1/ The resident population is defined as the number of persons whose usual place of residence is in an area, regardless of their physical location on the estimate or census date. It includes military personnel stationed or homeported in the area and residents temporarily absent, but excludes visitors present. Figures for "total resident population," "all civilians," and "civilian population - not military dependent" are based on population estimate revisions released in June 2020 and may differ somewhat from earlier figures cited in other tables.

2/ Calculated as the difference between "Total resident population" and "All civilians." Based on population estimate revisions released in June 2020 and may differ somewhat from earlier figures cited in other tables.

3/ Dependents living in Hawaii, regardless of location of family head. Based on the annual survey of local commanding officers and DBEDT estimates.

4/ The April 1, 2010 Population Estimate base was used for the April 1 figures. They reflect changes to the April 1, 2010 population due to the Count Resolution Program and the geographic program revisions.
