Census 2000 Data Products

Major Changes

- Wider product availability than 1990
- Internet Access-*American Fact Finder*
 - Data and geographic products

Geographic Products:

Tools to Support User Needs

- **Maps to Use with Statistical Reports / PDF maps**
- **2000redistricting tiger/line**
- **Cartographic Boundary Files**
- **Thematic, Small Area Maps**

Geographic Products: Maps

- **Purpose**
 - Accompany Statistical Data
 - Locate Census Geography
 - Display Statistical results
- **Characteristics**
 - Wide Use of Color
 - Available in Electronic formats
 - Available as paper copies

Geographic Products: Maps

PDF File Capabilities

- Thumbnail views of Maps
- Zoom and Pan
- Searchable Text (Census Tract, Place Name & Block Number.)
- Print Selected Areas on Map

Geographic Products: Maps

For Redistricting:

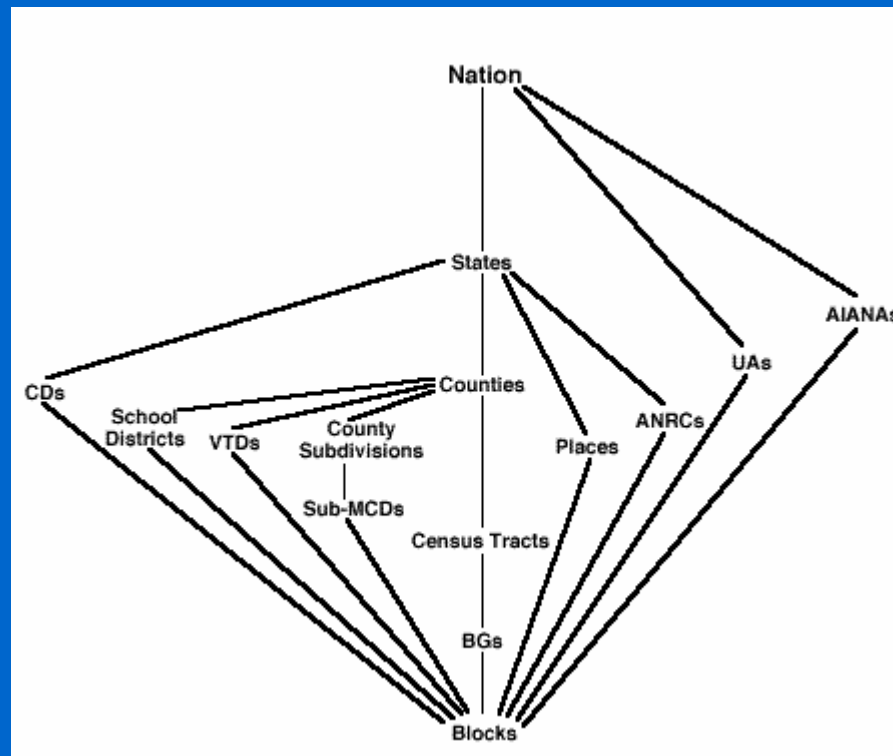

- **County-based block maps**
 - in Color
 - Shows block numbers
 - Shows VTDs (voting districts)
- **Voting district outline maps**
 - With state legislative districts (when provided)
- **Census tract outline maps**

Geographic Products: Maps

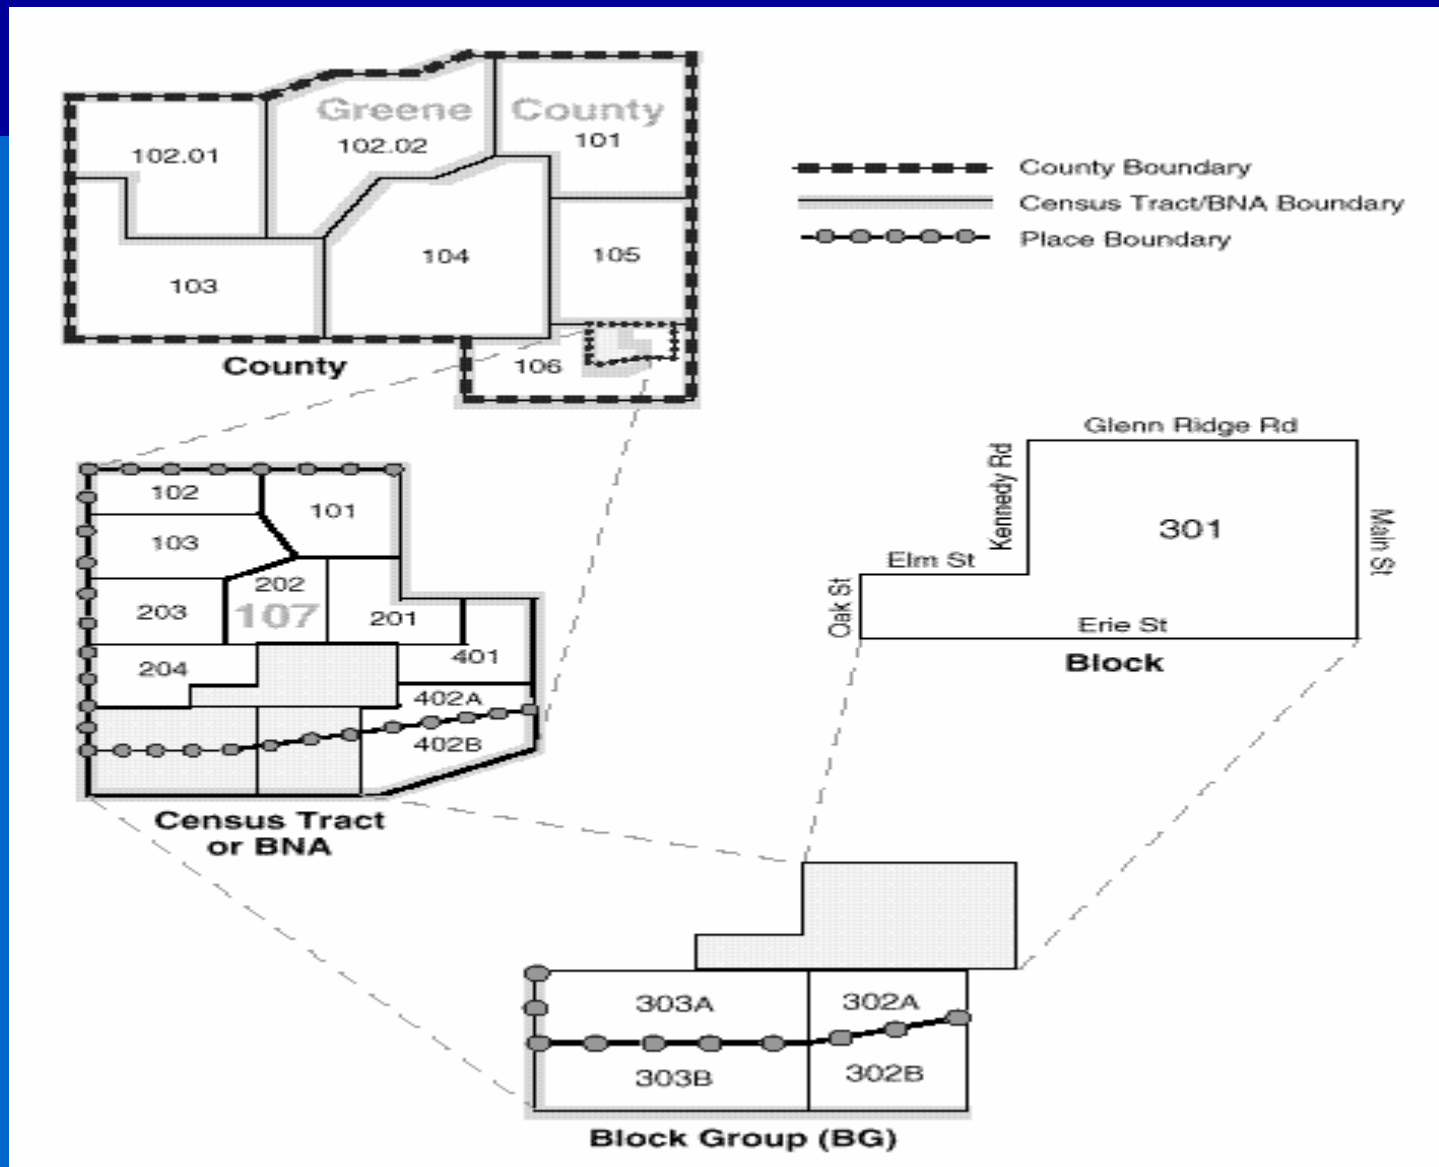

Other large format reference maps

- **Block Level Maps**
 - packaged by governmental entities, i.e counties, American Indian Reservations, HHLs, incorporated places
 - Production begins summer 2001

: Mapping and Cartographic Services Home Page

The screenshot shows a Netscape browser window titled "MAPPING AND CARTOGRAPHIC RESOURCES - Netscape". The address bar displays "http://www.census.gov/geo/www/maps/". The page content includes a header "U.S. Census Bureau" and a main title "U.S. Census Bureau's Mapping and Cartographic Resources". Under the "Maps" section, "Census 2000 Maps" is highlighted with a red circle, followed by a description of Census Block, Census Tract Outline, and Voting District maps. Below this is a "Map Gallery" link with a description of a representative sample of U.S. Census Bureau publication maps from the 1990 census. The "Online Mapping" section features the "American FactFinder" link, described as a new tool for disseminating Census 2000 data and maps, and "The TIGER Mapping Service", which generates detailed maps showing 1990 geographic entities. A small tiger illustration is positioned to the left of the TIGER Mapping Service text. The browser's status bar at the bottom indicates "Document: Done".

U.S. Census Bureau

Census 2000 Redistricting Data Map Products

Three types of maps were prepared to accompany the Census 2000 Redistricting Data: [County Block Maps \(Census 2000\)](#), [Voting District/State Legislative District Outline Maps \(Census 2000\)](#) and [Census Tract Outline Maps \(Census 2000\)](#).

Redistricting Data Map Products will not be available for: American Samoa, Guam, Northern Mariana Islands, U.S. Minor Outlying Islands (Midway) and the U.S. Virgin Islands. However, Census 2000 Block and Census 2000 Census Tract Outline maps will be available at a later date for these areas.

The letters PDF or symbol  indicate a document is in the [Portable Document Format \(PDF\)](#). To view file you will need the [Adobe\(R\) Acrobat\(R\) Reader](#) which is available for **free** from the Adobe web site. The maps were created as 33" x 36" sheets, however, the Adobe Reader allows one to pan and zoom within the image on your computer screen.

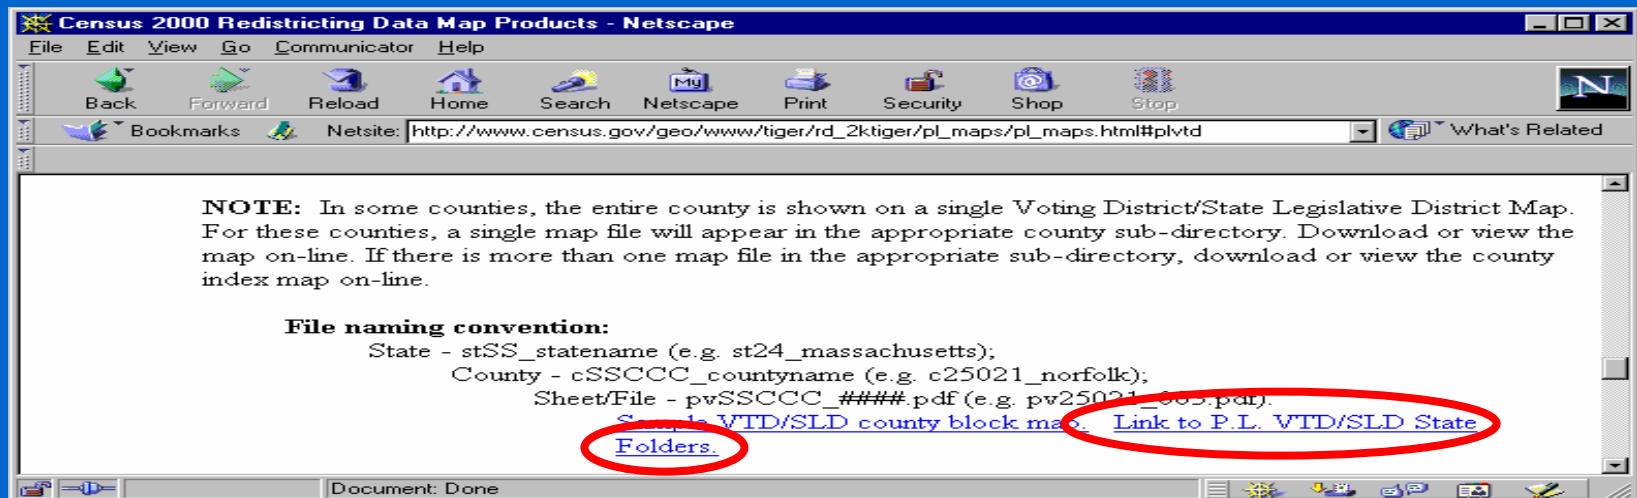

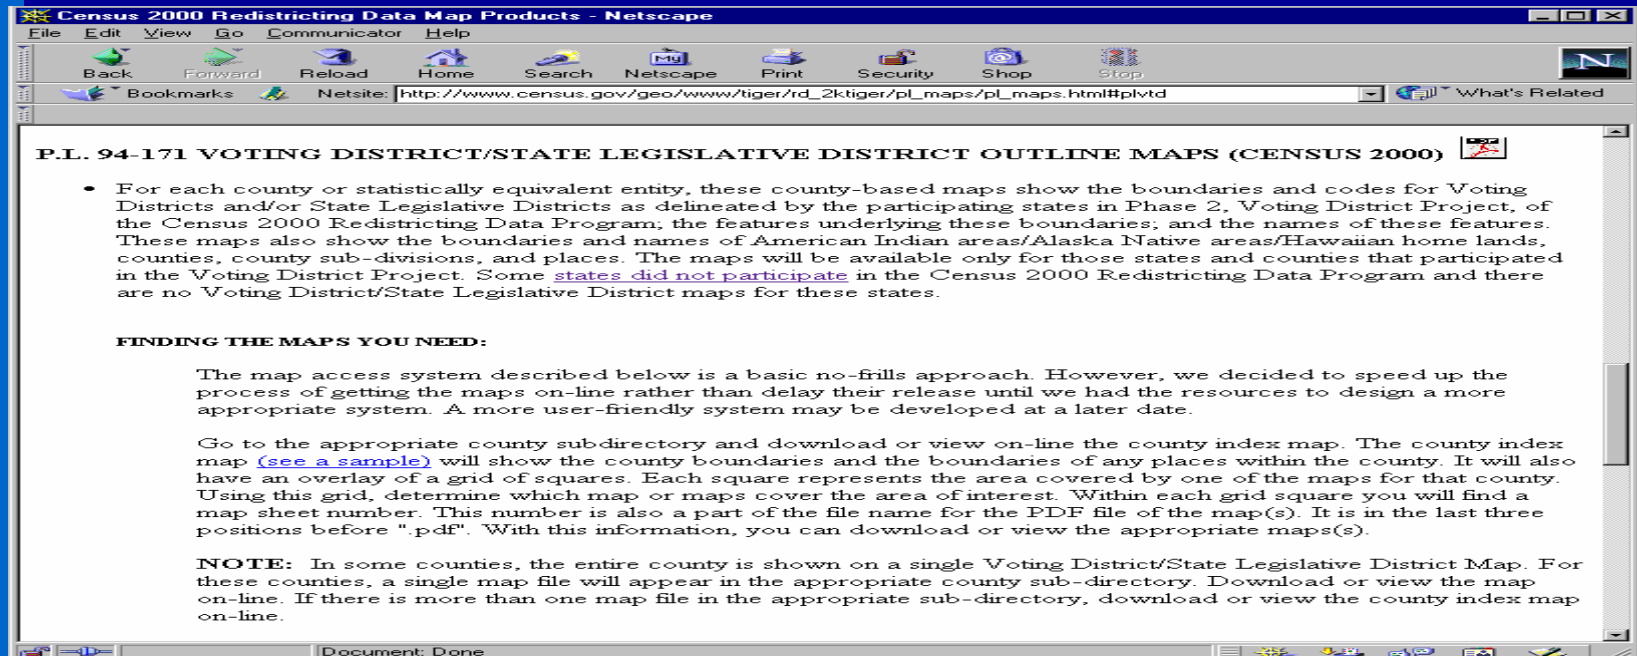

These PDF maps are arranged in sub-directories by map type. Within each map type sub-directory, the map files are stored in county sub-directories within the appropriate state sub-directory. Within each county folder there will be an index sheet file to help the user identify individual maps.

TIGER Data Base

- Topologically
- Integrated
- Geographic
- Encoding and
- Referencing

Role of TIGER

- Assignment of location codes to addresses for data collection
- Geographic structure for tabulation and publication
- Cartographic products to support field operations, participant programs, collection and publication

TIGER Contains:

- streets
- water features
- railroads
- political boundaries
- statistical boundaries
- addresses
- zip codes
- landmarks

Geographic Products

TIGER/Line[®] Files

- TIGER/Line is an abstract of selected geographic and cartographic information from the TIGER data base
- ASCII text format, not in the form of map images
- Need to have GIS or other mapping software
- User has to translate or convert the files into a format used by their specific software
- County based

Geographic Products

TIGER/Line® Files

- Redistricting Census 2000 TIGER/Line File -

U.S. Census Bureau

Downloading Redistricting Census 2000 TIGER/Line Files

The Redistricting Census 2000 TIGER/Line files are specifically intended to support the needs of the redistricting community. **This version of the TIGER/Line files contains all the Census 2000 entities EXCEPT FOR the ZIP Code® Tabulation Areas (ZCTAs™),** nor do they contain the updated address ranges based on the final Census 2000 information. The address ranges are comparable to those in the 1999 TIGER/Line files. The Redistricting Census 2000 TIGER/Line files cover all counties, parishes, boroughs, census geographic areas and equivalent entities for each state, the District of Columbia, and Puerto Rico. The Redistricting Census 2000 TIGER/Line files will **NOT** include files for American Samoa, Guam, the Northern Mariana Islands, the Minor Outlying Areas (Midway), and the U.S. Virgin Islands. The Census 2000 TIGER/Line files, scheduled for release in the third quarter of 2001, will include files for these areas, as well as the ZCTA information and the updated Census 2000 address ranges.

The TIGER/Line files are extracts of selected geographic and cartographic information from the Census Bureau's TIGER (Topologically Integrated Geographic Encoding and Referencing) database. There is one archived (zipped) TIGER/Line file for each county or county equivalent. The file names consist of TGR + the 2-digit state FIPS (Federal Information Processing Standards) code + the 3-digit county FIPS code i.e. TGR01031.ZIP for Coffee County, Alabama.

The letters PDF or symbol  indicate a document is in the [Portable Document Format \(PDF\)](#). To view file you will need the [Adobe\(R\) Acrobat\(R\) Reader](#) which is available for **free** from the Adobe web site.

To find the FIPS codes for other states and counties refer to [Appendix A](#) in PDF or [ASCII text](#) of the [technical documentation](#) . The [metadata](#) is in ASCII text format.

You can now download one or more Redistricting Census 2000 Tiger/Line files. Each state folder contains a Counts file and individual county files. The county files are stored in compressed format and are compatible with PK Ware's PK Zip software. The COUNTSnn.TXT files (where "nn" is the state FIPS code) show the counts for the number of records for each record type by county for a state. If the count for a particular record type is 0, then that record type does not exist for that county.

The Census Bureau is providing the TIGER/Line files in **ASCII text format only** and the data are **NOT** in the form of map images. To create maps with the TIGER/Line files, one would typically use a Geographic Information System (GIS) package or other mapping software. Users are responsible for converting

Files are stored in compressed format and are compatible with PKWare's PKZip software. The COUNTY.TXT files (where "nn" is the state FIPS code) show the counts for the number of records for each record type by county for a state. If the count for a particular record type is 0, then that record type does not exist for that county.

The Census Bureau is providing the TIGER/Line files in **ASCII text format only** and the data are **NOT** in the form of map images. To create maps with the TIGER/Line files, one would typically use a Geographic Information System (GIS) package or other mapping software. Users are responsible for converting or translating the files into a format used by their specific software package. For information on how to use the TIGER/Line data with a specific software package one should contact the company that produced that software. For information on companies that sell products that use TIGER/Line data or that provide TIGER/Line related services, refer to the [TIGER Vendor List](#). Before downloading files, please refer to the [README](#) file.

[Think we've missed a few counties?](#)

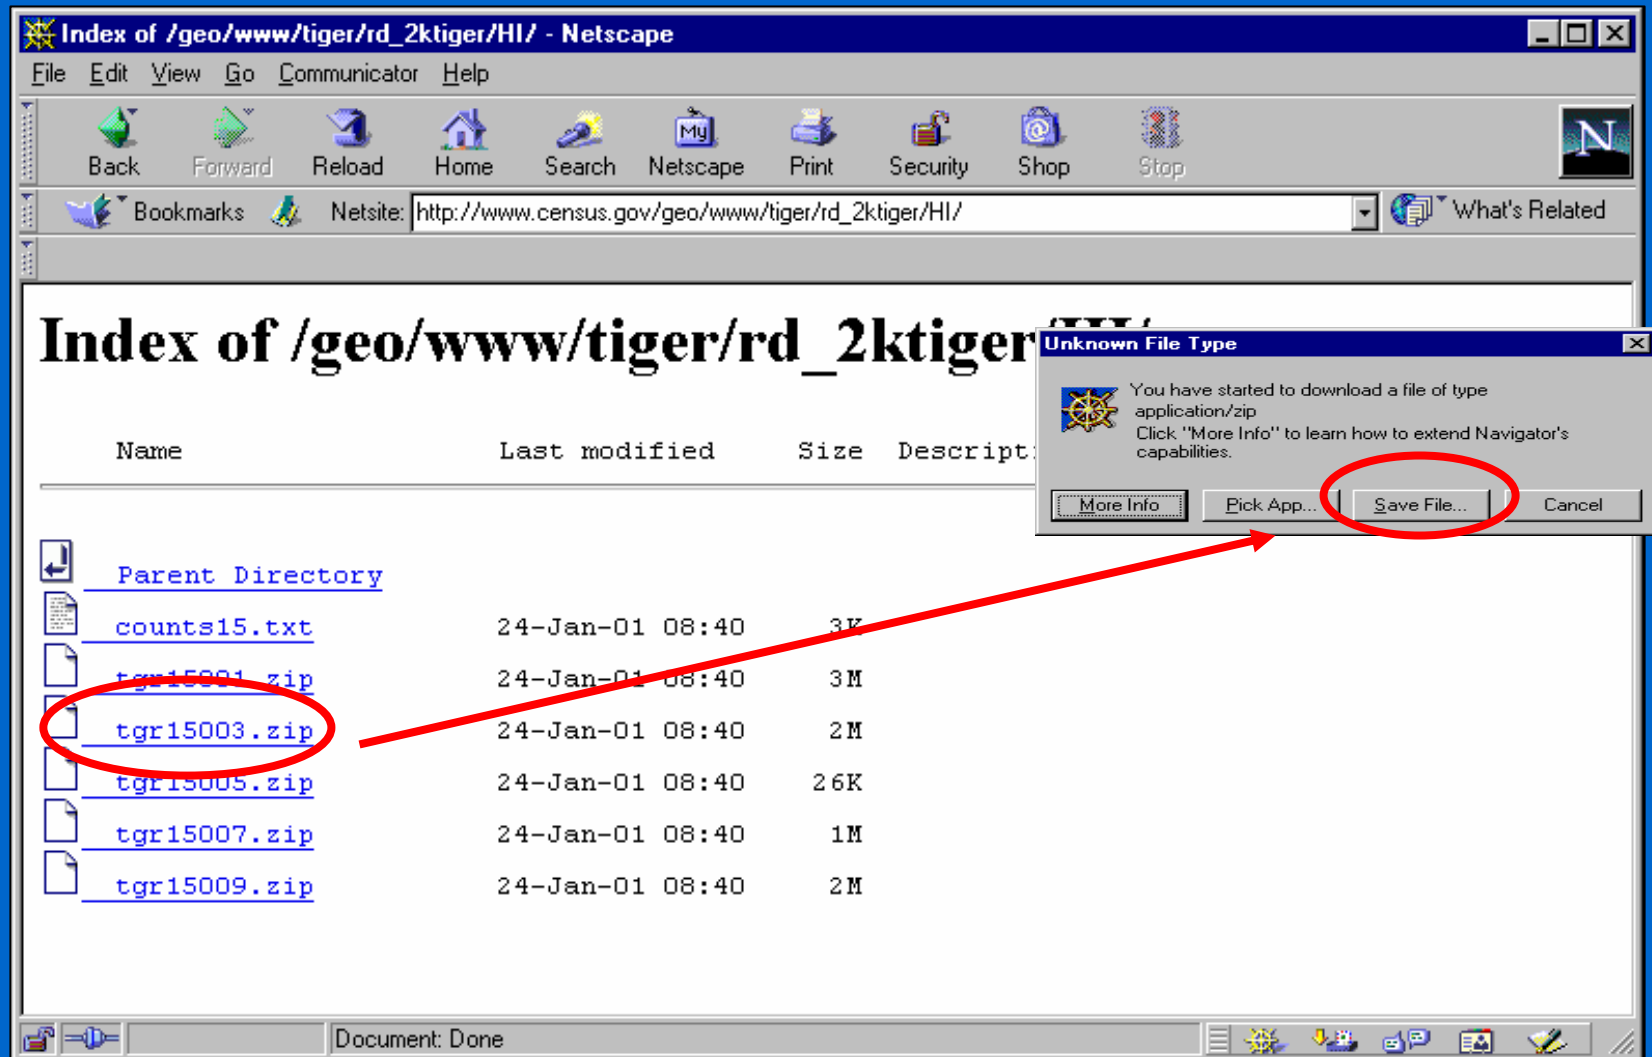

Click on the appropriate state or area link to download the files.
