

2007 Employment and Payrolls in Hawaii

An abstract graphic design featuring a cyan rectangular area tilted slightly to the right. Overlaid on this area are several thin, yellow lines that form a complex, overlapping pattern. Some of these lines end in arrowheads, pointing in various directions. The entire cyan area is set against a larger, light green background that also has a slight tilt. The overall effect is modern and dynamic.

Introduction

The 2007 Employment and Payrolls in Hawai'i is the first annual report that provides tabulations of the number of reporting units, monthly employment, average annual employment, total wages, and average annual wage for the State of Hawai'i, as reported under Hawai'i Employment Security Law, based on the North American Industry Classification System 2007 (NAICS). Previous reports in this series on covered employment and wage data since 2001 were tabulated based on the North American Industry Classification System 2002 (NAICS). Prior to 2001, data were tabulated based on the Standard Industrial Classification (SIC) industry coding system. NAICS 2007 includes revisions to NAICS 2002 across several sectors. The most significant revisions are in the Information Sector, particularly within the Telecommunications area. [See NAICS Sectors and Description and Technical Notes]

Sections of this report such as the summary tables for statewide and counties are available for immediate downloading through our Hawaii Workforce Informer (HIWI) website. Other employment data such as the monthly Local Area Unemployment Statistics and the Current Employment Statistics are also available. Visit our home page at URL:

2007 Statewide Annual Average Employment Summary

Hawaii statewide annual average employment for the calendar year 2007 was 625,835, an increase of 7,432 workers or 1.2 percent over 2006. *Private sector* employment continued to grow expanding by 6,281 or 1.3 percent to 506,932 workers. *Federal government*, after a moderate growth in 2006, dropped by 135 workers or 0.4 percent to 31,744. *State government* gained workers in 2007, increasing by 825 workers or 1.2 percent. *County government* also showed positive growth with 460 workers or 2.6 percent.

The *Accommodation and food services* sector maintains the largest average employment in Hawaii for the private sector with 19.3 percent of the workers or 96,966. This sector's growth of 1.7 percent for 2007 is the same as the percentage growth for 2006. The *Retail trade* sector remains second with a 13.9 percent share of the private workforce or 70,249, even with the slight dip in percentage growth, only up by 0.4 percent in 2007. In third is the *Health care and social assistance* sector with 11.5 percent or 58,452 workers. This sector increased by 1,598 workers or 2.8%. Still in fourth place is the *Administrative and waste services* sector with 8.7 percent or 44,027 workers. This sector experienced a drop of 2,648 workers or a decrease of 5.7 percent over 2006 mainly because of non-economic changes. Completing the top five private sector industries and still in fifth place is the *Construction* sector with 7.7 percent of the workers or an average of 38,807 workers.

Industries with Highest Annual Average Employment in Hawaii		
NAICS Sector	Sector Description	2007 Average Employment
72	Accommodation and food services	96,966
44-45	Retail trade	70,249
62	Health care and social assistance	58,452
56	Administrative and waste services	44,027
23	Construction	38,807

The *Construction* sector continues to experience the highest increase in average employment for all sectors. This year, *Construction* moved up by 3,077 workers or 8.6 percent. All but three of the sectors showed positive growth. *Construction* was followed by the *Mining* sector with 6.0 percent growth. The *Arts, entertainment, and recreation* sector, after dropping in 2006, rebounded by 521 workers or 4.5 percent in 2007. Hawaii has seen a surge in film and TV projects since the new tax credits took effect on July 1, 2006. *Educational services* grew by 441 workers or 3.4 percent. Meanwhile, the *Agriculture, forestry, fishing and hunting* sector endures further reduction exhibiting the highest percentage decrease of 9.8 percent.

2006-2007
Statewide Average Employment by Industry

Percentage Growth 1980-2007 Private Sector Employment

2007 Distribution of Statewide Average Employment

Government continues to have the highest share in average employment statewide of 19.0 percent followed by the Accommodation and food services sector with 15.7 percent and at third is the Retail trade sector with 11.2 percent of employees.

Note: Percentage totals may not add up to 100 percent due to rounding.

2007 Distribution of Average Employment Honolulu County

Government has the highest share in average employment for Honolulu County, with 21 percent followed by the *Accommodation and food services* sector with 13 percent and then, *Retail trade* with 10 percent.

2007 Distribution of Average Employment Hawaii County

For Hawaii County the sector with the highest share in average employment is the *Accommodation and food services* sector with 19 percent, *Government* compared to statewide and Honolulu County is only at second with 17 percent share in average employment. The *Retail trade* sector is also at third with 14 percent.

Note: Percentage totals may not add up to 100 percent due to rounding.

2007 Distribution of Average Employment Maui County

The *Accommodation and food services* sector ranks the highest in average employment for Maui County with 27 percent; *Retail trade* with 14 percent has the second highest share in average employment. The *Government* sector on the other hand has 12 percent share.

2007 Distribution of Average Employment Kauai County

The *Accommodation and food services* sector also has the highest average employment for Kauai County with 25 percent. *Retail trade* sector and the *Government* sector are tied in second having 14 percent of the share of average employment for the county.

Note: Percentage totals may not add up to 100 percent due to rounding.

2007 Statewide Annual Average Wage Summary

The statewide annual average wage for all workers covered by state and federal unemployment insurance programs rose by 4.4 percent to \$39,465 in 2007. The annual pay of private industry workers expanded by 4.3 percent to \$37,436 while pay for government workers climbed by 5.1 percent to \$48,118. *State government* pay grew by 4.5 percent to \$41,361, while *County government* wages increased by 4.7 percent to \$50,569. The increase in State and county government is mainly due to pay raises awarded through the collective bargaining agreement. *Federal government* pay went up by 6.5 percent to \$61,405.

Workers in the *Mining* sector with an average wage of \$81,906, continue to be the highest paid workers even though the average wage for these workers slips again this year, dropping 5.3 percent in 2007. Workers in the *Utilities* sector remain the second highest paid, with \$75,757 on average. Still in the third spot, workers in the *Management of companies and enterprises* average wage grew slightly by 3.0 percent to \$71,940, after declining in the past two years. *Professional and technical services* workers average wage edged up by 4.5 percent to \$60,360 in 2007 keeping its fourth place position. The *Construction* sector maintained its position in fifth place; its workers' had their average wages increase to \$59,297 or 5.1 percent.

Industries with Highest Annual Average Wage in Hawaii		
NAICS Sector	Sector Description	2007 Average Wage
21	Mining	\$81,906
22	Utilities	\$75,757
55	Management of companies and enterprises	\$71,940
54	Professional and technical services	\$60,360
23	Construction	\$59,297

The largest over-the-year percentage pay increase in the private sector was registered in the *Transportation and warehousing* sector. The workers' pay for this sector edged upward by 7.0 percent to \$38,289 in 2007. The *Manufacturing* sector's workers' average wage has the second highest increase growing by 5.4%. Average pay for the workers in the *Construction* sector grew by 5.1% and has the third highest increase in 2007. *Wholesale trade* sector's average wage of \$47,273, an increase of 5.0 percent over 2006, ranks fourth and the increase in average wage of 4.5 percent for *Professional and technical services* is fifth. Only one sector experienced a decrease in average wage. Workers in the *Mining* sector showed a decrease of 5.3 percent over 2006. There were ten sectors that experienced gains in average wage ranging from 2.6 to 4.4 percent. The remaining three sectors' average wage grew by less than one percent for 2007.

UNCLASSIFIED	- Employer Units	660	652	8							
	Employment	476	423	53							

* Data from larger classes were combined to prevent the disclosure of confidential information.

NOTE: An employer unit may include more than one worksite. For example, a retail company with five stores would be counted for each store under reporting units, but only once under employer units at the primary location. Thus, employer units tend to consolidate employment in Honolulu County.

**DISTRIBUTION OF EMPLOYMENT
BY SIZE OF EMPLOYER
BY COUNTY**

DISTRIBUTION OF EMPLOYMENT BY SIZE OF EMPLOYER BY INDUSTRY

NAICS SECTORS & DESCRIPTIONS

NAICS classifies all economic activities into 20 sectors. The NAICS sectors, their two-digit codes, and the distinguishing activities of each are:

11 Agriculture, Forestry, Fishing and Hunting—Activities of this sector are growing crops, raising animals, harvesting timber, and harvesting fish and other animals from farms, ranches, or the animals' natural habitats.

21 Mining—Activities of this sector are extracting naturally occurring mineral solids, such as coal and ore; liquid minerals, such as crude petroleum; and gases, such as natural gas; and beneficiating (e.g., crushing, screening, washing, and flotation) and other preparation at the mine site, or as part of mining activity.

22 Utilities—Activities of this sector are generating, transmitting, and/or distributing electricity, gas, steam, and water and removing sewage through a permanent infrastructure of lines, mains, and pipe.

23 Construction—Activities of this sector are erecting buildings and other structures (including additions); heavy construction other than buildings; and alterations, reconstruction, installation, and maintenance and repairs.

31-33 Manufacturing—Activities of this sector are the mechanical, physical, or chemical transformation of material, substances, or components into new products.

42 Wholesale Trade—Activities of this sector are selling or arranging for the purchase or sale of goods for resale; capital or durable nonconsumer goods; and raw and intermediate materials and supplies used in production, and providing services incidental to the sale of the merchandise. The merchandise described in this sector includes the outputs of agriculture, mining, manufacturing, and certain information industries, such as publishing. This sector comprises two main types of wholesalers: merchant wholesalers that sell goods on their own account and business to business electronic markets, agents, and brokers that arrange sales and purchases for others generally for a commission or fee.

44-45 Retail Trade—Activities of this sector are retailing merchandise generally in small quantities to the general public and providing services incidental to the sale of the merchandise.

48-49 Transportation and Warehousing—Activities of this sector are providing transportation of passengers and cargo, warehousing and storing goods, scenic and sightseeing transportation, and supporting these activities. Establishments in these industries use transportation equipment or transportation related facilities as a productive asset. The modes of transportation are air, rail, water, road, and pipeline. Warehousing establishments in this sector are distinguished from merchant wholesaling in that the warehouse establishments do not sell the goods.

51 Information—Activities of this sector are: (a) producing and distributing information and cultural products, (b) providing the means to transmit or distribute these products as well as data or communications, and (c) processing data. The main components of this sector are the publishing industries, including software publishing, the motion picture and sound recording industries, the broadcasting and telecommunications industries, and the information services and data processing industries.

52 Finance and Insurance—Activities of this sector involve the creation, liquidation, or change in ownership of financial assets (financial transactions) and/or facilitating financial transactions.

53 Real Estate and Rental and Leasing—Activities of this sector are renting, leasing, or otherwise allowing the use of tangible or intangible assets, and establishments providing related services. The major portion of this sector comprises establishments that rent, lease, or otherwise allow the use of their own assets by others. Included in this sector are establishments that provide a wide array of tangible goods, such as automobiles, computers, consumer goods, and industrial machinery and equipment, to consumers in return for a periodic rental or lease payment. This sector also includes establishments primarily engaged in managing real estate for others, selling, renting and/or buying real estate for others, and appraising real estate.

54 Professional, Scientific, and Technical Services—Activities of this sector are performing professional, scientific, and technical services for the operations of other organizations. These activities require a high degree of expertise and training. The establishments in this sector specialize according to expertise and provide these services to clients in a variety of industries and, in some cases, to households.

55 Management of Companies and Enterprises—Activities of this sector are the holding of securities of companies and enterprises, for the purpose of owning controlling interest or influencing their management decision, or administering, overseeing, and managing other establishments of the same company or enterprise and normally undertaking the strategic or organizational planning and decision-making of the company or enterprise. Establishments that administer, oversee, and manage may hold the securities of the company or enterprise.

56 Administrative and Support and Waste Management and Remediation Services—Activities of this sector are performing routine support activities for the day-to-day operations of other organizations. These essential activities are often undertaken in-house by establishments in many sectors of the economy. The establishments in this sector specialize in one or more of these support activities and provide these services to clients in a variety of industries and, in some cases, to households. Activities performed include: office administration, hiring and placing of personnel, solicitation, collection, security and surveillance services, cleaning, and waste disposal services. The industries in this sector cannot be viewed as strictly support. The Travel Arrangement and Reservation Services industry includes travel agents, tour operators, and providers of other travel arrangement services, such as hotel and restaurant reservations and arranging the purchase of tickets, serves many clients, including individual consumers. This group was placed in this sector because services are often of the “support” nature and businesses and other organizations are increasingly the ones purchasing such services.

61 Educational Services—Activities of this sector are providing instruction and training in a wide variety of subjects. This instruction and training is provided by specialized establishments, such as schools, colleges, universities, and training centers.

62 Health Care and Social Assistance—Activities of this sector are providing health care and social assistance for individuals. The services provided by establishments in this sector are delivered by trained professionals. All industries in the sector share this commonality of process, namely, labor inputs of health practitioners or social workers with the requisite expertise. Many of the industries in the sector are defined based on the educational degree held by the practitioners included in the industry.

71 Arts, Entertainment, and Recreation—Activities of this sector are operating or providing services to meet varied cultural, entertainment, and recreational interests of their patrons. This sector comprises (1) establishments that are involved in producing, promoting, or participating in live performances, events, or exhibits intended for public viewing; (2) establishments that preserve and exhibit objects and sites of historical, cultural, or educational interest; and (3) establishments that operate facilities or provide services that enable patrons to participate in recreational activities or pursue amusement, hobby, and leisure time interests.

72 Accommodation and Food Services—Activities of this sector are providing customers with lodging and/or preparing meals, snacks, and beverages for immediate consumption.

81 Other Services (except Public Administration)—Activities of this sector are providing services not elsewhere specified, including repairs, religious activities, grantmaking, advocacy, laundry, personal care, death care, and other personal services. Establishments in this sector are primarily engaged in activities, such as equipment and machinery repairing, promoting or administering religious activities, grantmaking, advocacy, and providing drycleaning and laundry services, personal care services, death care services, pet care services, photofinishing services, temporary parking services, and dating services. Private households that engage in employing workers on or about the premises in activities primarily concerned with the operation of the household are included in this sector.

92 Public Administration—Activities of this sector are administration, management, and oversight of public programs by Federal, State, and local governments.

Technical Notes

The data in this Employment and Payrolls series is compiled as a by-product of a federally required report, the Quarterly Census of Employment and Wages Program (commonly referred to as QCEW program and formerly known as ES-202). The QCEW program summarizes employer contribution reports which are submitted quarterly by employers subject to Unemployment Insurance under Hawai'i Employment Security Law and Unemployment Compensation for Federal Employees (UCFE). Subject employers include Federal, State, and County governments in addition to private industry employers. Only civilian employment data covered by UCFE is reported in the QCEW and federal government installations with less than 100 employees are not required to report.

Beginning with the release of data for 2001, the QCEW program introduced the 2002 version of the North American Industry Classification System (NAICS) as the basis for the assignment and tabulation of economic data by industry. NAICS is the product of a cooperative effort on the part of the statistical agencies of the United States, Canada, and Mexico. Previous reports in this series on covered employment and wage data which date back to 1951 were tabulated based on the Standard Industrial Classification (SIC) industry coding system. Due to the differences between the NAICS and SIC structures, data for 2001 will not be comparable with the SIC-based data for earlier years. Commencing with the release of data for 2007, the QCEW program will be using the 2007 version of North American Industry Classification System (NAICS) as the basis for the assignment and tabulation of economic data by industry. NAICS 2007 includes revisions to NAICS 2002 across several sectors. The most significant revisions are in the Information Sectors particularly within the Telecommunications area.

NAICS uses a hierarchical structure. It uses a six-digit classification code that allows greater flexibility in the coding structure. The first two digits of the six digit code designate the highest level of aggregation, with 20 such two-industry sectors. Three NAICS sectors include more than one 2-digit identifiers. Manufacturing includes codes 31-33, Retail trade comprises 44-45, and Transportation and warehousing encompasses 48-49. The third digit represents the subsector. The fourth digit of the NAICS code represents the industry group level. The fifth digit in the NAICS code represents the international-industry level. In most cases, there will be comparability between classifications of the United States, Canada, and Mexico at the five-digit level. The sixth digit designates national detail. This allows the flexibility to create more in depth statistics for the industries that hold particular importance in each country. Most six digit industries end in a zero, thus signifying that there is no additional detail below the five digits. However, some six-digit industries end in a number other than zero, meaning that the fifth digit was split into two or more U.S. industries.ⁱ (Due to confidentiality issues in the Hawaii data tabulations, this six digit level detail is only visible in the Accommodation and Food Services Sector.) In addition to the new groups, or sectors, created by the NAICS Manual, the Bureau of Labor Statistics (BLS) and its partner agencies have further assembled NAICS sectors, extending the sector structure upwards. These extensions aggregate the individual NAICS sectors into supersectors, and above this supersector level are two more aggregations, the commonly used domain known as *goods-producing* and *service-providing*. Domains and supersectors will be used when sufficient data do not exist to publish at the sector level.ⁱⁱ For detailed NAICS descriptions, see the NAICS manual and tables available on the U.S. Census website at <http://www.census.gov/epcd/www/naics.html>.

The four counties in this series are Honolulu (O'ahu), Hawai'i, Maui (Moloka'i, Lana'i, Maui), and Kaua'i. Employers with unidentified physical locations have been combined in Honolulu County for reporting purposes. In particular, motion picture and television film production, which may change location from one project to another or within a single project, has been included in Honolulu County when a location is not identified. Prior to 1982, distribution of Federal wages by county was not available.

Employment reflects the number of employees who worked for employers subject to Unemployment Insurance, technically referred to as covered employment. It represents all full-time and part-time employees who worked during or received pay for the payroll period including the twelfth of each month. Persons on the payrolls of more than one establishment during the same reference week are counted for each establishment. Due to rounding in the computation of averages, individual data may not add up to the totals. Wages include all remuneration paid to covered civilian workers. Pay differences between industries may reflect hours of work and other factors such as seasonality. For example, average annual wages for retail trade is affected by the relatively large percentage of part-time workers. Average annual wages are computed by dividing total wages by the corresponding average annual employment.

Beginning in 1991, employment and wage data in this series was collected at the establishment level. Previously, employment and wage data was collected at the county level. Employment and wage data of employers with multiple worksites or engaged in more than one type of activity by industrial classification are distributed by supplementary statistical reports, primarily the Multiple Worksite Report, submitted by such multi-establishment employers. The data are further supplemented by other information from telephone contacts and correspondence.

"Reporting units" is a count of all reporting employer establishments. However, some multi-establishment employers are counted only once, and some, which have been distributed by worksite and industrial classification, are counted for each worksite and industry group. Some of the fluctuation in reporting units from year to year may be attributable to breakouts and consolidation of worksite and industry establishments. Multi-establishment employers are counted for each worksite, except for the construction industry, which reports separately only for major projects. "Employer Units" presented in the table of Employers and Employment by Size of Employer is the count of employers as registered with Unemployment Insurance. Employer units consolidate establishments for employers with multiple worksites and classify employers engaged in more than one type of business activity according to their primary activity and employers engaged in business in more than one county according to their primary county location.

The Confidential Information Protection and Statistical Efficiency Act (CIPSEA) of 2002 (Title V of Public Law 107-347) requires that information acquired by the BLS under a pledge of confidentiality for exclusively statistical purposes shall be used by BLS officers, employees, and agents for statistical purposes only. Section 383-95 of the Hawai'i Employment Security Law provides that any information obtained from any employing unit cannot be disclosed in any manner revealing the firm's identity. All data disclosing individual employing units are represented by an asterisk.

Comparability with other issues. Issues of the Annual Employment and Payrolls date back to 1951. Incongruity is apparent: due to changes in the unemployment insurance laws, changes in the industry coding manuals, changes in federal interpretations of the manuals, noneconomic changes in area and industry classification as adjusted by the Annual Refiling Survey, and changes in the report format. With the introduction of NAICS in 2001, and due to the differences between the NAICS and SIC structures, data for 2001 will not be comparable with the SIC-based data for earlier years. Adjustments need to be made or shortcomings need to be stipulated when using this series in trend analysis.

Comparability with other data. The *Employment and Payrolls* Report defines employment as the number of workers, covered by Hawaii Employment Security Law, who worked during or received pay for the payroll period which includes the twelfth of the month, reported by place of work (job count). The *Employment and Payrolls* Report does not include the self-employed. Other reports published by the Department of Labor and Industrial Relations that present employment data may show slightly different figures. For example, the *Labor Force Data Book* defines labor force employment as the actual number of persons working. Therefore, a person may be counted more than once in the *Employment and Payrolls* Report, but only once in labor force employment. Also, the *Labor Force Data Book* defines jobcount as the number of paid employees by establishment. This includes all employees regardless of Unemployment Insurance coverage and differs from the *Employment and Payrolls* Report, which excludes non-covered workers such as certain student hires.
