SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

2008-2010 American Community Survey 3-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the official counts of the population and housing units for the nation, states, counties, cities and towns. For 2008 to 2009, the Population Estimates Program provides intercensal estimates of the population for the nation, states, and counties.

Subject	Kihei CDP, Hawaii			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
<b>HOUSEHOLDS BY TYPE</b>				
Total households	7,634	+/-742	7,634	(X)
Family households (families)	4,375	+/-559	57.3%	+/-5.9
With own children under 18 years	1,583	+/-352	20.7%	+/-4.5
Married-couple family	3,212	+/-528	42.1%	+/-5.8
With own children under 18 years	1,020	+/-278	13.4%	+/-3.6
Male householder, no wife present, family	244	+/-162	3.2%	+/-2.1
With own children under 18 years	163	+/-161	2.1%	+/-2.1
Female householder, no husband present, family	919	+/-299	12.0%	+/-3.9
With own children under 18 years	400	+/-168	5.2%	+/-2.2
Nonfamily households	3,259	+/-596	42.7%	+/-5.9
Householder living alone	2,474	+/-495	32.4%	+/-5.4
65 years and over	559	+/-209	7.3%	+/-2.8
Households with one or more people under 18 years	1,996	+/-376	26.1%	+/-4.9
Households with one or more people 65 years and over	1,451	+/-336	19.0%	+/-4.4
Average household size	2.58	+/-0.18	(X)	(X)
Average family size	3.27	+/-0.23	(X)	(X)
<b>RELATIONSHIP</b>				
Population in households	19,705	+/-1,869	19,705	(X)
Householder	7,634	+/-742	38.7%	+/-2.7
Spouse	3,128	+/-531	15.9%	+/-2.2
Child	4,458	+/-737	22.6%	+/-3.4
Other relatives	2,365	+/-820	12.0%	+/-3.8
Nonrelatives	2,120	+/-790	10.8%	+/-3.7
Unmarried partner	529	+/-210	2.7%	+/-1.1
<b>MARITAL STATUS</b>				
Males 15 years and over	8,734	+/-1,206	8,734	(X)
Never married	3,441	+/-731	39.4%	+/-5.0
Now married, except separated	3,986	+/-646	45.6%	+/-5.6
Separated	79	+/-89	0.9%	+/-1.0
Widowed	292	+/-225	3.3%	+/-2.5
Divorced	936	+/-319	10.7%	+/-3.6
Females 15 years and over	7,747	+/-866	7,747	(X)

Subject	Kihei CDP, Hawaii			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
Never married	1,889	+/-448	24.4%	+/-4.7
Now married, except separated	3,900	+/-571	50.3%	+/-5.8
Separated	243	+/-181	3.1%	+/-2.3
Widowed	588	+/-167	7.6%	+/-2.1
Divorced	1,127	+/-308	14.5%	+/-3.6
<b>FERTILITY</b>				
Number of women 15 to 50 years old who had a birth in the past 12 months	N	N	N	(X)
Unmarried women (widowed, divorced, and never married)	N	N	N	N
Per 1,000 unmarried women	N	N	(X)	(X)
Per 1,000 women 15 to 50 years old	N	N	(X)	(X)
Per 1,000 women 15 to 19 years old	N	N	(X)	(X)
Per 1,000 women 20 to 34 years old	N	N	(X)	(X)
Per 1,000 women 35 to 50 years old	N	N	(X)	(X)
<b>GRANDPARENTS</b>				
Number of grandparents living with own grandchildren under 18 years	N	N	N	(X)
Responsible for grandchildren	N	N	N	N
Years responsible for grandchildren				
Less than 1 year	N	N	N	N
1 or 2 years	N	N	N	N
3 or 4 years	N	N	N	N
5 or more years	N	N	N	N
Number of grandparents responsible for own grandchildren under 18 years	N	N	N	(X)
Who are female	N	N	N	N
Who are married	N	N	N	N
<b>SCHOOL ENROLLMENT</b>				
Population 3 years and over enrolled in school	3,678	+/-647	3,678	(X)
Nursery school, preschool	373	+/-225	10.1%	+/-6.0
Kindergarten	162	+/-118	4.4%	+/-3.0
Elementary school (grades 1-8)	1,496	+/-395	40.7%	+/-7.3
High school (grades 9-12)	800	+/-252	21.8%	+/-5.6
College or graduate school	847	+/-331	23.0%	+/-8.6
<b>EDUCATIONAL ATTAINMENT</b>				
Population 25 years and over	14,130	+/-1,495	14,130	(X)
Less than 9th grade	491	+/-259	3.5%	+/-1.8
9th to 12th grade, no diploma	743	+/-296	5.3%	+/-2.1
High school graduate (includes equivalency)	4,440	+/-837	31.4%	+/-4.8
Some college, no degree	3,660	+/-732	25.9%	+/-4.2
Associate's degree	982	+/-299	6.9%	+/-2.0
Bachelor's degree	2,919	+/-673	20.7%	+/-4.2
Graduate or professional degree	895	+/-314	6.3%	+/-2.2
Percent high school graduate or higher	(X)	(X)	91.3%	+/-2.9
Percent bachelor's degree or higher	(X)	(X)	27.0%	+/-4.9
<b>VETERAN STATUS</b>				
Civilian population 18 years and over	15,664	+/-1,591	15,664	(X)
Civilian veterans	1,505	+/-405	9.6%	+/-2.5
<b>DISABILITY STATUS OF THE CIVILIAN NONINSTITUTIONALIZED POPULATION</b>				
Total Civilian Noninstitutionalized Population	19,653	+/-1,857	19,653	(X)
With a disability	1,573	+/-409	8.0%	+/-2.0
Under 18 years	3,989	+/-766	3,989	(X)
With a disability	108	+/-89	2.7%	+/-2.2
18 to 64 years	13,876	+/-1,527	13,876	(X)
With a disability	860	+/-343	6.2%	+/-2.5
65 years and over	1,788	+/-410	1,788	(X)
With a disability	605	+/-226	33.8%	+/-10.7
<b>RESIDENCE 1 YEAR AGO</b>				
Population 1 year and over	19,519	+/-1,875	19,519	(X)

Subject	Kihei CDP, Hawaii			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
Same house	13,107	+/-1,415	67.1%	+/-5.5
Different house in the U.S.	5,883	+/-1,243	30.1%	+/-5.1
Same county	4,010	+/-945	20.5%	+/-4.0
Different county	1,873	+/-643	9.6%	+/-3.1
Same state	333	+/-239	1.7%	+/-1.2
Different state	1,540	+/-586	7.9%	+/-2.9
Abroad	529	+/-525	2.7%	+/-2.6
<b>PLACE OF BIRTH</b>				
Total population	19,705	+/-1,869	19,705	(X)
Native	15,663	+/-1,570	79.5%	+/-4.7
Born in United States	15,365	+/-1,555	78.0%	+/-4.8
State of residence	6,504	+/-1,028	33.0%	+/-4.5
Different state	8,861	+/-1,265	45.0%	+/-5.4
Born in Puerto Rico, U.S. Island areas, or born abroad to American parent(s)	298	+/-222	1.5%	+/-1.1
Foreign born	4,042	+/-1,074	20.5%	+/-4.7
<b>U.S. CITIZENSHIP STATUS</b>				
Foreign-born population	4,042	+/-1,074	4,042	(X)
Naturalized U.S. citizen	1,681	+/-537	41.6%	+/-10.6
Not a U.S. citizen	2,361	+/-822	58.4%	+/-10.6
<b>YEAR OF ENTRY</b>				
Population born outside the United States	4,340	+/-1,106	4,340	(X)
Native	298	+/-222	298	(X)
Entered 2000 or later	0	+/-158	0.0%	+/-17.5
Entered before 2000	298	+/-222	100.0%	+/-17.5
Foreign born	4,042	+/-1,074	4,042	(X)
Entered 2000 or later	1,401	+/-753	34.7%	+/-11.8
Entered before 2000	2,641	+/-583	65.3%	+/-11.8
<b>WORLD REGION OF BIRTH OF FOREIGN BORN</b>				
Foreign-born population, excluding population born at sea	N	N	N	(X)

Welsh	579	+/-483	2.9%	+/-2.5
West Indian (excluding Hispanic origin groups)	0	+/-158	0.0%	+/-0.3

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

While the 2008-2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2008-2010 American Community Survey

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

People in families	(X)	(X)	7.3%	+/-4.8
Unrelated individuals 15 years and over	(X)	(X)	14.4%	+/-5.1

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

There were changes in the edit between 2009 and 2010 regarding Supplemental Security Income (SSI) and Social Security. The changes in the edit loosened restrictions on disability requirements for receipt of SSI resulting in an increase in the total number of SSI recipients in the American Community Survey. The changes also loosened restrictions on possible reported monthly amounts in Social Security income resulting in higher Social Security aggregate amounts. These results more closely match administrative counts compiled by the Social Security Administration.

Workers include members of the Armed Forces and civilians who were at work last week.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2007. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

Occupation codes are 4-digit codes and are based on the Standard Occupational Classification (SOC) 2010. The 2010 Census occupation codes were updated in accordance with the 2010 revision of the SOC. To allow for the creation of 2006-2010 and 2008-2010 tables, occupation data in the multiyear files (2006-2010 and 2008-2010) were recoded to 2010 Census occupation codes. We recommend using caution when comparing data coded using 2010 Census occupation codes with data coded using previous Census occupation codes. For more information on the Census occupation code changes, please visit our website at <http://www.census.gov/hhes/www/oiindex/>.

While the 2008-2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2008-2010 American Community Survey

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

2008-2010 American Community Survey 3-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the official counts of the population and housing units for the nation, states, counties, cities and towns. For 2008 to 2009, the Population Estimates Program provides intercensal estimates of the population for the nation, states, and counties.

\$1,500 or more	N	N	N	N
Median (dollars)	1,549	+/-135	(X)	(X)
No rent paid	N	N	(X)	(X)

Subject	Kihei CDP, Hawaii			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
GROSS RENT AS A PERCENTAGE OF HOUSEHOLD INCOME (GRAPI)				
Occupied units paying rent (excluding units where GRAPI cannot be computed)	3,797	+/-706	3,797	(X)
Less than 15.0 percent	0	+/-158	0.0%	+/-1.5
15.0 to 19.9 percent	294	+/-177	7.7%	+/-4.6
20.0 to 24.9 percent	745	+/-380	19.6%	+/-8.6
25.0 to 29.9 percent	504	+/-192	13.3%	+/-4.9
30.0 to 34.9 percent	556	+/-270	14.6%	+/-6.8
35.0 percent or more	1,698	+/-457	44.7%	+/-9.3
Not computed	135	+/-87	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

The median gross rent excludes no cash renters.

In prior years, the universe included all owner-occupied units with a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all owner-occupied units without a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all renter-occupied units. It is now restricted to include only those units where GRAPI is computed, that is, gross rent and household income are valid values.

The 2009 and 2010 plumbing data for Puerto Rico will not be shown. Research indicates that the questions on plumbing facilities that were introduced in 2008 in the stateside American Community Survey and the 2008 Puerto Rico Community Survey may not have been appropriate for Puerto Rico.

While the 2008-2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2008-2010 American Community Survey

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

DP05

ACS DEMOGRAPHIC AND HOUSING ESTIMATES

2008-2010 American Community Survey 3-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the official counts of the population and housing units for the nation, states, counties, cities and towns. For 2008 to 2009, the Population Estimates Program provides intercensal estimates of the population for the nation, states, and counties.

Two races excluding Some other race, and Three or more races	3,163	+/-896	16.1%	+/-4.6
Total housing units	12,095	+/-1,019	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data).

The effect of nonsampling error is not represented in these tables.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

While the 2008-2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

8. An '(X)' means that the estimate is not applicable or not available.
