December 2019

Act 167, Session Laws of Hawai'i 2019, requires the Hawaii Housing Finance and Development Corporation (HHFDC) to study and formulate an implementation plan for the ALOHA Homes Program, defined as "a program that provides low-cost, high-density leasehold homes for sale to Hawaii residents on state-owned lands within a one-half mile radius of a public transit station." Section 2 of Act 167 contains an appropriation of \$150,000 for this study.

Section 1(d) of Act 167 requires submission of "an interim report to the legislature of its progress, findings, and recommendations, including any proposed legislation, no later than twenty days prior to the convening of the regular session of 2020." This report is intended to satisfy this requirement.

On October 14, 2019, HHFDC issued a request for proposals (RFP) for an ALOHA Homes Feasibility and Implementation Study. Pursuant to the Governor's Fiscal Year 2020 Budget Execution Policies dated August 2, 2019, ten percent of the appropriation was restricted. Therefore, \$135,000 is available for the study. Proposals were due on November 20, 2019. HHFDC's current RFP schedule places the notice of award on December 16, 2019, and the contract start date on December 23, 2019.

HHFDC will make the full findings and recommendations developed under the consultant contract available to the Legislature in the final report required for submittal in 2021.
