

United States -- States; and Puerto Rico

GCT1001. Percent of Grandparents Responsible for their Grandchildren: 2007

Universe: Grandparents living with grandchildren

Data Set: 2007 American Community Survey 1-Year Estimates

Survey: American Community Survey, Puerto Rico Community Survey

NOTE. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Geographic area	Percent	Margin of Error
United States	40.5	+/-0.3
Alabama	53.9	+/-2.8
Alaska	37.5	+/-6.6
Arizona	42.4	+/-3.0
Arkansas	58.6	+/-3.9
California	28.6	+/-0.8
Colorado	43.2	+/-3.2
Connecticut	34.3	+/-3.1
Delaware	45.4	+/-6.0
District of Columbia	46.5	+/-8.8
Florida	38.1	+/-1.7
Georgia	44.2	+/-2.2
Hawaii	26.4	+/-3.7
Idaho	44.2	+/-5.1
Illinois	38.7	+/-2.0
Indiana	47.6	+/-3.3
Iowa	42.7	+/-5.1
Kansas	44.5	+/-4.2
Kentucky	56.2	+/-3.3
Louisiana	52.9	+/-2.9
Maine	46.0	+/-6.2
Maryland	36.0	+/-2.4
Massachusetts	27.1	+/-2.7
Michigan	44.2	+/-2.5
Minnesota	44.3	+/-3.5
Mississippi	58.5	+/-3.3
Missouri	45.9	+/-2.8
Montana	53.8	+/-7.1
Nebraska	45.7	+/-5.9
Nevada	40.3	+/-4.2
New Hampshire	37.2	+/-6.8
New Jersey	27.6	+/-2.1
New Mexico	50.7	+/-4.0
New York	32.3	+/-1.4
North Carolina	50.6	+/-2.6
North Dakota	61.7	+/-9.9
Ohio	47.0	+/-2.3
Oklahoma	55.9	+/-3.4
Oregon	39.7	+/-4.2
Pennsylvania	40.3	+/-2.1
Rhode Island	22.5	+/-4.9

Geographic area	Percent	Margin of Error
South Carolina	52.5	+/-3.1
South Dakota	57.8	+/-8.4
Tennessee	54.7	+/-2.6
Texas	44.7	+/-1.3
Utah	35.1	+/-3.4
Vermont	41.8	+/-10.4
Virginia	39.5	+/-2.3
Washington	38.7	+/-3.1
West Virginia	58.4	+/-4.3
Wisconsin	43.1	+/-3.9
Wyoming	48.6	+/-11.7
Puerto Rico	47.2	+/-2.0

Source: U.S. Census Bureau, 2007 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

While the 2007 American Community Survey (ACS) data generally reflect the December 2006 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities. The 2007 Puerto Rico Community Survey (PRCS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in PRCS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available. Selected migration, earnings, and income data are not available for certain geographic areas due to problems with group quarters data collection and imputation. See [Errata Note #44](#) for details.
