

FREE WORKSHOP ON CENSUS DATA AND 2020 CENSUS UPDATE

Hawaii State Data Center

The public is invited to a free workshop being held on May 3rd in downtown Honolulu. This interactive workshop, **Your Neighborhoods by the Numbers: Advanced American FactFinder: Tracts, Block Groups, and Blocks**, will be taught by Eric Coyle of the U.S. Census Bureau. The workshop is geared toward people with some knowledge of census data products who are interested in a more targeted and deeper dive into the key demographic, social, economic, and housing indicators available at small area geographies. Attendees will go online to obtain age, income, poverty, race, ethnicity, and other variables of interest to create community profiles, tables, and maps. Participants will also learn how to utilize DBEDT products to more easily find their geography, whether it be a neighborhood like Moiliili or a concentrated population center like Waipio.

Prior to the workshop, there will be a 2020 Census update by our local U.S. Census Bureau Partnership Specialist, Elisapeta Alaimaleata. The update will include information about what the 2020 Census is, when the 2020 Census is happening, and how participants can answer the Census. Elisapeta will also discuss the work that is being done in your communities and neighborhoods to encourage everyone to fill out the upcoming Census.

Eric Coyle is a Data Dissemination Specialist from the U.S. Census Bureau. He conducts census workshops and presentations each month to a variety of organizations, local governments, businesses, media, and universities.

Elisapeta Alaimaleata is a Partnership Specialist for the Native Hawaiian and Pacific Islander population in Hawaii. She works with community, neighborhood, education, and government leaders to promote the 2020 Census.

The Department of Business, Economic Development and Tourism (DBEDT) and the U.S. Census Bureau are co-sponsoring this event. Space is limited, so please sign up early. Participants are encouraged to bring their own laptops or other mobile devices for this workshop. You will be able to follow the demonstration using your own devices. We will provide free wireless Internet (WiFi) access in the training room. Workshop details are as follow:

Date: Friday, May 3, 2019
Census 2020 Update: 1:00 to 1:30 p.m.
Workshop: 1:30 to 4:00 p.m.
