FOREIGN AND INTERSTATE COMMERCE

This section includes data on the flow of goods, services, and capital between Hawaii and the rest of the world, with particular emphasis on trade and investment involving foreign countries.

Imports to Hawaii from foreign nations rose from \$86 million in 1964 to \$582 million in 1974. Exports to foreign countries amounted to only \$41 million in 1958, but by 1974 exceeded \$113 million. (These figures, it should be noted, refer to merchandise imports for consumption and exports of domestic merchandise through the Honolulu Customs District. They do not necessarily represent exports of commodities originating in Hawaii, nor imports for direct consumption within the State.)

Trade with the Mainland United States has similarly risen since the 1950's. Merchandise received from the Mainland increased from \$498 million in 1963 to \$1.6 billion in 1973. Merchandise exported to the Mainland rose from \$308 million in 1963 to \$382 million in 1973.

Merchandise exported to the Mainland rose from \$308 million in 1963 to \$382 million in 1973.

Among the foreign nations, Hawaii's leading trading partners in 1974 were Indonesia for imports and Japan for exports. Imports from Indonesia amounted to \$147 million, or 25 percent of the total, while exports to Japan reached \$61 million, or 54 percent of all foreign exports. The Indonesian imports included \$130.8 million for crude oil.

The Honolulu Foreign Trade Zone received merchandise valued at \$16 million in 1975. Merchandise forwarded was valued at \$14 million.

Hawaii residents had out-of-State assets estimated at \$2,676 million in 1971. Assets of non-residents in the State at the same time amounted to approximately \$3,439 million.

Ninety-four Island firms were owned by the Japanese as of 1972. Initial investment in these businesses totaled \$24.2 million.

Sources for statistics on interstate and foreign commerce include the U.S. Bureau of the Census (for foreign trade), the Bank of Hawaii (for interstate trade), Foreign-Trade Zone No. 9, and a 1973 study by the University of Hawaii Economic Research Center on *The Economic and Social Impact of Foreign Investment in Hawaii*.

Comparable data for the nation as a whole appear in Section 30 of Statistical Abstract of the United States: 1975.
