KOREAN POPULATION RACE ALONE OR IN COMBINATION

[Includes persons selecting the Korean race alone or Korean race in combination with other races. Numbers may add to more than the total population and percents may sum to more than one hundred percent because counts are tallies and are not the actual number of people. Individuals may be of more than one race and are therefore counted under each race they specify. Data based on a sample. Only census tracts that meet the population threshold are displayed]
