Section 10

NATIONAL DEFENSE

This section presents statistics relating to the armed forces and their dependents, national guard expenditures and strength, civilian employment in national defense, veterans, land controlled by the U.S. Department of Defense (DOD), military housing, and expenditures by the armed forces. Additional information appears in sections 1, 2, 9, 12, and 23.

The Hawaii State Department of Business, Economic Development & Tourism (DBEDT) has compiled periodic reports on military personnel and dependents since 1959. Other published sources include reports of the DOD, U.S. Census Bureau, U.S. Department of Veterans Affairs, the Hawaii State Department of Labor and Industrial Relations and the Hawaii State Department of Defense. Definitions used by these sources differ to some degree, and care is necessary in comparing data issued by two or more agencies. *Historical Statistics of Hawaii*, Section 26, includes series on the armed forces dating back to 1795. Section 11 of the *Statistical Abstract of the United States: 1999* presents data on national defense and veterans affairs for other states and the U.S. as a whole.

1/ Estimated. Not included are 15 Air Force personnel living in housing units on Johnston Atoll.

2/ Estimated. Also, no new information was available for the island of Hawaii so the 1998 figures were used as an estimate. In 1998, there were 263 Army personnel living in barracks on Johnston Island (which includes Kwajalein, Pago Pago and Alaska) and 64 Army personnel stationed in Hawaii and living in housing units, but with duty locations in Guam or foreign countries. These Army personnel are not included in the annual tables shown above and the figures for 1998 are listed in this footnote because no new information was available for 1999.

3/ Estimated.

4/ The total number of navy military personnel is not sum to the total of personnel living in housing units, in barracks and aboard ship. This is because navy personnel assigned to ships on a specified date may also have another place to live elsewhere in Hawaii. Therefore, they may be counted more than once in the type of residence columns.
