

STATE OF HAWAII • DEPARTMENT OF BUSINESS,
ECONOMIC DEVELOPMENT & TOURISM

COUNTY SOCIAL, BUSINESS AND ECONOMIC TRENDS IN HAWAII 1990 - 2023

January 2025

This report presents annual statistics on social, business and economic trends for the State and each of its four counties, from 1990 to 2023, and was produced by the Hawaii State Department of Business, Economic Development & Tourism's (DBEDT) Research and Economic Analysis Division (READ), headed by Eugene X. Tian, Ph.D., Economic Research Administrator. It was compiled and edited by Mary Blewitt, Economist, under the direction of Yang-Seon Kim, Ph.D., Research and Statistics Officer.

DBEDT published a number of reports on county trends in the past:

- *Statistical Report 116, County Trends in Hawaii Since 1960* (1976); and
- *Statistical Report 224, County and District Trends in Hawaii, 1991* (January 1992).

This report is the fifteenth in the resumed series:

- *County Social, Business and Economic Trends in Hawaii: 1990 – 2006* (December 2007)
- *County Social, Business and Economic Trends in Hawaii: 1990 – 2007* (December 2008)
- *County Social, Business and Economic Trends in Hawaii: 1990 – 2008* (December 2009)
- *County Social, Business and Economic Trends in Hawaii: 1990 – 2010* (December 2011)
- *County Social, Business and Economic Trends in Hawaii: 1990 – 2011* (April 2013)
- *County Social, Business and Economic Trends in Hawaii: 1990 – 2013* (December 2014)
- *County Social, Business and Economic Trends in Hawaii: 1990 – 2014* (December 2015)
- *County Social, Business and Economic Trends in Hawaii: 1990 – 2016* (December 2017)
- *County Social, Business and Economic Trends in Hawaii: 1990 – 2017* (December 2018)
- *County Social, Business and Economic Trends in Hawaii: 1990 – 2018* (December 2019)
- *County Social, Business and Economic Trends in Hawaii: 1990 – 2019* (December 2020)
- *County Social, Business and Economic Trends in Hawaii: 1990 – 2020* (January 2022)
- *County Social, Business and Economic Trends in Hawaii: 1990 – 2021* (December 2022)
- *County Social, Business and Economic Trends in Hawaii: 1990 – 2022* (January 2024)
- *County Social, Business and Economic Trends in Hawaii: 1990 – 2023* (January 2025).

| H-7. Motor vehicles registered | 95 |
| H-8. Actual index offenses known to the police | 96 |
| Back cover and contact information | 97 |

Introduction

This report presents annual statistics on social, business, and economic trends for the State and for each of its four counties. The Hawaii Department of Business, Economic Development & Tourism (DBEDT) published its first report on county trends in 1976, a second in 1992, then generally annually since 2007.

The present report consists of eighty-three statistical series that track these major trends from 1990 to 2023. Only those available at the county-level on an annual basis were considered. Over time, a data source may modify a methodology that limits geographical coverage or change the frequency and/or range of data released that make it no longer appropriate for *County Trends*. Examples of these changes and the tables affected are described in the Guide below.

Many related statistics were omitted, for example, if only available from the decennial population census or the quinquennial economic census. Also excluded were statistics for the State alone or for a single county. Other state and county-level data on monthly, quarterly or annual bases, may be found in the DBEDT [Data Warehouses](#), "[Monthly Economic Indicators](#)", [Quarterly Statistical & Economic Report](#), and the [State of Hawaii Data Book](#).

Guide to sources and format

The format of tables and narratives in *County Trends* is modeled after the *State of Hawaii Data Book*. *County Trends* data may have been extracted from *Data Books* if county-level data are included in the table, or if not, then be supplemented by the *Data Book*'s primary source. Headnotes and footnotes are kept to a minimum. If essential for clarity, headnotes provide information on indicators ("In thousands", "In dollars", etc.) and are immediately below table titles. Footnotes below the tables give information relating to specific items, figures or symbols (such as "NA", etc.) within the table. Sources may be indicated as [State of Hawaii Data Book](#), a specific source, or a specific report. Tables include percentage changes from the previous year which highlight trends and changes in patterns.

Tables B.5 and B.26. Estimation of agriculture jobs and total jobs (as the sum of non-agriculture and agriculture jobs) was discontinued by the Hawaii Department of Labor & Industrial Relations (DLIR) after 2011 when the Hawaii Department of Agriculture (DoA) discontinued its field survey. Since then, only state estimates are available from the U.S. Department of Agriculture's (USDA), National Agricultural Statistics Service (NASS)'s Quick Stats online database.

Tables C.1 to C.4. The U.S. Bureau of Economic Analysis (BEA) released estimates of county Gross Domestic Product (GDP) beginning with 2001 on December 4, 2024. BEA estimates of annual state GDP are available beginning in 1997.

Tables C.13. and F.4 to F.6. BEA discontinued compilation of county-level Annual Average Wage and Receipts from Farm Marketings as of November 14, 2024, and at the state-level as of September 27, 2024. BEA archived, without revision, the county and state data released the previous year.

Tables C.14 to C. 21. Tax revenue or tax base data are available for the counties from 1990 to 2019 only as the Hawaii Department of Taxation (DoTax) discontinued compiling data on an address of payer to a location of liability-basis.

Table C.22 shows total collection of the Transient Accommodations Tax (TAT) and distribution to the counties ending in 2020. Act 1, 1st Special Session 2021, which became effective on July 1, 2021, remitted all revenues to the state, but allowed each county to assess its own tax by ordinance.

Tables E.1 to E.4 Kauai residential building permit data only are available after 2001.

A. Population and Housing

This section presents statistics on the resident and defacto populations of Hawaii and the counties, on vital statistics, i.e. births and deaths, and on the number of housing units.

The primary sources for population data are the annual population estimates by the U.S. Census Bureau and the ongoing series on visitors present and residents absent provided by the Hawaii State Department of Business, Economic Development & Tourism (DBEDT), Research & Economic Analysis (READ), Tourism Research Branch. Earlier figures on population are given in *Historical Statistics of Hawaii*, Sections 1 and 3.

The major source for data on vital statistics is the Hawaii Health Survey conducted regularly since 1969 by the Hawaii State Department of Health (DOH). DOH data are available through 2022. Long-term trends are found in *Historical Statistics of Hawaii*, Section 2.

The principal source for housing data is the U.S. Census Bureau, Population and Housing Unit Estimates program. Persons interested in figures for earlier periods should consult *Historical Statistics of Hawaii*, Section 15.

B. Labor Force and Jobs

This section presents statistics on the size and composition of the labor force, and employment by industry.

Principal sources for the data on labor force and employment are the annual tabulations by the Hawaii State Department of Business, Economic Development & Tourism (DBEDT), and the reports of the U.S. Department of Agriculture (USDA), National Agricultural Statistical Service (NASS), and the Hawaii Field Office. *Historical Statistics of Hawaii*, Section 4, includes figures for earlier years.

C. Gross Domestic Product, Income and Tax

This section presents statistics on total and per capita gross domestic product (GDP) in current and constant (adjusted for inflation) dollars and on different components of state and county personal income. This section also presents statistics relating to the major tax revenues and tax bases of the Hawaii State Government .

The primary sources of data in this section are the U.S. Bureau of Economic Analysis (BEA), U.S. Census Bureau, and the Hawaii State Department of Taxation (DoTax), whose compilation of county data on a location of payer-basis was discontinued in 2019.

Per capita estimates in this section reflect the Hawaii State Department of Business, Economic Development & Tourism (DBEDT)'s calculations using the U.S. Census Bureau's state and county intercensal population estimates, most recently, the 2010 to 2019 estimates as released on November 7, 2024.

Sections 6, 7, and 25 of *Historical Statistics of Hawaii* present earlier year data.

1/ Governor Ige's Sixth Supplementary Proclamation, in April 2020, suspended Section 237D-6.5(b), HRS, for May through December in 2020, which suspended distribution of the Transient Accommodations Tax ("TAT") to the counties. Act 1, 1st Special Session 2021, which became effective on July 1, 2021, repealed the State's allocation of the TAT to the counties and instead allowed the four counties to establish and administer their own transient accommodations tax at a maximum rate of 3 percent.

D. Tourism

This section presents statistics relating to visitor arrivals, on the daily visitor census, visitor accommodation units, hotel occupancy, and room rates. The source of these data are reports of the Hawaii State Department of Business, Economic Development & Tourism (DBEDT), Research & Economic Analysis Division (READ)'s Tourism Research Branch, the Hawaii Tourism Authority (HTA), the Hawaii Visitors Bureau (HVB), the Hawaii Visitors & Convention Bureau (HVCB), PKF-Hawaii, Smith Travel Research, and Hospitality Advisors, LLC.

Long-term trends are presented in *Historical Statistics of Hawaii*, Sections 11 and 20.

E. Construction

This section presents statistics on the the value of building permits issued and types of construction activity. The sources for these data are the four county building departments and the U.S. Census Bureau .

Kauai County discontinued release of building permit data late in 2001. Only Kauai residential data are available for November 2001, and beginning in January 2002, from the U.S. Census Bureau's building permit survey.

Persons interested in figures for earlier periods should consult *Historical Statistics of Hawaii*, Section 15.

Source: County building departments.

F. Business and Production

Statistics in this section relate to business establishments and the number and size of private employers. This section also presents statistics on cash receipts from the marketings of crops and livestock, and on farm earnings.

Sources for statistics on these subjects include the Hawaii State Department of Business, Economic Development & Tourism (DBEDT), Research & Economic Analysis (READ), Labor Research Branch, and the U.S. Census Bureau's annual publication *County Business Patterns*. The U.S. Bureau of Economic Analysis (BEA) is an important source for data on agriculture as part of the personal income series. As indicated in the Introduction, BEA discontinued compilation and release of the cash receipts from marketings data, on November 14, 2024 for the counties and on September 27, 2024 for the state. The farm earnings data were not affected.

Agricultural data for earlier years are summarized in *Historical Statistics of Hawaii*, Section 13, and Sections 22 and 23 provide information for business in earlier periods.

Table

Number Table Name

(Click on the table number to go to corresponding table)

| | |
|---------------------|--|
| F-1 | Business Establishments |
| F-2 | Number of Private Employers |
| F-3 | Number of Private Employers with Fewer than 50 Employees |
| F-4 | Cash Receipts from Farm Marketings |
| F-5 | Cash Receipts from Crop Marketings |
| F-6 | Cash Receipts from Livestock and Products Marketings |
| F-7 | Farm Earnings |

Table F-1. BUSINESS ESTABLISHMENTS

[Business establishments with taxable payrolls. Excludes government and self-employed workers]

G. Utilities

This section presents statistics on water consumption in Hawaii from 1990 to 2023, showing annual usage in millions of gallons for the state and Honolulu, Hawaii, Kauai, and Maui counties. This section also includes data on sales by public utilities, of electricity, as measured in millions of kilowatt-hours, and of gas, in thousands of therms.

Information can be obtained from reports and records of the Board of Water Supply of the City and County of Honolulu, departments of water supply of the counties of Hawaii, Kauai, and Maui; the Hawaii State Department of Commerce and Consumer Affairs, Division of Consumer Advocacy, and monthly financial reports issued by utility companies (Hawaiian Electric Company, Maui Electric Company, Hawaii Electric Light Company and Kauai Island Utility Cooperative).

Historical Statistics of Hawaii, Section 19, presents data for earlier years.

H. Other

This section presents data on registered voters and votes cast. The official results of the primary, general, and special elections are published by the Hawaii State Office of Elections. The major source for data on number of hospital beds is the Hawaii State Department of Health (DOH) and are available through 2022. This section also presents data related to government programs of assistance to needy individuals and families. Major data sources include reports and records of the U.S. Department of Health and Human Services, and the Hawaii State Department of Human Services.

Earlier figures for Hawaii appear in *Historical Statistics of Hawaii*, Section 24 for elections, Section 2 for hospital beds, and Section 8 for government programs of assistance.

This section also presents statistics relating to registration of motor vehicles. The data sources are the Hawaii State Department of Transportation's Highways Division and the Hawaii Automobile Dealers Association. Data for the entire period of record through 1976 appear in *Historical Statistics of Hawaii*, Section 17.

This section also presents data on index offenses (known to the police) which include murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft, and motor vehicle theft, excluding negligent manslaughter and arson from 1993 to 2012. The Hawaii State Department of the Attorney General issues crime summary reports, based on reports submitted by the counties' police departments.

Figures on crime in earlier years appear in *Historical Statistics of Hawaii*, Section 10.
