**PERCENT OF MORTGAGED OWNERS SPENDING 30 PERCENT OR MORE OF HOUSEHOLD INCOME ON SELECTED MONTHLY OWNER COSTS - United States -- States; and Puerto Rico**  
 Universe: Owner-occupied housing units with a mortgage  
 2013 American Community Survey 1-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

To view this table with statistical significance, select With Statistical Significance in the Action menu.

A # next to a geography indicates when an estimate is not statistically significant from the estimate for the selected geography.

The ## indicates the selected geography.

Rank	Geographical Area	Percent	Margin of Error
	United States	31.6	+/-0.1
1	Hawaii	43.5	+/-1.6
2	California	41.6	+/-0.3
3	New Jersey	40.7	+/-0.7
4	Florida	38.6	+/-0.5
5	New York	37.6	+/-0.4
6	Rhode Island	36.1	+/-1.8
7	Nevada	35.7	+/-1.0
8	Connecticut	35.1	+/-1.0
8	Oregon	35.1	+/-0.8
10	Vermont	34.8	+/-1.6
11	Washington	34.1	+/-0.7
12	Massachusetts	33.7	+/-0.7
12	New Hampshire	33.7	+/-1.5
14	Illinois	32.6	+/-0.5
15	Maryland	31.6	+/-0.6
16	Maine	31.5	+/-1.4
17	Arizona	31.4	+/-0.7
18	New Mexico	31.1	+/-1.5
19	Delaware	30.6	+/-1.6
20	Georgia	30.5	+/-0.6
21	Mississippi	30.3	+/-1.4
22	Colorado	30.0	+/-0.7
23	Idaho	29.9	+/-1.3
24	South Carolina	29.8	+/-0.9
25	Virginia	29.4	+/-0.5
26	Wisconsin	29.1	+/-0.6
27	Utah	29.0	+/-0.9
28	Montana	28.9	+/-1.6
28	North Carolina	28.9	+/-0.6
30	Pennsylvania	28.8	+/-0.4
31	District of Columbia	28.4	+/-2.5
31	Tennessee	28.4	+/-0.8

Rank	Geographical Area	Percent	Margin of Error
33	Michigan	27.5	+/-0.4
34	Texas	27.4	+/-0.4
35	Louisiana	27.2	+/-1.0
36	Alaska	26.7	+/-2.1
37	Missouri	26.4	+/-0.7
38	Alabama	26.3	+/-0.7
39	Ohio	26.0	+/-0.5
40	Minnesota	25.6	+/-0.6
41	Kentucky	25.5	+/-0.7
42	Arkansas	24.7	+/-1.1
43	Oklahoma	24.2	+/-0.7
44	Wyoming	23.7	+/-2.0
45	West Virginia	23.4	+/-1.2
46	Indiana	23.3	+/-0.6
47	Nebraska	23.2	+/-1.0
48	Kansas	22.1	+/-0.9
49	South Dakota	21.9	+/-1.7
50	Iowa	20.9	+/-0.7
51	North Dakota	17.6	+/-1.8
	Puerto Rico	46.9	+/-1.2

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: User Notes

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
