## Section 2

# VITAL STATISTICS AND HEALTH

This section presents data on births, deaths, marriages, diseases, accidents, health risk behaviors such as drinking and smoking, hospitals, and health care personnel.

The major source for data on vital statistics and health is the Hawaii State Department of Health. DOH data are available through 2021. Information is also available on health care businesses from the U.S. Census Bureau's Economic Censuses, including the 2017 Economic Census. Long-term trends are traced in *Historical Statistics of Hawaii*, Section 2.

1/ Death rates for military dependents based on decennial census age and sex composition of military dependents and decennial census age-sex-specific death rates for the military dependents. Deaths of civilians other than military dependents calculated as residual.

2/ As of January 2014, military status of parents is not collected on birth data. Tricare or military insurance as the principal source of payment for delivery was used as a proxy for military status. Births are assigned to military dependents.

3/ Revised from previous *Data Book*.

4/ Per 1,000 de facto population in each group. Calculations of de facto population are based on July 1 resident population estimates by the U.S. Census Bureau as revised through December 2023. They may vary from previous versions of the *Data Book*.

1/ Includes births in which the race of the father is different from the race of the mother or births in which the father or the mother are of two or more races. Includes births in which both parents were "Part Hawaiian" or both parents were "Other race." Prior to 2001, births in which both the father and mother were "Part Hawaiian" or both the father and mother were "Other race" were classified as single race.

2/ One or both parents of unspecified race (unless one was Part Hawaiian) or both parents classified as "other."

3/ Based on number reporting.

4/ As of January 2014, military status of parents is not collected on birth data. Tricare or military insurance as the principal source of payment for delivery was used as a proxy for military status.

5/ Includes "civilians" and "status not reported."

NA Not available.

1/ Youths receiving one or more services procured from contracted provider agencies. Percent figure for the youths receiving one or more services procured from contracted provider agencies is out of the total number of youths registered.

2/ "Family Court Liaison Branch (FCLB)" and "Unassigned" categories. FCLB youth may also be included in a county's count of registered youth. Thus, the sum of the counties and special populations may exceed the total youths registered.

3/ Youths receiving one or more days of service by level of care as a percent of all registered youths. Procurement of mental health services from contracted provider agencies. Only selected service subgroups are shown.

4/ Previously known as "Community High Risk;" name changed during FY2019.

5/ Does not include Medication Management clients, for whom data are unavailable.

6/ Includes respite home and ancillary services that could not be classified as another level of care.

7/ Does not include Crisis Mobile Outreach clients, for whom data are unavailable.
