

## Population and Housing Narrative Profile 2010-2014 American Community Survey 5-Year Estimates

While the ACS produces sample-based population group and housing estimates used in this report, the Census Bureau's Population Estimates Program produces and disseminates official estimates of the population for the nation, states, counties, cities and towns, as well as estimates of housing units for states and counties. For more information see: <http://www.census.gov/popest/>

Note that for small geographic areas, the sample used for the Narrative Profile may be small as well. Users are encouraged to examine the detailed tables on [American FactFinder](#) that are associated with the Narrative Profile text. These tables provide additional information on sampling variability associated with the estimates in this report.

### Geography: Hawaii County, Hawaii

#### ► Households and Families

In 2010-2014 there were 64,600 households in Hawaii County, Hawaii. The average household size was 2.9 people.

Families made up 66 percent of the households in Hawaii County, Hawaii. This figure includes both married-couple families (47 percent) and other families (19 percent).
