Federal Funding is Based on the Census

Everyone counts. And because there is so much at stake in the outcome of the April 2010 census count, everyone in the Hawaii 'Ohana must be counted. The count from Census 2010 will form the baseline for everything from federal funding to emergency planning. Our goal is 100 percent participation in Census 2010. Census forms arrive in March of 2010. Be prepared to be counted!

BE COUNTED 2010 KAUAI COUNTY

Census Day is April 1, 2010 – Be Counted!

What is the Census?

The decennial census is a headcount of every resident in the United States, including citizens and non-citizens. It has been conducted every 10 years since 1790 and is mandated by the U.S. Constitution (Article I, Section 2). In addition to determining congressional representation, the census describes who we are as a county, state, and nation.

Census questionnaires will take less than 10 minutes to complete and will be mailed or delivered to every U.S. household in March 2010. All responses are confidential and protected by law.

Why is the upcoming census important to Kauai County?

Census data affects you and your family because it determines Kauai's allocation of federal and state funds, including more than \$400 billion dollars of federal aid. It is also utilized to determine the need for additional social services, block grants, and other grant programs.

Kauai County uses census information for growth management and planning purposes, such as helping to forecast future transportation needs and to determine locations of infrastructure improvements, as well as many other projects.
