

**Table 1.04-- RESIDENT AND DE FACTO POPULATION, BY RESIDENCE  
STATUS: 2010 TO 2024**

[As of July 1. The de facto population is defined as the number of persons physically present in an area, regardless of usual place of residence. It includes visitors present but excludes residents temporarily absent, both calculated as an average daily census. The estimates in this table may differ from earlier figures due to revised population and visitor estimates released during the year]

1/ The resident population is defined as the number of persons whose usual place of residence is in an area, regardless of physical location on the estimate or census date. It includes military personnel stationed or homeported in the area and residents temporarily absent, but excludes visitors present. Population Estimates for July 1, 2020 through July 1, 2024 are based on revisions released in March 2025. Population estimates for July 1, 2010 through July 1, 2019 are based on revisions released in November 2024.

2/ Average daily census of visitors who came by air or by ship.
