

**Population by Race Alone, Race in Combination Only and Race Alone or in Combination,
for the State of Hawaii: 2000**

Subject	Race alone 1/ (minimum population)		Race in combination only 2/		Race alone or in combination 3/ (maximum population)	
	Number	Percent of total population	Number	Percent of total population	Number	Percent of total population
RACE						
Total population 4/	1,211,537	100.0	1,211,537	100.0	1,211,537	100.0
<i>Number of race responses 4/</i>	952,194	78.6	615,695	50.8	1,567,889	129.4
White	294,102	24.3	182,060	15.0	476,162	39.3
Black or African American	22,003	1.8	11,340	0.9	33,343	2.8
American Indian and Alaska Native	3,535	0.3	21,347	1.8	24,882	2.1
Asian	503,868	41.6	199,364	16.5	703,232	58.0
Native Hawaiian and Other Pacific Islander	113,539	9.4	169,128	14.0	282,667	23.3
Some other race	15,147	1.3	32,456	2.7	47,603	3.9

1/ One of the following six races: (1) White, (2) Black or African American, (3) American Indian and Alaska Native, (4) Asian, (5) Native Hawaiian and Other Pacific Islander, (6) Some other race.

2/ In combination with one or more of the other five races listed. For example, a person who is "White *and* Black or African American" is included both with White and with Black or African American.

3/ Alone or in combination with one or more of the other five races listed. Numbers for the six race groups may add to more than the total population, and the six percentages may add to more than 100 percent because individuals may be of more than one race. For example, a person indicating "American Indian and Alaska Native *and* Asian *and* Native Hawaiian and Other Pacific Islander" is included with American Indian and Alaska Native, with Asian, and with Native Hawaiian and Other Pacific Islander.

4/ The total population are not affected by whether data on race are for race alone, for race in combination only, or for race alone or in combination. The numbers by race do not add to the total population in column 1, column 3, and column 5, and the percentages do not add to 100 percent in column 2, column 4, and column 6. This is because the numbers by race are counts of particular types of responses by race. The numbers are not counts in which each person is included once and only once. The number of race responses is shown in italics.
