. Wilson is a person of his kind and he knows just what to do. He is in charge of the farm.

In regard to price, we appreciate your interest and we would like to have your order. Please call on him if you need any more for our farm.

Trusting you are pleased and hope you will have no trouble in shipping the eggs to us.

Yours very truly,
 THE POLITRY FARM
 Lewis Olin

END

P.O.Box #2744

Honolulu, Hawaii. May 6th.1934.

Ting Poultry Farm,
Wailuku, Maui.

My dear Mr. Ting:-

Your letter dated the 2nd.inst. received and am pleased to advise you that I am sending to you by Waialeale this evening one box of eggs containing the following:-

Barred Plymouth Rock Eggs-----	Total.....	188
Made up as follows:-	Class A....	57
	" B....	93
	" C....	31
	" D....	<u>7</u>

White Leghorns :r.....	Total.....	12
------------------------	------------	----

Class A....	2	
" B....	4	
" C....	5	
" D....	<u>1</u>	
	Total	<u>200</u>

I have not seen Isame since the convention and do not know where I can locate him, therefore, am carrying out your instructions by advising the purser to deliver the eggs to Mr. Wong as directed.

I have been charging local people \$2.00 to \$3.00 per setting depending upon the class of eggs demanded, but in your case, I will charge you \$20.00 per hundred of the fertile eggs. I will trust in you to report after the 5th or 6th. day of testing. If you find it hard to test the Plymouth Rock eggs on the 6th. day, I am sure you will find no difficulty on the 10th day, so let us make the final test on the tenth day.

I think you will find these eggs at least 75 per cent fertile, as I did not mate my pens until after March 10th. I have been meeting with good results with my hatches in March and April and I am only giving you eggs from hens that I know have shown 75 to 100 per cent fertility in my own hatching.

All of my stock, both Plymouth Rock and White Leghorns are of the Dryden stock and I have conducted my laying or breeding stock by trap nesting, so I have and know their actual laying qualities. No guess work.

Ho ing these eggs will reach you in good condition and give you good results, I am ,

Yours with aloha,

John H. Wilson,

Hawaiian Woman Seeing Islands For First Time

Mrs. Renee Nogle, a comely young Hawaiian woman, stood Thursday at the rail of the Lurline as the liner neared port, and looked for the first time in her life upon Oahu.

The thrill the hundreds of mainland visitors to Honolulu received as they looked on the brown and green beauty of the city's background of hills, was nothing to the emotion she felt when seeing for the first time the home of her forefathers, she declared.

Mrs. Nogle was born in Boston of Hawaiian parents who went there shortly after their marriage.

In all her life, until last week, the nearest she ever got to the islands was Los Angeles, where she now makes her home. Acting on the impulse, she booked passage at the last moment on the Lurline.

Meeting her off port was former Mayor John H. Wilson of Honolulu, who, with Mrs. Wilson, will be hosts to Mrs. Nogle during her stay.

Mrs. Nogle is a sister of Eddie Bush, well known musician and head of the Biltmore trio orchestra.

My dear Johnny:-

Just a few lines to let you know that I can't send you the rest of the money for the taxes by this mail - went to the bank - to get a loan, Benie hasn't closed the estate - Angle and I been getting after him to hurry up with the papers - so far nothing done yet. I don't know what's the matter with that fellow, wish I had given it to somebody else in the beginning.

START

he knew so much about
Sam's affairs ~ so I
left it to him. I wouldn't
get in the punch at times
if he only settled things
long ago, almost 5 years.
I don't know what to do - just
have to wait - I'm going
down again to-day.

We are having beautiful
weather these days,
Sister Anne is here doing
her work on the island,
well I hope we'll get the
price for the Sliba St place
soon. You're so worry.

With lots of aloha to you
both - Thank you again
Munera.

MRS. MABEL S. SHAW
PUBLISHER

June 4 th. 1934.

Mr. John H. Wilson,
Honolulu, T. H.
My Dear Mr. Wilson.

A friend or really a relative, Captain Victor F. Bleasdale of the U. S. Marine Corps is leaving soon for Hawaii and I want very much that you both should meet. He is on the U. S. S. Oklahoma. The Capt. has been spending a few days at my sisters home, Mrs. Bardwell and we have very much enjoyed his visit. I have given him a letter of introduction which I am sure he will present upon his arrival in Honolulu.

Two interesting guests have been at my home for a few days, Mrs. Blair of Alabama and Mrs. Harris of Ottawa, Kansas, the latter I am sure you meet when we all visited the Islands with the Worlds Press Congress.

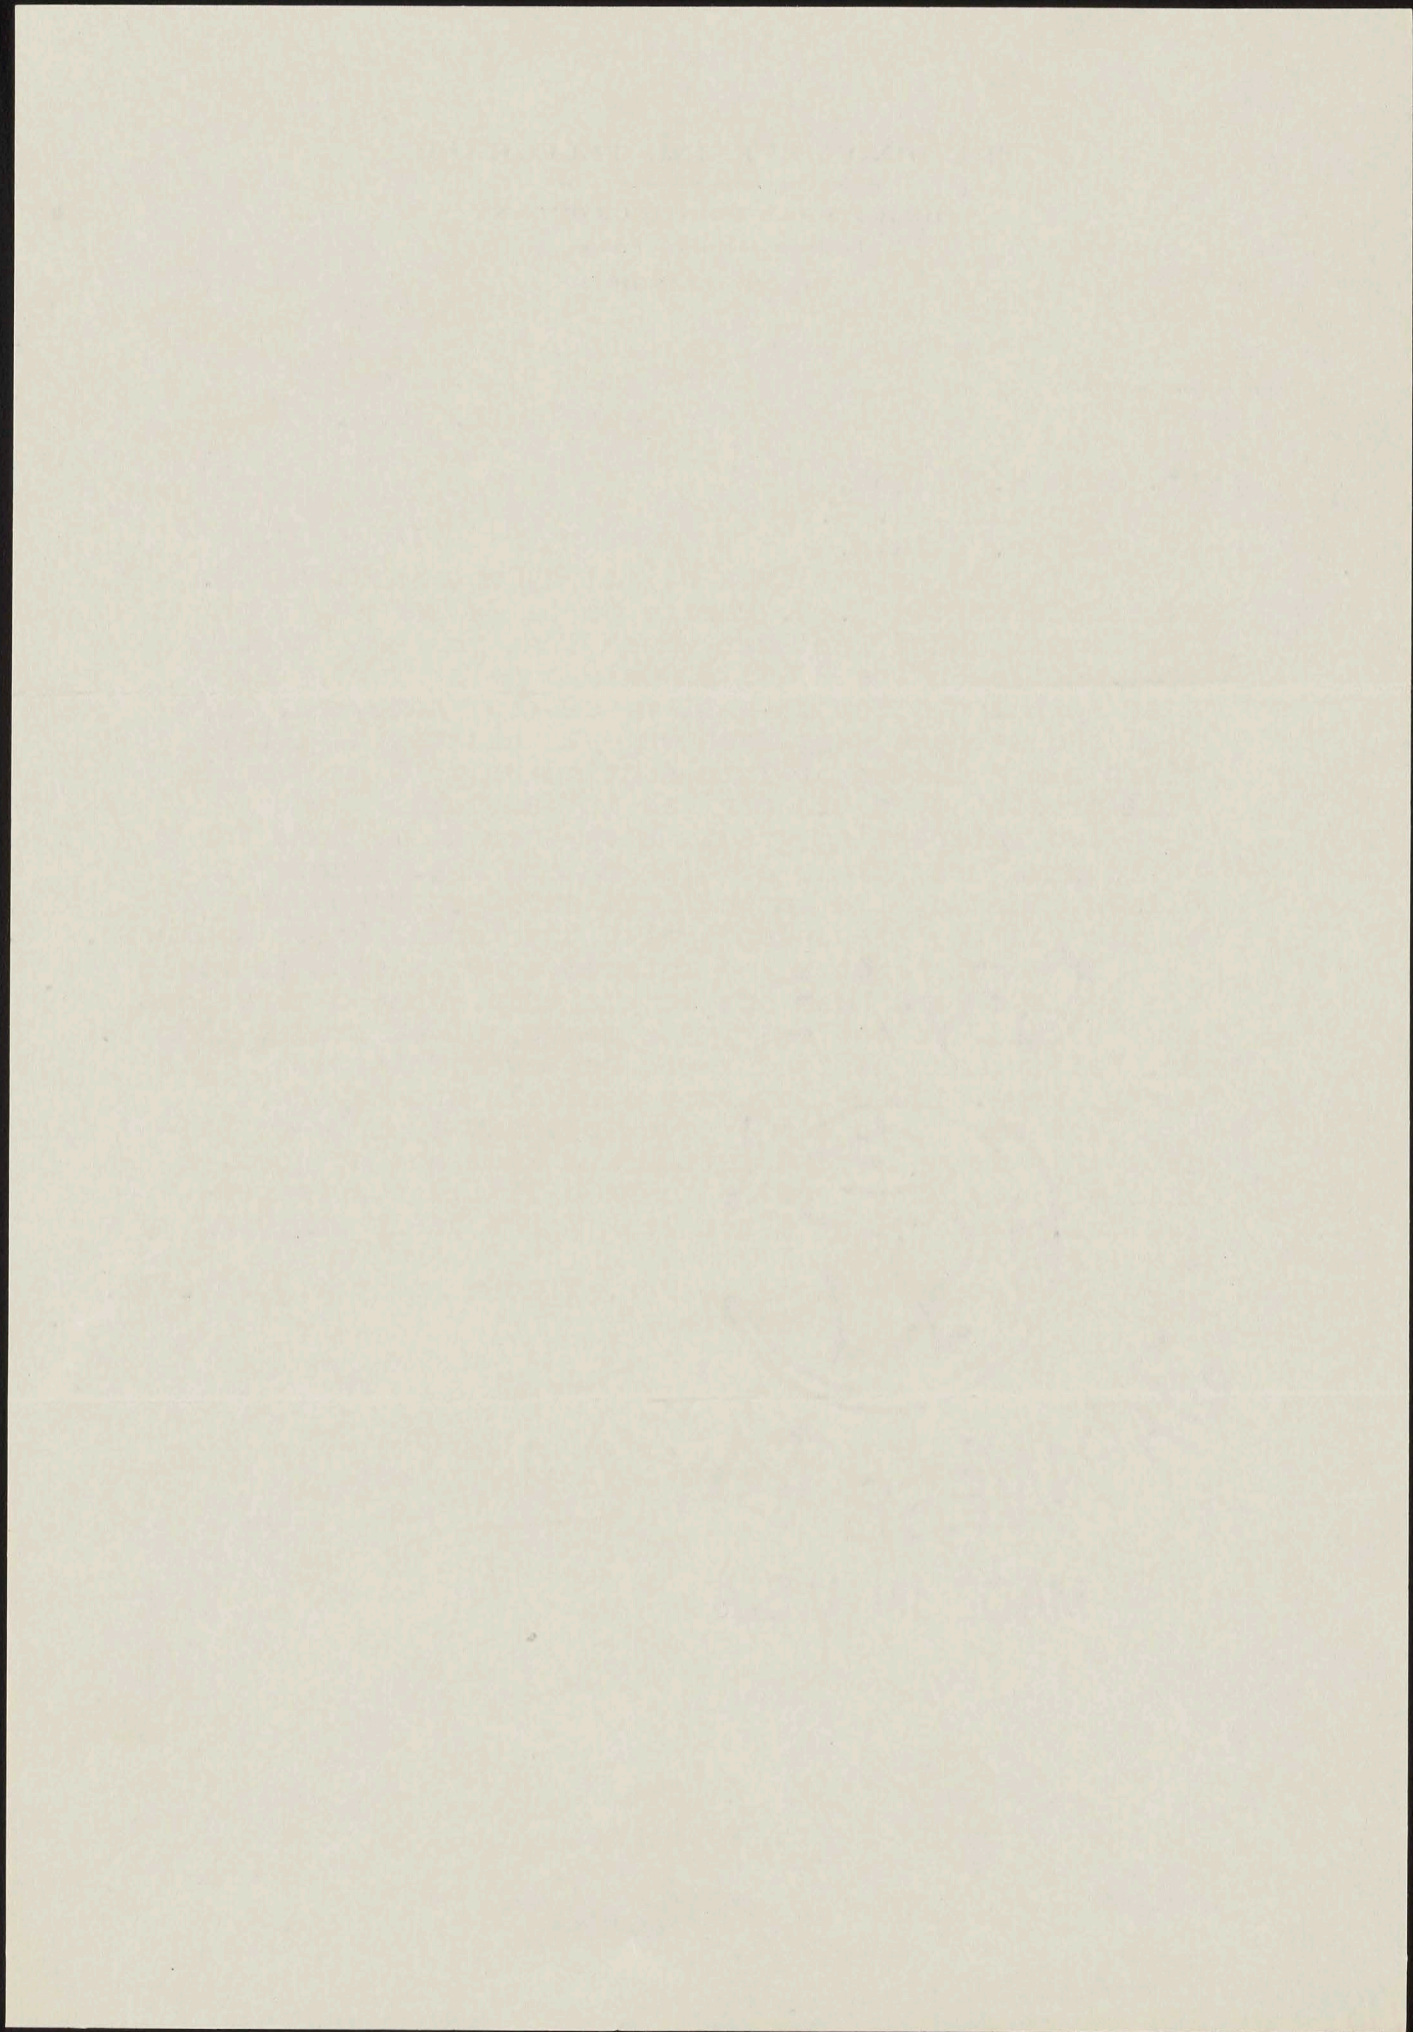

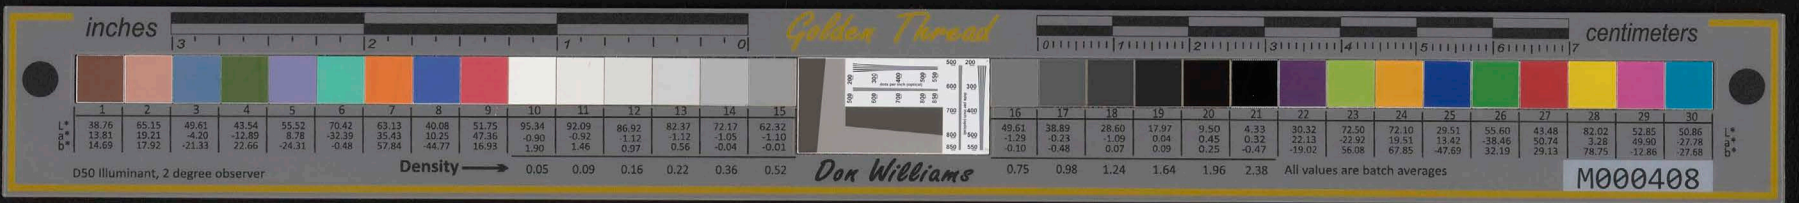

The other evening we motored to Princeton to visit the Baileys, and hear of Harry's trip. What a marvelous time he had. No one ever gets moore out of travel than Mr. Bailey, and one is sure to see everything if in his party. Kings, queens, Governor Generals and Mayors.

You see my friend I have taken up typing--be patient this is my second letter and I am not so good, a little time and I promise to be a little nearer perfection, however I will not look for a cable engaging my services.

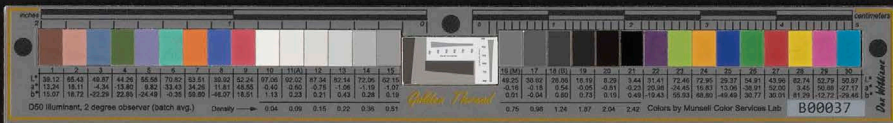

My sincere regards to Mrs. Wilson and your good self.
Sincerely,

Mabel S. Shaw

Dear Johnnie;

Writing as a drive to Los Angeles Harbor. Mrs Sawe wont have any peacocks old enough to ship for 2 months now and is scared of them surviving the trip at that ^{age} or older up to 1 or 2 years so I'm sending you eggs via my sister. Try them out and there is time to hatch them before young ones would be ready to ship. They ~~would~~ ^{will} want \$7.50 for 1 cock & 2 hens & I would have to get them to the boat. I saw some in San Fernando for which woman asked 50⁰⁰ per pair & saw birds looked bigger & better to me. Mrs. Saw is Thomas Gill's niece. Her mother was Gill's

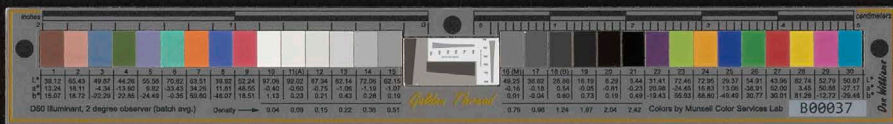

START

Sister. She takes the eggs from the peacocks and gives them to old Rhode Island Red hens to hatch & care for. Easier to raise than quail or pheasants & about like turkeys. Same time to hatch - 28 days & same care. If need to write it is Fred Law - Route 2 - Box 323 - Riverside, Calif.

I saw John Ezra MacDowell at Stanford and find that your friend Brown died last year. I suggest your getting in touch with a Mr. Roger (S.) Page in Los Angeles. Get it out of a telephone directory. He does legal work for my uncle ^{James} Harrison Wright, has for 30 odd years, and while you don't state your wants, I believe can efficiently, quickly & reasonable handle what you want. He has handled some more contracts & cares without publicity.

Have started some correspondence to learn exactly costs on a 500 gal legitimate still ~~plus~~ initial plus operating. Won't go into details, in case this letter should go astray. What would it cost to send raw product here for

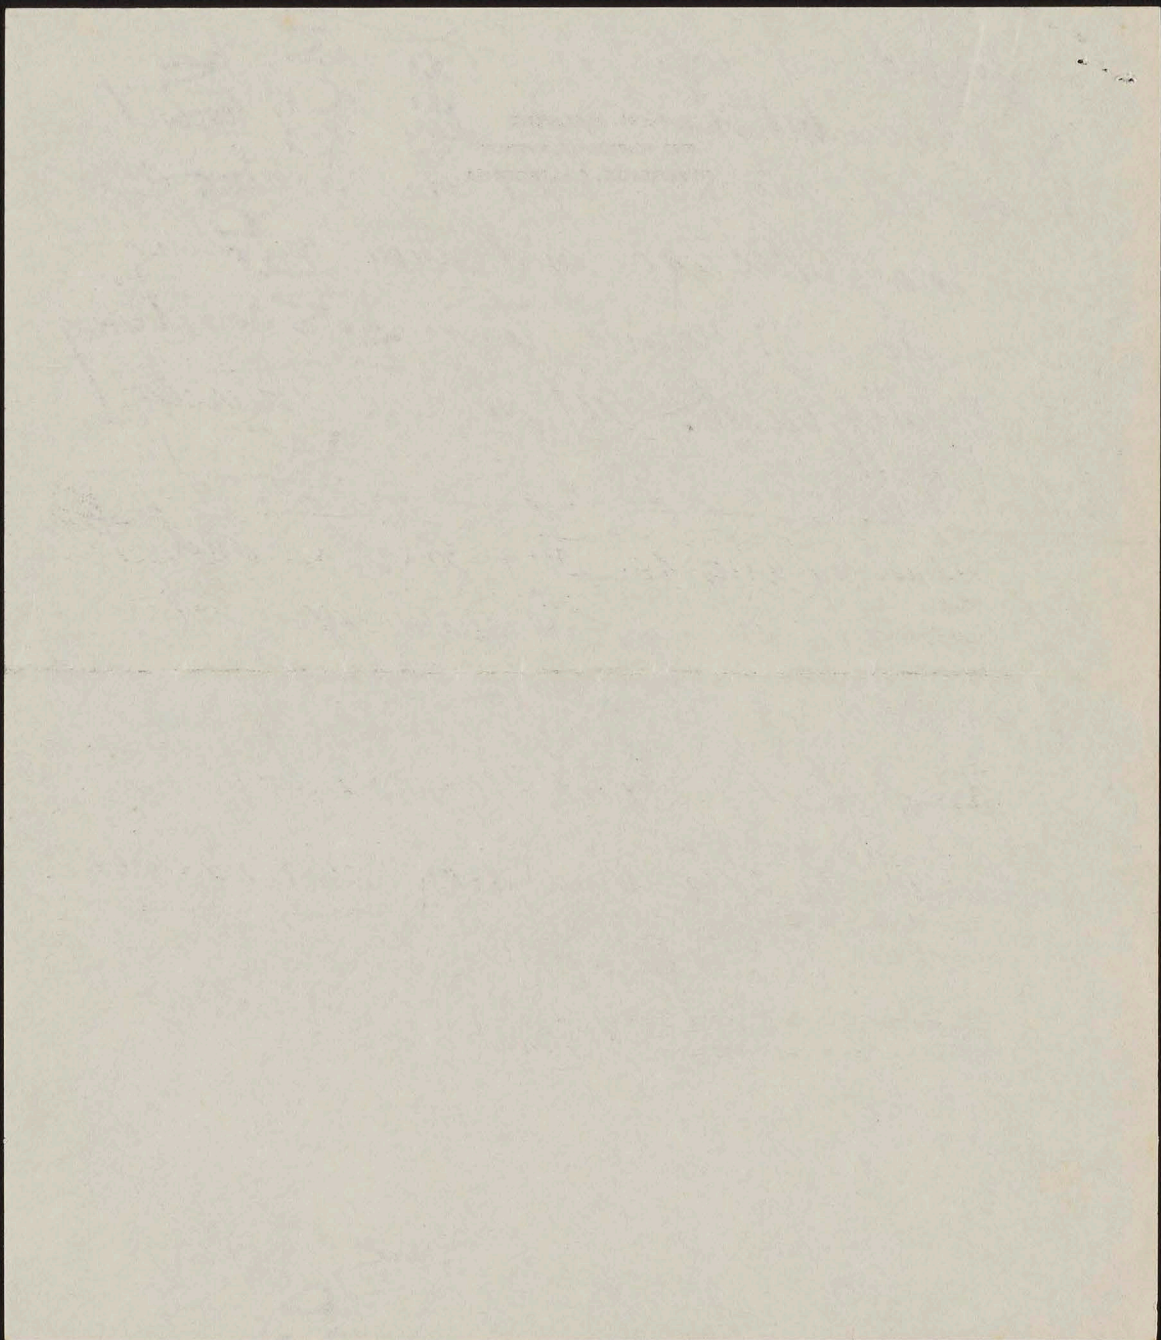

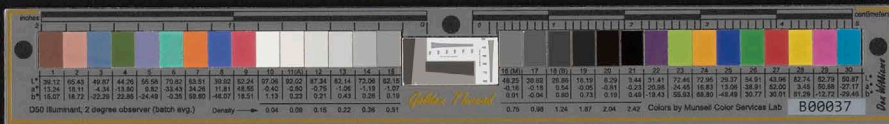

I've found out when to get tests & possible permanent hook-ups here. I haven't approached anyone and am getting my costs via Chicago and then creating impressions I want to make something entirely different. all sources entirely independent.

A. H. HALSTED
4723 RUBIDOUX AVENUE
RIVERSIDE, CALIFORNIA

Sending this via my Sister and I hope you get it for it means you get the eggs as soon as possible.

Am off for Seattle & probably Vancouver on this expansion joint business.

Best
Sam.

END

Makawao, Maui

Nov. 15 - 1934

Dear Johnny:

Well election is all over - Rice won out and got what he wanted for years - to be the ruler of Maui. He surely spent some money to get elected.

Building up their forces solid (Holt - Paschal - Rice) for the next two years. I think too speedy - you think.

All the old fellows getting out - especially those that worked for you and Paul - clean sweep. Will ignore the Baldwins in all his appointments I don't know how they'll feel about it.

Well King ought to thank you - as they all say.

I heard Carr was here Wednesday - I think Souza is getting Al. Burdick's job, as he is blowing already backed up by Rice + Paschal.

Al. Burdick will be the county engineer under Rice - already lining up his men, luna owners etc.

This new board will surely have some few Johnny - I know you are a busy ^{man} + I hate to bother again about the place but who else could I go to - I have to live - nobody working now.

START

Why should Keala + them enjoy the place and I do the worrying - Keala should think without being reminded. He was allowed to live in that small cottage in the back, after the Board of Health people got after him to repair it - why ^{before} he knew it - sold everything - after living there for nothing, he is forty.

Bernie hasn't done anything with the Pali estate, I'll try + hoomanauamui - things may pick up again. I can get a better price for that place in town, hate to let it go for nothing.

I hope you are both well + rested.
Charlie has been sick - up + around again.
Lots of aloha to you both - thank you.
Muniama.

END

At Sea, Dec. 17/34

My dear Mineva:-

Sorry I did not find the time to write before leaving Honolulu. I had been looking for Keala. Went to the place twice, but found nobody except Billy Mossman's former wife, the Miner girl. She is lolo, had been on her back for sometime, so did not bother her.

I learned last Wednesday that Keala had a stroke and was in the hospital. The Miner girl is living in the place with a fellow by the name of Kuhns. Whether he is married to her or not I do not know. I did not get to see Keala's wife as she was off to the hospital.

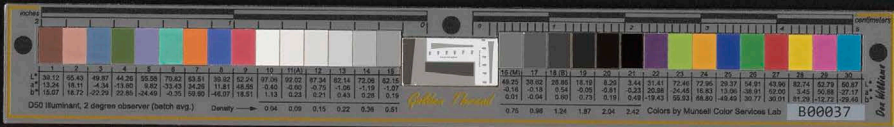

I am on my way to Washington, but expect to be back in Honolulu not later than Feb. 15th, at which time I will see what I can do with Keala. Whether this fellow Kuhns is paying rent to Keala, I do not know.

Politics is a great game and I do not think Rice really knows what he is up against until he takes office, then he will see how complicated it is.

Gain told me, that Rice was taking Bardick over to the County with him, so he will be obliged to give that job to Sousa who happens to be the only Democratic Engineer on Maui. I do not know how good an engineer he is, but, as I understand it, the work is almost pau.

We are having a fine trip. Smooth sea, but commencing to get cold.

START

At 10:15 AM, Dec. 17/34

My dear Mr. ...

Sorry I did not find the time to write before leaving Honolulu. I had been looking for Keala, went to the glass works, but found nobody except Billy Mousen and former wife, the black girl. She is late, had been on her back for sometime, so did not bother her.

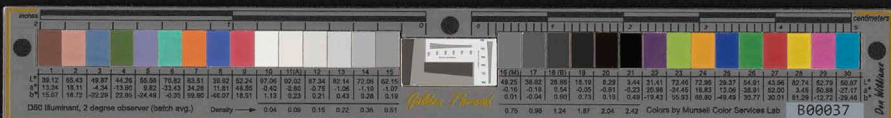

I learned last night that Keala had a stroke and was in the hospital. The black girl is living in the place with a fellow by the name of Eunan. Whether he is married to her or not I do not know. I did not get to see Keala's wife as she was off to the hospital.

I am on my way to Washington, but expect to be back in Honolulu not later than Feb. 15th, at which time I will see what I can do with Keala. Whether the fellow Keala is paying rent to Keala, I do not know.

Keala is a great game and I do not think she really knows what he is up against and if he loses, then he will see how complicated it is.

Carl told me that Alton was taking Bertie over to the County and that he will be obliged to give that job to Homer. It happens so we only Democratic Register on that. I do not know how good an engineer he is, but as I understand it, the work is almost gone.

We are having a fine trip. Smooth sea, but com- mencing to get cold.

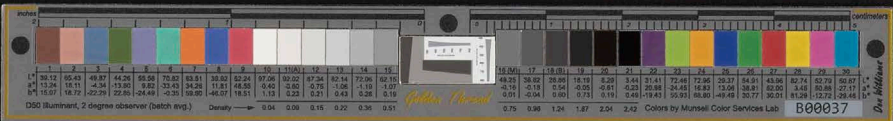

I am sorry to hear that Charlie has been ill. After the licking we all got at the polls, no wonder he gets sick. I cannot afford to get sick, so the good Lord, sees that I am kept on my feet. Tell Charlie, he must have been a sinner in his day, hence the Lord has given him up as a bad job.

Will you also tell Charlie's wife, that I left her proxie on the Central Committee with Ernest Heen, so if there is anything special she wants to be done while I am away, to take it up with Ernest.

Wishing you all a Merry Xmas and a and a Happy New Year, I am,

Yours with aloha,

Will be at the HOTEL WASHINGTON,
Washington, D.C.
until Jan. 20th. 1935.

I am sorry to hear that Charlie has been ill. After
the flaking we all got at the hotel, no wonder he
gets sick. I cannot afford to get sick, so the
good lord, has that I am kept on my feet. Tell
Charlie, he must have been a sinner in his day,

Honolulu, Hawaii.
July 7th. 1934.

My dear Sam:-

Your note of the first and eggs received and many thanks for same. Do I understand you to say that Mrs. Law wants \$7.50 per bird or \$7.50 for one cock and two pea-hens. However, you may tell her to let me know when they would be safe to ship and you might tell them I will pay the cost of crating and shipping. I think the better way would be to ship via express as they have a man aboard ship who will take care of the birds while on board.

I took your sister out for a ride yesterday and tomorrow, Sunday, the wife and I will take her for another ride and will have her to dinner also.

As soon as I reached home with the eggs, I placed them in a small incubator, which I happened to have running at the time. That is I just took off a hatch of turkeys the day before. We will soon learn whether it will pay to import eggs or not.

Will write more re-distillery by next mail. I must close, as I havn't much time to catch this mornings mail out.

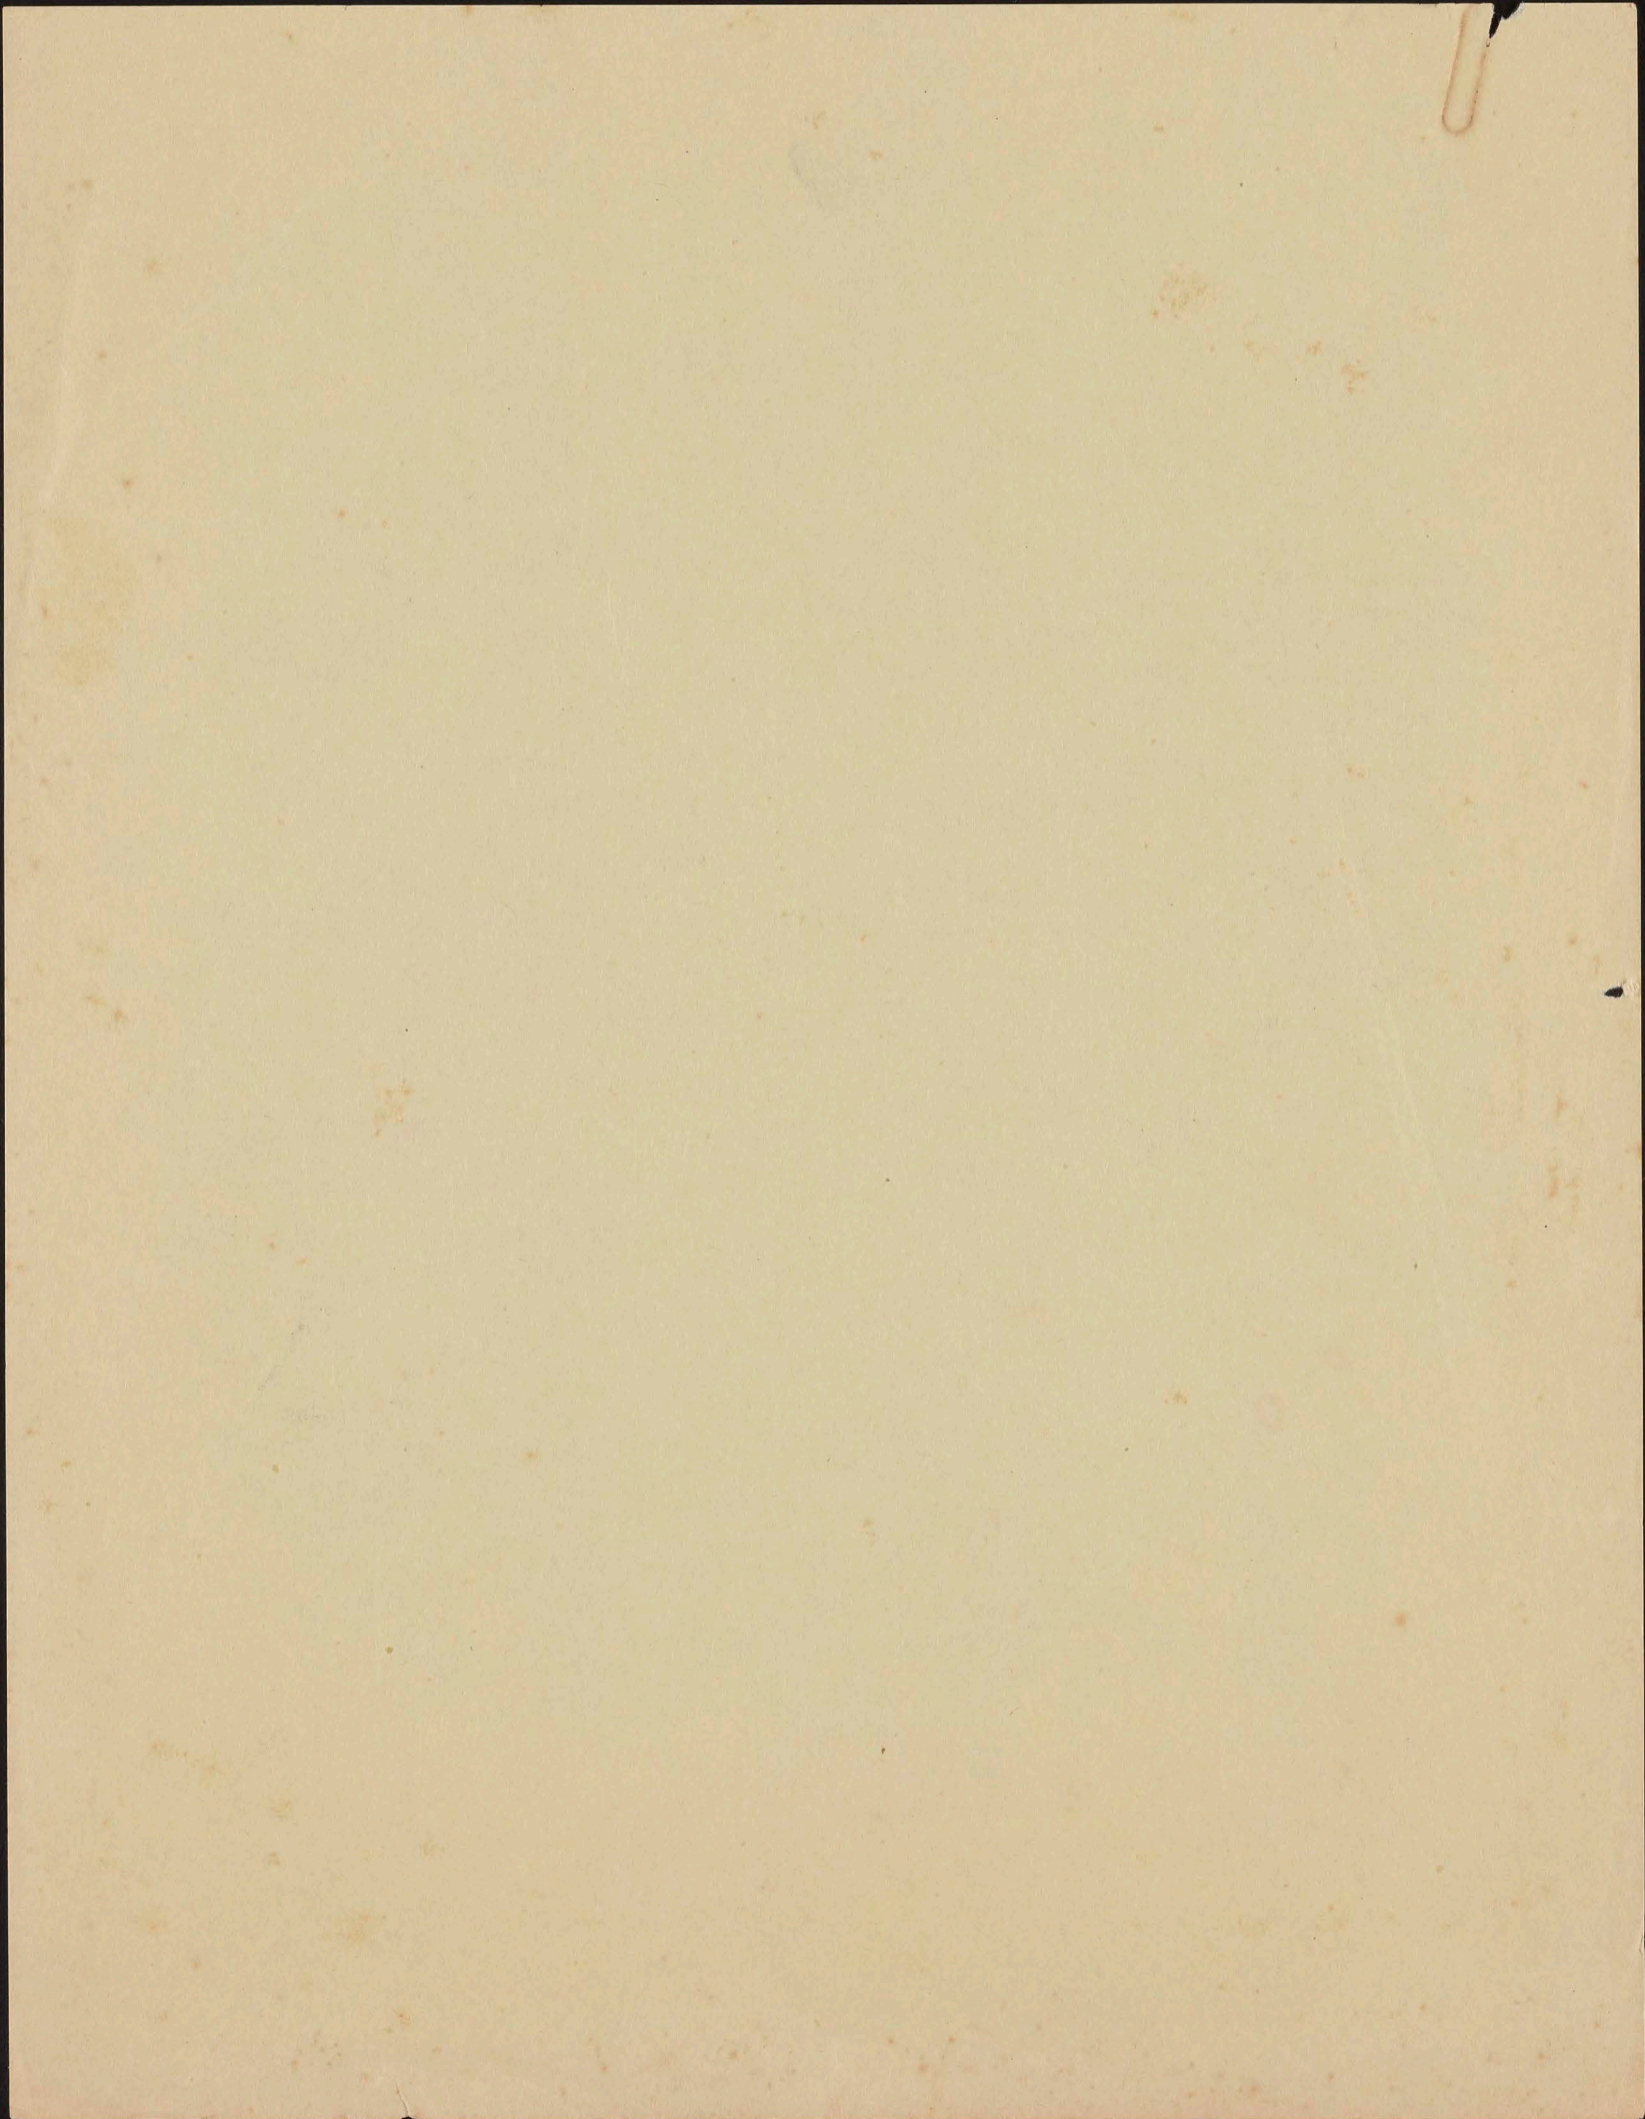

Yours with aloha

A public works project implying nation-wide employment, especially in the great cities where unemployment is most acute, has been ~~given~~ outlined for the Roosevelt administration by John H. Wilson, ten years mayor of Honolulu, 23 years now Democratic National Committeeman, and during the last 40 years one of the best known road-building and construction engineers in the Pacific region.

Wilson's plan, developed during his visit some weeks ago to the national capital, would, when applied to the city of Washington as an initial unit and practical demonstration of its engineering and economic feasibility, create under Pennsylvania Avenue and adjacent streets traversing the shopping, theatrical, and newspaper district, a system of cheap parking galleries ^{beneath} ~~under~~ the publicly owned streets and without local taxes and on a business basis of letting the aggregate of users of the convenient service gradually defray the expense of the enterprise.

Wilson presented his plan to the White House because he happened to have been ^{leader} ~~chairman~~ of the Hawaiian delegation to the Chicago convention that nominated Roosevelt, and ^{he} /himself had brought that delegation 5,000 miles pledged for Roosevelt and bound by unit rule. The plan was referred from the White House to Frank Walker and the new works developments, for he was formerly treasurer of the Democratic National Committee, and also, for its local application, it was referred to United States Marshal Colpoys, former member of the Democratic National Committee and a long-time personal friend of Wilson's.

Wilson expressed the hope that the undertaking might be launched in an exemplary fashion in the city of Washington and thus quickly serve as a publicly understood enterprise applicable to cities all over the United States, not only providing hundreds of thousands of men with hand labor close to their homes, but ^{furnishing} ~~providing~~ communities with a sound

solution of most of the problems of traffic congestion, motor accidents in pedestrian areas, proper access to retail stores, and protected, safe, and cheap parking for the miles and thousands of cars that line urban curbs. In Washington and over the mainland the name of John H. Wilson is unknown as an engineer where it is widely associated with Democratic politics. He was trained in engineering at Stanford University in the same college class with Herbert Hoover. When he was only 24 years of age he conceived and built along down the thousand-foot sheer precipice of the Pali near Honolulu one of the world's most famous scenic roadways, and he cut that into the face of solid basalt, after first having himself lowered over at various points and suspended 200 feet down in a rope sling. Always before the creation of that Pali road engineers had declared that such a project was not feasible, and tourists gazed up at the cliff in awe because over that precipice, twice the height of the Washington Monument, the giant King Kamehameha in his final conquering battle had driven over to their death on the ~~xxx~~^{rocks} below an army of more than 1,000 warriors. Wilson built many of the famous scenic and tourist roads on all the six inhabited islands of the Hawaiian group, built Honolulu's great outfall sewer system carrying that city's refuse miles out into the Pacific, and he it was who first introduced into the islands bitumen and then concrete for pavements, and he did much toward making Honolulu the now acclaimed best paved city under the United States flag. Wilson remarked that this understreet parking plan is one of elemental engineering simplicity. There are no difficult engineering problems. No land purchase or condemnation suits to be considered. No great construction corporations to be favored. It is simple work, creating 12-foot ceilings under street ways and paving and lining them with cement, lighting them with electricity, equipping them with adequate ventilation, providing them with sloping ramps for ingress and egress of cars and with undersidewalk

solution of most of the problems of traffic congestion, motor accidents in pedestrian areas, proper access to retail stores, and protected, safe, and cheap parking for the miles and thousands of cars that line urban curbs. In Washington and over the mainland the name of John H. Wilson is unknown as an engineer where it is widely associated with Democratic politics. He was trained in engineering at Stanford University in the same college class with Herbert Hoover. When he was only 24 years of age he conceived and built down the Thomas-Ford their principles of the fall near Honolulu one of the world's most famous scenic roadways, and he cut that into the face of solid basalt, after first having himself lowered over at various points and suspended 300 feet down in a rope sling. Always before the creation of that fall road engineers had decided that such a project was not feasible, and tourists gazed up at the cliff in awe because over that precipice, twice the height of the Washington Monument, the giant King Kamehameha in his final conquering battle had driven over to their death on the hill below an army of more than 1,000 warriors. Wilson built many of the famous scenic and tourist roads on all the six inhabited islands of the Hawaiian group, built Honolulu's great outfall sewer system carrying that city's refuse miles out into the Pacific, and he it was who first introduced into the islands bitumen and then concrete for pavements, and he did much toward making Honolulu the now acclaimed best paved city under the United States flag. Wilson remarked that this understreet parking plan is one of elemental engineering simplicity. There are no difficult engineering problems. No land purchase or condemnation suits to be considered. No great construction corporations to be favored. It is simple work, creating 12-foot ceilings under street ways and paving and lining them with cement, lighting them with electricity, equipping them with adequate ventilation, providing them with sloping ramps for ingress and egress of cars and with underdrains

tunnels for footpassengers to make shortcuts directly into large office buildings or into the mammoth government buildings without dodging surface traffic.

He points out that in the Hawaiian Islands, a territory almost the size of the state of New Jersey, they have such fine motor roads that no country, no state, no county, no area anywhere on this globe has nearly so many automobiles to each mile of paved roadway as has Hawaii.

~~Honolulu, his xx xx city, has the xx xx xx xx~~

Wilson studied the Washington traffic and parking problem and then drafted his plan for its engineering and economic solution. He found that even outside of the shopping district surface land required for parking purposes was selling for \$5 a square foot. He figured that understreet areas could be converted into parking areas for less than that, between \$3 and \$6 a square foot, and that cost would pay labor, cementing, lighting, ramping, ventilating, and the provision of conduit space for service pipes and wiring now under the highways or the sidewalks. The excavated earth he would have trucked away to be used in filling up swampy or low areas in public parks and in public school grounds. The sloping spaces under the ramps he would have rented for income purposes to ~~XXXXX~~ stands purveying newspapers, confections, refreshing beverages. But there could be no filling stations and no smoking producing fire and explosion hazards.

Wilson declared that the project could be put into actual hand-labor operation and local payroll production within thirty days of its endorsement and the government assignment of the needed enabling funds apportioned from work relief sources.

Persons who know "Johnnie" Wilson have not the slightest doubt when he endorses an engineering project as feasible and self-liquidating. For more than 150 years his ancestors have been traditions in the Pacific. His great grandfather on his father's side was a British

tunnels for footpassengers to make shortcuts directly into large of-
 lice buildings or into the mammoth government buildings without dodging
 surface traffic.

He points out that in the Hawaiian Islands, a territory almost the size
 of the state of New Jersey, they have such fine motor roads that no
 country, no state, no county, no area anywhere on this globe has nearly
 so many automobiles to each mile of paved roadway as has Hawaii.

Wilson studied the Washington traffic and parking problem and then
 drafted his plan for its engineering and economic solution. He found
 that even outside of the shopping district surface land required for
 parking purposes was selling for \$5 a square foot. He figured that
 understreet areas could be converted into parking areas for less than
 that, between \$3 and \$6 a square foot, and that cost would pay labor,
 cementing, lighting, ramping, ventilating, and the provision of conduit
 space for service pipes and wiring now under the highways or the side-
 walks. The excavated earth he would have trucked away to be used in
 filling up swampy or low areas in public parks and in public school
 grounds. The alighting spaces under the ramps he would have rented for
 income purposes to ~~market~~ stands purveying newspapers, confections,
 refreshing beverages. But there could be no filling stations and no
 smoking producing fire and explosion hazards.

Wilson declared that the project could be put into actual hand-labor
 operation and local payroll production within thirty days of its
 endorsement and the government assignment of the needed enabling
 funds apportioned from work relief sources.

Persons who know "Johnnie" Wilson have not the slightest doubt when
 he enforces an engineering project as feasible and self-liquidating.
 For more than 150 years his ancestors have been traditions in the
 Pacific. His great grandfather on his father's side was a British

sea captain, and he was in command of the ship that rounded the Cape of Good Hope with the first missionaries landed in Tahiti, and ~~where~~ his white grandfather was the first/child born in that south sea paradise and later introduced coconut culture into southern islands of the Hawaiian group. His great grandfather on his mother's side was a Yankee sea captain, and he was in command of the ship that rounded Cape Horn and took the first missionaries to the Hawaiian Islands. "Johnnie's" father was marshal of the Kingdom of Hawaii, and his mother was a member of Queen Liliuokalani's social cabinet as one of her favored Ladies in Waiting. "Johnnie", true to the traditions of the clan, himself was a sailor in the Pacific and into remote reaches of the Arctic before he visited the mainland and matriculated at Stanford University in its first class. Later he returned to the mainland as manager of a Hawaiian musical troupe and toured 40 states and all the principal cities and thus introduced Hawaiian music and the ukelele to the ~~the~~ American people, for he himself had played in the Stanford varsity band.

On Wilson's recent return to Honolulu from Washington excursion steamers went out to meet his Pacific liner, and stretching many yards along their sides were huge painted banners "Aloha to Johnnie", and ~~the~~ one of Honolulu's great newspapers devoted part of the front page and ~~the~~ its leading editorial to "Johnnie's" return and his political courage and success, the press pictures, all across the top of the front page, showing "Johnnie" loaded down with leis and surrounded by admiring friends, for he had come home to take Honolulu's postmastership on personal request from James A. Farley and he was now recognized as the Democratic leader in Hawaii.

January 2nd. 1935.

Mr. D. Iwataki,
121 1/2 Weller St.
Los Angeles, Calif.

My dear Mr. Iwataki:-

Last Febuary you and I met on the train while you was on your way to Los Angeles from Chicago or Peoria and I on my way to Honolulu. I understood you to say that you represented some Automobile Insurance Company on the Pacific Coast and the home office is in Illinois.

I have a friend in Honolulu who is interested in the insurance business and would like me to get some information from your company if it is not already represented in Hawaii.

I will be leaving here for Hawaii by way of Los Angeles on or about the 15th. of January and intend to spend a few days in and around Chicago, and would like to visit your home office. You gave me some literature regarding premiums, benefits etc., but in my rush to come away, I left them behind so I do not know the name of the company. I am writing this letter in the hopes that I will be able to find you in Los Angeles at the above address and I would deem it a great favor if you will be so kind as to write me at the above address giving me the name of the Insurance Company that you represent and their home address.

I will look you up upon my arrival in Los Angeles, which will be around the latter part of this month.

Wishing you the seasons greetings and my very best wishes, I am,

Yours with aloha,

P.S.
Mail addressed care this hotel until
Jan 15th will reach me or Morrisson
Hotel until Jan. 20th. will reach me.

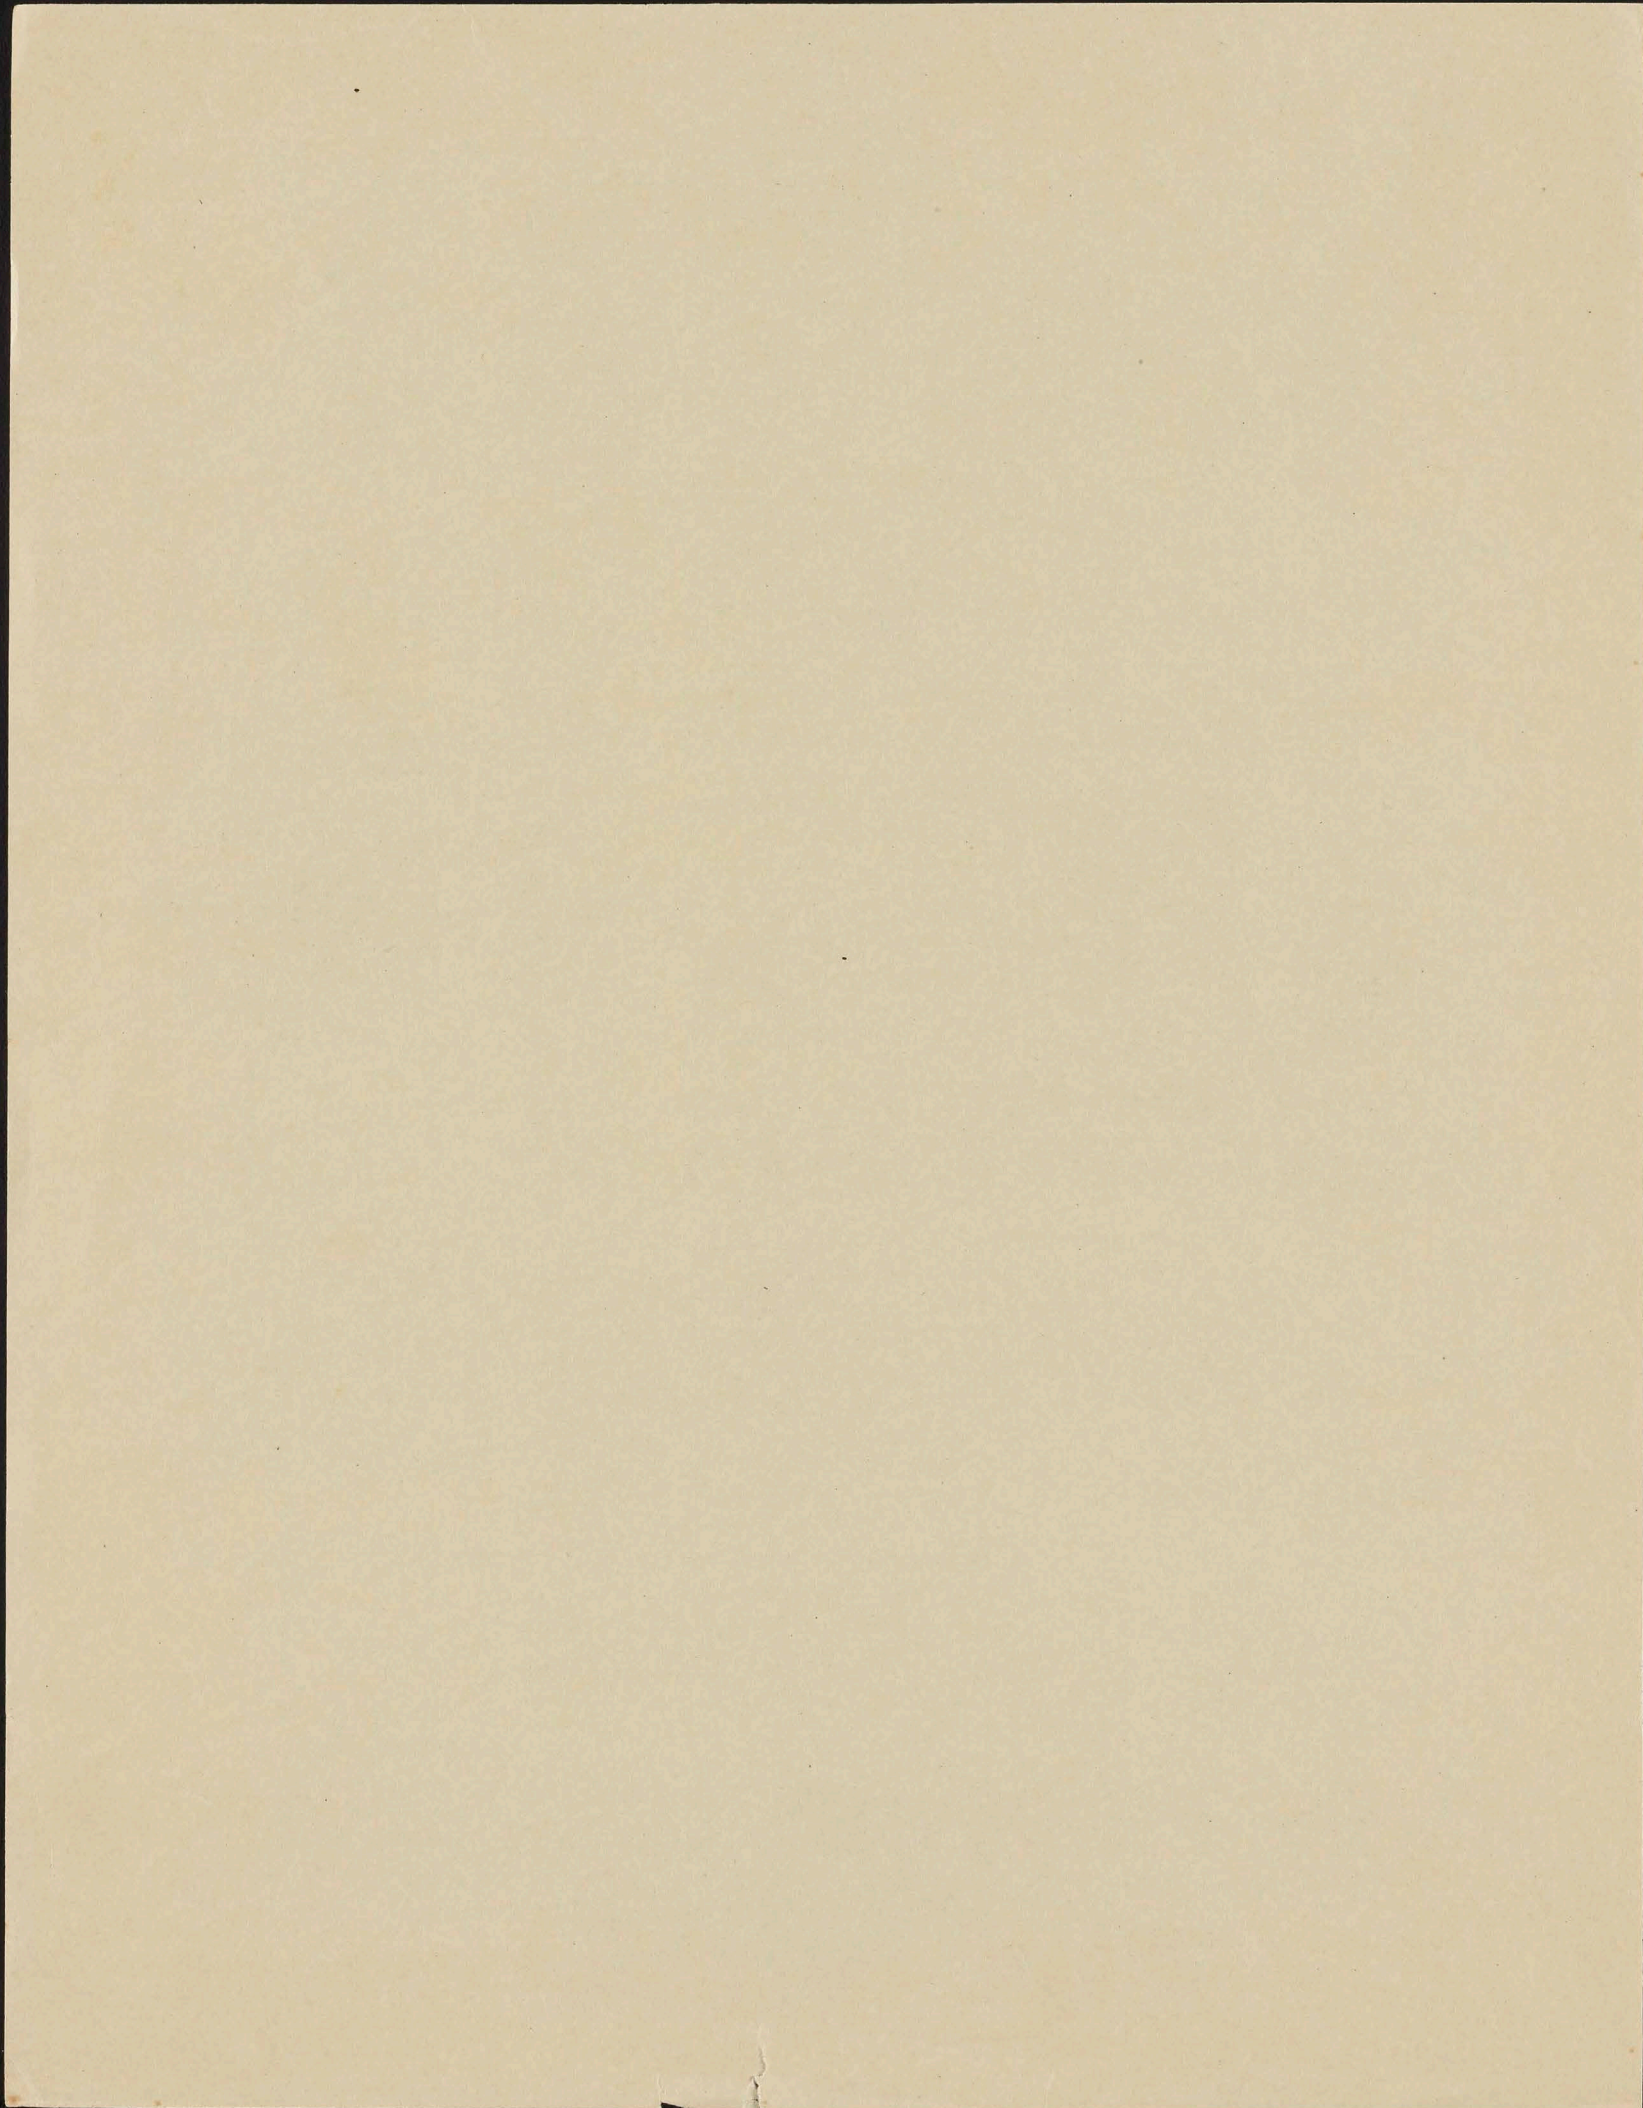

John H. Wilson
Honolulu,
Hawaii.

Mr. John H. Wilson,
Hotel Washington,
Washington, D. C.

My dear Mr. Wilson:

I am in receipt of yours of the eighteenth instant in which you suggest a plan to excavate for and construct model parking facilities beneath the city streets and some of the parks.

Your suggestion is interesting and I shall immediately bring it to the attention of the Commissioners of the District of Columbia with a request that they give the matter prompt consideration.

I have suggested to the Commissioners that they confer with you before your departure from the city.

Thanking you for your letter and with all good wishes,

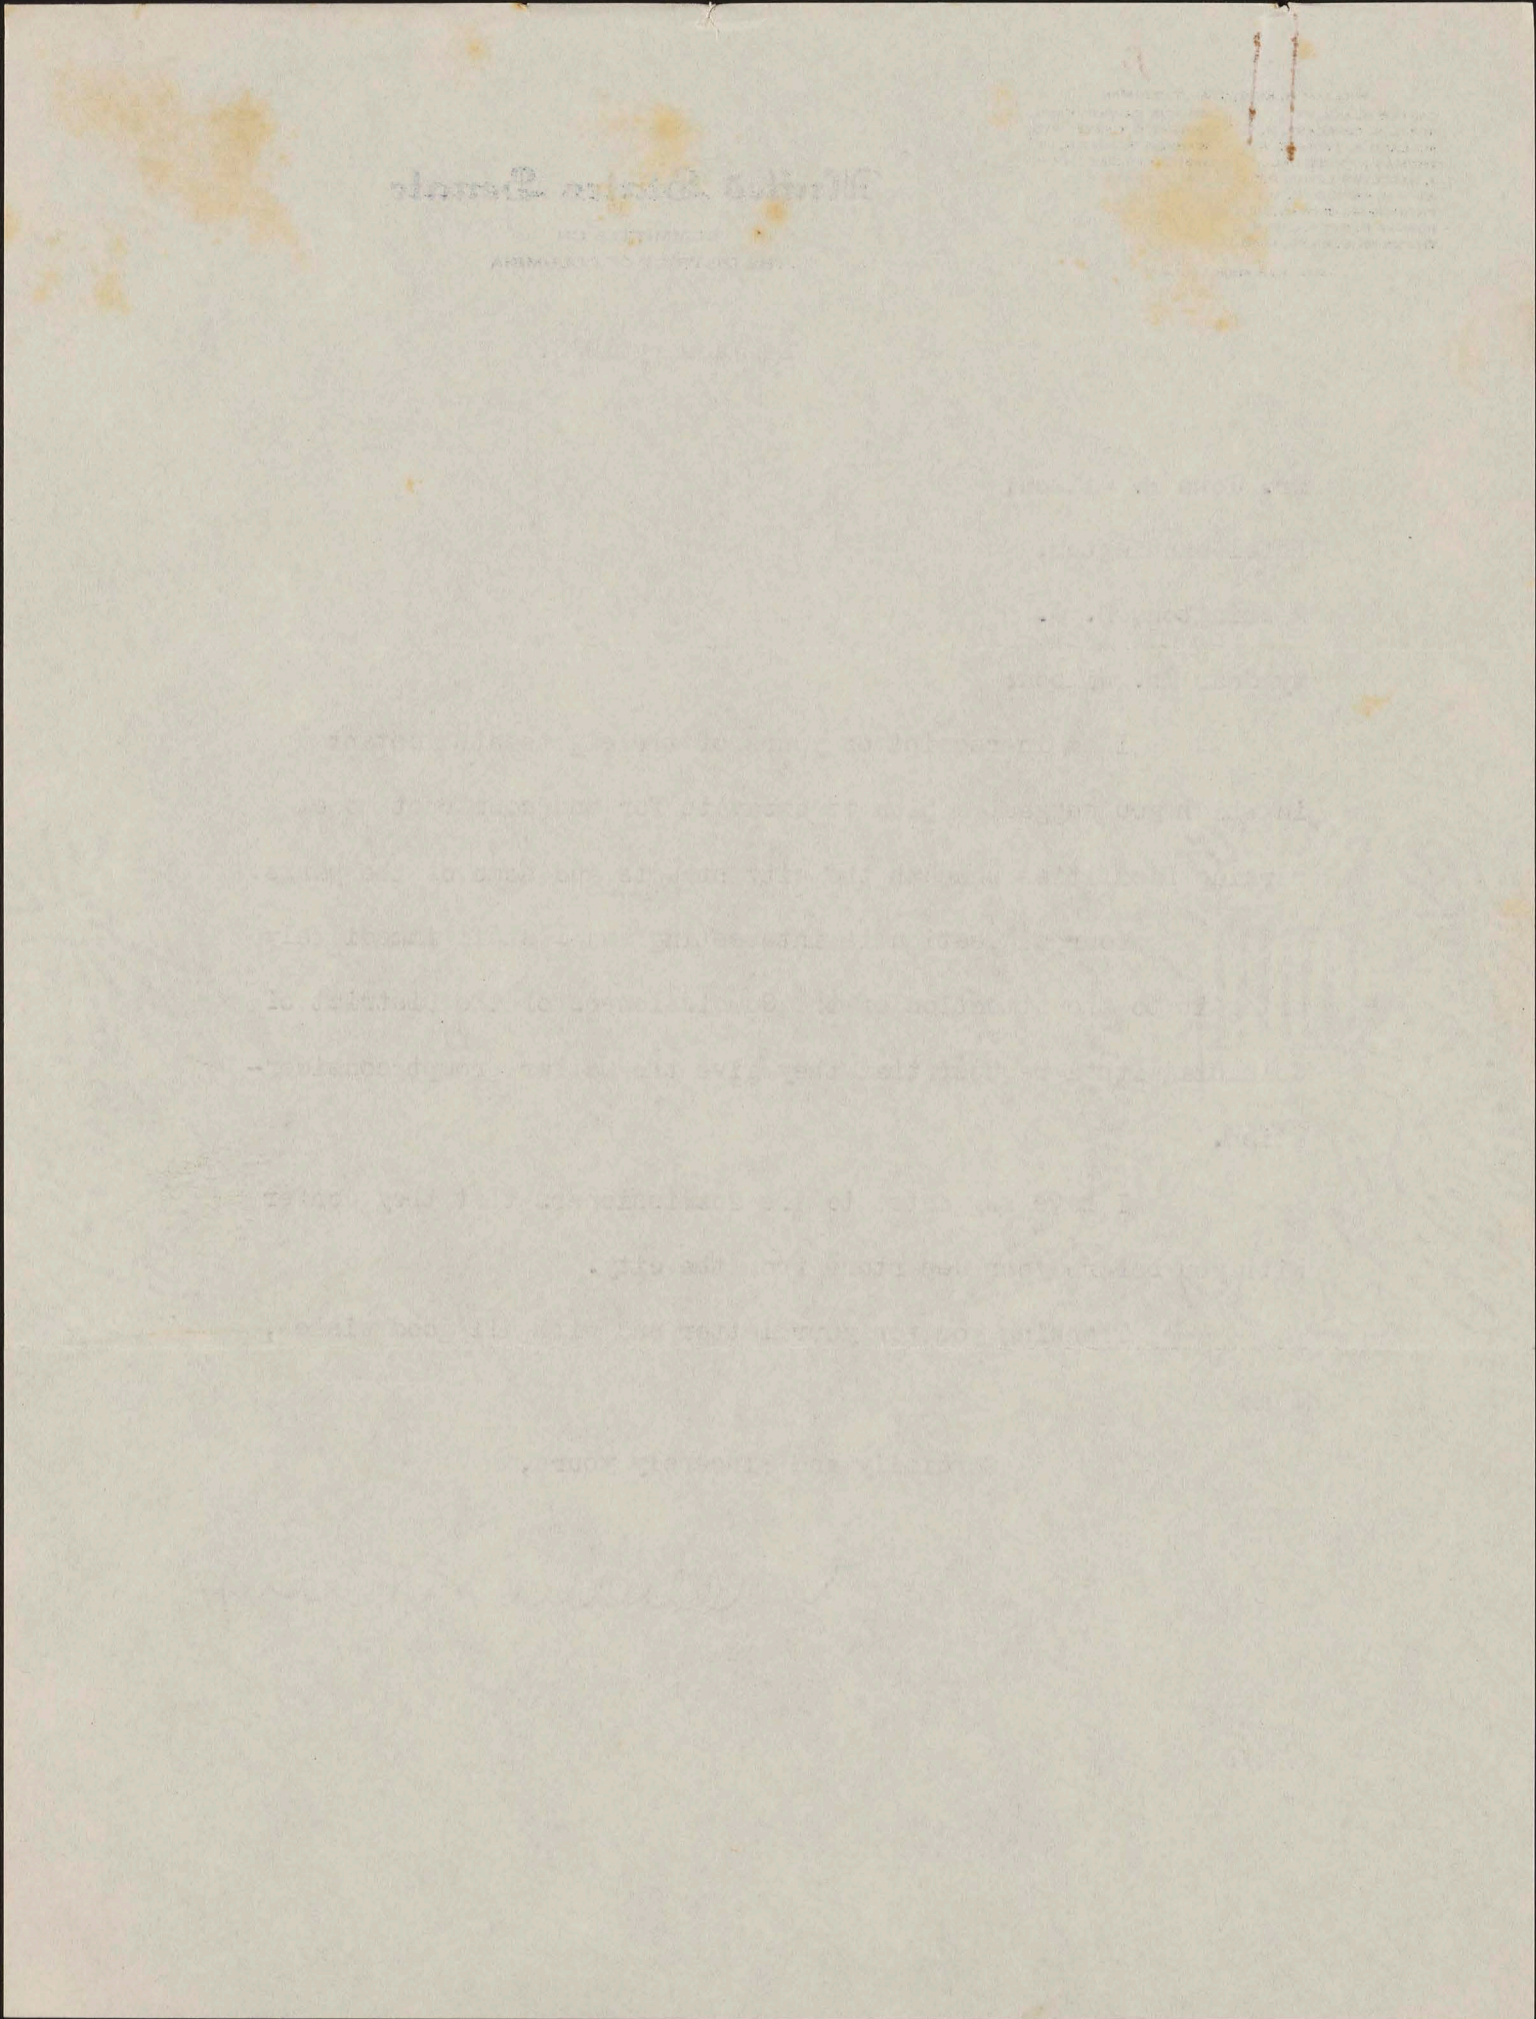

I am

Cordially and sincerely yours,

POPULAR BRANDS OF WINE, LIQUOR & LIQUEURS

Honolulu, T. H., January 31, 1935

Mr. John H. Wilson,
Hotel Washington,
Washington, D. C.

Dear Mr. Wilson:

Thank you for your letter of January 21st, reference to the FINE LIQUORS COMPANY.

We in Honolulu, are not familiar with affairs of the Company except what you know yourself. Our position is that we have been approached by a certain party, and were told that we could practically take over the Company, if we could arrange to have the permit extended; and of course, if we could finance the proposition. Of course the Company has nothing except the permit, and if the extension is granted, then we will make an effort to organize a separate Company. The Company itself will require a paid in capital of about \$75,000.00, and naturally there being nobody in sight who is willing to put even one-half of that amount, we cannot guarantee that the new Company can be organized. We understand through Mr. Miyamoto, however, that you expressed the willingness to raise about 50% of this capital and if this could be done, we are pretty certain of raising the balance in Honolulu.

In view of the above, we ask that you do whatever you can to have the permit extended, but request that our name be not mentioned to the F.A.C.A. authorities.

Thanking you for your kokua, we are,

Yours truly,

Washington, D. C.

Dear Mr. Wilson:

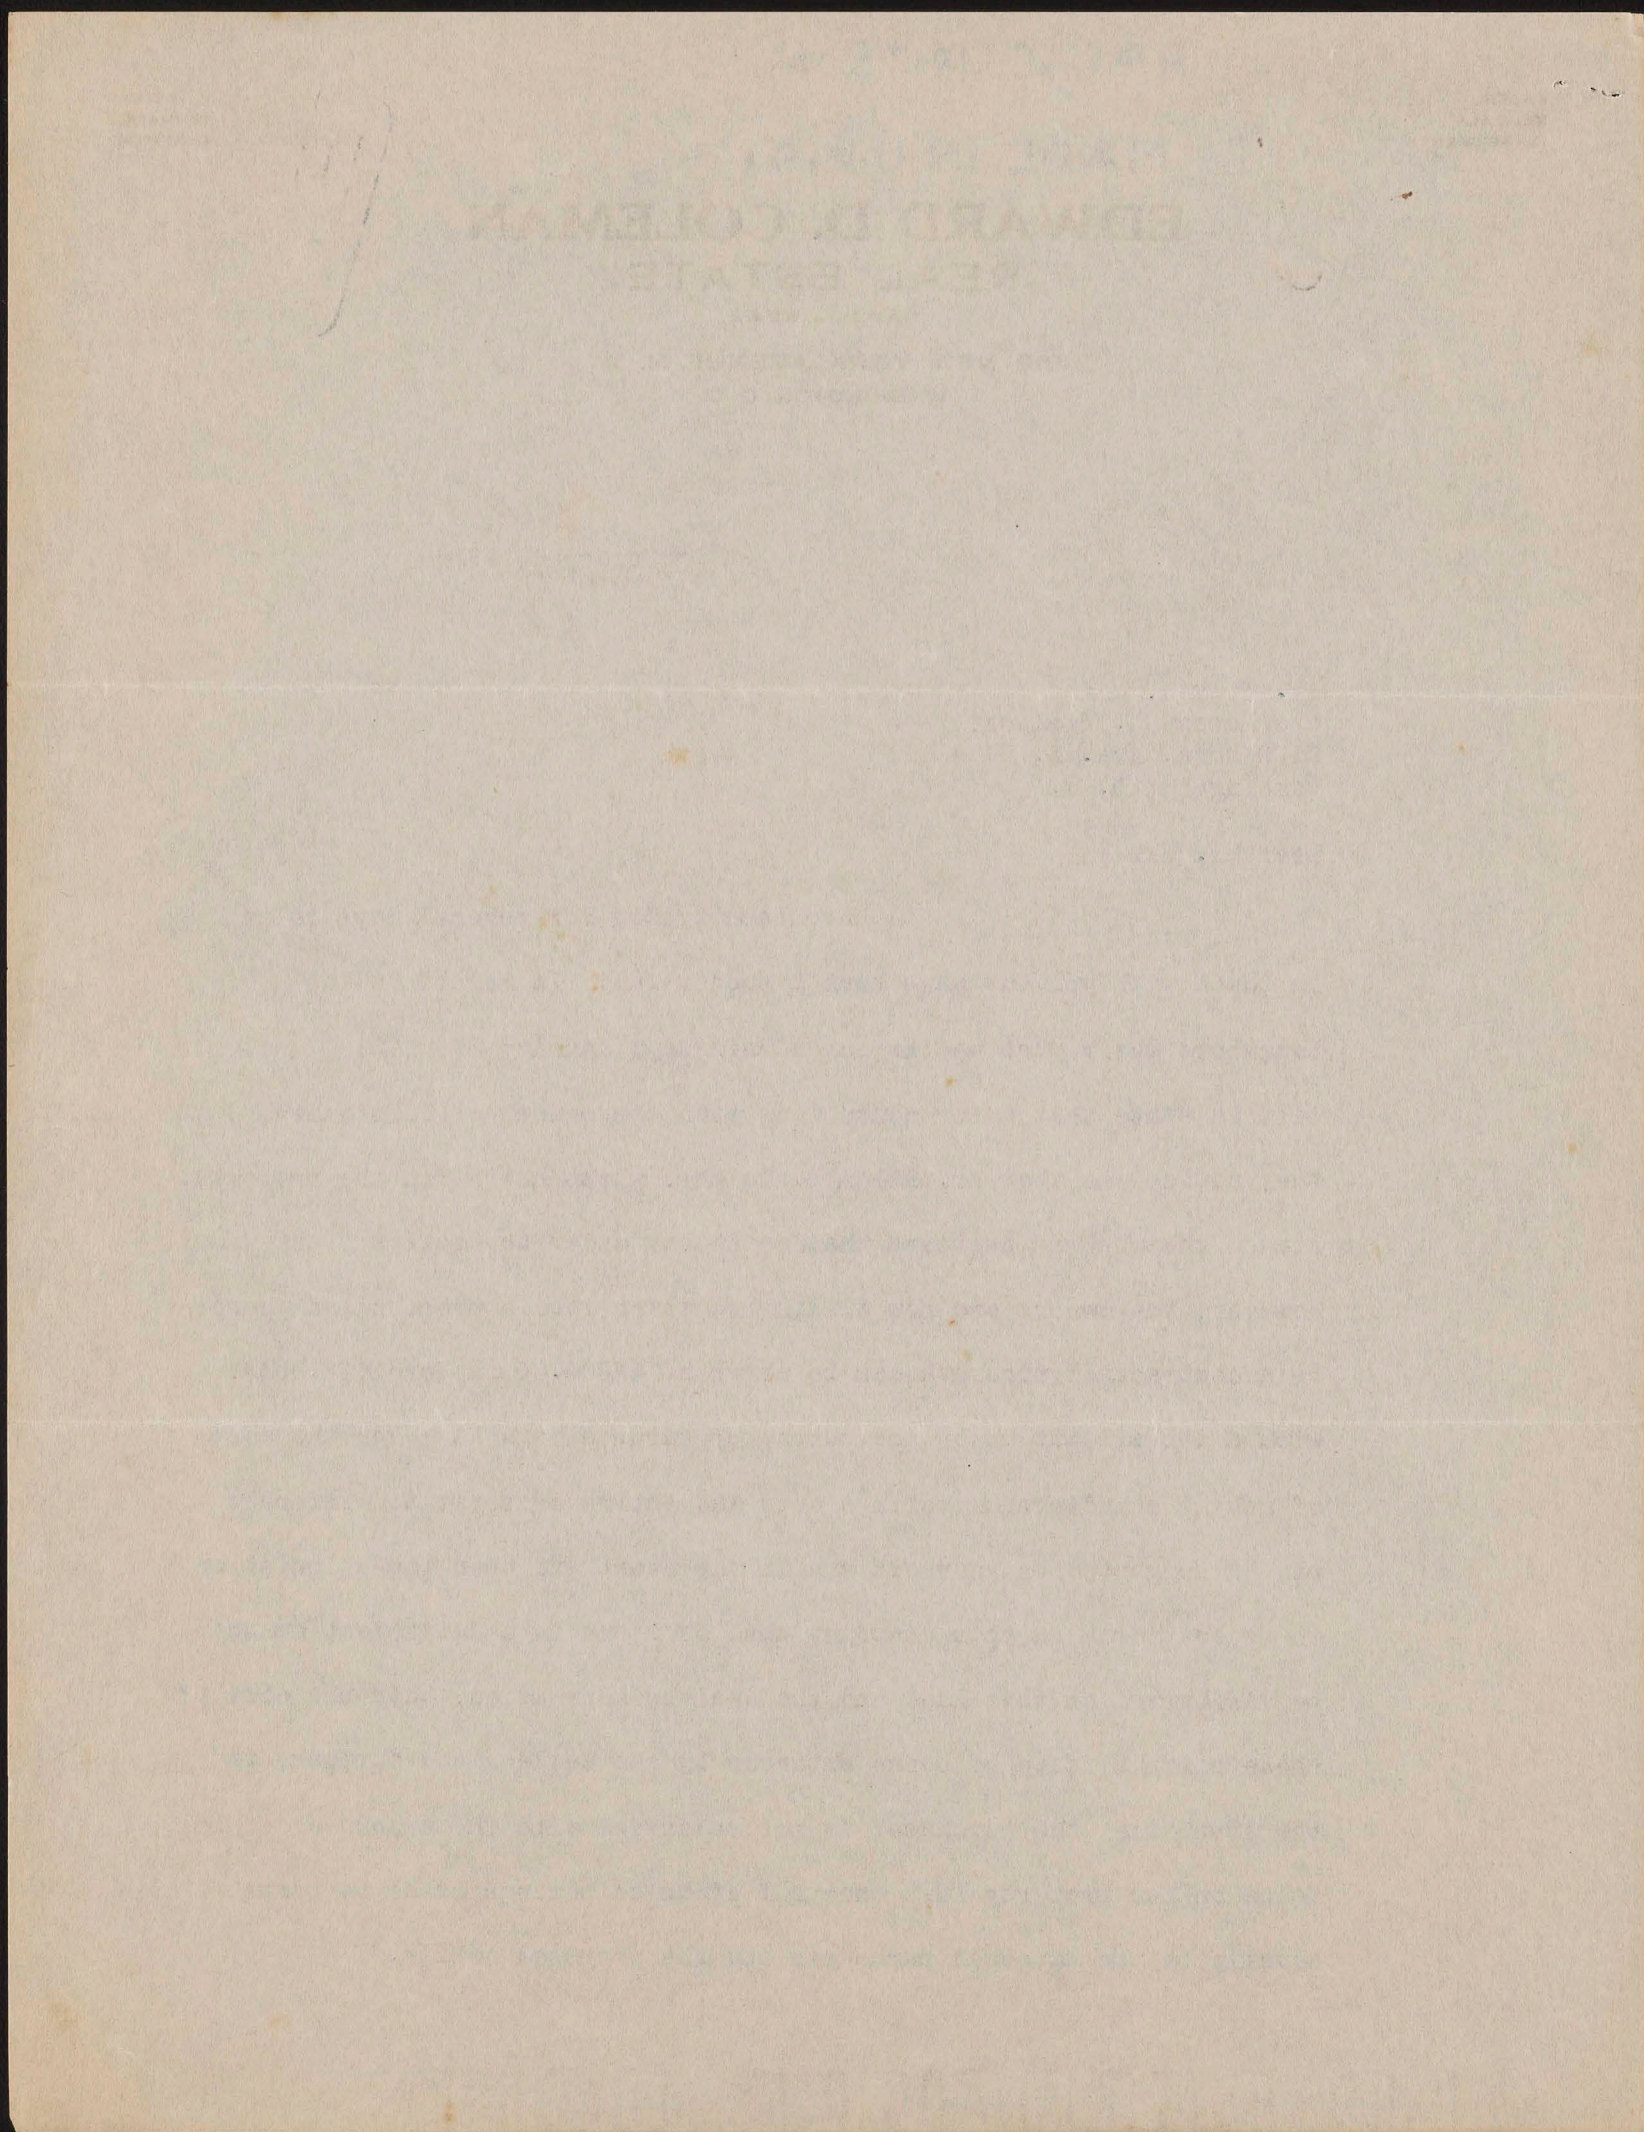

I have been trying for several days to get in touch with you but have been unsuccessful. In regard to the Loughboro Quarry that we inspected Saturday, January 27, 1934, I wish to state that after consulting with the owners of this quarry, they advised me that Mr. Allen E. Walker, whose heirs own the property, stated that he was positive that stone ran under the entire track, however, the owners are now willing to enter into a proposition whereby a contract of purchase can be drawn at \$2000.00 an acre (22.95A) with a deposit put up by the purchaser large enough to cover the cost of making soundings or borings over the entire property at different places suggested by yourself and in the event and upon the stipulation to be set forth in this contract that if stone in a sufficient amount be discovered on this land and the deal be consummated, then the cost of these borings is to be borne entirely by the sellers and further, in the event that the purchaser is not satisfied with the amount of stone found on the property that one-half of these borings is to be borne equally by the proposed purchaser and the proposed seller.

The seller is of the opinion that local well diggers could do this work and that the cost should not exceed two or three hundred dollars. If these conditions meet with your approval, I would be glad to make an appointment with you at my office at any time that you might suggest.

I am further advised by the owners that this stone has been analyzed by the United States Bureau of Standards which has stated that it is the best grade of granite in the country.

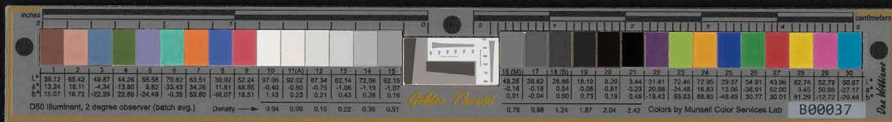

Yours very truly,

Edward D. Coleman

My dear Mr. Wilson

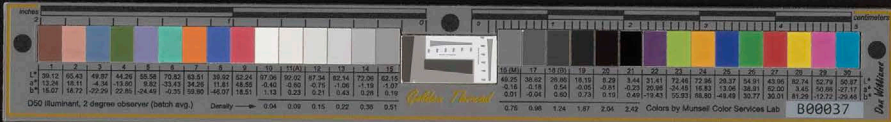

Just heard from Ben - He mentioned you
in both letters - I am glad he got to
see you.

How have you been? You went away
so quickly that I didn't have a chance to
see you. I am anxious to hear from you -
you remember what I asked you one day?
Try your influence - would you?

Your name is still before the people
here - I hope you'd accept the postmaster
office - do! You've been working your head off
for your party - all you got, was a kick in
the pants from them -

I am working hard and trying to make
ends meet over this end. I worry over Ben
a great deal. I am hoping nothing will dis-
courage him there.

START

I suppose you know what is going on here - looks like one of the senators is suspected on graft charges.

Take good care of yourself and here is all the bucks in the world for

you -

Dear Mr. Wilson:-

My home telephone number is 4-2567 in Peoria. If you are pleased to call Tuesday or Wednesday evening I shall be in to receive it.

I believe, again, that a short run down to Peoria and meeting with the Walker people and a view of the plant now building will help you decide in their favor. These people will beyond doubt have the best whiskey distillery in this country if not in the world, and starting from that premise I consider their product will be the equal of any.

I shall look forward with pleasure to meeting you and assisting in whatever way I can.

Very truly yours

Albert J. Zimmerman

John H. Wilson Coming Home

Star-Bulletin Bureau,
Washington, Feb. 14.

John H. Wilson, Democratic national committeeman for Hawaii, plans to depart for Honolulu Saturday.

He has an appointment to talk with Assistant Attorney General Stanley, in charge of personnel, at 11 a. m. Thursday, urging action on Democratic recommendations as early as possible.

Mr. Wilson has been in Washington for virtually a year.

BOURBON ROW THREATENS ON MARSHAL JOB

John H. Wilson To Be Asked Why He Backed Smiddy Against Party Choice

John H. Wilson, Democratic national committeeman for Hawaii, will have to explain when he returns to Hawaii soon from Washington his attitude in connection with the post of U. S. marshal for the territory.

This was indicated today when certain members of the territorial central committee asserted they will ask Mr. Wilson why he disregarded party rules and submitted the name of Jerome Smiddy for the office.

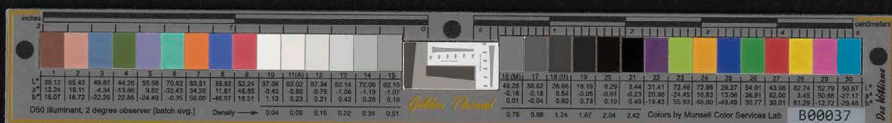

Louis K. Silva, former deputy marshal when Mr. Smiddy was marshal, was indorsed as first choice by the central committee. Second choice was Otto Heinie, another deputy under Mr. Smiddy. Third choice was Mr. Smiddy.

It was learned today that the central committee on February 7 radioed to Homer Cummings, U. S. attorney general, protesting against the attitude of Mr. Wilson as indicated from Washington press reports. A similar message was sent to Delegate Lincoln L. McCandless.

Asked for a statement, Mr. Silva today said he interprets from the reports of the imminent appoint-

ment of Mr. Smiddy that his name had never been submitted by Mr. Wilson.

"Until such time as I am eliminated from consideration, it seems to me that my name should have been submitted by the national committeeman from Hawaii," Mr. Silva said.

Mr. Silva asserted that the appointment might be made before Mr. Wilson returns home and has an opportunity to explain his attitude to the central committee.

Dear Mr. Wilson:

for use

This company will furnish/in the territory of Hawaii, one of its improved Pavement Planing Machines, and 60 H. P. Caterpillar Tractor, equipped with rubber street shoes, and pay the costs of operation, which shall include transportation, the services of experienced operators and pay their salaries, and all other incidental expenses in connection with performing work as per the specifications attached hereto, for the sum of Eleven and one half (.115) cents, per square yard.

Should you be successful in securing contracts in the territory of Hawaii for me, within a reasonable time, I agree to pay you ten percent (10%) of the gross amount of money received by me, from said contracts.

However, if you are able to obtain more than the Eleven and one half (.115) cents per square yard, all above that amount will be split 50/50.

The pavement to be planed shall be similar to that which we did in 1930, on Beretania Street and other streets, in the City of Honolulu.

The minimum yardage to be done under this contract shall be not less than 125,000 square yards.

Yours very truly,

ASPHALT PAVEMENT PLANING CO.

PAVEMENT PLANING

Sheet #1 of 2.

Description:

Pavement planing shall be understood to be that method of smoothing the surfaces of pavements which consists of the shaving down of the pavement surface until the surface is free from humps, hollows, ridges, grooves and other irregularities, and until all excess asphalt that has accumulated on the surface has been removed.

No Injury to Pavement:

The planing work shall be performed with such equipment and in such manner that the pavement is in no way injured. The pieces of rock and gravel aggregate in the pavement shall be cut through smoothly and shall not be dragged or torn from the pavement.

All surface Asphalt to be Removed:

The planing work shall continue until even the lowest areas of pavement have been planed and made free of the surface coating of asphalt, and until the aggregate in the pavement is everywhere uniformly exposed.

Surface to be Planed to Uniform Crown:

The planing shall not be considered completed until all traffic grooves have been removed and until the surface has a smooth and uniform crown approximating very closely the crown to which the pavement was originally constructed.

Degree of Smoothness:

The surface of the finished work shall be so uniformly smooth and even that when tested with a ten-foot straightedge placed upon it parallel to center line, the deviation of the surface from the straightedge will at no point exceed one-quarter (1/4) inch.

The finished surface shall be free from gouges, grooves, ridges and other imperfections of workmanship.

Disposal of Cuttings:

The "cuttings" of asphalt and aggregate resulting from the planing operations shall be removed from the pavement and disposed of in a manner satisfactory to the engineer.

Pavement Planing

Sheet #2 of 2 sheets.

Measurement and Payment:

Payment for the planing of pavement will be made at the price bid per square yard for "Pavement Planing", which price shall be understood to include and cover the removal and disposal of the cuttings as well as all other work herein specified to be done or required to fully and satisfactorily carry out the provisions of the specifications and contract.

The quantity to be paid for shall be the number of square yards of pavement actually planed in accordance with the plans and specifications and instructions of the engineer.

Mr. J. H. y Wilson,
2505 East Manoa Road,
Honolulu, T.H.

Dear Mr. Wilson:

The Kaluaaha School, Pukoo, Molokai, has decided to engage in a swine project. In looking the field over, it was decided that it would like very much to raise Hamshires. In this respect, I have been informed that you are the only one in the territory that maintains any good stock in this breed of swine. Kindly quote me your prices on a young boar and gilt. Any consideration you can accord us in the way of a discount will be greatly appreciated. In quoting your prices, I hope it will be possible for you to state the approximate weight of the pigs. If possible, I wish to purchase one boar and two gilts.

Thanking you in advance, and hoping to receive favorable consideration, I remain

Very truly yours,

Mr. A.W. Stanley,
State Farm Insurance Company,
Morgan Building,
Berkeley, California.

My dear Mr. Stanley:-

Since returning to Honolulu, I have had several conferences with my associates and we have come to the conclusion that it would be best to have some one come to Honolulu from your office and to remain with us at least a month or for such time that would be necessary to break in a staff of canvassers and the office, therefore, will you kindly write me stating what you estimate this expense will be. A rough estimate would be acceptable, as we will not hold you to it, just an idea what the salary if any would be. We know what the transportation and hotel expenses would be.

I am mailing under separate cover a copy of the insurance laws of the Territory of Hawaii, which I understand was drafted by your Chicago attorneys, Ekern and Meyers.

I have not yet heard from the home office, would you advise me writing to Mr. Mecherle or have you already taken the matter up with him as regarding to the extending to Hawaii?

With my kindest personal regards to Mr. Beedle and your good self, I am,

Yours with aloha,

Mr. John H. Wilson
Honolulu, Hawaii

Dear Mr. Wilson:

I am taking the liberty of remailing your letter, together with the insurance laws of the Territory of Hawaii, to our Home Office at Bloomington. The decision of whether or not they care to extend the service to the Territory will have to be made by the Home Office before we can proceed further.

I am informed that Mr. Beedle wrote Mr. Mecherle directly after your visit here, and sent him the information regarding the population of the Hawaiian Islands.

I quite agree with you that should the Company decide to give you an agency, it would be desirable for someone, fully acquainted with our program, to assist you in setting up the office and teaching your canvassers the background and story of the Company. I fancy the Home Office will extend you this courtesy without any extra charge, as to the salary of the employee.

I read the copy of the Honolulu Star Bulletin and was particularly interested in the account of the ovation given you on your return. You are to be congratulated upon such a reception; and, I sincerely hope that you will continue in the high regard of the people of Honolulu, as I am sure that you are worthy of this tribute.

Yours sincerely,

Mr. John H. Wilson
Honolulu, Hawaii

Dear Mr. Wilson:

As man to man, I would offer you the suggestion of directing your letters pertaining to securing an agency for the Hawaiian Islands to George J. Mecherle, President, at Bloomington. You appreciate that sometimes people feel that they are being overlooked, particularly if matters of this kind are directed to an inferior office. I have a hunch that Mr. Mecherle will not be very anxious to extend the service to the Islands; and, possibly, you might get a more favorable consideration by also writing to Mr. Myers, of Ekhern and Myers. Mr. Myers is a Counselor of the Company, while I am only employed as a State Director.

We must remember that the Home Office officials have no conception of the type of people who reside in the Islands; but, are quite apt to regard them as a "mess of Japs and Chinamen". The Company is also apt to feel that the volume of business which may be derived from the Islands would not justify the expense of setting up there.

I have greatly enjoyed meeting you, and will hold our acquaintance in high regard. Because of this regard, I am passing this information on to you for what it might be worth, feeling that in your hands it is in safe keeping.

At some future time I may find the opportunity to visit the Islands, and will then be happy to renew our acquaintance.

Yours sincerely,

MUTUAL AGENCY, INC.

Mr. John H. Wilson
Honolulu, Hawaii

Dear Mr. Wilson:

We have received your recent communications showing the status of insurance companies in Hawaii; and, also, the Commissioner's Report. These documents have been forwarded to the Home Office for their consideration.

We have a private letter from Mr. Mecherle, President of the State Farm Mutual, in which he doubted the advisability of entering the Territory of Hawaii because of the limited number of cars there. It appears that a State Agency is not profitable until more than 25,000 cars are insured. This might be overcome by increasing our membership fee and adding enough to the semi-annual premium call to pay a higher service fee to your agents, providing the people would stand for the price.

Doubtlessly, Mr. Mecherle will write you in the near future and you might consider the above suggestion if you wish to promote the obtaining of an agency contract.

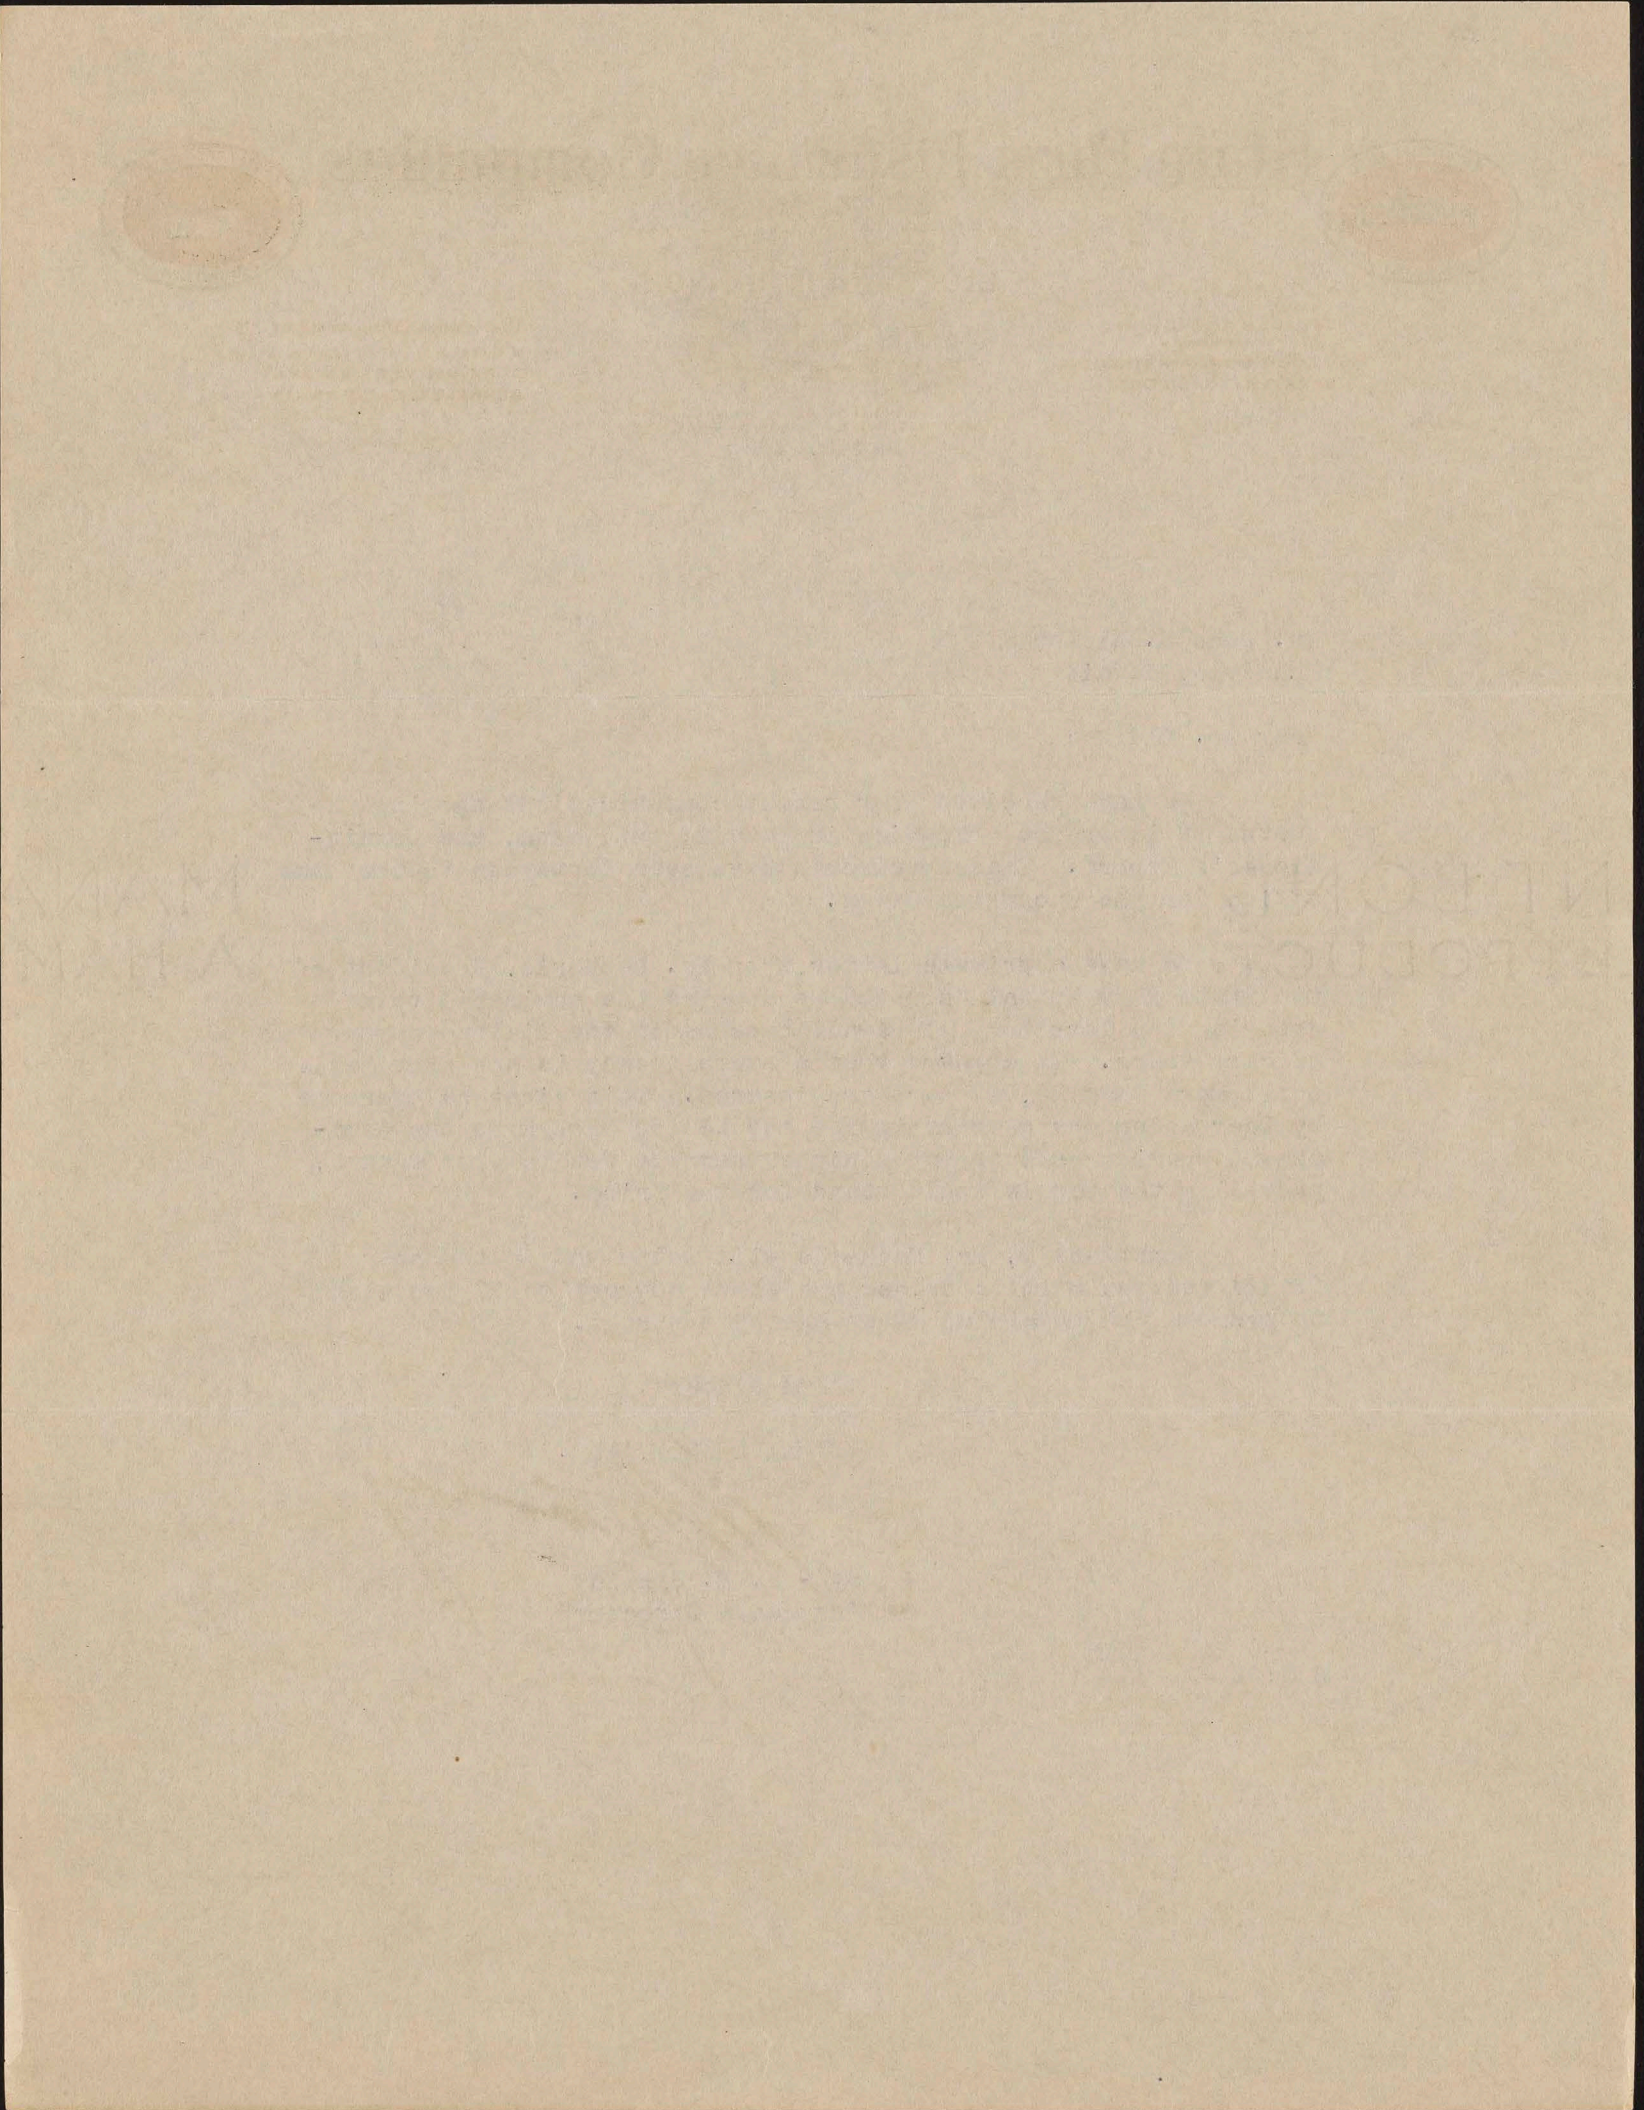

Yours sincerely,

MUTUAL AGENCY, INC.

Dear Mr. Wilson:

It is our pleasure to introduce by means of this letter, Mr. W. J. Cruse of Downey, California. Mr. Cruse has been one of our successful local agents and understands our automobile protection quite fully, and, is also informed somewhat on our agency set-up.

It is a pleasure to introduce him as we believe it will be to your mutual advantage and both of you will appreciate the acquaintance. If agreeable, we would be pleased to have you introduce Mr. Cruse to Mr. Ho.

We would appreciate any courtesy extended Mr. Cruse; and, we are sure that he will be happy to give you any information about our Company which is possible.

Yours sincerely,

MUTUAL AGENCY, INC., STATE AGENT

Mr. A. M. Stanley, Insurance Director,
Mutual Agency, Inc.
Berkeley, Calif.

My dear Mr. Stanley:-

I am pleased to acknowledge receipt of your two letters dated the 20th ult., and wish to thank you for your kindly advise, re-applying direct to Mr. Mecherle for the Hawaiian Agency.

There seem to be some misunderstanding for that is just what I did do. I communicated with Mr. Mecherle by phone on February 26th. I inquired whether or not I should go to Bloomington or should I wait his arrival in Chicago. The weather was rather cold those days so I was compelled to stay in doors most of the time. He instructed me to call on his attorneys Messrs Ekhern & Meyers who would instruct and advise me as to procedure and this I did.

I found Mr. Meyers, Mr. Ekhern at that time was in Bloomington. Mr. Meyers gave me at least two hours of his time relating the history of the company and its workings, then advised me to take the matter up further with Mr. Beedle, the Secretary of the company, who he said, "was located in Berkeley and probably we would have to operate as a branch to Berkeley due to our location."

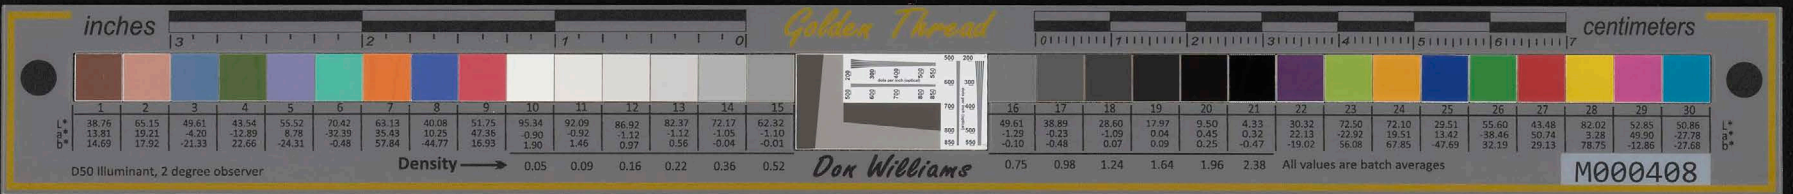

I called on Mr. Beedle as you know. He had already received a letter from Mr. Meyers or the main office, for he was looking for me. From this point on I need not say more for you know all that transpired while I was a caller at your Berkeley office. I understood Mr. Beedle to say, as I was leaving, that he would take the matter up with the home office, hence the reason I did not communicate or write the home office after my visit at Berkeley. Again, I was somewhat timid about writing to Mr. Mecherle after Mr. Beedle said he would take the matter up with the home office. I was afraid I might get our wires crossed. If you still think I should write to Mr. Mecherle, kindly write me at your earliest convenience.

With kindest personal regards and best wishes, I am,

Yours very truly,

JOHN H. WILSON

Dear Mr. Stanley:

I am pleased to acknowledge receipt of your two letters dated the 10th and 11th, and wish to thank you for your kind advice, referring me to Mr. Wheeler for the Mutual Agency.

There seems to be some misunderstanding for last I had been communicated with Mr. Wheeler by phone on February 28th. I understood whether or not I should go to Washington or should I wait his arrival in Chicago. The answer was rather cold those days so I was compelled to stay in town most of the time. He instructed me to call on Mr. Wheeler when I began and would instruct and advise me as to procedure and this I did.

I found Mr. Wheeler at that time was in Washington. Mr. Wheeler gave me at least two hours of his time relating the history of the company and the workings, then advised me to take the matter up with Mr. Wheeler, the Secretary of the company, who he said, was located in Berkeley and probably we would have to locate at Berkeley due to our location.

I called on Mr. Wheeler as you know. He had already received a letter from Mr. Wheeler of the main office, for he was looking for me. From this point on I need not say more for you know all that transpired since I was a caller at your Berkeley office. I understood Mr. Wheeler to say, as I was leaving, that he would take the matter up with the home office, hence the reason I did not communicate with the home office after my visit at Berkeley. Again, I was somewhat timid about writing to Mr. Wheeler after Mr. Wheeler told me would take the matter up with the home office. I was afraid I might get on your nerves. If you still think I should write to Mr. Wheeler, kindly write me at your earliest convenience.

With kindest personal regards and best wishes, I am,

Mr. John H. Wilson
Honolulu, Hawaii

Dear Mr. Wilson:

Your letter of the 14th was awaiting me on my return to the office this morning. In my former correspondence I did not mean to criticise your actions; but, rather to give you a friendly tip which would lead to your ultimate success. I am sure that you understand the suggestions were submitted with the kindest of feelings.

In my morning's mail I was somewhat disappointed to receive a letter from Mr. Mecherle, President of the State Farm Mutual, a copy of which I enclose. This letter indicates that he is of the opinion that it would be unprofitable to undertake writing business in Hawaii, and sets forth his reasons for this decision. The letter also indicates that I have almost been obnoxious to him in my support of your aspirations. While I am disappointed in this decision, I must concur in Mr. Mecherle's conclusions.

Our agent, Mr. Cruse phoned that he was leaving last Saturday for Honolulu; and, that he would be very glad to call on you while there.

Yours sincerely,

May 11, 1935.

Mr. A. M. Stanley,
State Farm Insurance Companies,
Berkeley, California.

Dear Mr. Stanley:

To my mind this Hawaiian situation is not worth the venture. There are now twenty-one old established companies doing business on the Island and probably the most of them write automobile insurance so with 50,000 cars available we could hardly expect more than ten per cent, or 5,000 cars which would not make a profitable agency.

We have enough headaches in the United States without attempting to handle business on such a long distance basis. Furthermore, we can readily see that this venture could not carry any great measure of profit to the Hawaiian agency unless business was written on an entirely different basis than at present.

This compares with some of our lesser states who have a small number of cars but it is almost impossible to insure them and therefore our State Agencies are unprofitable.

The nationalities are so mixed that I do not believe this a favorable place for life insurance.

I believe it would be well to forget the Hawaiian venture.

Very truly yours,

(Signed) G. J. Mecherle

June 14, 1935

Mr. John H. Wilson, Postmaster
Honolulu, T. H.

Dear Mr. Wilson:

For almost a year now, the Hawaiian University Association has been at work studying ways and means of helping the Hawaiians, and at the present is concentrating its efforts on the matter of assisting needy Hawaiian students at the university and the matter of home-steading. We also hope to sponsor a study of the taro problem in the islands and of the matter of encouraging girls of Hawaiian ancestry to take up the study of nursing. According to a Hawaiian nurse who studied on the mainland, paying her own way, there are only two registered nurses of Hawaiian blood, and often demands for a Hawaiian nurse must go unfulfilled. Here is a problem that needs some study.

According to the scholarship committee at the university, there are many Hawaiian students there who need financial assistance in order to finish their college education. We are for the present therefore, concentrating our efforts on the raising of funds to aid such students. Later we shall take care of other problems.

It is our plan to aid at least four students during the next school year on the debt of honor plan, in the hope that the returns from these may be of help to others later, and may with contributions from the association from time to time, help to build a revolving fund for such purposes.

Will you not join with us and favor us with your valuable suggestions for ways and means of helping our Hawaiian people? Dues are 10¢ a month, and in order to facilitate our record keeping, those joining at this time may pay 60¢ which covers dues to the end of the year, or \$1.80 to the end of next year.

Our next meeting will be held at the Y.W. C A. on July 5th at 7:30 P. M. May we have the pleasure of welcoming you at that time? Thank you.

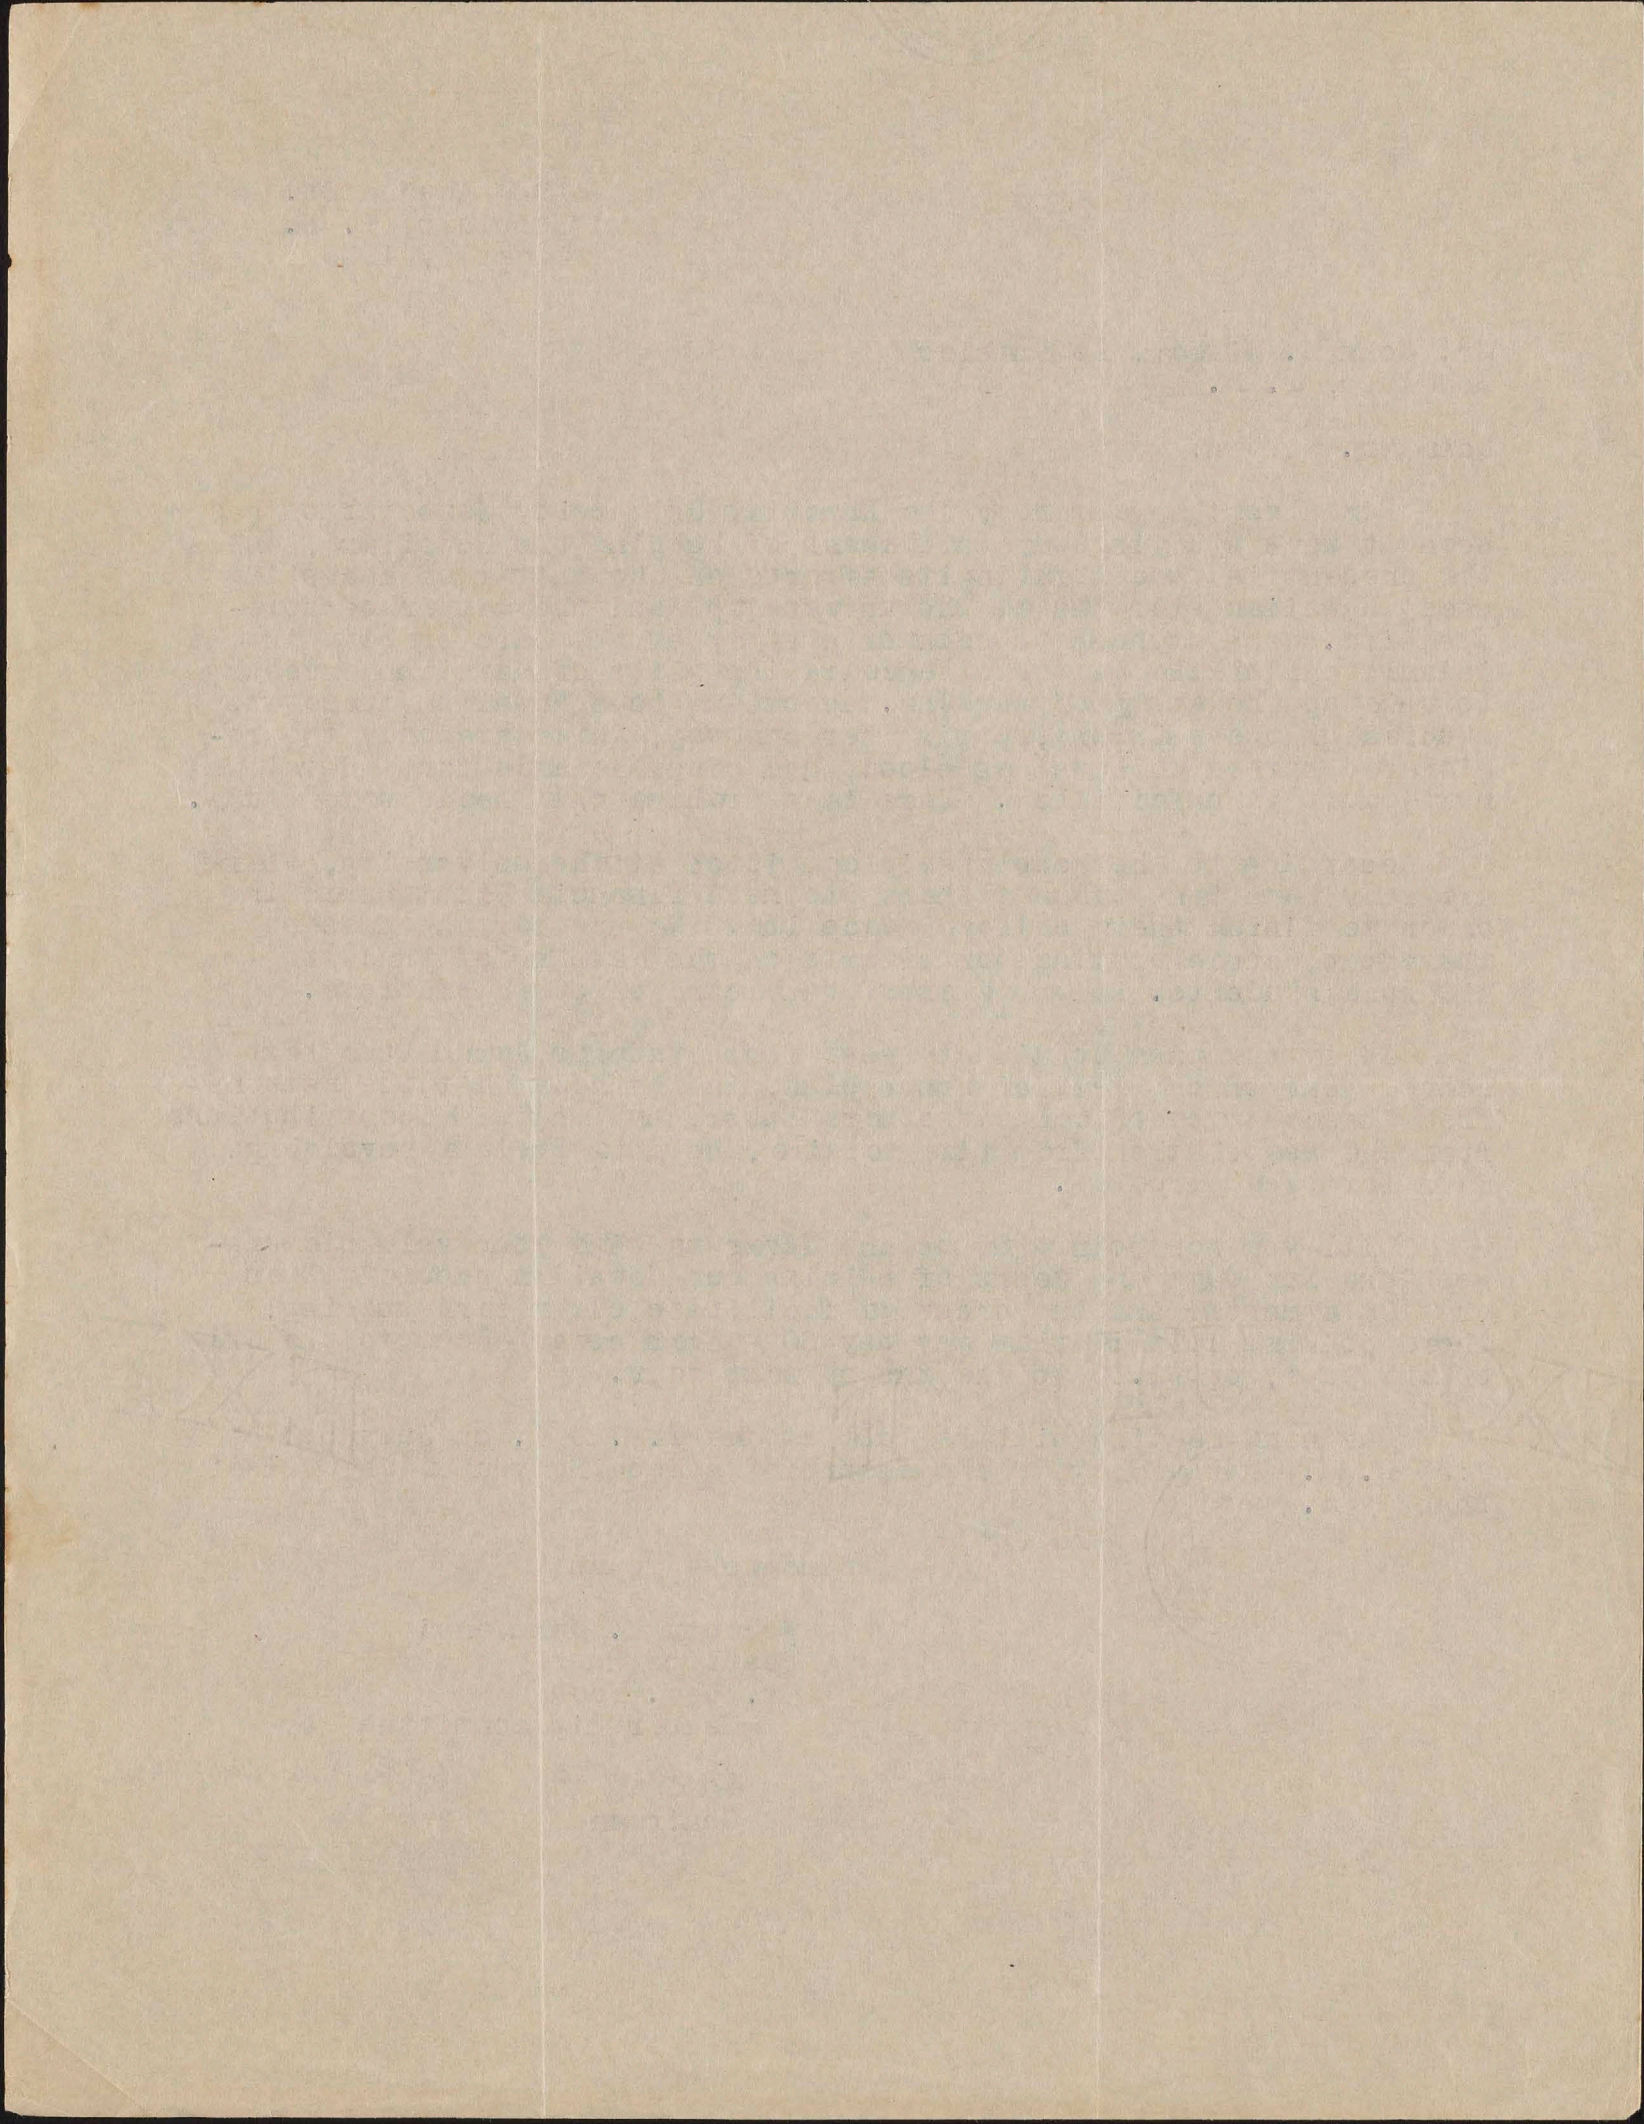

Sincerely yours

My dear Mr. Wilson:

After my conference with you the home office in Bloomington attempted to reach me by long distance 'phone but the matter was mixed somehow so I did not get the call but I have a letter from the home office which arrived today advising that they have canvassed the whole situation pretty thoroughly and feel that owing to the distance and the difficulty of handling the business they do not feel justified in entering any of the companies in Hawaii and establishing an agency there at this time.

They also have a feeling that the business would not develop very rapidly and this might be a disappointment to you and possibly also a financial loss.

Personally, I am sorry that such is the situation as I have enjoyed meeting you very much and it would be a personal pleasure to be identified in some way with Mr. Ho.

If you and Mr. Ho are still desirous of entering the insurance business I suggest that you ask the California Insurance Department for a copy of their last annual report which gives the list of companies, or possibly you will be able to secure one in your territory. This gives a list of the companies operating in California and you may be able to find some company there that may be interested in opening an agency in Honolulu.

I am sorry I cannot be more help to you but naturally we are only attorneys for the company and do not control their business policies.

With best wishes and kind personal regards to you and also Mr. Ho, we are

Very sincerely,

Territory of Hawaii
Office of the Commissioner
of Public Lands

Honolulu

July 22, 1935

Mr. John H. Wilson
Honolulu Post Office
Dear Sir:

Joint Resolution No. 8, Session Laws, 1935,
approved May 11, 1935, provides that:

"Section 1. The Territory of Hawaii shall, and it hereby waives all and every claim it might or could have against the purchasers of Waimanalo Beach Lots for interest payments from and after December 14, 1935.

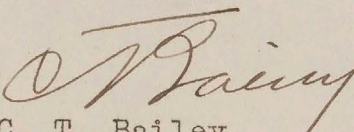

"Section 2. From and after December 14, 1935, the balance due the Territory of Hawaii by any purchaser of said Waimanalo Beach Lots shall be paid up in ten equal annual installments, and the time required for the erection of improvements shall be extended a period of ten years.

"Section 3. Any purchaser of said Beach Lots failing or unable to make regular payments may forfeit and surrender all his rights and interests in said lots upon written notification to the commissioner of public lands of such forfeiture and surrender, and the governor and commissioner of public lands shall thereupon waive any and all claims which the Territory may have under and by virtue of the agreement by which said lots were purchased."

The amount due the Territory under your Special Sale Agreement No. 1169, covering Lot 127, Waimanalo Beach Lots as of December 14, 1935, if no additional payments are made prior to that date, will be \$1,102.50 on purchase price, and \$661.50 interest.

Please inform me whether you expect to be able to make the payments as specified in Section 2 or desire to forfeit and surrender your rights and interests in the property as provided in Section 3.

Very truly yours,

C. T. Bailey,
Commissioner of Public Lands

Honolulu

Dear _____

Joint Resolution of the Legislature, 1955, approved May 14, 1955, provides that:

"Section 1. The Territory of Hawaii shall, and it hereby gives all and every claim of right or title in and to the lands of the Territory of Hawaii for interest payments from and after December 31, 1955.

"Section 2. Any purchase of land under the provisions of the Territory of Hawaii by any individual or individual partnership, and the time period for the extension of payments shall be extended a period of ten years.

"Section 3. Any purchase of land under the provisions of this act shall be subject to the same terms and conditions as set forth in the act of December 14, 1955, and the provisions of the act of December 14, 1955, shall apply to such purchase.

The amount due the Territory under such special sale agreement shall be paid in full at the time of purchase, and if no additional payments are made on such date, the same shall be considered as interest."

These provisions apply to the purchase of land under the provisions of the act of December 14, 1955, and the provisions of the act of December 14, 1955, shall apply to such purchase.

Very truly yours,

Commissioner of Public Lands

MAMALAHOA CHAPTER NO. 2

Order of Kamehameha

HILO, HAWAII

July 28, 1935.

Mr. John H. Wilson,
Honolulu, T. H.

Dear Friend:

This will introduce to you, my brother-in-law, Comfort Eaton, who recently graduated from the Kamehameha School with a high scholastic standing. He made a very creditable record during his five years in that institution; holding the rank of Major during his last year. I have been informed that in order for a student to be granted the rank of Major, he must attain a record in studies, conduct, etc, that is far above that of the average student. During the last three years, this young man has applied himself to the study of electricity, but his ambition is to study Civil Engineering. The field of engineering in the Territory is very limited, and that is the reason why he has devoted more time to electricity than engineering.

I have taken a keen interest in the affairs of this brother of mine, and I have dreamed dreams for furthering his education. He has shown so much progress during his last years in school, that to me it would be a pity to have him stop now. However, like many of those who have a family of their own, I am unable to plan further. His two brothers, ages 38 and 31, who have been in the States for the past 10 years, have also taken an interest in this brother, but like myself are unable to plan definitely due to lack of finances. However, thru the help of friends who are graduates of the University of California, a plan has been worked out so that he could enter that institution if he is able to "work his way up to the States." This he has tried to do, but every avenue so far, seemed to be blocked. I am writing this letter to you with the appeal that perhaps thru the good offices of Mr. Doyle, the Collector of Customs, passage to the States could be arranged on the many ships that ply between the Mainland and Hawaii. This young man is able and willing to "work his way up as an ordinary deck-hand, kitchen helper or what not," and I would appreciate it very much if it would be possible for you to assist him in any way.

Thanking you for any assistance you may be able to render this promising young Hawaiian, and hoping that he will be fortunate enough to be able to further his education, I remain,

With kind personal regards,

William H. Silva.

Hon. John Wilson, Postmaster,
Honolulu, H. T.

Dear John:

My young friend Augustus Dixon Adair, Jr.,
is taking a trip across the Pacific and will stop for
a few days in Hawaii.

Mr. Adair is a recent graduate of Princeton
University and his family and mine have been life long
friends, his father being one of Atlanta's most prominent
business men.

While in Honolulu he may have occasion to call
on you and if so I very warmly commend him to your courtesy
as being a fine young man and as being in every way worthy
of your confidence.

With best wishes, I am,

Sincerely yours,

Mr. John H. Wilson
Postmaster of the
Territory of Hawaii

My dear John Wilson:

The bearer of this letter, Miss Margaret E. Horr, is one of my constituents and neighbors. She has had fifteen years of experience as a stenographer and general office worker.

While in Los Angeles, Miss Horr was connected with one of our important businesses in a trusted position, and she naturally supposed that she would be there for the balance of the time she wished to work. However, due to the depression, the business was compelled to cease operations, and Miss Horr came over to the Islands with the promise of a certain type of employment which has been disappointing to her.

I know Miss Horr to be a competent stenographer and office secretary, and I am very anxious that she secure the type of position for which she is so well qualified.

I know further that you will give her your endorsement and say a good word for her to the Federal Housing or PWA administrator, and should they find a place for her, she would be a credit to them.

Thanking you again for your courtesy and kindness, believe me to remain,

Yours sincerely,

John F. Dockweiler

Dear Mr. Wilson:

I wonder if you would like to have this very clever cartoon by Stuart Patton which was published in The Star-Bulletin during Mr. Farley's visit?

It seems quite appropriate for such a cartoon to go to a postmaster, and I thought you might like to have it.

Yours very truly,

Riley H. Allen

Makawao, Maui

Sept. 11 - 1935

Dear Johnny.-

I should have written to you sooner but Daa had told me that you were coming up, then I heard later that you were coming up to inspect the post offices, but as you haven't done so, I decided to write to you. I hate to bother you but I do not know who to go to for help and advice on that Dikiha place. I just heard lately that Keala died. Do you think there could possibly

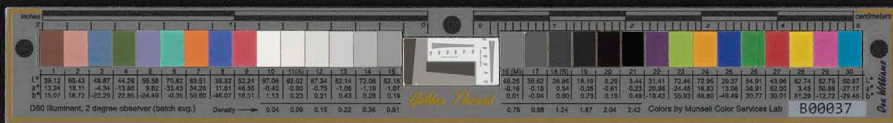

START

be any Chinese or Japanese here who would lease or buy the place since there is hardly any other race living up there excepting Japanese & Chinese, because I have just been notified that the last payment of my frontage tax is due on January 3. some thing I didn't know before.

Mr. Harry Baldwin advised me not to sell that place but to buy and lease it instead. I want to try and get something coming in from that place - as I need the money.

I'm bilahida to bother you but since you are in town and I know what's going on there

may be you can give me
some advice about the place,
I guess you were kept busy
while the Farleys were here.
Read all about the man
(Hmohulu Tenis) passed the
papers over to the Thompsons.
We are having very dry weather,
no rain lately.
I hope you are both well.
With lots of aloha to you both.

Minerva.

END

Sept 13th 1935.

My dear Minerva:-

I am glad to hear from you. I have not forgotten the Liliha Street property. I have taken several Japanese up to see the property and I find the place terribly run down. Keala and his folks did not give the place proper maintenance.

I have had several offers but none that I thought was worth while reporting to you. Since the place is run down one cannot expect much in rents, unless new buildings were erected. Then, nobody would care to put up new buildings, unless a long lease were given. I have an offer for a long lease, so have requested this party to submit an offer in writing, which I will send to you as soon as I receive it.

It may be best to borrow money from the Federal Housing and put up some new buildings, which could be used as 25 per cent for business and 75 per cent residential. Through the Federal Housing I think we can make the place pay for itself for the next 10 to 15 years, which would be a load off of your shoulders. I

I will wait a little longer and see first what kind of an offer I will receive from the Japs and if the offer is not worth while, we then can consider the Federal Housing. I believe an up to date office building for Oriental doctors and dentists, which they could use both as office and a residence would pay in that locality.

If you are doing nothing why don't you come to Honolulu for a week or more? I have been wanting to take a run to Maui and was in hopes of making it when the Farley's were here, but, they did not stay long enough.

Come to Honolulu whenever you feel like it and come right up home, or if you let me know a week a head, I will meet you at the boat. You shouldn't be hila-hila to ask me for anything, I want you to feel as much at home with me as when Sam was alive, so call on me whenever you need me. Kini will be glad to have you also, so don't think the invitation is from me only.

We are both as well as can be expected for persons of our age, so wishing you are enjoying the best of health, I am,

Yours with aloha,

You will no doubt be very surprised to hear from me, but I have decided to write asking a favor of you.

I shall never forget your kindness to me, while living with you, and the opportunities that might have been mine if I had stayed with you, but because of the handicap I had, namely, my stammering, I didn't expect that some day I would be debarred, but I can thank God, that all that has been taken away.

You know, no doubt, that I am now in the ministry, preaching the Gospel of Our Lord Jesus Christ for about seven years now, and am really enjoying the work I am engaged in. For quite a while I have been wanting to get into

Hon. John H. Wilson, Postmaster
Honolulu, Hawaii

Dear Sir:

We are endeavoring to simulate various opinions as to just what constitutes the native drink known as "Okolehao". We find that an extremely divergent and varied employment of raw materials have been and still are used in the manufacture of "Okolehao" until the word has practically become synonymous of Hawaiian bootleg.

Perhaps the only genuine and individual characteristic of the drink is derived from the employment of the native Ti Root.

We have been manufacturing an "Okolehao" at this plant which has been accorded popular reception as being as characteristically similar to the bootleg "Okolehao" as legal manufacture can accomplish.

Will you therefore be so kind as to write and give us a concise expression of your personal definition of "Okolehao", expressing in it the numerous products known by you to be employed in its manufacture, such as Rice, Sugar, Corn, Molasses, etc.

Your early response will be appreciated.

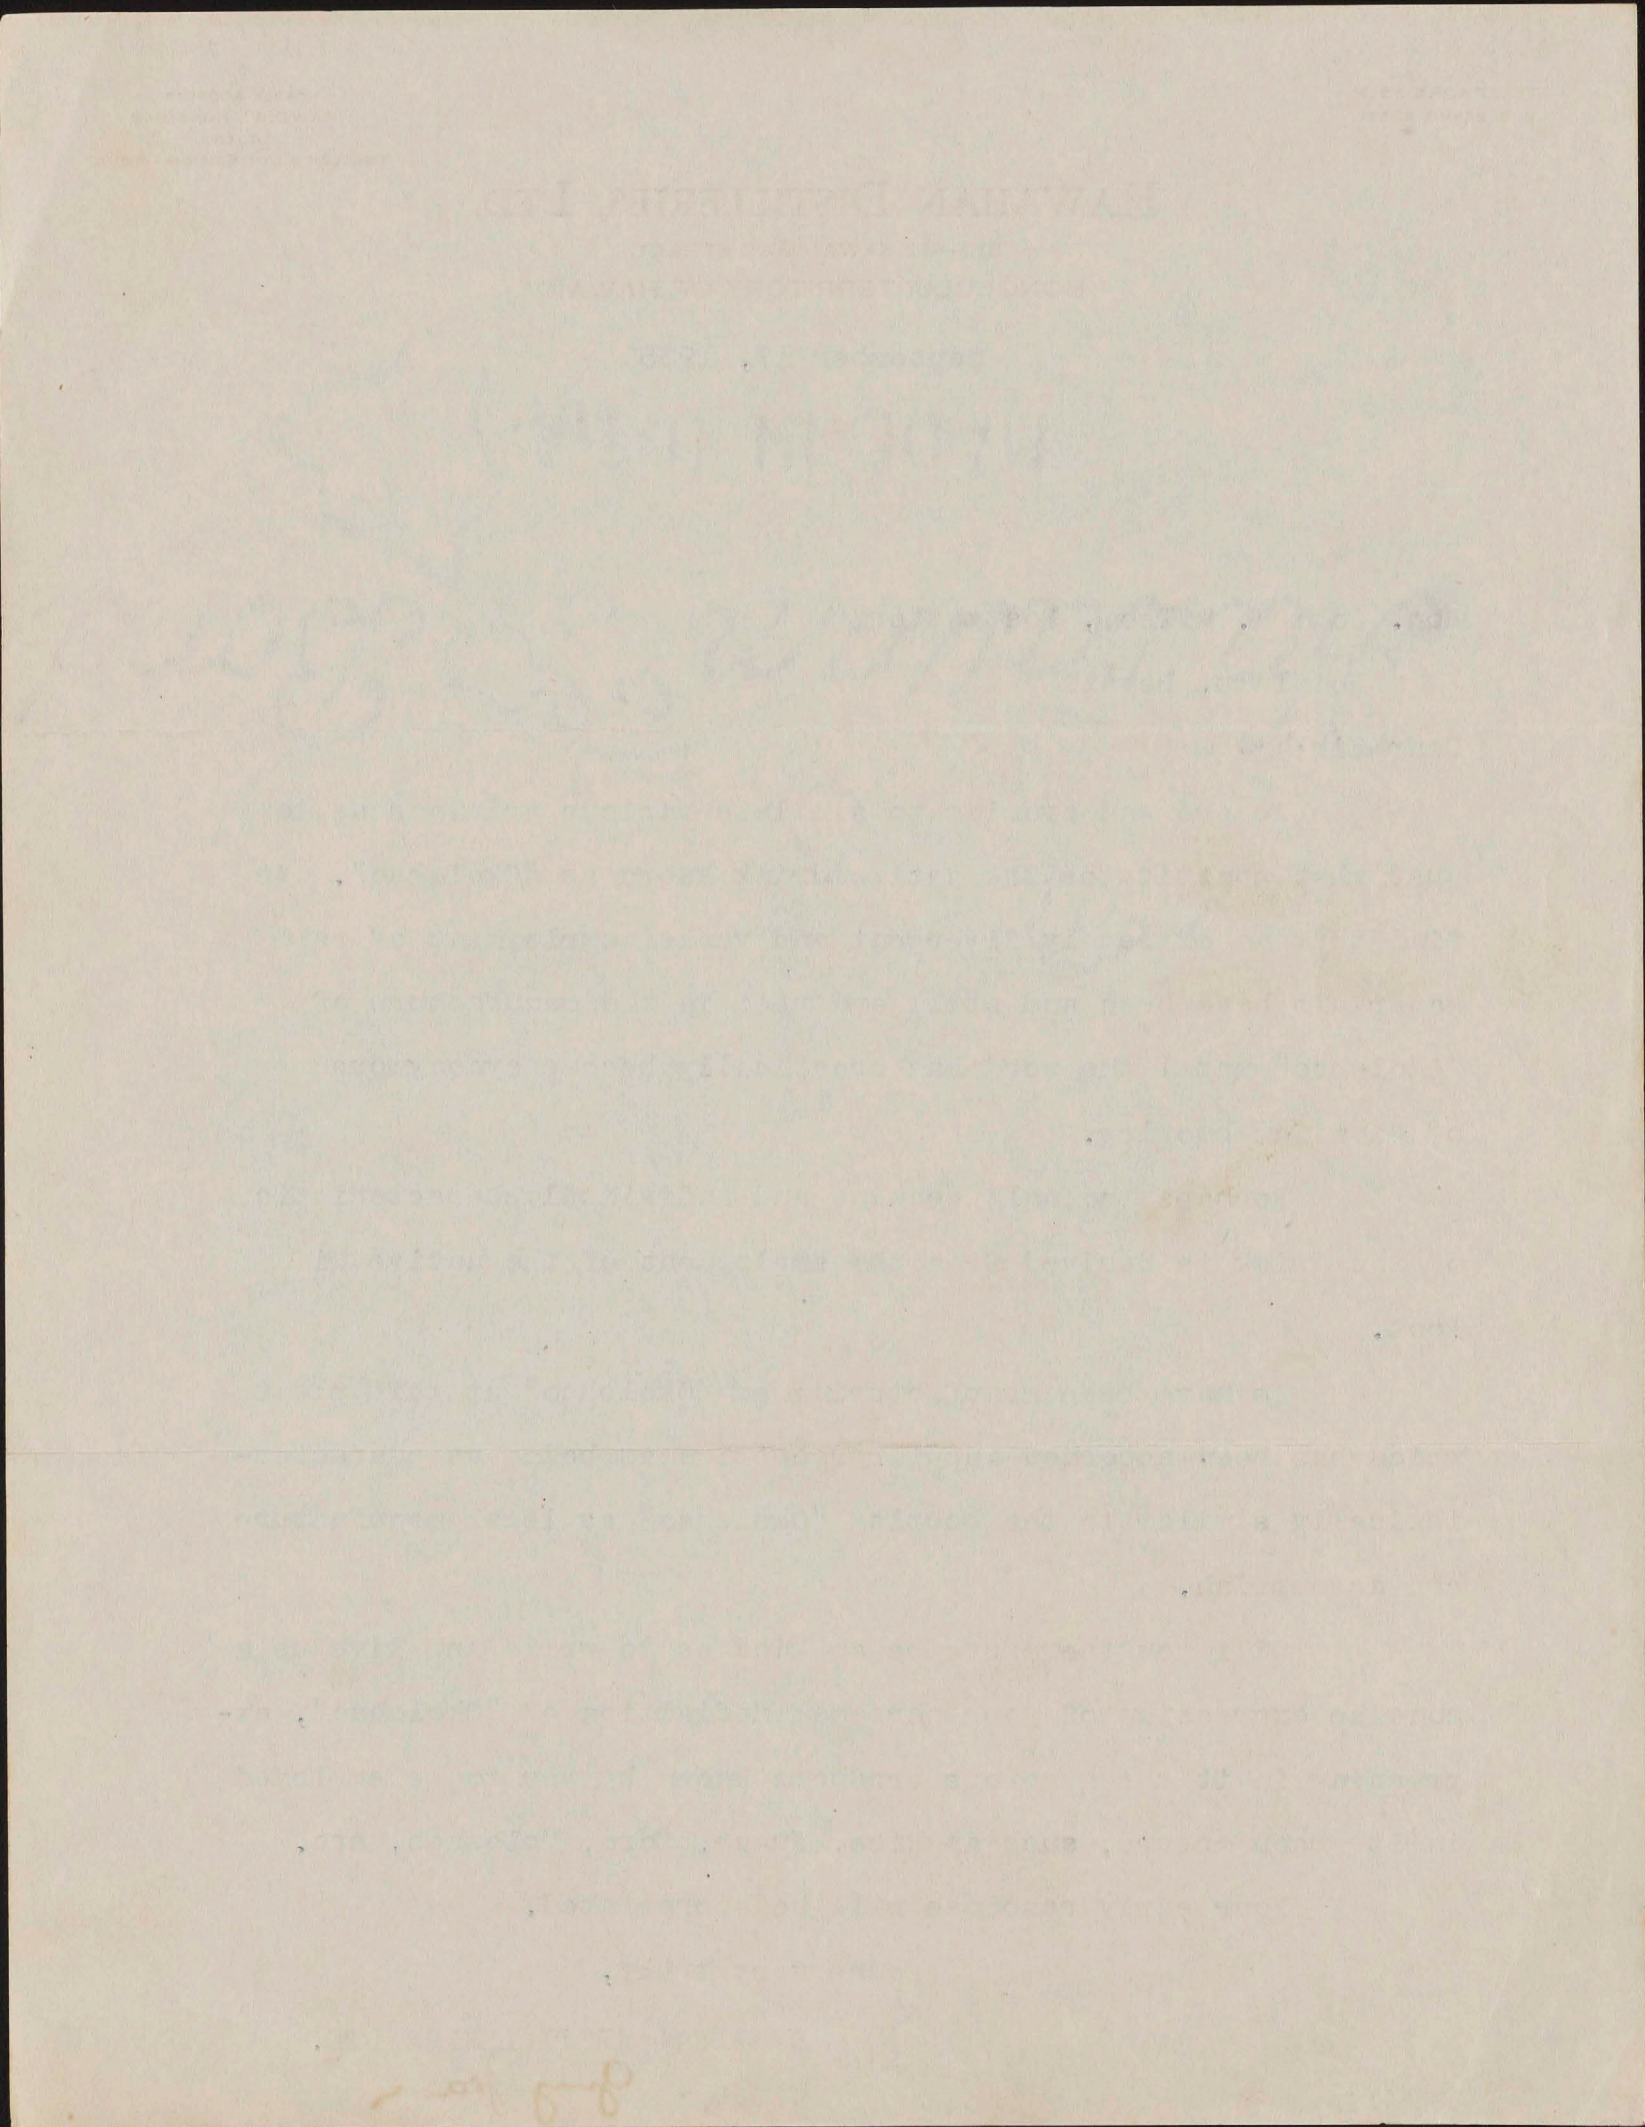

Yours very truly,

HAWAIIAN DISTILLERIES LTD.

Hon. Mr John H. Wilson
Post Master Hawaii
Honolulu

Dear Johnie

Will you kindly advise me how to get a copy of the mining laws as passed by Congress of U. S. A. We have some Patented mines which our father left us upon his death ^{in 1873} we have incorporated these mines! all ^{of them are} in the State of Nevada under the Names of the "Union Mine Co" the "Aloha Mine" the "Annabelle Mine Co", and the "Puiki Mine Co." & all U. S. Patented, and taxes on all of them paid up to date. wishing to keep these mines in the family. and having no money to work them, we have thought it best to let them await the time when silver, gold, etc. would come again into its own. we think the time has come with the U. S. A governments help to try and work the mines in the latter

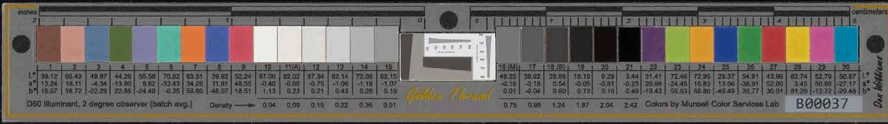

START

part of Spring of next year after the snow season
is over - I feel that your influence in Washington
could help us to get a copy or two of the Mining
laws of the State of Nevada U.S.A. I would appreciate
it so much and Johnnie I certainly wont
forget you and Jennie ke hiki mai hoi ha
laki, these mines have all been assayed by
expert Mining Engineers giving good reports
the union mine has a ^{true fissure vein from} 20 to 21 ft. in width ^{gold, silver}
lead, copper, the Aloha mine has a spring of water
Excuse errors I am writing in a hurry to
catch mail. . answer please and let me know
what you can do for me, I would appreciate
it so much; Aloha oe a nui, much love
to Jennie let me know the cost of Mining
Laws (copies) 2 if not too expensive thank you.

Oct. 15-1935

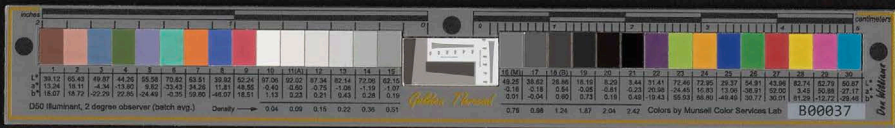

My dear Johnnie:-

This will introduce to you a very good young friend of mine, Leo De Mers. He is on the Lurline, taking a trip to the South Seas and is with the Ship's Orchestra.

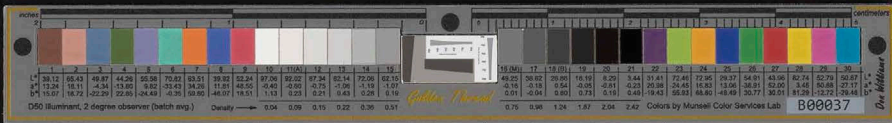

During the summer he has made several trips to Honolulu and therefore is no stranger in your City. I have often thought of having him drop in on you and say "Hello" in my behalf and on his return here, let me know what you look like now days.

Well Johnnie its a long, long time since we were together on the original Stanford Campus, and I know that all of us look back on those days

START

[Faint, illegible handwriting on aged paper]

2.

123 REQUA ROAD
PIEDMONT

with a great deal of pleasure.

Last Saturday I went down to the Stanford - U. C. L. A. Game and you are no doubt fully aware of Stanfords 7-6 defeat. During the afternoon, I called on our dear old friend, Daddy Marx. He has faded considerably during the past two years. You know he is getting pretty old now. I know of no happier event in my life (except when I was married) than the day that our good friend, Shirley Baker and myself went down to see Daddy on X'mas Day of 1925 and presented him with a gift of about \$5400⁰⁰ from his former students. I treasure very much his letter of acceptance of this gift.

3.

This letter I have in my possession.

Also saw Dr. Angell. Sorry to report that I found him in bed with heart trouble. He looked quite frail.

See Bully Dean occasionally. I believe he gave me the information that you had the Post-Master's job.

In closing, I sincerely hope that you and family are in the best of health.

Give my very best regards to any of the old Stanford boys and any others who may be around.

Personally I am feeling very well and so is all my family. Two of the boys Dave Jr. and Jack have graduated from Stanford. - 1925 & 1933. Good bye for the present

Sincerely Dave Brown

MEMORANDUM TO MR. L. A. CALLAHAN.

RE: OFFICE SPACE.

Dear Mr. Callahan:

It would seem to the writer to be highly desirable that all the Divisions of the Treasury Department engaged in the accounting and disbursing of relief funds be housed in the same building. After investigating the possibilities of such a plan we find insufficient space available in Government owned buildings at this time.

In order to obtain space sufficient in size to care for the needs of your office and the U. S. Treasury Accounts office, it will be necessary to seek quarters in non-Government owned property. The cost of occupancy of non-Government owned property, after following through the regular procedure in regard to bids, etc., should be divided proportionately between the Disbursing office and the Accounts office.

Will you kindly give us your thoughts on this matter, both as to the desirability of obtaining space jointly with or in the same building with the State Accounts office, and as to what provision you have made in your budget estimates for the rental of space. We should, perhaps, add that there is great likelihood that space will be available in the Federal building here for both your office and the State Accounts office some time in the spring.

Yours very truly,

George F. Titus.

John Wilson,
Postmaster,
Honolulu,
Hawaii;

My dear Mr. Wilson:

This is to thank you for the genuine courtesy extended to my friend Mrs. Dawson during her recent trip to Hawaii. She is back home again and is loud in her praise of your cordial treatment to her.

I was delighted to learn that you were the postmaster at Honolulu. Of course you may remember that I was postmaster here for eight years and nobody can overestimate the importance of the responsibility imposed upon a postmaster, especially in a place like Honolulu.

For the past several months I have been in the throes of angina pectoris, spending most of the time in bed.

I would be glad if you were ever this way to be permitted to extend to you the courtesies that go with the New England tradition of hospitality.

With all good wishes and regards and renewed thanks for your kindly interest in Mrs. Dawson I am as ever,

Very sincerely

Philip Troup

1100 S. Gramercy Dr.
Los Angeles, Calif.
Nov. 20, 1935.

Hon. Samuel W. King
Delegate to Congress
from Hawaii.
Honolulu, T. H.

Dear Mr. King: Aloha.

Knowing of your personal interest in matters pertaining to the welfare of the Territory of Hawaii, and its people, particularly your own native race; the subject matter herewith detailed will no doubt receive your personal cooperation.

Since becoming a resident of this State of California, I have learned that State has on its statute book a law created for the purpose of preventing the marriage of white women to people of "Malayan Descent", Phillipinos in fact. This same law includes Hawaiians in all its classifications. Hawaiians of the native Polynesian type are classed as of Malayan Extract, several applicants to marry white women were refused marriage license, the latest being young George Buddy Beckley, son of the late George C. Beckley and Beatrice Campbell Beckley. This case was brought to the notice of California's Governor Merriam, also to the attention of Hawaii's Governor. Nothing could be done in the matter as far as California is concerned, for the law is explicit and enforceable, the officials do not intend to permit its repeal if in case some attempt be made to eliminate its Hawaiian contention.

In the Beckley case, I loaned Mrs. Beckley for the purpose of convincing local officials that native Hawaiians were Polynesians, a copy of the first edition of "Fornander's account of the Polynesian Race, its origin and migration. Also the World's Almanac (1930) in which the U. S. Census Bureau classify the Hawaiian people as "Hawaiian, Caucassian-Hawaiian and Asiatic-Hawaiian. It did no good, it was not authentic. The Encyclopedia Britannica classified Hawaiians as of Malayan Extract, that's good and authentic information for California's guidance therefore, we Hawaiians are Malaysians and not eligible to equal rights as citizens under the American Constitution.

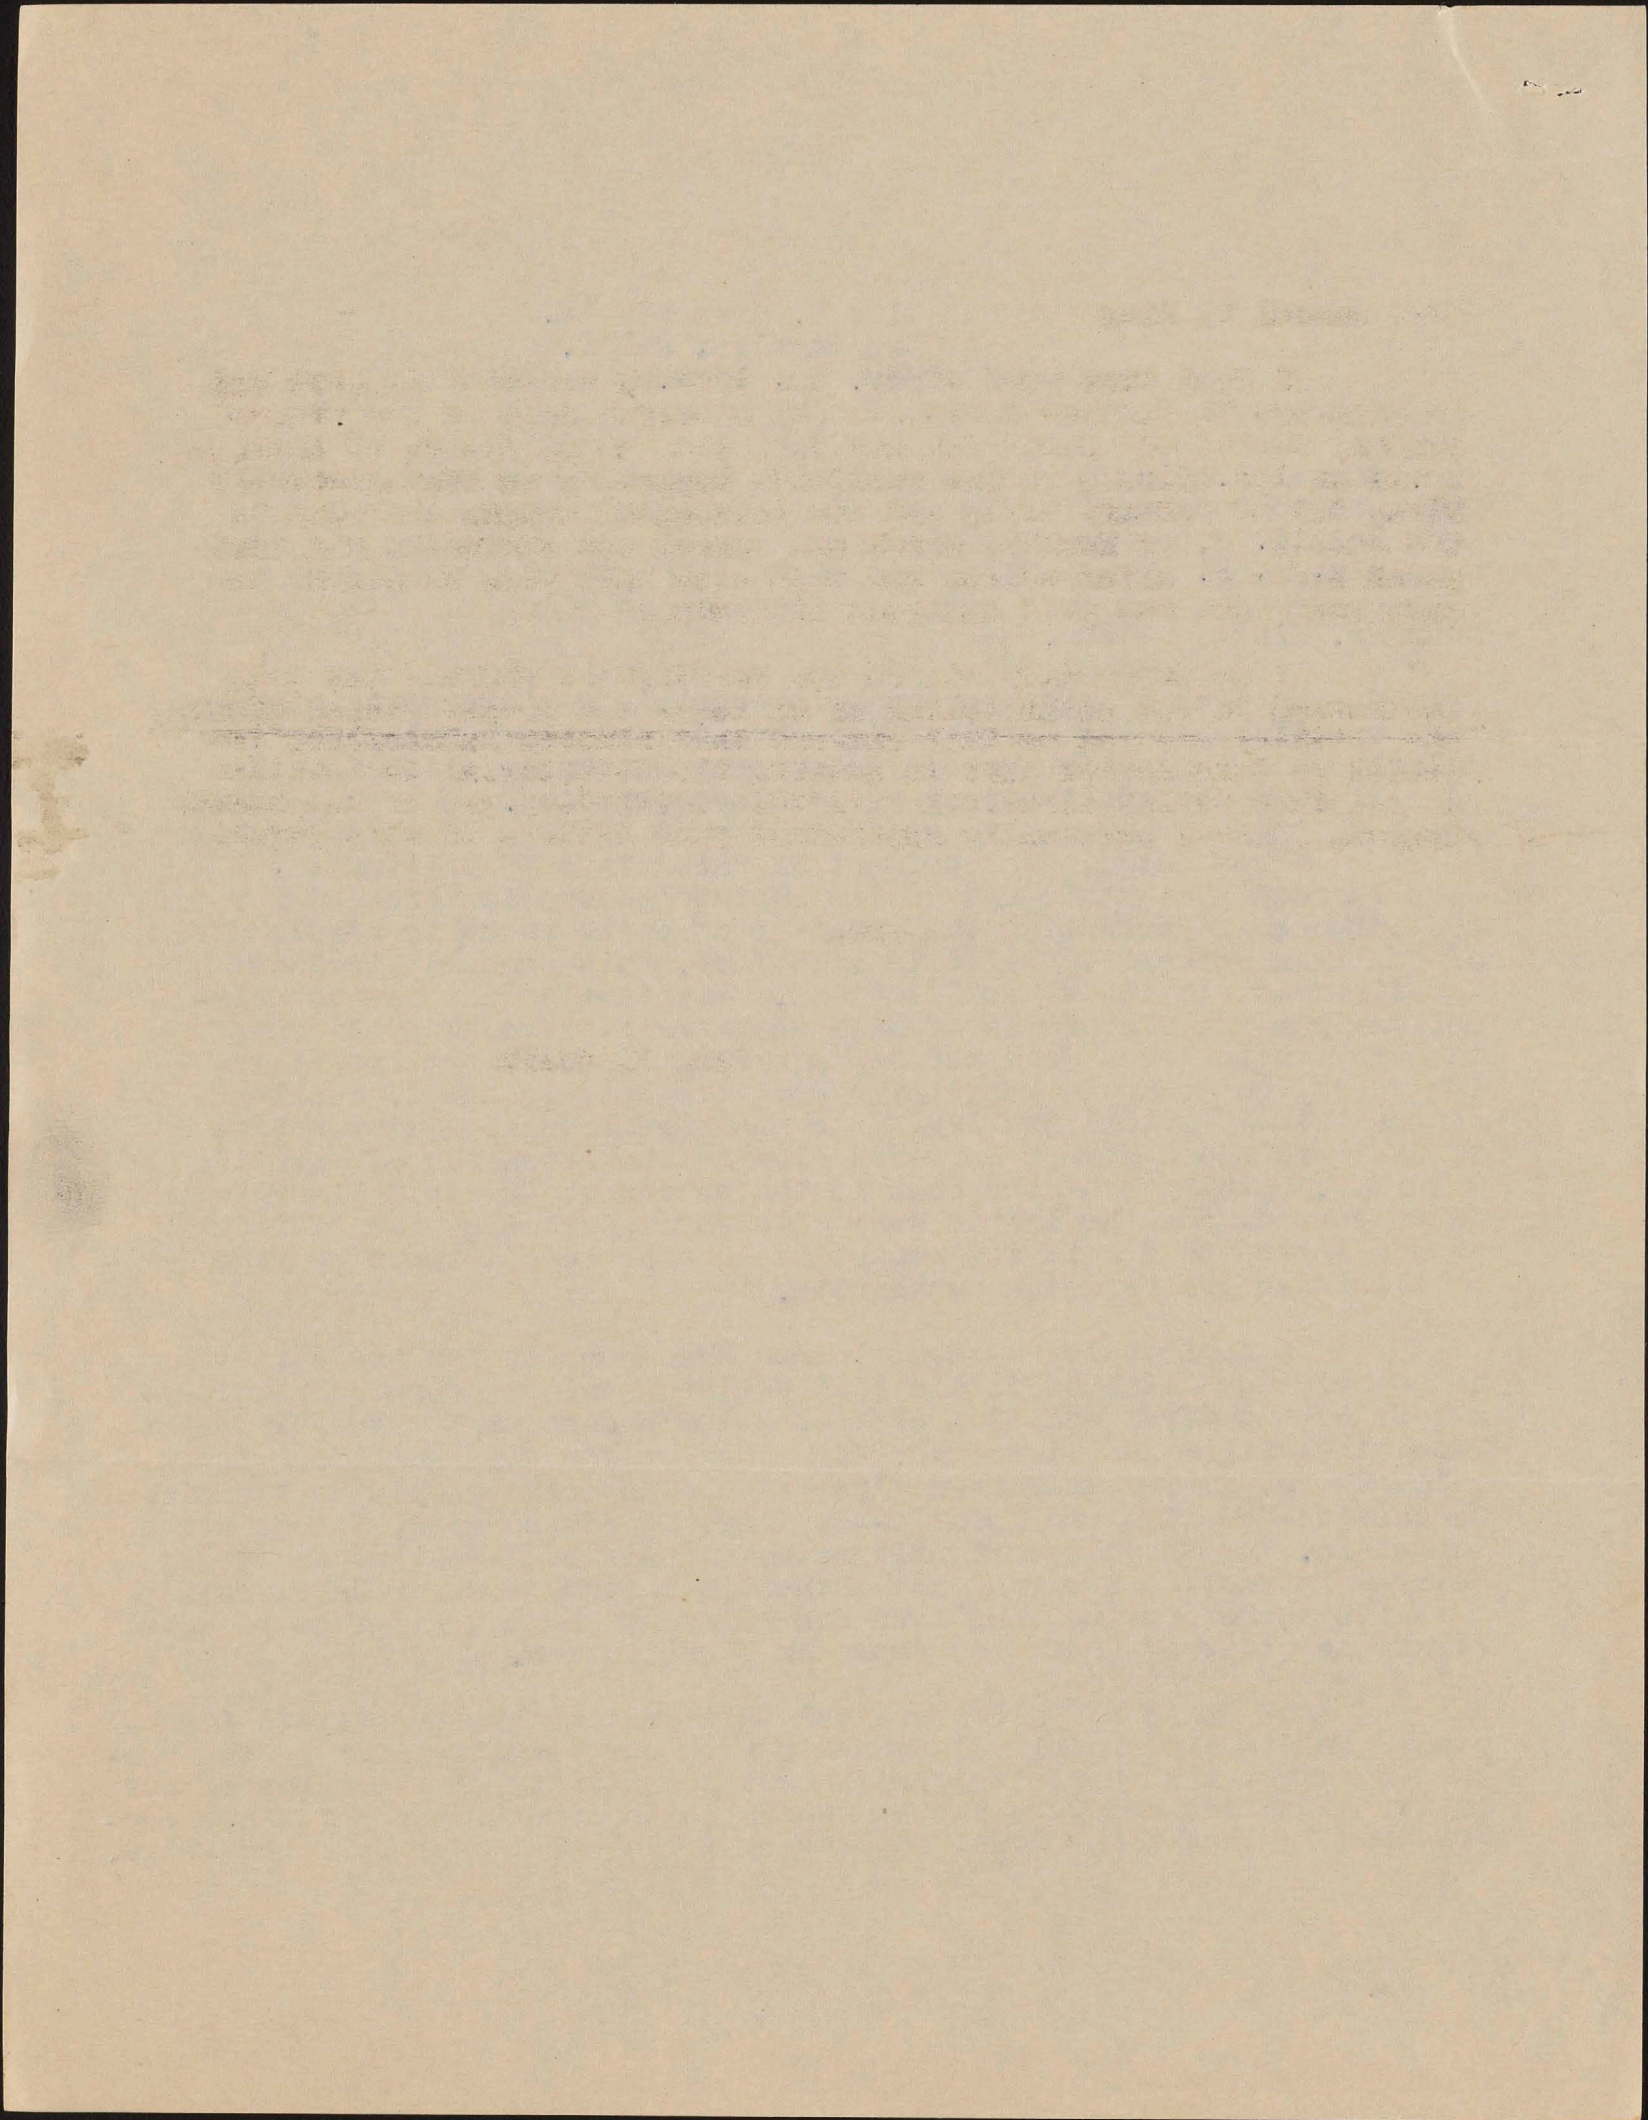

The State of California and Californians has benefitted financially in its commercial relationship with our Territory for a long number of years, its people enjoyed honest hospitality at the hands of our native Hawaiians, and yet, these moronic white sycophantic parasites condescends to insult the Hawaiian Race by such legislation as cited above.

Hon. Samuel W. King

I feel that your office can promote activity at home and in Congress to further establish the Hawaiian Race in its proper status. We did not steal our way into the United States of America. I was an eye witness to the incidents happening on that memorable 17th, day of January 1893, and the subsequent events that led to the annexation of Hawaii, stock and barrel and including her variegated stock of alien whites and what else have you. Hawaiians became Americans and good American Citizens at that.

I am personally not in the marriagable market, but I am interested in the establishing of my legal and proper racial status. Mrs. Beckley assured me that she and the Princess Kawananakoa intended to take active part in getting the Territorial Authorities to put this racial discrimination before the Congress of the United States. I shall personally appreciate your efforts in this regard.

Aloha.

Jos. K. Clark

WILLIAM GIBBS McADOO
CALIFORNIA

United States Senate

WASHINGTON, D. C.

1009 Transamerica Bldg.,
Los Angeles, California,
November 23, 1935.

Dear John:

I want to thank you and Mrs. Wilson for your many kind courtesies to Mrs. McAdoo and me while we were in Honolulu, which added so much to the pleasure of our visit. We both thank you for the box of delicious candy which you handed us as we were boarding the ship; it was fine.

By the way, if you can get the people who grow the Macadamia nuts to send me about five pounds of them, and will send me the bill I shall be glad to pay it. It occurs to me that instead of buying them in the bottle form from the retailer you might be able to get them from the manufacturer at a more reasonable price, - but don't go to any inconvenience about this.

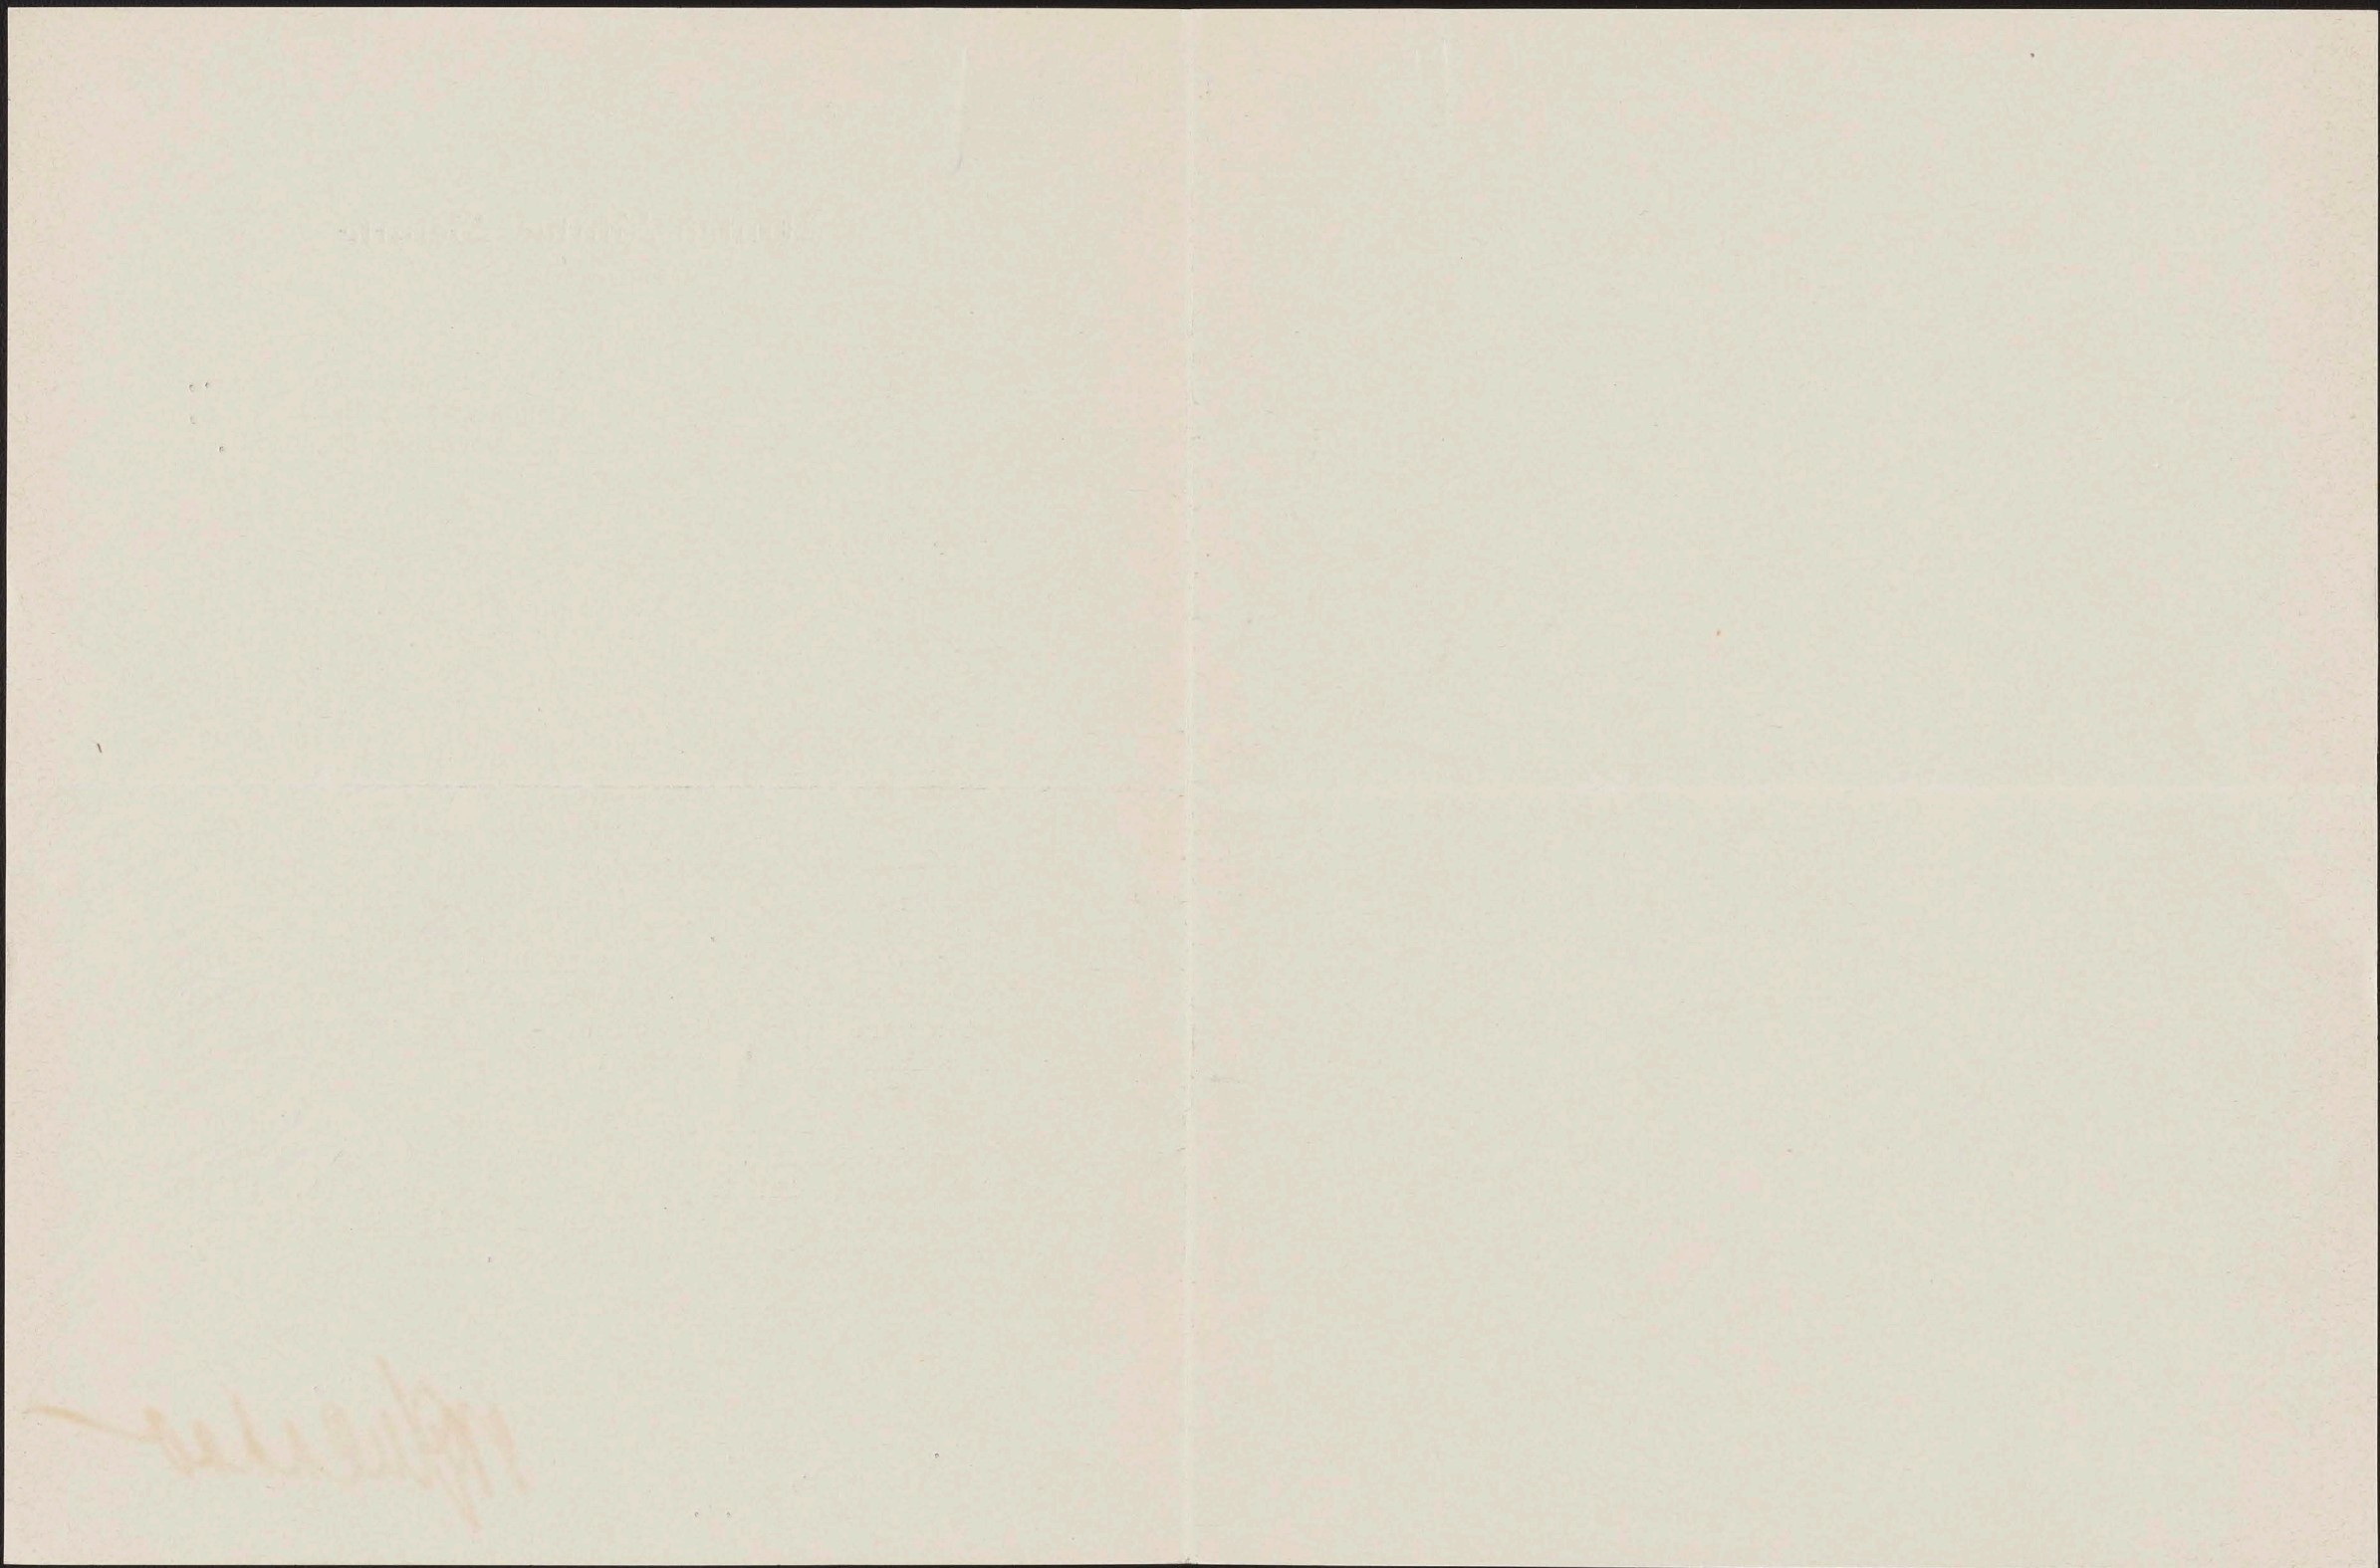

I am sending you a copy of my reminiscences "Crowded Years". I hope you may find something of interest in it, if you find time to read it. Please remember that you are under no obligation to do so, merely because I send it to you.

With best wishes, I am

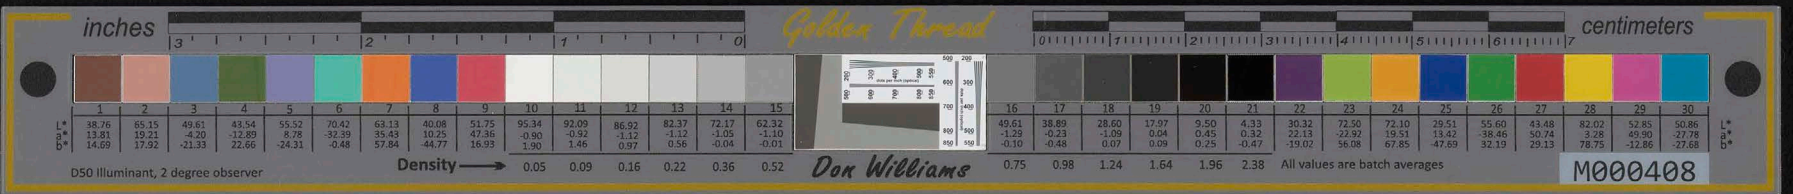

Cordially yours,

Hon. John Wilson,
Postmaster,
Honolulu, T.H.

START

Nov. 25th 1935.

My dear Sam:-

Many thanks for the note and cover and certainly am glad to hear from. I have sent you a couple of covers by the out going China Clipper, one addressed to Guam and the other to Manila, which will be returned to you by steamer mail.

Within 30 minutes after receipt of your note I was at a radio listening in on the Stanford-U.C. game and was some what surprised when the first touch down was made. I had just read your note which was not very encouraging for Stanford, however, it ended very happily for our boys.

I do not remember whether or not I informed you of my trip east last year. At any rate, I was sent for so was obliged to pack up in a hurry and was in Washington within 8 days after sailing from Honolulu, and I did not resort to the air either.

After several weeks in Washington I finally learned what the hurry call was all about. I was offered the Honolulu postmastership and was appointed before I really realized what had happened. The appointment came rather suddenly one day in Febuary and soon receive orders to go to S.F. post office to receive my first lessons in the work. After a week in Frisco I was next ordered to take over the Honolulu office on a certain date, which meant that I had to leave by a certain steamer, which was leaving the next day, hence I was unable to see any one at all. Even in Chicago. I made good connections both ways, so only saw Fernald.

Now for the peacocks. I know the wife will be tickled to receive them. I told her, I presume the birds were sick or they died and according to your note that really did happen. Yes. It will be okay to ship them by Express and send them collect for whatever expense you may be put to. The money order is only good for a year after date of issuance, otherwise, there is some delay in getting them cashed, so I would suggest that you get it cashed before the year is up if it has not already past the time. Your postmaster will tell you what to do if the year is up.

My relatives are still ta the same place. Mrs. Hoggle the daughter of was here for several weeks last year. You can find their names in the telephone book if you have forgotton the place. I think the telephone is in the name of Mr. John Bush or Mr. Hoggle. I cannot for the present remember Mr. Hoggles first name, I think it is George. They are at Culver City.

I must rush to the boat which will, be leaving in 30 minutes, so will close, wishing you all my best personal regards and aloha,

Yours in haste,

Dear Mr. Wilson:

Mr. Thurston tells of a plan to force Kalakaua to abdicate in favor of Liliuokalani. Your father, Samuel Nowlein, and one other man were appointed a committee to see the King. Mr. Thurston says that the name of the third man has slipped his memory. Do you happen to know who he was? I could insert the information in a note by the editor, crediting the information to you. The plan to use force against Kalakaua failed because the King argued so long that the armed men, two or three hundred of them, got tired and went home; rather, only fifty remained, and they were not enough.

My thanks for any assistance you can give. As a matter of record, the name of the third man should be published, if possible.

Very truly,

Andrew Farrell
Andrew Farrell

John H. Wilson,
Postmaster,
Honolulu

Please address me at the Macdonald Hotel, not at the Advertiser.

I should add that Mr. Thurston deduces, from the Liliuokalani diary, that the third man was Robert W. Wilcox.

Nov. 27th. 1935.

My dear Minerva:--

I have finally found a man willing to rent the Liliha street property, but he wants the house repaired and painted. I have not gone in to the house myself but have looked at it from outside and agree with the Jap that wants to rent it, that it is in pretty bad shape. A person can spend \$500 to \$400 on the house very easily, but would not recommend that you pay for this cost.

I have suggested that the Jap himself make the repairs and paint and that we would give him a lease for FIVE years at \$35.00 per month, and you to pay taxes only. He to do the repair work, and pay for the water.

The lease would be necessary because he would want protection for at least five years to absorb whatever he advances for repairs and painting.

Billy Mossmans ex-wife the former Makawao girl, I think she was a Miner, after divorcing Billy she married a fellow by the name of Kuhns. They have been living in the house with Keala and now Mrs. Kuhns died a few days ago. Whether Mr. Kuhns is still there with Kealas wife I do not know.

The Jap tells me that Kealas wife talks as if she has some kuleana in the place and I may have some difficulty in getting her out. If you have any suggestions to offer this is the time to make it.

If you sold the place in its present state, I do not think you could get much more than \$6,000 and we may have difficulty in finding a buyer at that price. I have had several people look at the place and make an estimate of its present value, and they all agree that the place is worth about \$5,000. to \$6,000. Five or six years ago I think Sam had an offer of \$8,000 which he turned down, those were the good old days. Hence the reason I suggested that you let the Jap have a 5 years lease and make his own repairs and by the time his lease expires, values probably would be back to where it was, it certainly cannot get any lower.

I think I have stated everything. If it meets with your approval kindly let me know.

With kindest personal regards and best wishes, I am,

Yours with aloha,

JHW

Makawao, Maui

Dec. 2 - 1935

My dear Johnny: -

Received your letter
on Saturday and was glad to
hear that you have found a
man willing to rent the Delia
St. property.
Yes - I know the house is in a
bad shape and needs repairing
painting etc from what a woman
from Kunaui Dani told me
about a month ago, she said
she even reminded them about
it - they said they had no money.
What you have talked over
with the Jap is alright with
me - go ahead with the
papers - & let me know

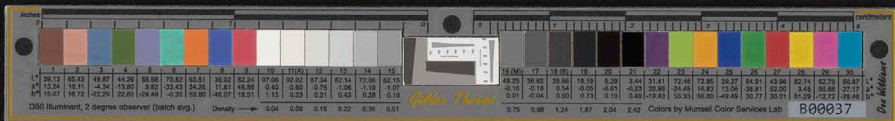

START

how much. I don't know how
to thank you for helping me
out, after it's all settled, ^{will} get
this off your mind - I know
you are busy and I appreciate
what you have done.
Some money coming from that
place will help me with the
taxes.

I hope you won't have any
trouble getting that woman out
Rung up Louise Cockett on Saturday
to have her look over the deeds
again - why she can't see where
Keala's wife come in.

Unless Sam's mother signed
some paper allowing Keala to
live there his life time if it's so
she meant the cottage

in the back. (this is only my maanao)
Lamis mother was lolo for long time
before he knew about it. it was Mrs.
Frear + Julia Bowers that wrote to Sam
about it + we both went down +
brought her home.

to the big house was rented to the
Amays.

He wrote about the cottage, needs
repairing that the road of health
were after him - we never paid
any attention. he worked the
Amays out - then he finally

moved in the big house + married
this woman (guess he had his
plans all made) then the
cottage disappeared, never heard
any thing about it. He just didn't
want to live in this cottage.

I think the Kuhns were paying
rent. that's how they lived - they
had aches there before the Kuhns.
Thanking you again for the

kopua, is I have to get along the
best way I can.

Still waiting for Zennis to settle
some thing - still standing

With lots of aloha to you both
and thank you again.

Yours with aloha.

Minerva.

Dec. 3rd. 1935.

Mr. George Wesson,
Waialee, Oahu.

My dear Mr. Wesson:-

This will introduce to you Mr. Kaaemoku Kukulu of Kawaihapai, Oahu. He is in the market for about 100,000 huli's. Taro plants. Piialii and Piko varrieties are preferable. I would certainly appreciate it if you can accommodate him.

I think he is planing to use about 20,000 to 40,000 per month. He has just arranged for a loan with the Federal Farm Credit Department and should receive his money within two weeks, so whatever you furnish him, I personally will see that you receive your money, for I have assured the Federal officials that I will guide the old man in his expenditures.

The old man of course will have all the say as to prices and quantity, he will be spending his own money. My only interest is to see that old fellow succeeds in his venture.

Whatever you can do for him will be highly appreciated.

Yours with aloha,

John H. Wilson

END

Dec. 4th. 1935.

My dear Meherva:-

The Jap was in today and wants a 15 year lease for the fā following reasons:-
1st. Repairs will cost him at least \$700.00
2nd. Taxes at the present time is \$184.54 per year.

He claims for the above reasons it would bring his rent up rather high. If knowe I told you in my letter that you were to pay taxes, but, he has agreed to pay you \$35 net, that means that he pay taxes and water and insurance.

He also guarantees to put up two cottages within three months to cost no less than \$1500 each and he also wants the privilege to erect one or two more within a year if there is a demand for this type of cottages, and at the end of the lease the buildings become your property.

By him paying the taxes which is about \$15.33 per month or \$184.54 for the year brings his cost to about \$50.33 or in other words you really be getting about \$50.00 per month.

Write me as soon as you can and let me know what do you think of the above proposition.

I saw Keala's widows brother and I think we will have no trouble with her. She wanted to know whether she could take with her some of the plants that she has growing in the yard. I told her I did not think you would have any objection if she moved whatever she planted, as you were renting the place to Japanese and the plants would add no value to the place. She then wanted to know what to do with some of the furniture. I told her I would write to you and get your manao on the matter, so let me know what furniture you should have in the house and what shall I do with it.

They (Mrs. Keala's brother) tallesse that the Kuhns did not pay a cent rea rent for the time they occupied the place, so I guess they feel hilāhila to object moving. Although they tried to tell the Jap that I sent to look at the place that they had a kuleana.

Yours with aloha,

JHW

My dear Neighbor:-

The lap was in today and wants a 15 year lease for the lot following reasons:-
1st. Repairs will cost him at least \$700.00
2nd. Taxes at the present time is \$184.34 per year.

He claims for the above reasons it would bring his rent up rather high. I usually told you in my letter that you were to pay taxes, but he has agreed to pay you \$35 net, that means that he pay taxes and water and insurance.

He also guarantees to put up two cottages within three months to cost no less than \$1500 each and he also wants the privilege to erect one or two more within a year if there is a demand for this type of cottages, and at the end of the lease the buildings become your property.

By him paying the taxes which is about \$184.34 per month or \$184.34 for the year brings his cost to about \$80.33 or in other words you really be getting about \$80.00 per month.

Write me as soon as you can and let me know what do you think of the above proposition.

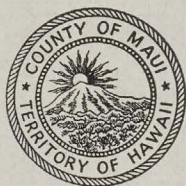

I saw Keala's widow brother and I think he will have no trouble with her. She wanted to know whether she could let with her some of the plants that she has growing in the yard. I told her I did not think you would have any objection if she moved whatever she planted, as you were renting the place to Japanese and the plants would add no value to the place. She then wanted to know what to do with some of her furniture. I told her I would write to you and get your memo on the matter, so let me know what furniture you should have in the house and what shall I do with it.

They (Mrs. Keala's brother) (father) (mother) (uncle) (aunt) did not pay a cent rent for the time they occupied the place, so I guess they feel entitled to object moving. Although they criticized me for the fact I want to look at the place that they had a kitchen.

Yours with aloha,

JHW

OFFICE OF
Board of Supervisors
COUNTY OF MAUI
TERRITORY OF HAWAII
WAILUKU, MAUI

December 5th, 1935.

Honorable John H. Wilson,
Honolulu, Oahu.

My dear Mr. Wilson:

Minerva Kalama has just rung me up about her place on Liliha Street. She received your letter but was not able to write you to get the mail today so asked me to do it for her.

She says that it will be all right for you to let the man have the 15 year lease on the terms that you wrote about; rental of \$35.00 per month, the tenant to pay taxes, water, and build on the lot. She also says that it will be all right for the old lady to take the plants, also the furniture in the house.

Minerva will write you in a day or so but was very anxious that you get this letter by the boat tonight.

With aloha nui loa to both you and Mrs. Wilson.

Yours very truly,

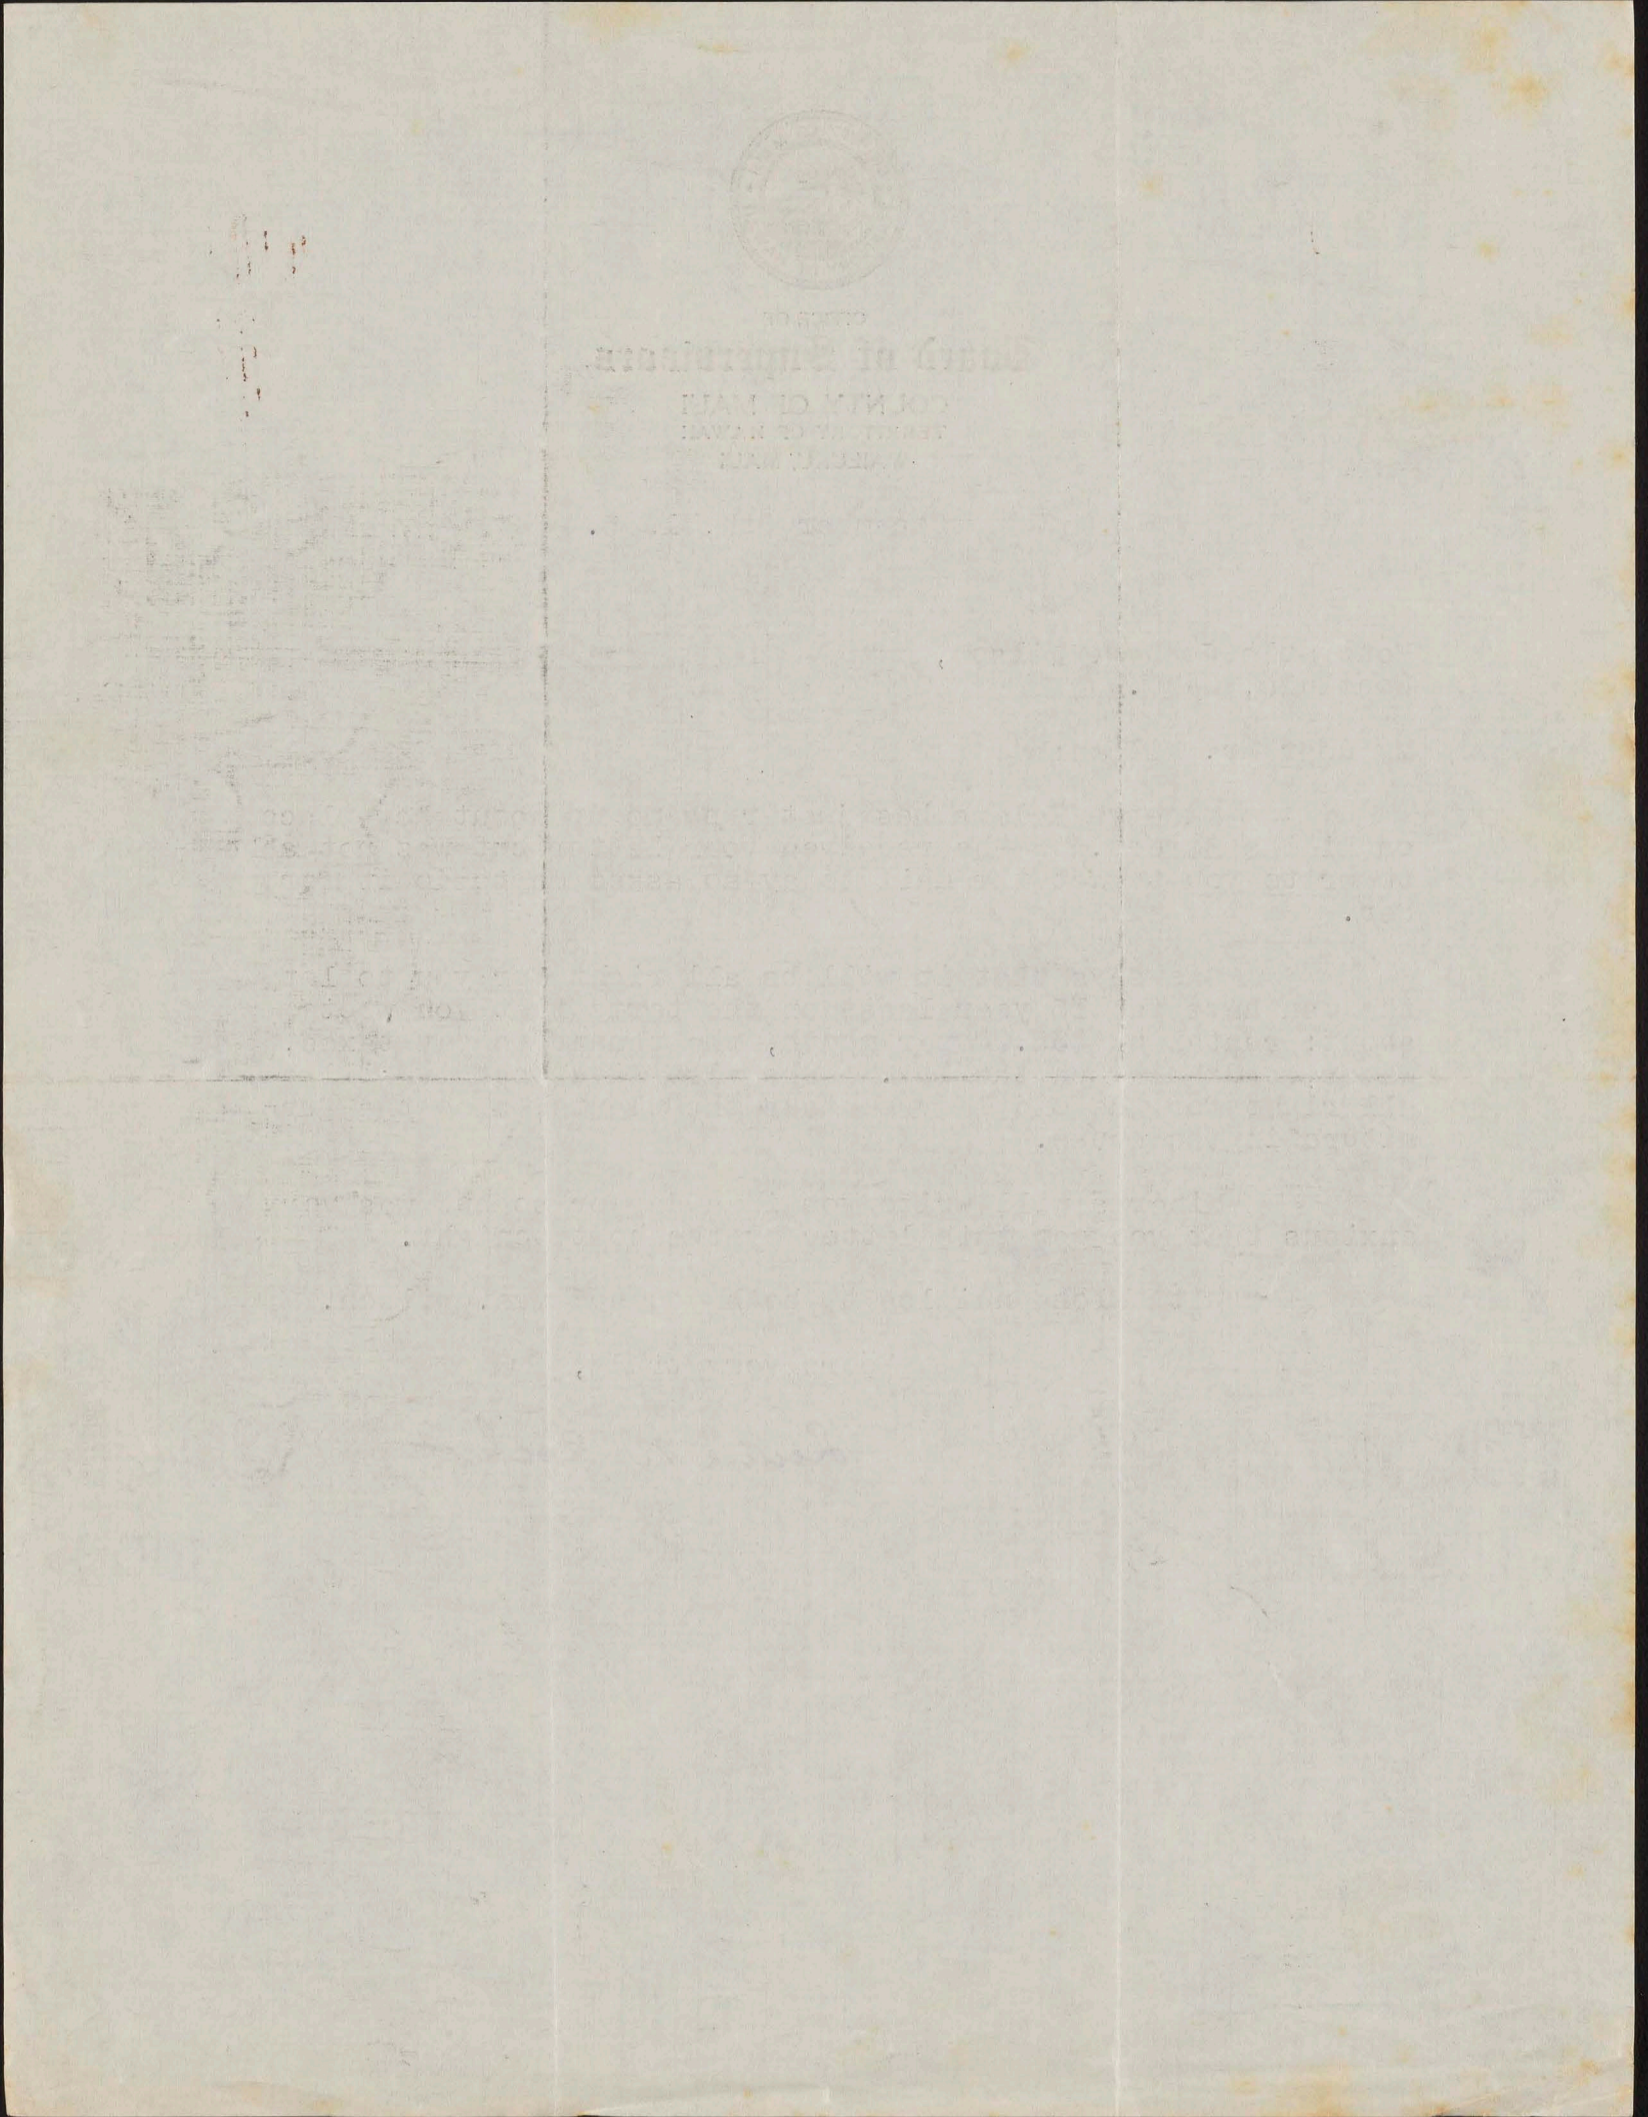

Louise N. Cockett

My dear Senator:-

Just a few lines to acknowledgg receipt of your letter dated the 23rd ult and to say I was listening on the 22nd and heard every word you said on the take off of the China Clipper from Alameda. I heard everybody including Quezon. We are certainly living through a great age. I expect to see you drop in on us at anytime, with lunch in Frisco and breakfast in Honolulu. Either you or Jim should have made the first hop, but, I guess it is best to be on the safe side.

Now regarding the macadamia nuts. I took it up with the paerson who packs them. He advised not purchasing the nuts in bulk unless it wa sealed in a can or bottle immediately after roosting, otherwise, they nuts would not be crispy. Not very palatable when soggy. Will wait y your further instráctions.

I h ve not yet received your book but will be glad to receive and read it for I know you have lead a very interesting life and naturally e educationally

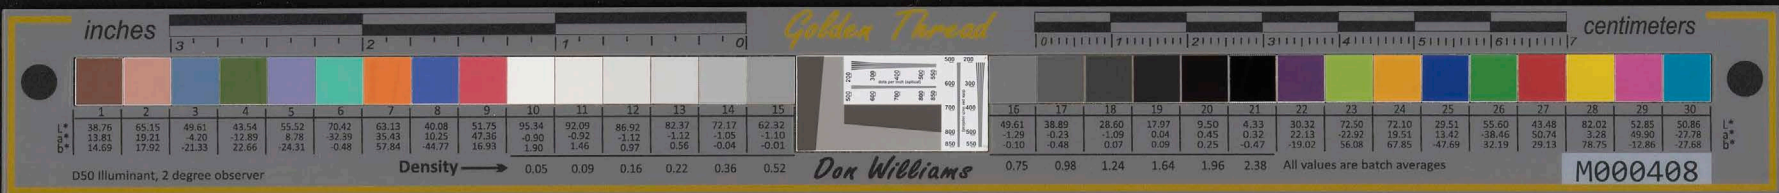

With best wishes and aloha to Mrs. McAdoo and self, I am,

Me ka mahalo,

P.S.

Received a letter from Manila via Clipper last evening bearing Manila stamp mark dated Dec2nd 5:30 A.M. and Honolulu Dec 4th 7:00P.M. I also received a letter from Newark, N.J. bearing date of Nov.21st 10:00 A.M. and Honolulu Nov 23rd. 11:00 A.M. 49 hours from New ark. S ome record.

Dear Sirs:-

During the month of February, 1936, I would like to purchase about 100 to 120 Class B and C eggs devided about fifty fifty of White Leghorns and Barred Rocks.

If you will remember I purchased several lots of eggs from you about four or five years ago and have at the present time about 1,000 laying hens, while I am getting good results, still I feel it was about time I was receiving new blood.

Kindly quote me prices F.O.B. express office at Modesto all well packed ready for ocean shipment. I would like to have it shipped to connect with Matson steamers leaving San Francisco Saturday afternoons.

Hoping to hear from you at an early date, I am

Yours very truly,

JOHN H. WILSON

P.S.

You might quote me prices on Class A. and B. also in 100 egg lots.also as I may be able to get some of my neighbors to place an order for the lower grade eggs at the same time.

Dryden Poultry Farms,
Modesto, Calif.

Dear Sir:-

During the month of February, 1938, I would like to purchase about 100 to 150 Class B and C eggs divided about fifty fifty of White Leghorns and Banded Rocks.

If you will remember I purchased several lots of eggs from you about four or five years ago and have at the present time about 1,000 lay- ing hens, while I am getting good results, still I feel it was about time I was receiving new blood.

Kindly quote me prices F.O.B. express office at Modesto all well packed ready for ocean shipment. I would like to have it shipped to connect with Watson steamer leaving San Francisco Saturday afternoon.

Looking to hear from you at an early date, I am

Yours very truly,

JOHN H. WILSON

J.H.W.

You might quote me prices on Class A and B. also in 100 egg lots. also as I may be able to get some of my neighbors to place an order for the lower grade eggs at the same time.

J.H.W.

END

Dec.17th.1935.

My dear boy William:-

I hope you will pardon me for not answering your letter sooner. I have been endeavoring to find out how to go about it so that you can accomplish that which you wish, to be a Chaplin in the Army. I have several friends in the Army and intended to ask them when they called, but, some how or another, whenever they came to the house, we had company, so that I did not get the opportunity to ask them, however, I will write again just as soon I am able to get the information.

I am more than pleased to learn of your success in the field you have seen fit to adopt. I learned of you first, when your mother visited us or Honolulu rather about 18 months ago and again I happened to run into your step father at Palo Alto last March, just before I returned to Honolulu.

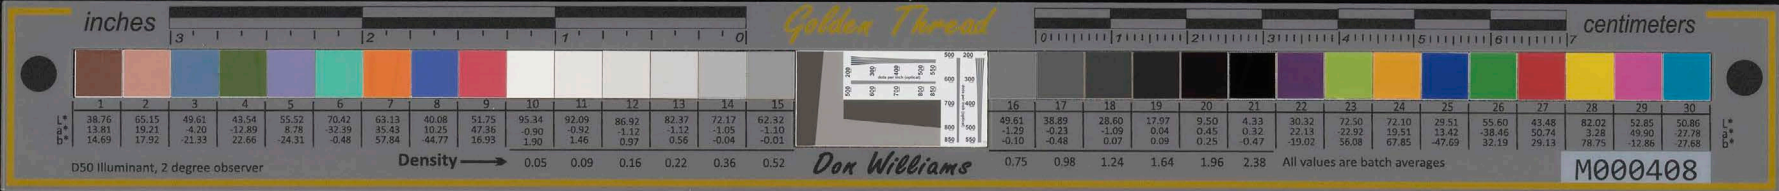

I have been away most of the time for the past two years. Spending most of my time in Washington, D.C. only returning to stay now I think for at least 6 months when I will again my work will take me to Washington.

I will only be too glad to assist you in any way possible to secure the position you desire, but, before I can do so, I must first learn the procedure, hence the reason I wanted to discuss it with some of my Army friends.

We all are enjoying the best of health, and heres hoping your are as well as we are. With kindest personal regards and best wishes, I am,

Yours with a

ALOHA.

Mr. John H. Wilson
United States Post Office
Honolulu, Hawaii

Dear Mr. Wilson:

We are pleased to hear from you again and to learn that you are still breeding our strain of Barred Plymouth Rocks.

Our new 1936 catalogue will not be ready for mailing for a few days but you will find new price list enclosed. We can supply you with 50 or 100 Class B White Leghorn eggs in February but do not have any mating of Barred Rocks in this class as you will note by the price list. We are sold out of Class CC Barred Rock eggs during February but can furnish you with 50 Class C eggs.

We will be glad to have your order and to give it our most careful attention.

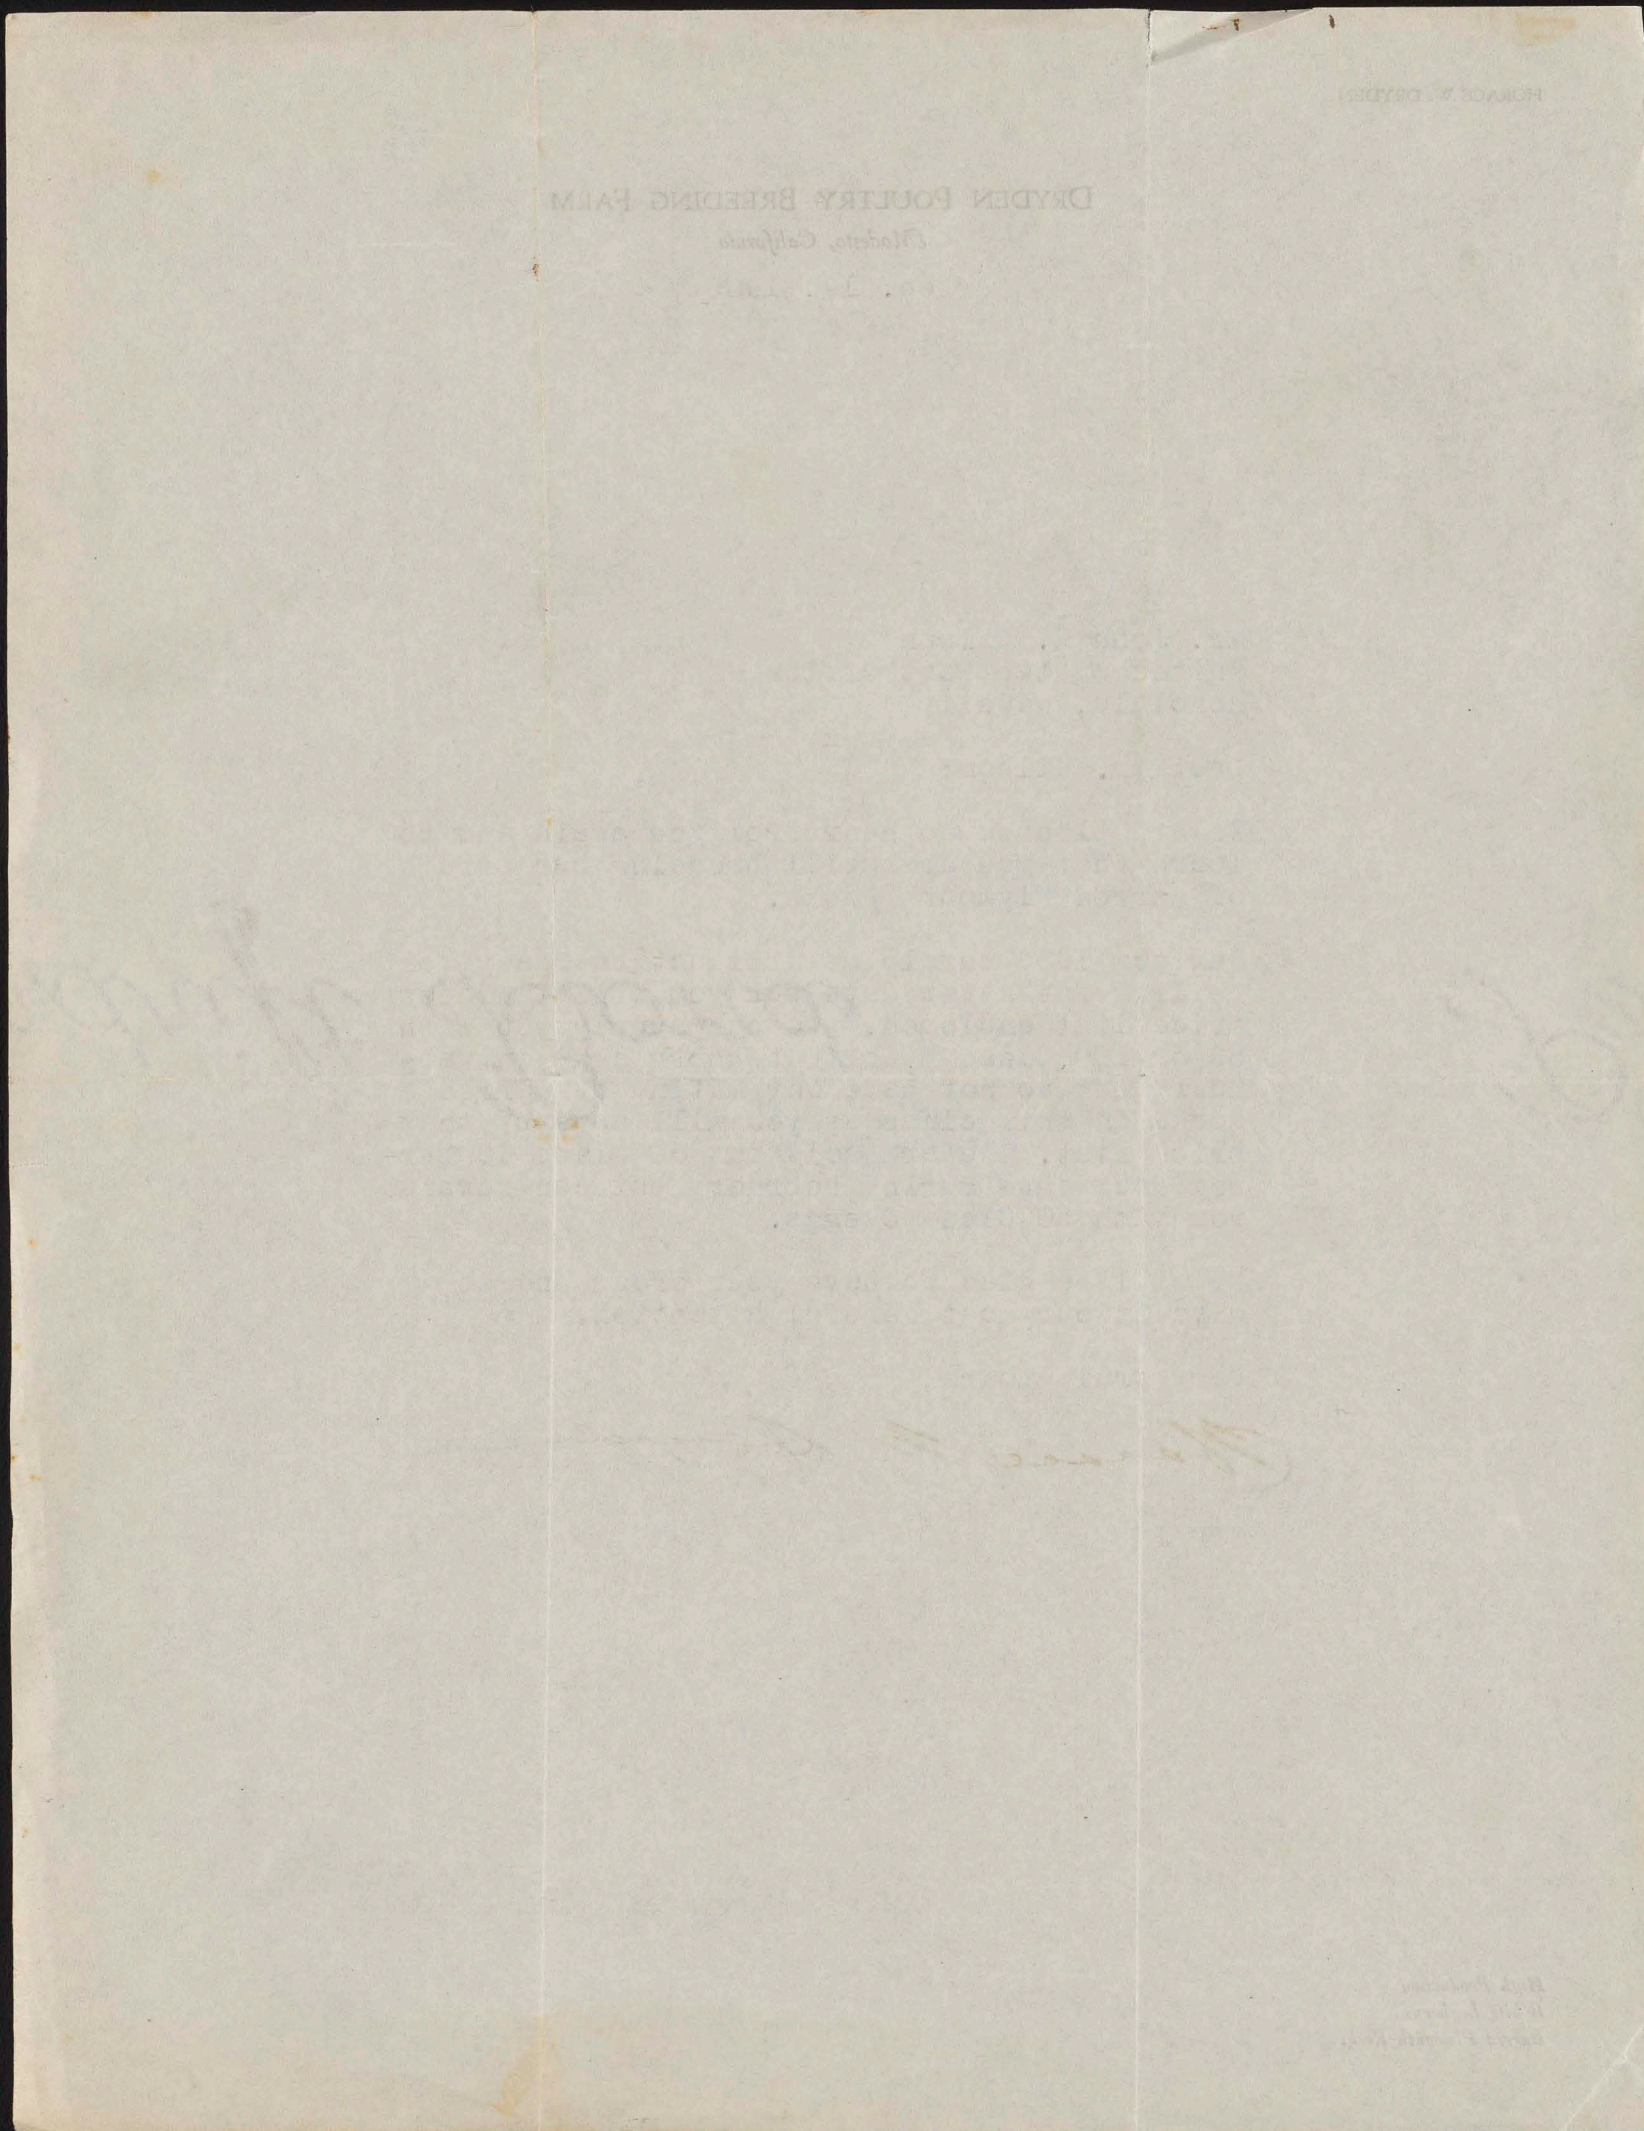

Very truly yours,

Horace W. Dryden

My dear Johnnie:

I am pleased to acknowledge receipt of the Christmas card which you and your wife sent to me and my wife by the first Clipper mail transport from Honolulu to the United States.

I hear of you through people who are visiting Honolulu from time to time, and trust that everything is going well with you.

My wife joins me in wishing to you and your wife a Merry Christmas and a Prosperous and Happy New Year.

Sincerely yours,

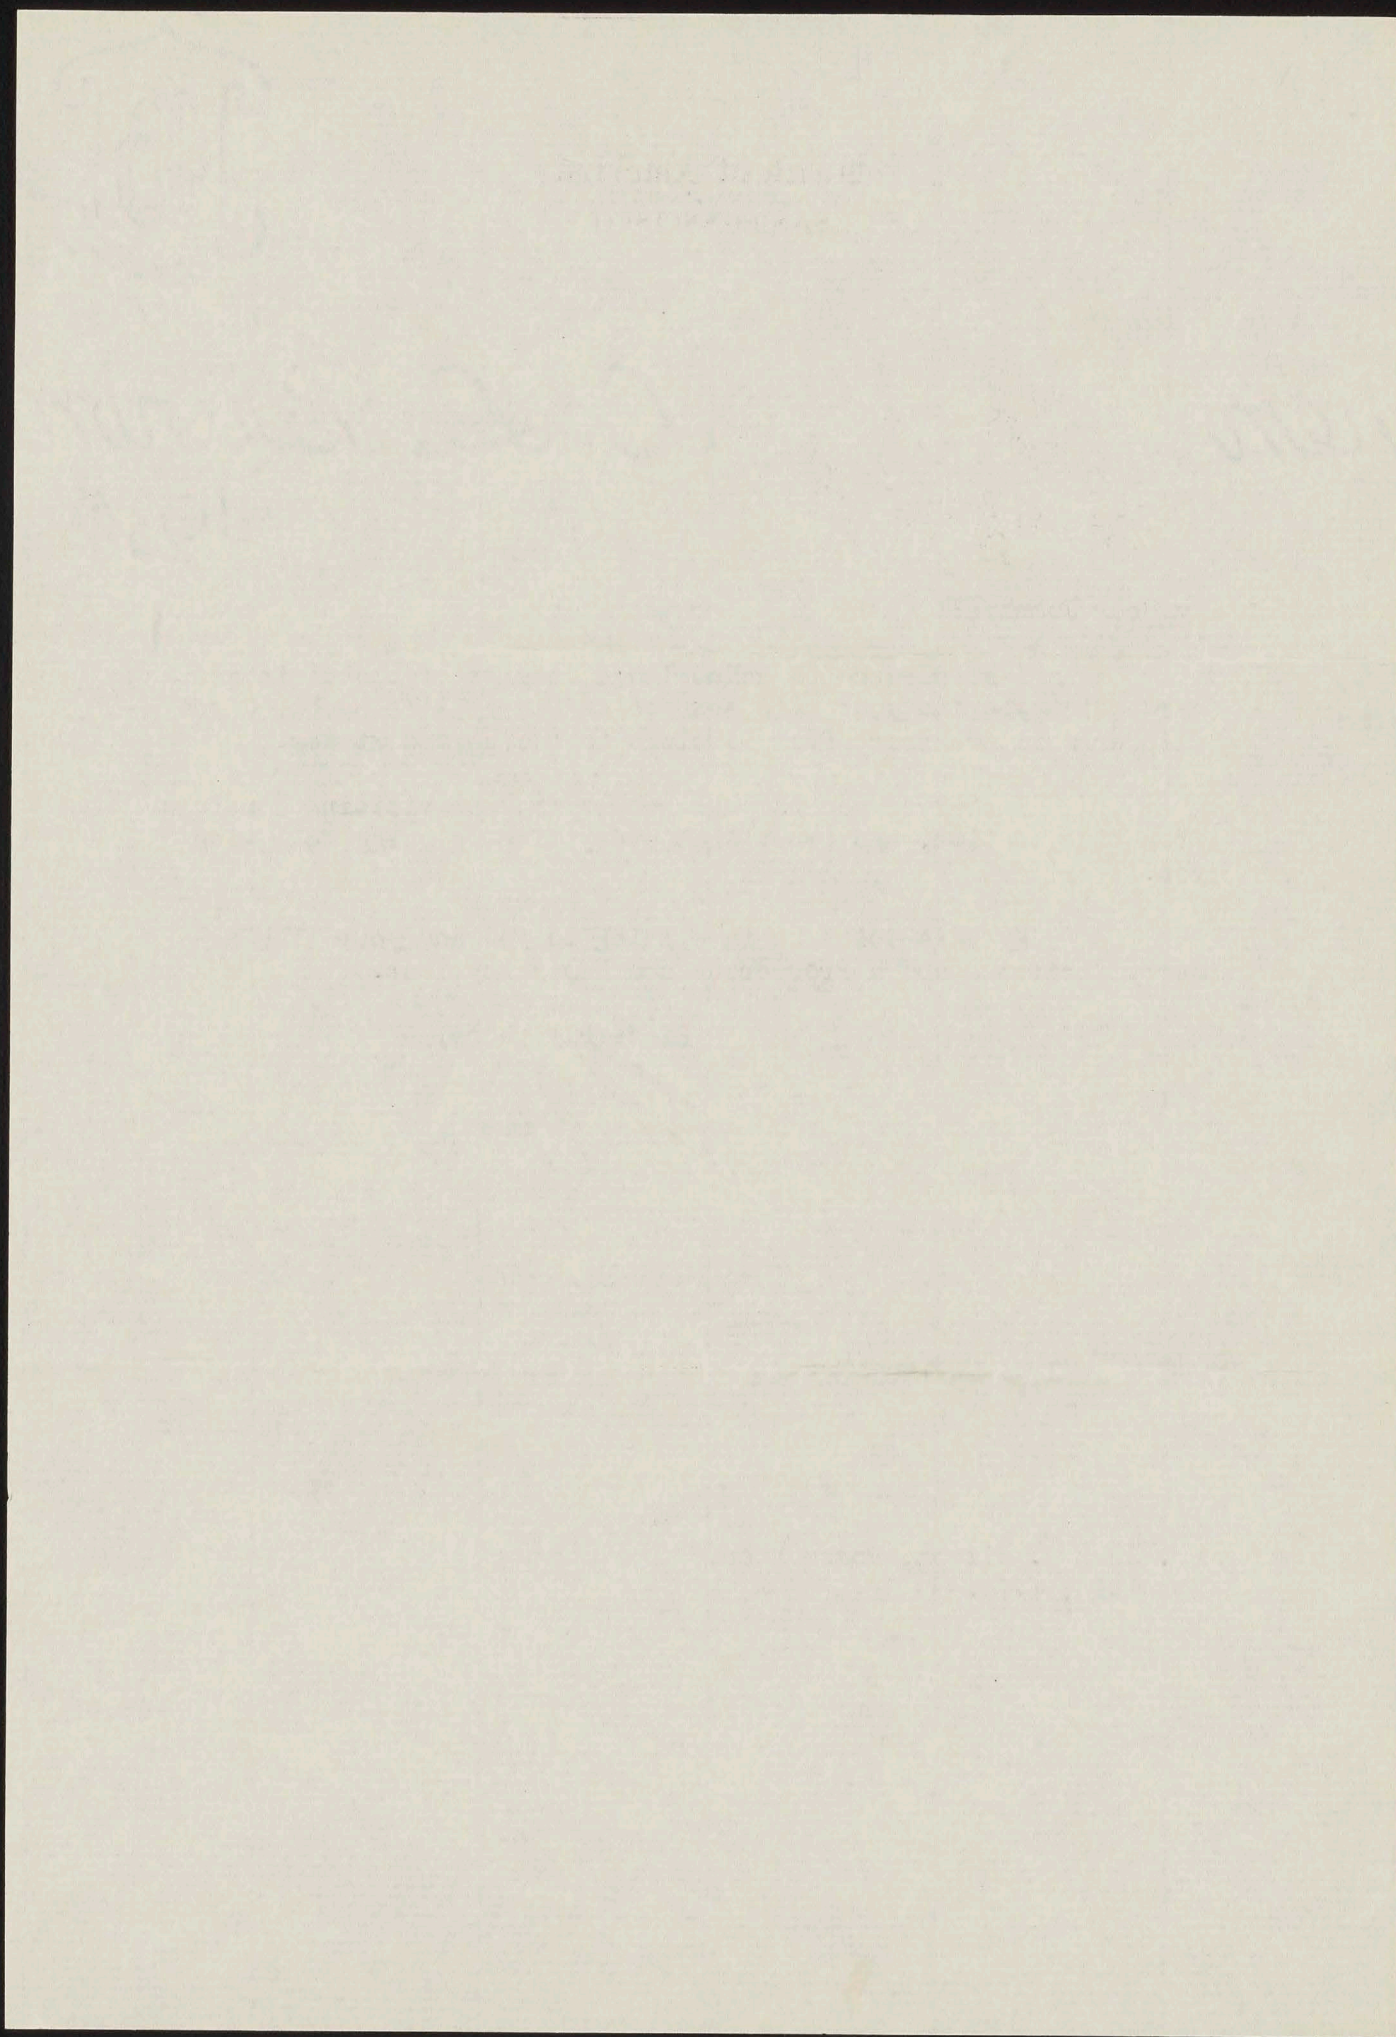

A handwritten signature in cursive script, appearing to read 'A. H. Hanway'.

Mr. John H. Wilson, Postmaster,
Honolulu, T. H.

December 22, 1935

Dear Johnnie Wilson;

The Postal Telegraph seemed to have a hard time making you understand what the words "Peacocks Maunawili" meant. I must admit that I took advantage of the fact that you were and are Postmaster in Honolulu in order to save address words in a cable. I kidded the Postal people by telling them that by "Postmaster" I meant only one person, Namely-"Postmaster John Henry Wilson" and that if they would only stop fooling around and get busy and deliver the cable to the the one and only "Postmaster" in Honolulu that there wouldn't be any trouble over the wire being understood.

I found out from the Matson people that the Maunawili was the only boat before Xmas on which I could ship the peacocks and that they couldn't even tell me when the next boat might go. It was scheduled to leave Los Angeles shortly after noon on Thursday and they told me to work thru the Express Company thereby indicating that they would rather not have me take the birds down myself due to the labor situation I guess. Well I had a crate made by the carpenter recommended by the Express Company and took it and went out and got the birds Wednesday afternoon. WE there found the crate much too large so I got busy and cut off a foot and got the birds back to the Express office just before closing time Wednesday which was the last minute for making the connections to the boat. I later learned that the boat was delayed in sailing which fact firmly determined me to wire you that the peacocks were on the way.

I hope you found four live peacocks. This will be a surpriseto you but when I arrived to pick up the birds I found four instead of three awaiting me in the reserve pen. Mrs. Law said that it would be a shame to send just one cock for with only one male, if he was lost for any reason then you would not be able to raise a family. If a hen were missing it wouldn't be so bad. So she without charge donated one bird. These four were the largest of this seasons birds. The way to tell the males from the females at this time is by the fact that the males have speckled feathers on and pretty much all over the back while the females are darker on the back. As arranged she supplied ample food of the kind they had been eating right along. In case this was all gone when they arrived it seemed to be mixed grains cracked pretty fine.

She said to warn you not to give them fermented or rotten green feed but that theylike fresh green feed with their grain. These seem light but are large compared with their fellows. The sole remaining hen, one of the three birds we had expected to send you last year, is now of good size and coloring up and beginning to spread her tail. The parent cock is a magnificent bird now and as large and brilliant as any I have seen anywhere. The full grown birds are very hardy they tell me. Two of his sons are nearly his size & color.

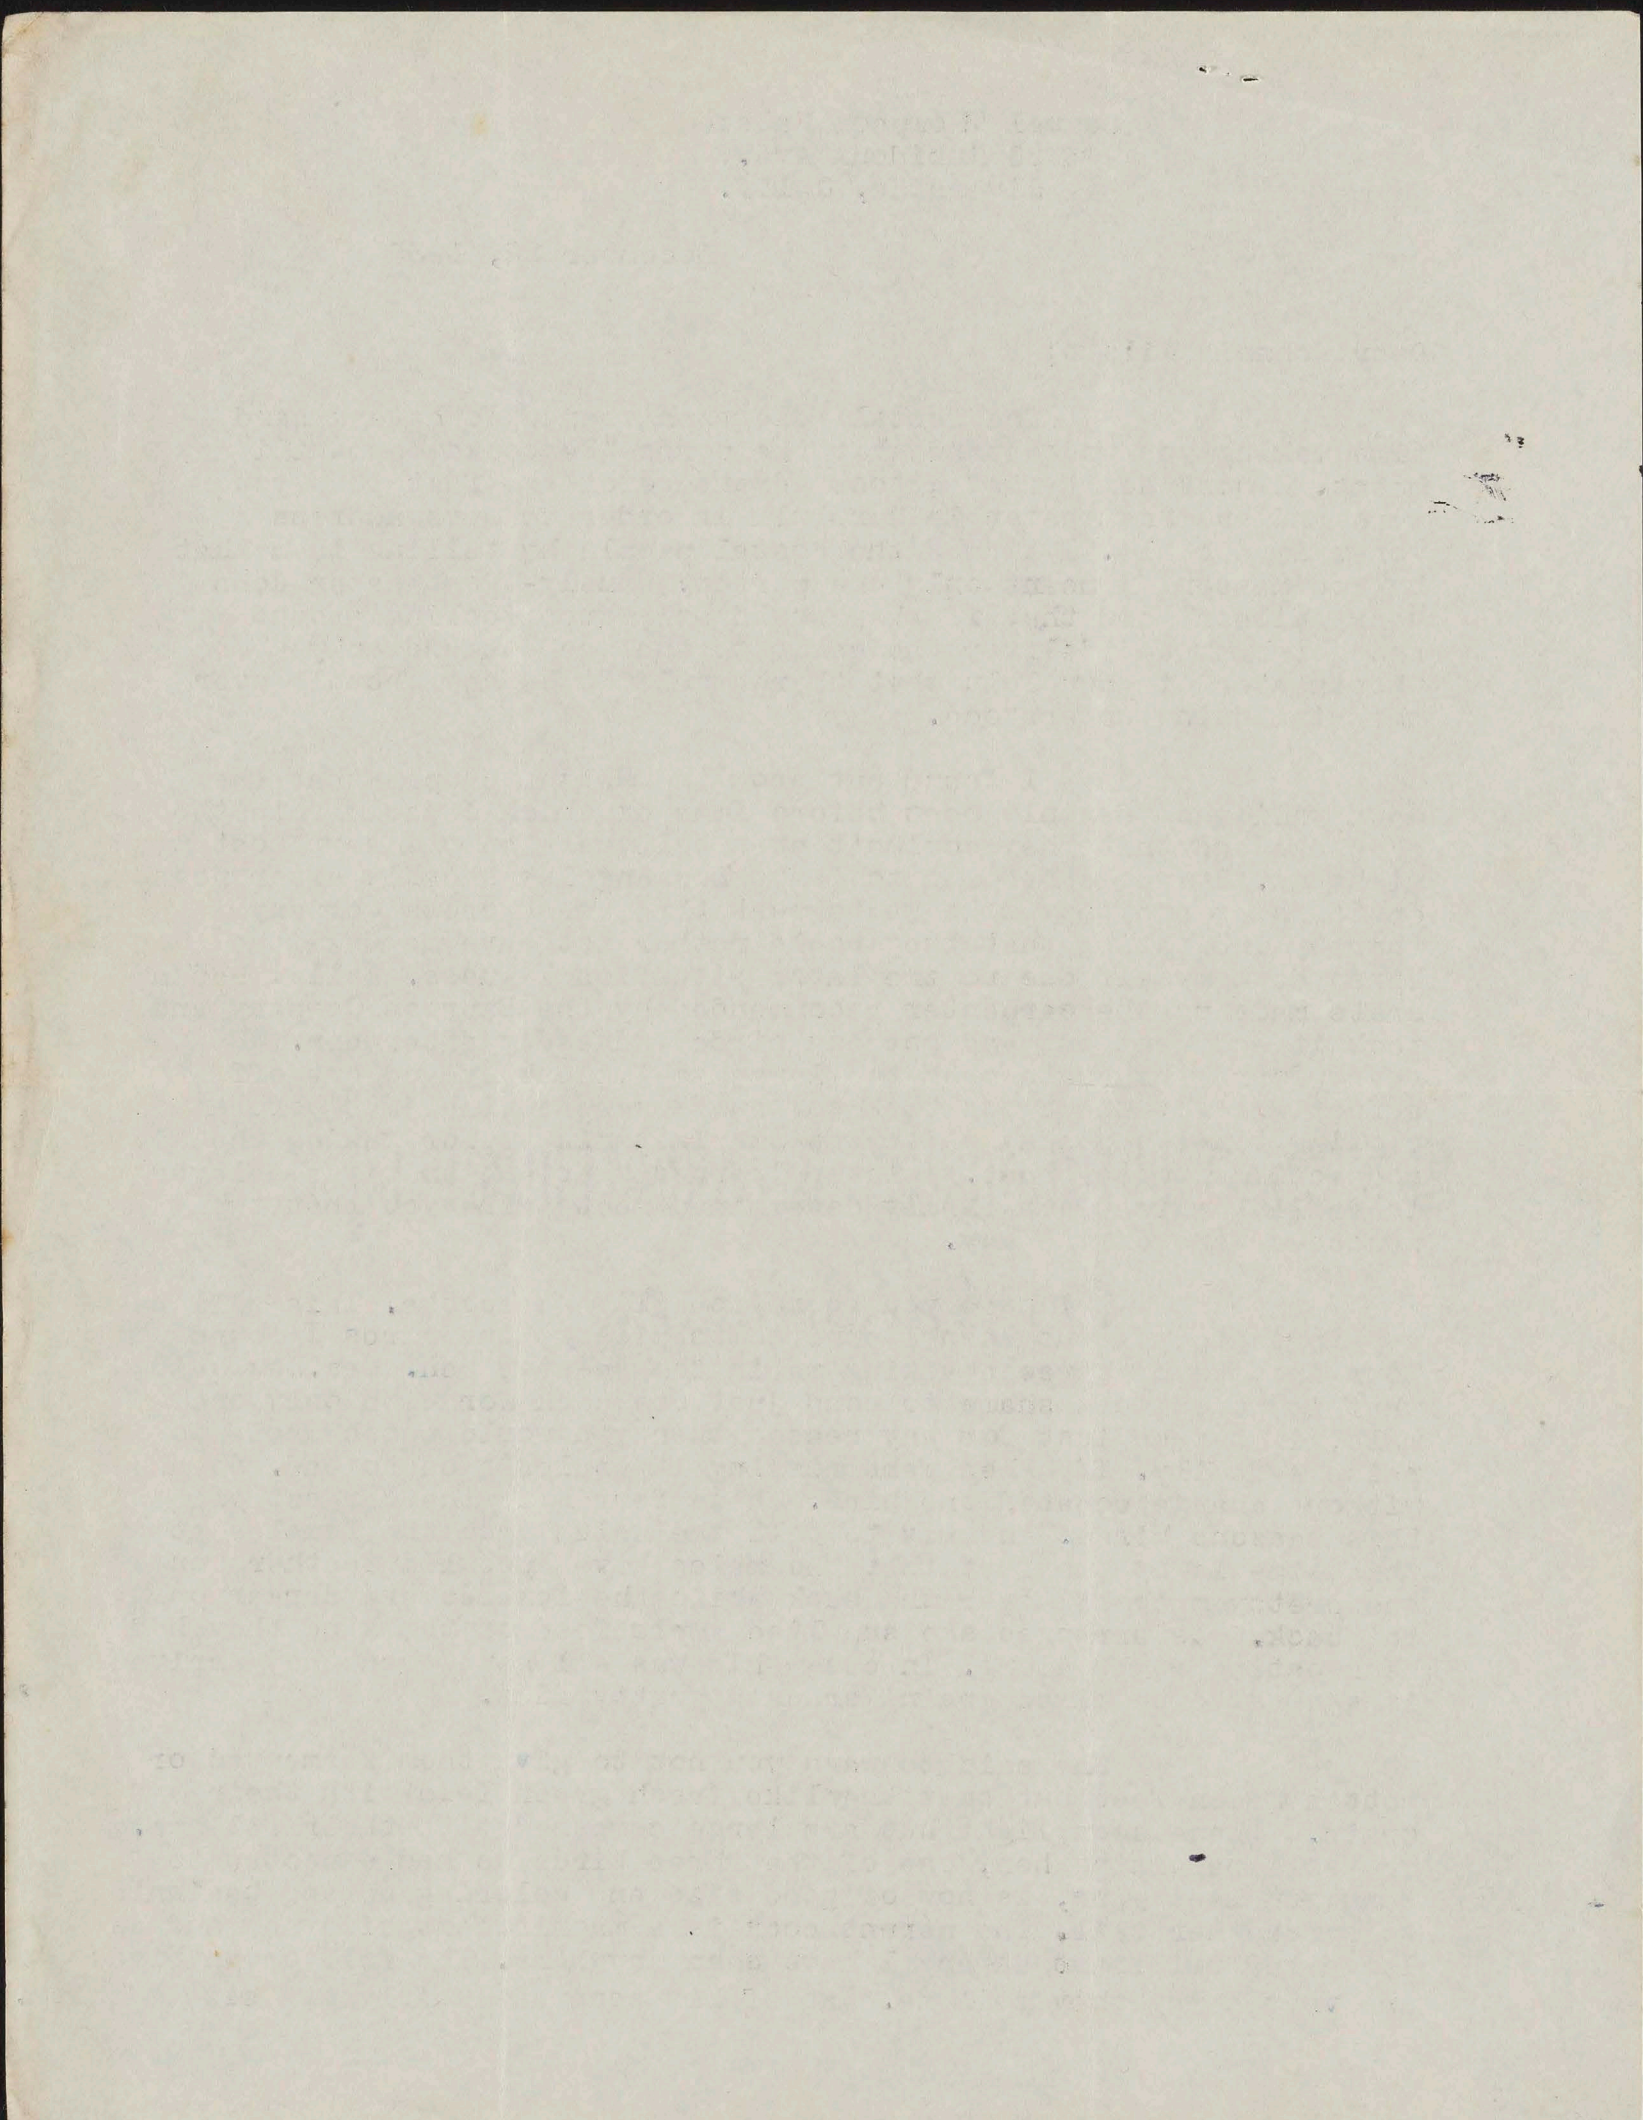

Peacocks are light feeders.

12/22/35

The 3 birds and feed were just \$7.50 and the carpenter recommended by the Express company charged just \$2.50. You said to send the birds collect as to Express which I did. I tried to make the cage size ample and yet not be excessive because of the cubic footage charge on the boat. The Laws passed on the cage size finally as well as providing the feed, and donated the extra bird.

"A"

In looking around for the Money Order you sent me over a year ago and which I naturally did not want to cash until the request of yours had been completed, I ran across the enclosed letter about the Hawaiian stamps. I must admit I had also forgotten it too because I surely would have reminded you of it before. My Hawaiian and United States stamps are the only ones I am interested in. I have the later stamps showing the Hawaiian Seal and the Harbor but must admit I am sadly lacking in the surcharged Monarchy stamps and the earlier Imperforated stamps.

"B."

There is going to be a Stanford man at the head of the coming San Francisco Exposition. I know him slightly. Are you going to be so tied-up that you couldn't come over and run a show. If you could not come I wouldn't want to be identified or do anything for I feel that it would be a failure. If you could come and run it I would suggest that we make a stab at getting the fair people to back it as a key or special feature making it an exhibit of the Polynesian Race and the whole Pacific Islands including New Zealand and putting the dances and fire-walk etc on the very highest pinnacle of pure native art and pre-Christian Religious basis. These "Villages" and so called "Country Exhibits" ~~became~~ while money makers became too taudry and obviously commercial at Chicago and San Diego but I think a really genuine and high class Racial exhibit would go big at San Francisco and San Francisco should back a Pacific Islands Exhibit because it is the logical American port for receiving this business.

"C."

What about "Oke". The local agent and distributor for the San Diego brewing company offers to introduce me to the owner. He says that the owner is wealthy and might be easily induced to finance a deal providing he is assured of the United States exclusive sales rights. Maybe you had better outline the whole thing afresh to me and especially costs and I could tell him that I had actually gone over the ground. (I did have a pretty good look-see from the boat.) While claiming to have gone over it I will refuse to disclose location until a deal is closed subject to confirming investigation for reasons we have already discussed. I did not tell you before because of fearing my letter might go astray but there is a pot-still in Los Angeles making whiskey from this Mexican Cactus and another near Nogales and I have figured on seeing these without disclosing my reasons to them. (This Pulque made from the Maquey cactus is like varnish and it doesn't loose much of this varnishy flavor upon being redistilled into the higher grade tequila but it seems to me that the matter of handling the maguey pulp would be very much like the cooked ti roots.) Please let you and I keep this idea of how to really determine plant outlay and operation costs just to our own two selves for a while.

(f-key-la)

(Pill-ka)

Best, Sam.

Dec 27th. 1955.

My dear Sam:-

Just a few lines to thank you for the pea fowls. They arrived here last Saturday morning the 21st and were all in excellent condition. The express bill was only \$6.10 which covered the cost of transportation. Evidently there were no advances made for crating or carting to L.A. Did you advance this cost out of your own funds? If so, please let me know what your expenses were and I will remit by return mail.

The wife is much pleased with the birds, but had planned to visit the volcano with the Whitehouses who are located for the time being on the slopes of Mauna Loa, left here last Monday so is unable to thank you herself.

Whitehouse is laying out a new road from the town of Hilo to run between Mauna Loa and Maunakea in a direct line towards Mano Point. This would be the means of opening a lot of homesteading lands on the slopes between the two mountains, Mauna loa and Maunakea and also reduce the distance between Kona and Kohala. The road today runs along the coast and at no point is it more than three or four miles inland from the sea coast. The road is being surveyed by the Public Works Department of the Territory and from last accounts Whitehouse is having a time dodging lava flows. The volcano is very active and the glow can be easily seen from high points on Oahu not very far from Honolulu.

Thanking you again for your trouble with the birds, and hoping you and the family are enjoying the best of health, I am,

Yours with aloha,

My dear Sam:-

Just a few lines to thank you for the gas fowls. They arrived here last Saturday morning the lot and were all in excellent condition. The express bill was only \$8.10 which covered the cost of transportation. Evidently there were no advances made for creating or carrying to L.A. Did you advance this cost out of your own funds? If so, please let me know what your expenses were and I will remit by return mail.

The wife is much pleased with the birds, but had planned to visit the volcano with the Whitneys who are located for the time being on the slopes of Manua Loa, left here last Monday so is unable to thank you herself.

Whitney is laying out a new road from the town of Hilo to run between Manua Loa and Maunakea in a direct line towards Kona Point. This would be the means of opening a lot of commanding lands on the slopes between two mountains, Manua loa and Maunakea and also reduce the distance between Kona and Hilo. The road is to run along the coast and at no point is it more than three or four miles inland from the sea coast. The road is being surveyed by the Public Works Department of the Territory and from last accounts Whitney is having a fine looking lava flow. The volcano is very active and the flow can be easily seen from high points on Oahu no very far from Honolulu.

Thanking you again for your trouble with the birds, and hoping you and the family are enjoying the best of health, I am,

Yours with love,
