

Table 1.09-- DE FACTO POPULATION, BY COUNTY: 2010 TO 2023

[As of July 1. The de facto population is defined as the number of persons physically present in an area, regardless of usual place of residence. It includes visitors present but excludes residents temporarily absent, both calculated as an average daily census. The estimates in this table may differ from earlier figures due to revised population and visitor estimates released during the year]
