

American Community Survey

Population and Housing Narrative Profile 2012-2016 American Community Survey 5-Year Estimates

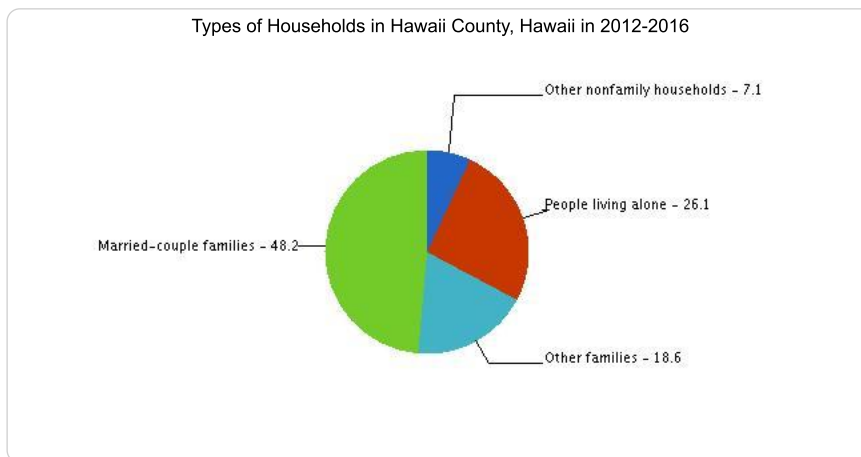

Geography: Hawaii County, Hawaii

▶ Households and Families

In 2012-2016 there were 66,100 households in Hawaii County, Hawaii. The average household size was 2.9 people.

Families made up 67 percent of the households in Hawaii County, Hawaii. This figure includes both married-couple families (48 percent) and other families (19 percent). Of other families, 6 percent are female householder families with no husband present and own children under 18 years. Nonfamily households made up 33 percent of all households in Hawaii County, Hawaii. Most of the nonfamily households were people living alone, but some were composed of people living in households in which no one was related to the householder.

In Hawaii County, Hawaii, 29 percent of all households have one or more people under the age of 18; 35 percent of all households have one or more people 65 years and over.

Among persons 15 and older, 48 percent of males and 47 percent of females are currently married.

Population 15 years and over	Males	Females
Never married	36.4	28.9
Now married, except separated	47.8	47.5
Separated	2.3	1.5
Widowed	3.0	10.0
Divorced	10.6	12.2

In Hawaii County, Hawaii, 6,200 grandparents lived with their grandchildren under 18 years old. Of those grandparents, 41 percent of them had financial responsibility for their grandchildren.

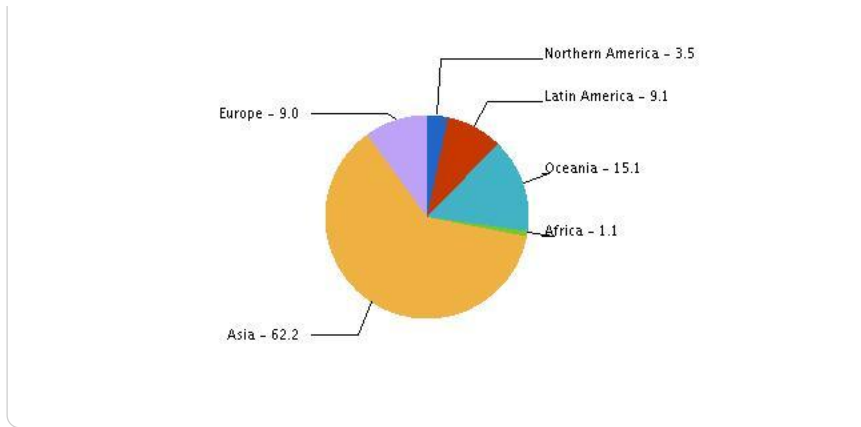

▶ Nativity and Foreign Born

An estimated 89 percent of the people living in Hawaii County, Hawaii in 2012-2016 were native residents of the United States and 57 percent of these residents were living in the state in which they were born.

An estimated 11 percent of the people living in Hawaii County, Hawaii in 2012-2016 were foreign born. Of the foreign born population, 51 percent were naturalized U.S. citizens, and 89 percent entered the country before the year 2010. An estimated 11 percent of the foreign born entered the country in 2010 or later.

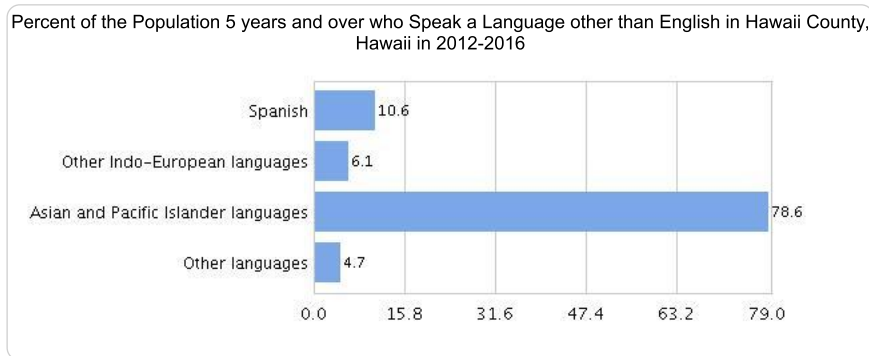

Foreign born residents of Hawaii County, Hawaii come from different parts of the world.

Region of Birth for the Foreign Born Population in Hawaii County, Hawaii in 2012-2016

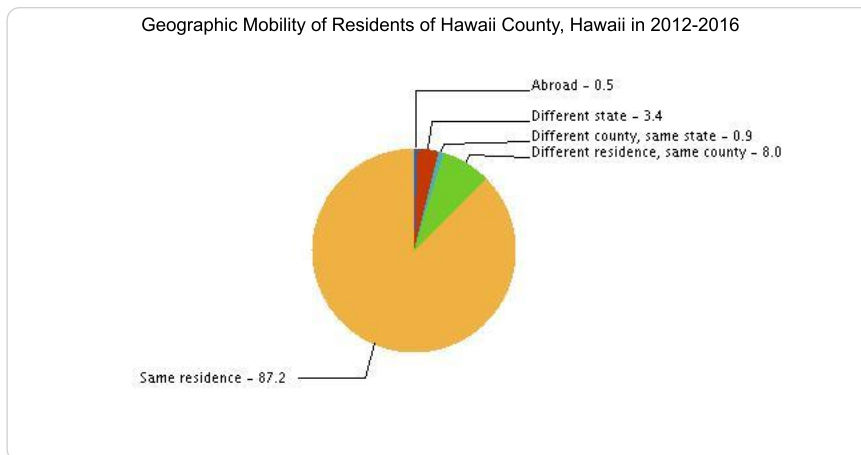

Language

Among people at least five years old living in Hawaii County, Hawaii in 2012-2016, 19 percent spoke a language other than English at home. Of those speaking a language other than English at home, 11 percent spoke Spanish and 89 percent spoke some other language; 32 percent reported that they did not speak English "very well."

Geographic Mobility

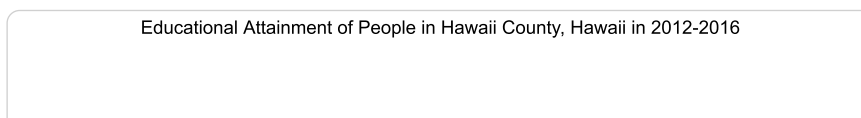

In 2012-2016, 87 percent of the people at least one year old living in Hawaii County, Hawaii were living in the same residence one year earlier.

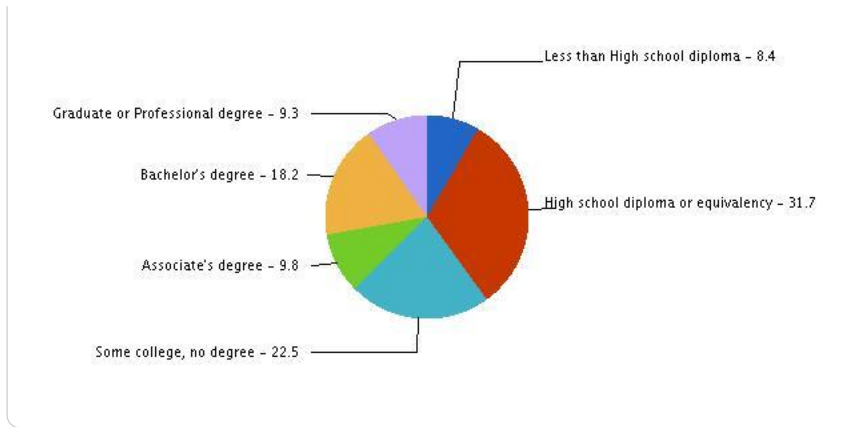

Education

In 2012-2016, 92 percent of people 25 years and over had at least graduated from high school and 28 percent had a bachelor's degree or higher. An estimated 8 percent did not complete high school.

The total school enrollment in Hawaii County, Hawaii was 43,100 in 2012-2016. Nursery school and kindergarten enrollment was 5,400 and elementary or high school enrollment was 27,400 children. College or graduate school enrollment was 10,200.

Disability

In Hawaii County, Hawaii, among the civilian noninstitutionalized population in 2012-2016, 13 percent reported a disability. The likelihood of having a disability varied by age - from 3 percent of people under 18 years old, to 10 percent of people 18 to 64 years old, and to 39 percent of those 65 and over.

Employment Status and Type of Employer

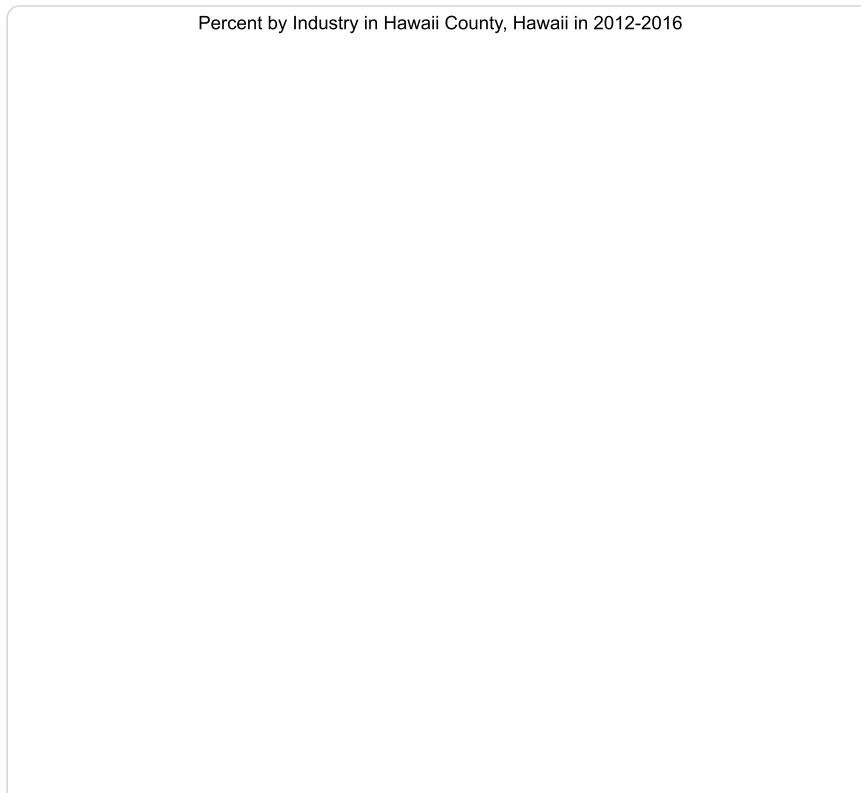

In Hawaii County, Hawaii, 54 percent of the population 16 and over were employed; 42 percent were not currently in the labor force.

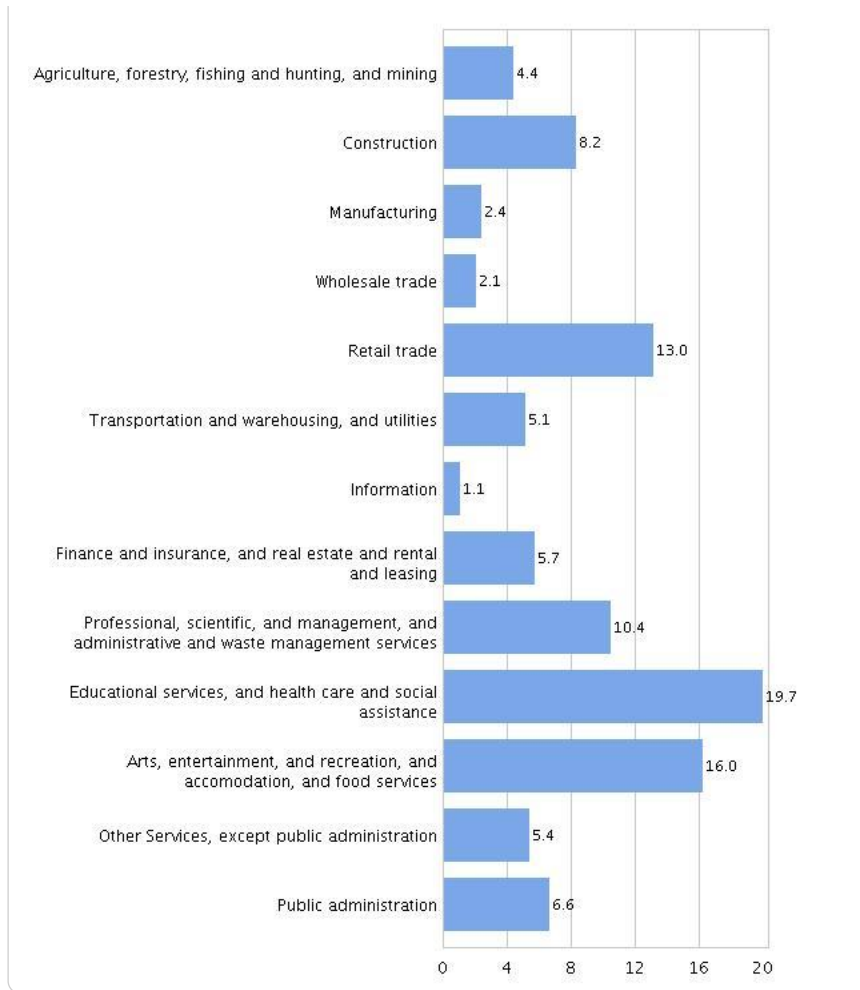

An estimated 70 percent of the people employed were private wage and salary workers; 19 percent were federal, state, or local government workers; and 11 percent were self-employed in their own (not incorporated) business.

Class of worker	Number	Percent
Private wage and salary workers	58,497	70.1
Federal, state, or local government workers	15,742	18.9
Self-employed workers in own not incorporated business	8,853	10.6

Industries

In 2012-2016, the civilian employed population 16 years and older in Hawaii County, Hawaii worked in the following industries:

► **Occupations**

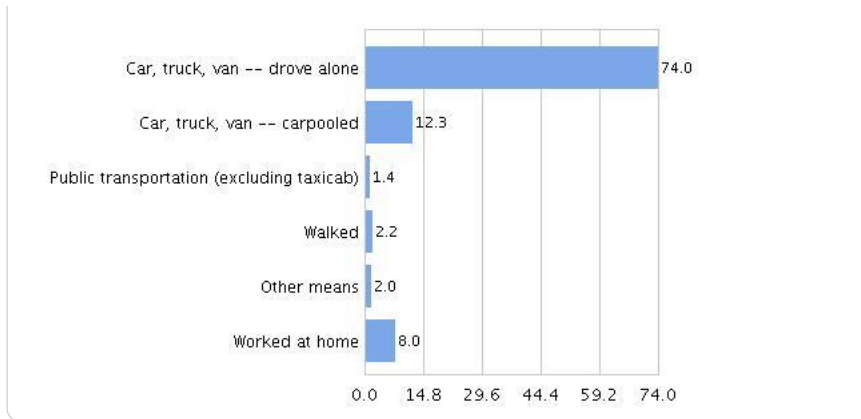

Occupations for the civilian employed population 16 years and over in Hawaii County, Hawaii in 2012-2016:

Civilian employed population 16 years and over	Number	Percent
Management, business, sciences, and arts occupations	26,371	31.6
Service occupations	19,670	23.6
Sales and office occupations	20,846	25.0
Natural resources, construction, and maintenance occupations	10,052	12.0
Production, transportation, and material moving occupations	6,543	7.8

An estimated 42 percent of owners with mortgages, 12 percent of owners without mortgages, and 54 percent of renters in Hawaii County, Hawaii spent 30 percent or more of household income on housing.

Explanation of Symbols:

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest

interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

While the ACS produces sample-based population group and housing estimates used in this report, the Census Bureau's Population Estimates Program produces and disseminates official estimates of the population for the nation, states, counties, cities and towns, as well as estimates of housing units for states and counties. For more information see: www.census.gov/popest/

Note that for small geographic areas, the sample used for the Narrative Profile may be small as well. Users are encouraged to examine the detailed tables on [American FactFinder](#) that are associated with the Narrative Profile text. These tables provide additional information on sampling variability associated with the estimates in this report.

Explanation of Symbols:

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest

interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

While the ACS produces sample-based population group and housing estimates used in this report, the Census Bureau's Population Estimates Program produces and disseminates official estimates of the population for the nation, states, counties, cities and towns, as well as estimates of housing units for states and counties. For more information see: www.census.gov/popest/

Note that for small geographic areas, the sample used for the Narrative Profile may be small as well. Users are encouraged to examine the detailed tables on [American FactFinder](#) that are associated with the Narrative Profile text. These tables provide additional information on sampling variability associated with the estimates in this report.
