1/ Census Bureau midyear population estimates through 2009. BEA produced intercensal annual state population statistics for 2010 to 2019 (tied to the Census Bureau decennial counts for 2010 and 2020) as the Census Bureau did not publish these data when they released state population data for 2020 and 2021. BEA statistics will be used until the Census Bureau releases its official intercensal population data.

2/ Per capita personal income is total personal income divided by total midyear population.

3/ Revised from previous *Data Book*.
