This section presents data related to governmental expenditures on social welfare; programs for old-age, survivors, disability and health insurance; public employee retirement; unemployment insurance; aid to the needy; and child and other welfare services. Also included here are selected statistics on disability, foundations, and the quality of life. Related data are cited in Sections 9 and 13.

Major data sources include reports and records of the U.S. Department of Health and Human Services, the Hawaii State Department of Human Services, the Hawaii State Department of Labor and Industrial Relations, and the Hawaii State Employees' Retirement System. *Historical Statistics of Hawaii*, Section 8, contains data for earlier years. Section 11 of the *Statistical Abstract of the United States: 2012* presents comparable national data.

1/ In FY 2012 the fewer number of children receiving child care subsidies may be attributed to changes in the child care rules that included reduced child care services rate, and increased sliding scale fees. The decrease in subsidies for most families resulted in many changing child care providers or dropping out of the subsidy programs.

2/ Includes group child care homes, before and after school, and infant/toddler centers.
