

Selected Social Characteristics in the United States: 2006  
 Data Set: 2006 American Community Survey  
 Survey: 2006 American Community Survey  
 Geographic Area: Honolulu County, Hawaii

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

Selected Social Characteristics in the United States: 2006	Estimate	Margin of Error
<b>HOUSEHOLDS BY TYPE</b>		
<b>Total households</b>	<b>299,217</b>	<b>+/-3,530</b>
Family households (families)	209,890	+/-4,698
With own children under 18 years	84,046	+/-3,867
Married-couple families	157,578	+/-4,138
With own children under 18 years	64,824	+/-3,295
Male householder, no wife present	15,653	+/-1,717
With own children under 18 years	5,035	+/-1,139
Female householder, no husband present	36,659	+/-2,762
With own children under 18 years	14,187	+/-2,258
Nonfamily households	89,327	+/-3,887
Householder living alone	74,425	+/-3,549
65 years and over	21,955	+/-1,870
Households with one or more people under 18 years	103,107	+/-3,826
Households with one or more people 65 years and over	87,107	+/-2,021
Average household size	2.93	+/-0.03
Average family size	3.52	+/-0.07
<b>RELATIONSHIP</b>		
<b>Household population</b>	<b>877,485</b>	<b>+/-378</b>
Householder	299,217	+/-3,530
Spouse	157,567	+/-4,146
Child	257,391	+/-6,738
Other relatives	114,636	+/-7,020
Nonrelatives	48,674	+/-6,317
Unmarried partner	14,245	+/-1,977

<b>MARITAL STATUS</b>		
<b>Males 15 years and over</b>	<b>364,486</b>	<b>+/-673</b>
Never married	131,248	+/-4,039
Now married, except separated	193,063	+/-4,008
Separated	3,515	+/-847
Widowed	8,639	+/-1,324
Divorced	28,021	+/-2,294
<b>Females 15 years and over</b>	<b>370,988</b>	<b>+/-423</b>
Never married	102,304	+/-3,018
Now married, except separated	187,193	+/-4,524
Separated	6,093	+/-1,317
Widowed	37,398	+/-2,179
Divorced	38,000	+/-2,815
<b>FERTILITY</b>		
<b>Number of women 15 to 50 years old who had a birth in the past 12 months</b>	<b>11,599</b>	<b>+/-1,489</b>
Unmarried women (widowed, divorced, and never married)	3,365	+/-990
Per 1,000 unmarried women	31	+/-9
Per 1,000 women 15 to 50 years old	52	+/-7
Per 1,000 women 15 to 19 years old	22	+/-17
Per 1,000 women 20 to 34 years old	91	+/-14
Per 1,000 women 35 to 50 years old	27	+/-6
<b>GRANDPARENTS</b>		
<b>Number of grandparents living with own grandchildren under 18 years</b>	<b>37,110</b>	<b>+/-3,679</b>
Responsible for grandchildren	8,095	+/-1,877
Years responsible for grandchildren		
Less than 1 year	627	+/-421
1 or 2 years	1,479	+/-697
3 or 4 years	2,141	+/-845
5 or more years	3,848	+/-1,365
Characteristics of grandparents responsible for own grandchildren under 18 years		
Who are female	59.4%	+/-6.7
Who are married	73.3%	+/-9.5

<b>SCHOOL ENROLLMENT</b>		
<b>Population 3 years and over enrolled in school</b>	<b>228,554</b>	<b>+/-4,412</b>
Nursery school, preschool	16,246	+/-1,991
Kindergarten	11,663	+/-1,683
Elementary school (grades 1-8)	87,598	+/-2,766
High school (grades 9-12)	48,188	+/-2,062
College or graduate school	64,859	+/-3,715
<b>EDUCATIONAL ATTAINMENT</b>		
<b>Population 25 years and over</b>	<b>608,075</b>	<b>+/-954</b>
Less than 9th grade	33,537	+/-3,486
9th to 12th grade, no diploma	33,466	+/-2,640
High school graduate (includes equivalency)	172,334	+/-6,773
Some college, no degree	120,243	+/-4,555
Associate's degree	59,123	+/-3,881
Bachelor's degree	124,354	+/-5,499
Graduate or professional degree	65,018	+/-3,744
Percent high school graduate or higher	89.0%	+/-0.7
Percent bachelor's degree or higher	31.1%	+/-0.9
<b>VETERAN STATUS</b>		
<b>Civilian population 18 years and over</b>	<b>662,865</b>	<b>+/-2,645</b>
Civilian veterans	87,781	+/-3,725
<b>DISABILITY STATUS OF THE CIVILIAN NONINSTITUTIONALIZED POPULATION</b>		
<b>Population 5 years and over</b>	<b>802,721</b>	<b>+/-2,617</b>
With a disability	102,599	+/-4,649
<b>Population 5 to 15 years</b>	<b>121,701</b>	<b>+/-1,451</b>
With a disability	5,475	+/-1,106
<b>Population 16 to 64 years</b>	<b>552,801</b>	<b>+/-3,359</b>
With a disability	49,260	+/-3,572
<b>Population 65 years and over</b>	<b>128,219</b>	<b>+/-513</b>
With a disability	47,864	+/-2,893
<b>RESIDENCE 1 YEAR AGO</b>		
<b>Population 1 year and over</b>	<b>898,074</b>	<b>+/-1,719</b>
Same house	754,323	+/-8,370
Different house in the U.S.	129,335	+/-8,653
Same county	82,078	+/-8,130
Different county	47,257	+/-4,815
Same state	2,118	+/-957
Different state	45,139	+/-4,607
Abroad	14,416	+/-3,228

<b>PLACE OF BIRTH</b>		
<b>Total population</b>	<b>909,863</b>	<b>*****</b>
Native	745,158	+/-9,601
Born in United States	715,619	+/-10,168
State of residence	501,833	+/-11,097
Different state	213,786	+/-6,440
American parent(s)	29,539	+/-3,326
Foreign born	164,705	+/-9,601
<b>U.S. CITIZENSHIP STATUS</b>		
<b>Foreign-born population</b>	<b>164,705</b>	<b>+/-9,601</b>
Naturalized U.S. citizen	96,909	+/-5,611
Not a U.S. citizen	67,796	+/-7,257
<b>YEAR OF ENTRY</b>		
<b>Population born outside the United States</b>	<b>194,244</b>	<b>+/-10,168</b>
Native	29,539	+/-3,326
Entered 2000 or later	7,427	+/-2,234
Entered before 2000	22,112	+/-2,358
Foreign born	164,705	+/-9,601
Entered 2000 or later	39,227	+/-6,028
Entered before 2000	125,478	+/-6,511
<b>WORLD REGION OF BIRTH OF FOREIGN BORN</b>		
<b>Foreign-born population, excluding population born at sea</b>	<b>164,705</b>	<b>+/-9,601</b>
Europe	6,847	+/-1,534
Asia	134,457	+/-7,591
Africa	1,129	+/-624
Oceania	13,759	+/-3,713
Latin America	4,696	+/-1,287
Northern America	3,817	+/-1,626
<b>LANGUAGE SPOKEN AT HOME</b>		
<b>Population 5 years and over</b>	<b>846,779</b>	<b>+/-335</b>
English only	630,405	+/-9,341
Language other than English	216,374	+/-9,352
Speak English less than "very well"	101,510	+/-7,125
Spanish	11,724	+/-1,876
Speak English less than "very well"	2,479	+/-749
Other Indo-European languages	11,999	+/-3,077
Speak English less than "very well"	1,389	+/-739
Asian and Pacific Islander languages	191,711	+/-8,777
Speak English less than "very well"	97,480	+/-6,925
Other languages	940	+/-591
Speak English less than "very well"	162	+/-149

<b>ANCESTRY</b>		
<b>Total population</b>	<b>909,863</b>	<b>*****</b>
American	7,207	+/-1,757

Welsh	2,914	+/-1,158
West Indian (excluding Hispanic origin groups)	1,674	+/-1,480

Source: U.S. Census Bureau, 2006 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

-Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).

-The Census Bureau introduced a new skip pattern for the disability questions in the 2003 ACS questionnaire. This change mainly affected two individual items -- go-outside-home disability and employment disability -- and the recode for disability status, which includes the two items. Accordingly, comparisons of data from 2003 or later with data from prior years are not recommended for the relevant questions. For more information, see the ACS Subject Definitions for Disability.

-Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.

-While the 2006 American Community Survey (ACS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

8. An '(X)' means that the estimate is not applicable or not available.

Selected Economic Characteristics: 2006  
 Data Set: 2006 American Community Survey  
 Survey: 2006 American Community Survey  
 Geographic Area: Honolulu County, Hawai

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties. For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

Selected Economic Characteristics: 2006	Estimate	Margin of Error
<b>EMPLOYMENT STATUS</b>		
<b>Population 16 years and over</b>	<b>725,020</b>	<b>+/-1,540</b>
In labor force	472,099	+/-5,095
Civilian labor force	434,605	+/-6,108
Employed	414,034	+/-6,416

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

·Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance.

·Workers include members of the Armed Forces and civilians who were at work last week.

·Occupation codes are 4-digit codes, but are still based on Standard Occupational Classification 2000.

·Industry codes are 4-digit codes and are based on the North American Industry Classification System 2002. However, the Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

·While the 2006 American Community Survey (ACS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

8. An '(X)' means that the estimate is not applicable or not available.

Source: U.S. Census Bureau, 2006 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

·The median gross rent excludes no cash renters.

·While the 2006 American Community Survey (ACS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

8. An '(X)' means that the estimate is not applicable or not available.

ACS Demographic and Housing Estimates: 2006  
 Data Set: 2006 American Community Survey  
 Survey: 2006 American Community Survey  
 Geographic Area: Honolulu County, Hawaii

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties. For more information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Notes:

·For more information on understanding race and Hispanic origin data, please see the Census 2000 Brief entitled, Overview of Race and Hispanic Origin, issued March 2001. (pdf format)

·While the 2006 American Community Survey (ACS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

8. An '(X)' means that the estimate is not applicable or not available.
