

**Table 1.62-- COMPONENTS OF CHANGE IN THE RESIDENT POPULATION,  
BY MILITARY STATUS: 2010 TO 2015**

[Revised. Not comparable to tables in *Data Books* prior to 2004  
because of the recalculation of armed forces death data]

| Period and component 1/ | All groups | Armed forces | Civilian population |                         |                |                  |
|-------------------------|------------|--------------|---------------------|-------------------------|----------------|------------------|
|                         |            |              | Military dependents | Not military dependents |                |                  |
|                         |            |              |                     | Number                  | Annual average | Percent distrib. |
| Net change              | 64,856     | 7,376        | -570                | 58,050                  | 11,057         | 100.0            |
| Natural increase        | 45,461     | -166         | 17,875              | 27,752                  | 5,286          | 47.8             |
| Live births             | 98,583     | (X)          | 18,284              | 80,299                  | 15,295         | (X)              |
| Deaths                  | 53,122     | 166          | 409                 | 52,547                  | 10,009         | (X)              |
| Net mil. separations 2/ | } 19,395   | 7,542        | -18,445             | 30,298                  | 5,771          | 52.2             |
| Net migration 3/        |            |              |                     |                         |                |                  |

X Not applicable.

1/ April 1, 2010 to June 30, 2015.

2/ Separations less inductions for armed forces.

3/ Includes error of closure.
