## Table 1.20-- URBAN AND RURAL AREAS, BY COUNTY: 2010 -- Con.

X Not applicable.
1/ For the 2010 Census, an urban area will comprise a densely settled core of census tracts and/or census blocks that meet minimum population density requirements, along with adjacent territory containing non-residential urban land uses as well as territory with low population density included to link outlying densely settled territory with the densely settled core. To qualify as an urban area, the territory identified according to criteria must encompass at least 2,500 people, at least 1,500 of which reside outside institutional group quarters. The Census Bureau identifies two types of urban areas (1) Urbanized Areas (UAs) of 50,000 or more people and (2) Urban Clusters (UCs) of at least 2,500 and less than 50,000 people. "Rural" encompasses all population, housing and territory not included within an urban area.

2/ Maui County includes Kalawao County. Kalawao County had a total resident population of 90; land area of 31.1 square kilometers which was 12.0 square miles; 2010 rural population of 90 ; percent population that was rural population was $100 \%$; land area of the rural areas was 31.1 square kilometers which was 12.0 square miles; percent land area in rural area was $100 \%$; and population density of rural area was 7.5 persons per square mile.

3/ To convert from square kilometer to square mile, divide by 2.58999 .
4/ Percent of state land area for "state total" column; percent of county land area for all other columns.
5/ Percent of state population for "state total" column; percent of county population for all other columns.
