United States -- States; and Puerto Rico

GCT2513. Percent of Mortgaged Owners Spending 30 Percent or More of Household Income on Selected Monthly Owner Costs: 2007 Universe: Owner-occupied housing units with a mortgage Data Set: 2007 American Community Survey 1-Year Estimates Survey: American Community Survey, Puerto Rico Community Survey

NOTE. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

Geographic area	Percent	Margin of Error
United States	37.5	+/-0.1
Alabama	29.1	+/-0.8
Alaska	34.9	+/-2.0
Arizona	39.5	+/-0.8
Arkansas	26.5	+/-1.0
California	53.0	+/-0.3
Colorado	37.9	+/-0.7
Connecticut	40.3	+/-1.0
Delaware	35.9	+/-2.1
District of Columbia	38.7	+/-2.5
Florida	48.9	+/-0.5
Georgia	34.6	+/-0.5
Hawaii	45.8	+/-1.7
Idaho	33.1	+/-1.2
Illinois	38.7	+/-0.4
Indiana	26.9	+/-0.5
lowa	25.3	+/-0.9
Kansas	25.7	+/-0.8
Kentucky	27.0	+/-0.7
Louisiana	29.6	+/-0.8
Maine	35.4	+/-1.3
Maryland	37.9	+/-0.7
Massachusetts	41.3	+/-0.7
Michigan	36.3	+/-0.5
Minnesota	34.6	+/-0.6
Mississippi	32.6	+/-1.1
Missouri	29.1	+/-0.7
Montana	33.6	+/-1.5
Nebraska	26.9	+/-1.1
Nevada	49.0	+/-1.2
New Hampshire	40.5	+/-1.4
New Jersey	46.1	+/-0.7
New Mexico	34.0	+/-1.4
New York	41.5	+/-0.5
North Carolina	30.7	+/-0.6
North Dakota	21.4	+/-1.5
Ohio	30.7	+/-0.4
Oklahoma	26.2	+/-0.7
Oregon	40.8	+/-0.9
Pennsylvania	32.9	+/-0.5
Rhode Island	42.3	+/-1.6

Geographic area	Percent	Margin of Error
South Carolina	31.3	+/-0.8
South Dakota	25.8	+/-1.7
Tennessee	31.5	+/-0.7
Texas	31.9	+/-0.4
Utah	33.5	+/-1.1
Vermont	39.5	+/-2.0
Virginia	35.5	+/-0.6
Washington	40.6	+/-0.8
West Virginia	25.5	+/-1.3
Wisconsin	33.5	+/-0.7
Wyoming	24.4	+/-2.3
Puerto Rico	46.1	+/-1.3

Source: U.S. Census Bureau, 2007 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

·While the 2007 American Community Survey (ACS) data generally reflect the December 2006 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities. The 2007 Puerto Rico Community Survey (PRCS) data generally reflect the December 2005 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in PRCS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

-Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

- 1. An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
- 2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
- 3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
- 4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
- 5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
- 6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
- 7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
- 8. An '(X)' means that the estimate is not applicable or not available. Selected migration, earnings, and income data are not available for certain geographic areas due to problems with group quarters data collection and imputation. See Errata Note #44 for details.
