1/ Funding amount, or budget authority, is the amount of money available to a federal agency for a specific purpose. The authority to commit to spending federal funds is provided to agencies by law.

2/ Once funding, or budget authority, has been provided for a given purpose, an agency can incur an obligation which is a legally binding commitment, for example, by awarding a grant to provide services that will increase the quantity and quality of locally grown food in hawaii s geographically isolated, food insecure communities.

3/ Outlays occur when a federal agency issues checks, disburses cash, or makes electronic transfers to liquidate (or settle) an obligation, for example, when a federal agency deposits grant funds into recipients' accounts.
