

June QSER for Archive Page

July 2004

Because of improvements in the Federal Government's release schedule for State Personal Income, DBEDT's *Quarterly Statistical and Economic Report* is moving to a new publication date. The next regular issue of the QSER is scheduled to be posted on this page the week of August 9 to 13, 2004. The statistics in that issue will be updated to those available through the second quarter of 2004 and an updated DBEDT economic forecast will be presented.

The new schedule allows DBEDT to improve the timeliness of data to users. The August release date will provide available second quarter data one month earlier than under the previous schedule. Following the August report, future QSER reports will be issued in November, February and May.

This abbreviated June QSER contains MS Excel data tables updated through the first quarter of 2004 and is intended to provide the most recent quarterly statistics while the new schedule is being implemented.

The most recent monthly economic statistics are available on the [Selected Economic Indicators](#) page.

Thank you for your patience as we make this transition.
