

FREE WORKSHOP ON CENSUS DATA AND 2020 CENSUS UPDATE

Hawaii State Data Center

The public is invited to a free workshop being held on September 23rd in downtown Honolulu. This interactive workshop, **Your Community by the Numbers: Race, Ethnicity, Ancestry, and Foreign-Born Populations**, will be taught by Eric Coyle of the U.S. Census Bureau. The workshop will teach participants how to access census and ACS data about race, ethnicity, foreign-born, and ancestry groups using a variety of online tools from www.census.gov. Participants will also learn how the Census Bureau collects and publishes data on these topics. The workshop will feature hands-on training with the Census Bureau's newest data tool, data.census.gov.

Prior to the workshop, there will be a 2020 Census update by our local U.S. Census Bureau Partnership Specialist, Elisapeta Alaimaleata. The update will include information about what the 2020 Census is, when the 2020 Census is happening, and how participants can answer the Census. Elisapeta will also discuss the work that is being done in your communities and neighborhoods to encourage everyone to fill out the upcoming Census.

Eric Coyle is a Data Dissemination Specialist from the U.S. Census Bureau. He conducts census workshops and presentations each month to a variety of organizations, local governments, businesses, media, and universities.

Elisapeta Alaimaleata is a Partnership Specialist for the Native Hawaiian and Pacific Islander population in Hawaii. She works with community, neighborhood, education, and government leaders to promote the 2020 Census.

The Department of Business, Economic Development and Tourism (DBEDT) and the U.S. Census Bureau are co-sponsoring this event. Space is limited, so please sign up early. Participants are encouraged to bring their own laptops or other mobile devices for this workshop. You will be able to follow the demonstration using your own devices. We will provide free wireless Internet (WiFi) access in the training room. Workshop details are as follow:
