Introduction

The 2002 Employment and Payrolls in Hawai'i is the second annual report that provides tabulations of the number of reporting units, monthly employment, average annual employment, total wages, and average annual wage for the State of Hawai'i, as reported under Hawai'i Employment Security Law, based on the North American Industry Classification System 2002 (NAICS). Previous reports in this series on covered employment and wage data which date back to 1951 were tabulated based on the Standard Industrial Classification (SIC) industry coding system.

Data users will find the new NAICS industry groupings better reflect the workings of the U.S. economy, particularly in the rapidly expanding services sector. NAICS developed using a production-oriented conceptual framework, groups establishments into industries based on the activity in which they are primarily engaged. It is not an update of the SIC system. NAICS focuses on how products and services are created. Due to the differences between the NAICS and SIC structures, data will not be comparable with the SIC-based data for earlier years. [See NAICS Sectors and Description and Technical Notes]

Sections of this report such as the summary tables for statewide and counties are available for immediate downloading through our HIWI website. Other employment data such as the monthly Local Area Unemployment Statistics and the Current Employment Statistics are also available. Visit our home page at URL:

2002 Statewide Annual Average Employment Summary

Hawaii statewide annual average employment for the calendar year 2002 was 558,494, an increase of 1,453 over 2001. State government rose by 2,485 workers or 3.75 percent, mainly due to hiring in the Department of Education and the University of Hawaii. Federal government showed an increase of 583 workers due to the newly created Transportation and Security Administration which took over screening of air travelers from private contractors.

The *Accommodation and food services* sector supports the largest average employment in Hawaii with 86,444 workers. The *Retail trade* sector ranks second with 64,255 workers, while in third is the *Health care and social assistance* sector with 50,865 workers. In fourth and fifth place came the *Administrative and waste services* sector and the *Construction* sector, with 38,810 workers and 25,631 workers, respectively.

Industries with Highest Annual Average Employment in Hawaii		
NAICS Sector	Sector Description	2002 Average Employment
72	Accommodation and food services	86,444
44-45	Retail trade	64,255
62	Health care and social assistance	50,865
56	Administrative and waste services	38,810
23	Construction	25,631

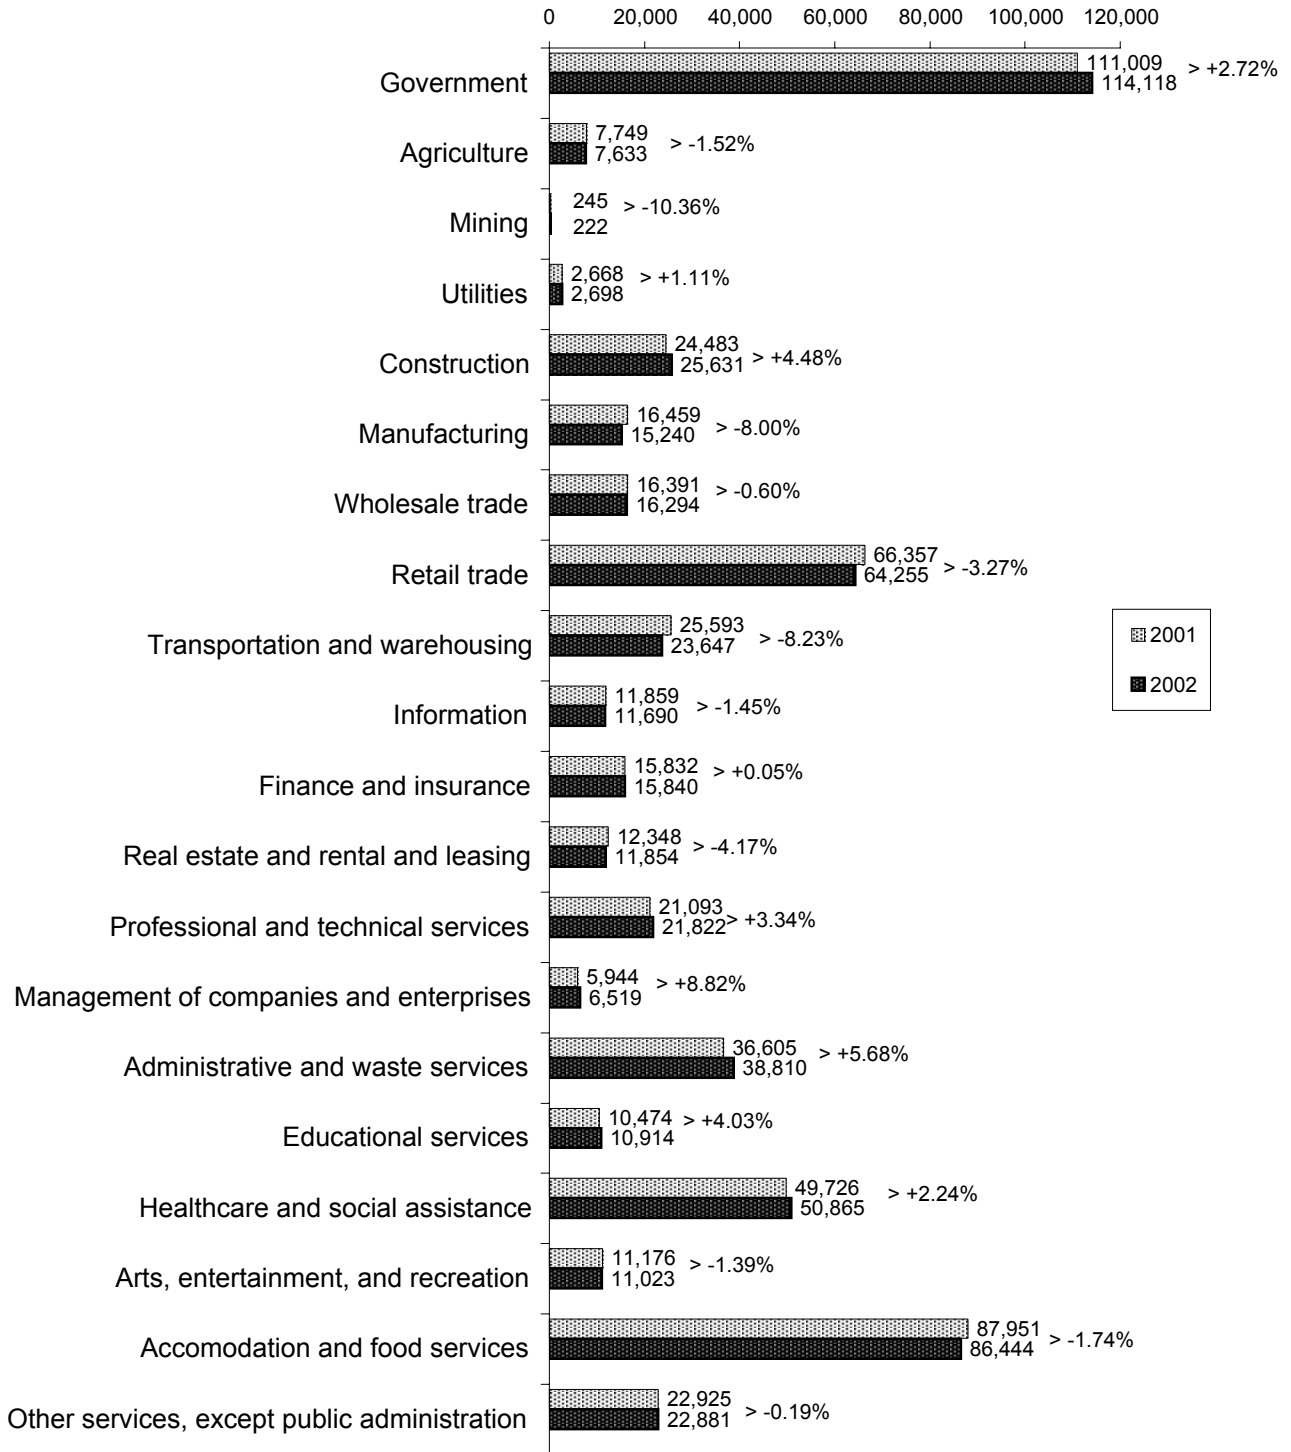

The sector that showed the highest growth in average employment was the *Management of companies and enterprises*, which increased by 8.82 percent. However, this increase was mainly attributable to noneconomic code changes. The sector with the second largest growth is the *Administrative and waste services*, up by 5.68 percent. This sector, which includes the rapidly expanding professional employer organizations, experienced the biggest increase in average employment, jumping by 2,205 workers.

Private Sector employment dropped by 1,656 workers, less than one percent, as the majority of the industries experienced decreases in employment. The biggest drop in average employment came from the *Retail trade* sector which went down by 2,102 workers. The sector with second highest decline was the *Transportation and warehousing* sector, down by 1,946 workers, followed by *Accommodation and food services* which lost 1,507 workers.

2002 Statewide Annual Average Wage Summary

The statewide annual average wage for all workers covered by state and federal unemployment insurance programs rose by 4.37 percent to \$32,669 in 2002. This is more than the 2 percent increase that workers received in 2001. The annual pay of private industry workers grew by 3.69 percent to \$30,943 while pay for the government rose by 6 percent to \$39,387. Federal government wages rose considerably this year, by 7.26 percent, primarily attributable to across the board pay increases. State government's wages also rose, increasing by 5.85 percent, due to negotiated pay increases for various white collar worker groups as well as bonus and merit payments to selected educators. County government's wage increase of 4.69 percent was also impacted by union pay raises.

Workers in the *Utilities* sector enjoy the highest average wage of all the NAICS sectors in the state. They earn on average \$66,404, a very slight improvement of less than one percent over the preceding year. *Mining* reported the second highest annual average wage of \$63,784 and *Management of companies and enterprises* ranked third with \$60,257, an increase of 8.21 percent or \$4,948. *Finance and insurance* took fourth place posting an increase of 8.35 percent or \$4,237 up to \$50,719. *Construction* workers' earnings at \$49,112 ranked fifth. Their annual average wage went up by \$2,023 or 4.12 percent.

Industries with Highest Annual Average Wage in Hawaii		
NAICS Sector	Sector Description	2002 Average Wage
22	Utilities	\$66,404
21	Mining	\$63,784
55	Management of companies and enterprises	\$60,257
52	Finance and insurance	\$50,719
23	Construction	\$49,112

The largest over-the-year percentage pay increase in the private sector was registered in *Mining*, which also showed the highest increase in dollar amount. Average wage increased by 9.14 percent or \$5,832. The next greatest increase was in *Finance and insurance* at 8.35 percent; in third place was *Management of companies and enterprises* at 8.21 percent. *Real estate and rental and leasing* climbed 5.25 percent to rank fourth; and fifth was *Administrative and waste services* at 4.58 percent. There were only two sectors where the annual average wage declined, but percentage wise the decrease was relatively small. Both *Educational services* and *Information* dropped by less than one percent.

	Employment	88,711	1,654	3,590	6,177	12,320	10,559	11,192	12,386	11,662	19,171
OTHER SERVICES, EXCEPT PUBLIC ADMINISTRATION	- Employer Units	3,473	2,474	524	285	132	35	17	6*		
	Employment	22,382	3,999	3,421	3,868	3,735	2,598	2,500	2,261*		
UNCLASSIFIED	- Employer Units	337	332	5							
	Employment	145	108	37							

* Data from larger classes were combined to prevent the disclosure of confidential information.

NOTE: An employer unit may include more than one worksite. For example, a retail company with five stores would be counted for each store under reporting units, but only once under employer units at the primary location. Thus, employer units tend to consolidate employment in Honolulu County and in larger size classes. Conversely, neighbor island employment will be less because the majority of primary locations are on Oahu.

DISTRIBUTION OF EMPLOYMENT BY SIZE OF EMPLOYER BY COUNTY

DISTRIBUTION OF EMPLOYMENT BY SIZE OF EMPLOYER BY INDUSTRY

NAICS SECTORS & DESCRIPTIONS

NAICS classifies all economic activities into 20 sectors. The NAICS sectors, their two-digit codes, and the distinguishing activities of each are:

11 Agriculture, Forestry, Fishing and Hunting—Activities of this sector are growing crops, raising animals, harvesting timber, and harvesting fish and other animals from farms, ranches, or the animals' natural habitats.

21 Mining—Activities of this sector are extracting naturally occurring mineral solids, such as coal and ore; liquid minerals, such as crude petroleum; and gases, such as natural gas; and beneficiating (e.g., crushing, screening, washing, and flotation) and other preparation at the mine site, or as part of mining activity.

22 Utilities—Activities of this sector are generating, transmitting, and/or distributing electricity, gas, steam, and water and removing sewage through a permanent infrastructure of lines, mains, and pipe.

23 Construction—Activities of this sector are erecting buildings and other structures (including additions); heavy construction other than buildings; and alterations, reconstruction, installation, and maintenance and repairs.

31-33 Manufacturing—Activities of this sector are the mechanical, physical, or chemical transformation of material, substances, or components into new products.

42 Wholesale Trade—Activities of this sector are selling or arranging for the purchase or sale of goods for resale; capital or durable nonconsumer goods; and raw and intermediate materials and supplies used in production, and providing services incidental to the sale of the merchandise. The merchandise described in this sector includes the outputs of agriculture, mining, manufacturing, and certain information industries, such as publishing. This sector comprises two main types of wholesalers: merchant wholesalers that sell goods on their own account and business to business electronic markets, agents, and brokers that arrange sales and purchases for others generally for a commission or fee.

44-45 Retail Trade—Activities of this sector are retailing merchandise generally in small quantities to the general public and providing services incidental to the sale of the merchandise.

48-49 Transportation and Warehousing—Activities of this sector are providing transportation of passengers and cargo, warehousing and storing goods, scenic and sightseeing transportation, and supporting these activities. Establishments in these industries use transportation equipment or transportation related facilities as a productive asset. The modes of transportation are air, rail, water, road, and pipeline. Warehousing establishments in this sector are distinguished from merchant wholesaling in that the warehouse establishments do not sell the goods.

51 Information—Activities of this sector are: (a) producing and distributing information and cultural products, (b) providing the means to transmit or distribute these products as well as data or communications, and (c) processing data. The main components of this sector are the publishing industries, including software publishing, the motion picture and sound recording industries, the broadcasting and telecommunications industries, and the information services and data processing industries.

52 Finance and Insurance—Activities of this sector involve the creation, liquidation, or change in ownership of financial assets (financial transactions) and/or facilitating financial transactions.

53 Real Estate and Rental and Leasing—Activities of this sector are renting, leasing, or otherwise allowing the use of tangible or intangible assets, and establishments providing related services. The major portion of this sector comprises establishments that rent, lease, or otherwise allow the use of their own assets by others. Included in this sector are establishments that provide a wide array of tangible goods, such as automobiles, computers, consumer goods, and industrial machinery and equipment, to consumers in return for a periodic rental or lease payment. This sector also includes establishments primarily engaged in managing real estate for others, selling, renting and/or buying real estate for others, and appraising real estate.

54 Professional, Scientific, and Technical Services—Activities of this sector are performing professional, scientific, and technical services for the operations of other organizations. These activities require a high degree of expertise and training. The establishments in this sector specialize according to expertise and provide these services to clients in a variety of industries and, in some cases, to households.

55 Management of Companies and Enterprises—Activities of this sector are the holding of securities of companies and enterprises, for the purpose of owning controlling interest or influencing their management decision, or administering, overseeing, and managing other establishments of the same company or enterprise and normally undertaking the strategic or organizational planning and decision-making of the company or enterprise. Establishments that administer, oversee, and manage may hold the securities of the company or enterprise.

56 Administrative and Support and Waste Management and Remediation Services—Activities of this sector are performing routine support activities for the day-to-day operations of other organizations. These essential activities are often undertaken in-house by establishments in many sectors of the economy. The establishments in this sector specialize in one or more of these support activities and provide these services to clients in a variety of industries and, in some cases, to households. Activities performed include: office administration, hiring and placing of personnel, solicitation, collection, security and surveillance services, cleaning, and waste disposal services. The industries in this sector cannot be viewed as strictly support. The Travel Arrangement and Reservation Services industry includes travel agents, tour operators, and providers of other travel arrangement services, such as hotel and restaurant reservations and arranging the purchase of tickets, serves many clients, including individual consumers. This group was placed in this sector because services are often of the “support” nature and businesses and other organizations are increasingly the ones purchasing such services.

61 Educational Services—Activities of this sector are providing instruction and training in a wide variety of subjects. This instruction and training is provided by specialized establishments, such as schools, colleges, universities, and training centers.

62 Health Care and Social Assistance—Activities of this sector are providing health care and social assistance for individuals. The services provided by establishments in this sector are delivered by trained professionals. All industries in the sector share this commonality of process, namely, labor inputs of health practitioners or social workers with the requisite expertise. Many of the industries in the sector are defined based on the educational degree held by the practitioners included in the industry.

71 Arts, Entertainment, and Recreation—Activities of this sector are operating or providing services to meet varied cultural, entertainment, and recreational interests of their patrons. This sector comprises (1) establishments that are involved in producing, promoting, or participating in live performances, events, or exhibits intended for public viewing; (2) establishments that preserve and exhibit objects and sites of historical, cultural, or educational interest; and (3) establishments that operate facilities or provide services that enable patrons to participate in recreational activities or pursue amusement, hobby, and leisure time interests.

72 Accommodation and Food Services—Activities of this sector are providing customers with lodging and/or preparing meals, snacks, and beverages for immediate consumption.

81 Other Services (except Public Administration)—Activities of this sector are providing services not elsewhere specified, including repairs, religious activities, grantmaking, advocacy, laundry, personal care, death care, and other personal services. Establishments in this sector are primarily engaged in activities, such as equipment and machinery repairing, promoting or administering religious activities, grantmaking, advocacy, and providing drycleaning and laundry services, personal care services, death care services, pet care services, photofinishing services, temporary parking services, and dating services. Private households that engage in employing workers on or about the premises in activities primarily concerned with the operation of the household are included in this sector.

92 Public Administration—Activities of this sector are administration, management, and oversight of public programs by Federal, State, and local governments.

Technical Notes

The data in this Employment and Payrolls series is compiled as a by-product of a federally required report on Covered Employment and Wages (CEW formerly known as ES-202). The CEW program summarizes employer contribution reports which are submitted quarterly by employers subject to Unemployment Insurance under Hawai'i Employment Security Law and Unemployment Compensation for Federal Employees (UCFE). Subject employers include Federal, State, and County governments in addition to private industry employers. Only civilian employment data covered by UCFE is reported in the CEW and federal government installations with less than 100 employees are not required to report.

Beginning with the release of data for 2001, the CEW program introduced the 2002 version of the North American Industry Classification System (NAICS) as the basis for the assignment and tabulation of economic data by industry. NAICS is the product of a cooperative effort on the part of the statistical agencies of the United States, Canada, and Mexico. Previous reports in this series on covered employment and wage data which date back to 1951 were tabulated based on the Standard Industrial Classification (SIC) industry coding system. Due to the differences between the NAICS and SIC structures, data for 2001 will not be comparable with the SIC-based data for earlier years.

NAICS uses a hierarchical structure. It uses a six-digit classification code that allows greater flexibility in the coding structure. The first two digits of the six digit code designate the highest level of aggregation, with 20 such two-industry sectors. Three NAICS sectors include more than one 2-digit identifiers. Manufacturing includes codes 31-33, Retail trade comprises 44-45, and Transportation and warehousing encompasses 48-49. The third digit represents the subsector. The fourth digit of the NAICS code represents the industry group level. The fifth digit in the NAICS code represents the international-industry level. In most cases, there will be comparability between classifications of the United States, Canada, and Mexico at the five-digit level. The sixth digit designates national detail. This allows the flexibility to create more in depth statistics for the industries that hold particular importance in each country. Most six digit industries end in a zero, thus signifying that there is no additional detail below the five digits. However, some six-digit industries end in a number other than zero, meaning that the fifth digit was split into two or more U.S. industries.ⁱ (Due to confidentiality issues in the Hawaii data tabulations, this six digit level detail is only visible in the Accommodation and Food Services Sector.) In addition to the new groups, or sectors, created by the NAICS Manual, the Bureau of Labor Statistics (BLS) and its partner agencies have further assembled NAICS sectors, extending the sector structure upwards. These extensions aggregate the individual NAICS sectors into supersectors, and above this supersector level are two more aggregations, the commonly used domain known as *goods-producing* and *service-providing*. Domains and supersectors will be used when sufficient data do not exist to publish at the sector level.ⁱⁱ

The four counties in this series are Honolulu (O'ahu), Hawai'i, Maui (Moloka'i, Lana'i, Maui), and Kaua'i. Employers with unidentified physical locations have been combined in Honolulu County for reporting purposes. In particular, motion picture and television film production, which may change location from one project to another or within a single project, has been included in Honolulu County when a location is not identified. Prior to 1982, distribution of Federal wages by county was not available.

Employment reflects the number of employees who worked for employers subject to Unemployment Insurance, technically referred to as covered employment. It represents all full-time and part-time employees who worked during or received pay for the payroll period including the twelfth of each month. Persons on the payrolls of more than one establishment during the same reference week are counted for each establishment. Due to rounding in the computation of averages, individual data may not add up to the totals. Wages include all remuneration paid to covered civilian workers. Pay differences between industries may reflect hours of work and other factors such as seasonality. For example, average annual wages for retail trade is affected by the relatively large percentage of part-time workers. Average annual wages are computed by dividing total wages by the corresponding average annual employment.

Beginning in 1991, employment and wage data in this series was collected at the establishment level. Previously, employment and wage data was collected at the county level. Employment and wage data of employers with multiple worksites or engaged in more than one type of activity by industrial classification are distributed by supplementary statistical reports, primarily the Multiple Worksite Report, submitted by such multi-establishment employers. The data are further supplemented by other information from telephone contacts and correspondence.

"Reporting units" is a count of all reporting employer establishments. However, some multi-establishment employers are counted only once, and some, which have been distributed by worksite and industrial classification, are counted for each worksite and industry group. Some of the fluctuation in reporting units from year to year may be attributable to breakouts and consolidation of worksite and industry establishments. Multi-establishment employers are counted for each worksite, except for the construction industry, which reports separately only for major projects. "Employer Units" presented in the table of Employers and Employment by Size of Employer is the count of employers as registered with Unemployment Insurance. Employer units consolidate establishments for employers with multiple worksites and classify employers engaged in more than one type of business activity according to their primary activity and employers engaged in business in more than one county according to their primary county location.

The Confidential Information Protection and Statistical Efficiency Act (CIPSEA) of 2002 (Title V of Public Law 107-347) requires that information acquired by the BLS under a pledge of confidentiality for exclusively statistical purposes shall be used by BLS officers, employees, and agents for statistical purposes only. Section 383-95 of the Hawai'i Employment Security Law provides that any information obtained from any employing unit cannot be disclosed in any manner revealing the firm's identity. All data disclosing individual employing units are represented by an asterisk.

Comparability with other issues. Issues of the Annual Employment and Payrolls date back to 1951. Incongruity is apparent: due to changes in the unemployment insurance laws, changes in the industry coding manuals, changes in federal interpretations of the manuals, noneconomic changes in area and industry classification as adjusted by the Annual Refiling Survey, and changes in the report format. With the introduction of NAICS in 2001, and due to the differences between the NAICS and SIC structures, data for 2001 will not be comparable with the SIC-based data for earlier years. Adjustments need to be made or shortcomings need to be stipulated when using this series in trend analysis.

Comparability with other data. The *Employment and Payrolls* Report defines employment as the number of workers, covered by Hawaii Employment Security Law, who worked during or received pay for the payroll period which includes the twelfth of the month, reported by place of work (job count). The *Employment and Payrolls* Report does not include the self-employed. Other reports published by the Department of Labor and Industrial Relations that present employment data may show slightly different figures. For example, the *Labor Force Data Book* defines labor force employment as the actual number of persons working. Therefore, a person may be counted more than once in the *Employment and Payrolls* Report, but only once in labor force employment. Also, the *Labor Force Data Book* defines jobcount as the number of paid employees by establishment. This includes all employees regardless of Unemployment Insurance coverage and differs from the *Employment and Payrolls* Report, which excludes non-covered workers such as certain student hires.
