ABOUT THIS REPORT

The 2024 Annual Visitor Research report provides the final statistics on Hawai'i's visitor industry in 2024 and a comparison with 2023 visitor data. Included in this report are characteristics data from visitors who came to Hawai'i by air service or by cruise ship. Visitor statistics are categorized by Hawai'i's Major Market Areas (MMA), by select countries, purpose of trip, accommodation type and by island. Statistics about visitor room inventory, hotel occupancy, room rates and air seat capacity are also included.

2024 statistics presented in this report reflect immigration data from the U.S. Department of Commerce National Travel and Tourism Office (NTTO), updated statistics on flights and air seats from the Cirium Dii Mi (DIIO) airline database, and final Air Traffic Summary reports received from airlines.

This report was produced by the Tourism Research Branch staff of the Department of Business, Economic Development and Tourism (DBEDT) Research and Economic Analysis Division (READ) headed by Jennifer Chun, Tourism Research Director, with Minh-Chau Chun, Karl Ekroth, Yvonne Lam, Lawrence Liu, Amiryn Strong and Jaycie Tanaka.

STR Inc. provided hotel occupancy and room rate statistics.

2024 Visitor Plant Inventory statistics (tables 109 – 112) are from the DBEDT, 2024 Visitor Plant Inventory report, posted on the DBEDT website:

SUMMARY OF 2024 VISITORS TO HAWAI‘I

ALL VISITORS (BY AIR AND BY CRUISE SHIPS)

Hawai'i's tourism industry in 2024 continued to recover from impacts of the COVID-19 pandemic and from the August 8, 2023, West Maui wildfires. For calendar year 2024, a total of 9,701,499 visitors arrived to the Hawaiian Islands, which was a slight increase (+0.5%) from the prior year. However, these visitors had a shorter average length of stay (8.71 days, -2.7%) compared to 2023, which led to a 2.2 percent drop in visitor days. Despite higher average daily visitor spending in 2024 (\$243 per person, +1.5%), total visitor expenditures in 2024 measured in nominal dollars was \$20.72 billion (-0.7%), down slightly from \$20.87 billion in 2023 (Table 1).

Lodging, the largest spending category by all visitors to Hawai'i, decreased to \$9.54 billion (-1.0%) in 2024. Food and beverage, the second largest category, dropped slightly to \$4.37 billion (-0.3%). Shopping at \$2.08 billion (-1.9%) was the third largest expense category in 2024, followed by entertainment and recreation at \$1.95 billion (+3.4%) and transportation at \$1.92 billion (-2.1%). Supplemental business spending in 2024 was \$141.7 million (+7.3%) compared to \$132.0 million in the previous year. These are additional business expenses spent locally on conventions and corporate meetings by out-of-state visitors (i.e., costs of space and equipment rentals, transportation, etc.) that were not included in personal spending (Table 70).

In 2024, there were 9,533,375 visitors (+0.4%) who came by air service and 168,123 visitors (+6.7%) who came by out-of-state cruise ships. In 2023, 9,499,995 visitors came by air and 157,612 visitors arrived by out-of-state cruise ships (Table 1).

VISITORS (ARRIVALS BY AIR)

A total of 9,533,375 visitors arrived by air service in 2024, up 0.4 percent from the previous year. The average length of stay was 8.78 days (-2.6%) compared to 9.02 days in 2023. The average daily census was 228,752 visitors (-2.5%) present on any given day in 2024, compared to 234,724 visitors in 2023. Visitors by air in 2024 spent more on a daily basis (\$245 per person, +1.5%) compared to 2023 (\$241 per person). However, their shorter length of stay resulted in a 0.8 percent decrease in total visitor expenditures to \$20.49 billion (Table 1).

In 2024, arrivals from the U.S. West (4,997,064 visitors, -0.1%), U.S. East (2,373,437 visitors, -2.2%), Canada (445,984 visitors, -6.1%) and Oceania (203,473 visitors, -13.8%) decreased while arrivals from Japan (708,233 visitors, +20.2%), Other Asia (222,302 visitors, +3.6%), Europe (117,962 visitors, +0.6%) and Latin America (32,479 visitors, +15.5%) were higher than 2023 (Table 1).

Inflation Adjusted total Visitor Expenditures for 2009 – 2024, using DBEDT Hawaii Tourism Price Index (2017=100) (<https://dbedt.hawaii.gov/visitor/tourism-price-index/>)

To construct a Hawai'i tourism price index, DBEDT collects prices of about 150 goods and services that represent typical spending of Hawai'i visitors. Combining the locally-collected data with other published price data, the Hawai'i tourism price index is calculated for total visitor spending and five major spending categories: "Food and beverage," "Entertainment & Recreation," "Transportation," "Shopping," and "Lodging." Monthly spending patterns of visitors from the Hawai'i visitor expenditure survey are used to calculate aggregation weights for the indexes.

¹ Comparative annual 2020 visitor spending statistics were not available. Due to COVID-19 restrictions, the Departure Survey could not be conducted between April through October 2020 and fielding for visitor spending was limited. Visitor spending statistics for months in 2020 for which data are available are presented in Tables 2 and 3 of the 2020 Annual Visitor Research Report, posted on The DBEDT website: <https://files.hawaii.gov/dbedt/visitor/visitor-research/2020-annual-visitor.pdf>

APPENDIX A

DEFINITIONS

Airline Passenger Counts: Passengers arriving in Hawai'i on transpacific flights (both scheduled and chartered) from the U.S., Canada, Japan, Europe, Other Asia, Oceania and Other Pacific regions, as reported in the Air Traffic Summary Report, which airlines submit to the State of Hawai'i, Department of Transportation each month. The report shows passenger counts arriving to the Daniel K. Inouye, Kahului, Ellison Onizuka, Hilo and Lihue airports and includes counts of any in-transit passengers (domestic or international).

Arrivals by Air: Visitors who enter Hawai'i via arriving transpacific flights. This data is derived from the Domestic In-flight Survey and International Departure Survey.

Arrivals by Cruise Ships: Visitors entering Hawai'i via foreign-flagged cruise ships. This data is derived from monthly reports from the State of Hawai'i Department of Transportation Harbors Division, Hawai'i.PortCall.com, and from the Cruise Visitor Survey.

Cruise Ships (Arrivals by Air): An estimate of visitors staying on cruise ships who arrived in Hawai'i via transpacific flights. This figure may not correspond with the number reported under the Cruise Visitors section, which was derived from the Cruise Visitor Survey and cruise ship passenger counts.

Cruise Ships, Foreign Flagged: Ships that are not considered Hawai'i businesses. On-ship spending is not included in the reported visitor expenditures.

Cruise Ship U.S. Flagged: The *Pride of America*, which is home-ported in Hawai'i, is considered a Hawai'i business. Visitor expenditures for this ship include both on-ship and on-shore spending.

Daily Census: Average number of visitors present in Hawai'i on a single day.

Domestic: This category refers to the origin of the transpacific flight to Hawai'i and not the residence of the passenger. Visitors arriving on a transpacific flight from the Continental United States. Total domestic arrivals include U.S. residents and foreign residents who come to Hawai'i on flights from the Continental United States. A foreign resident arriving on flights from the U.S. mainland is counted as a domestic visitor.

Expenditures: The U.S. dollar amount spent in Hawai'i attributed to a visitor. This includes direct spending by visitors while in Hawai'i, as well as any prepaid package purchased before arrival. The expenditure data does not include transpacific airfare costs to-and-from Hawai'i, commissions paid to travel agents, or portions of the package in another state or country.

Expenditures, Total by Island: Includes on-ship spending on U.S. flagged cruise ships. The expenditures are allocated to each island in proportion to visitor days.

Per Person Per Day (PPPD) Expenditures, by Island: The denominator is air and cruise visitor days by island.

Expenditures, Cruise Visitor: Expenditures by visitors onboard foreign flagged and U.S. flagged cruise ships. Expenditures by visitors onboard U.S. flagged cruise ships include on-ship spending because U.S. flagged cruise ships are considered Hawai'i businesses. Expenditures by visitors onboard foreign flagged cruise ships include only onshore expenditures.

Group Tour: Visitors traveling and participating in activities in a group with a tour guide during much of their stay.

In-transit, International:

- True Transit: Passengers clearing U.S. Immigration and Customs at Hawai‘i’s major airports and proceeding to another city.
- Bonded transit: Passengers held in a sterile lounge area who re-board an aircraft without being processed by either U.S. Immigration and Customs Enforcement.

In-Transit, Domestic:

- U.S. to Foreign: Passengers arriving at Hawai‘i’s major airports from the Continental United States, or the neighbor islands who re-board an aircraft destined for a foreign country (without leaving the airport).
- Neighbor Island to Mainland: Passengers arriving at Daniel K. Inouye International Airport (HNL) from a neighbor island airport who re-board an aircraft destined for the U.S. mainland (without leaving HNL). This excludes passengers doing mileage runs who do not need to go to HNL. A mileage run is a trip for the sole purpose of earning frequent-flier miles; assuming that the fare is cheap enough so that the miles balance out the cost.

Intended Residents: Passengers arriving by transpacific flights who are moving to Hawai‘i and seeking long-term residence for at least one year. Students or military members have often classified themselves in this category.

International: This category refers to the origin of the transpacific flight to Hawai‘i and not the residence of the passenger. Visitors arriving on transpacific flights from foreign countries and U.S. territories. A U.S. visitor arriving on a transpacific flight from a foreign country is counted as an international visitor.

Length of Stay: The average number of days that visitors are present in Hawai‘i, including the day of arrival and day of departure.

Major Market Areas (MMAs): Visitors are classified by their place of residence in the U.S. or foreign country in the following geographical areas, as defined by Hawai‘i Tourism Authority (HTA).

1. U.S. West – Pacific (Alaska, California, Oregon, Washington) and Mountain (Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah, and Wyoming) States.
2. U.S. East – Other States in the Continental U.S.
3. Japan
4. Canada
5. Europe – United Kingdom, Germany, France, Italy, and Switzerland
6. Oceania – Australia and New Zealand
7. Other Asia – China, Hong Kong, Korea, Singapore, and Taiwan
8. Latin America – Argentina, Brazil, and Mexico
9. Other – All countries and districts not listed in MMA 1 to 8 above, including Guam, Puerto Rico, U.S. Virgin Islands, and other U.S. territories

Market Penetration: Number of visitors from a given Metro Area (CBSA) divided by the population of that area and reported as the rate per 1,000 visitors.

MC&I (Net): Visitors traveling to Hawai'i for corporate meetings, conventions or incentives, or any combination of these reasons. A visitor selecting two or more sub-categories within the MCI category is counted once. Therefore, the sum of the sub-categories may be larger than the MCI category.

Package: Visitors who purchase a package trip that includes airline tickets and accommodations.

Passengers: The total number of people on a flight or on a cruise ship, including visitors and Hawai'i residents.

Pleasure (Net): Visitors traveling for vacation, honeymoon or to get married, or any combination of these reasons. A visitor selecting two or more sub-categories within the pleasure category is counted once. Therefore, the sum of the sub-categories may be larger than the pleasure category.

Returning Hawai'i Residents: Arriving passengers on transpacific flights who are returning Hawai'i residents after traveling out-of-state for various purposes (leisure, business, school, etc.).

True Independent: Visitors who are not part of a tour group and did not purchase airline tickets and accommodations as a package.

Seats, Scheduled: The total number of scheduled air seats on all transpacific flights to Hawai'i reported by Cirium Diio Mi (DIIO) airline database.

Seats, Charter: The number of charter air seats on all flights not reported by DIIO, but reported by the State of Hawai'i monthly.

Seats, Total: The total number of all air seats for both scheduled and charter flights to Hawai'i.

Supplemental Business Expenditures: Additional business expenditures spent in Hawai'i on conventions and corporate meetings by out-of-state visitors (i.e., costs on space, equipment rentals, transportation, etc.). As of 2012, these figures were calculated using the Destinations International (formerly known as Destination Marketing Associations International) Event Impact Calculator (EIC).

Visitor: An out-of-state traveler who stays in Hawai'i for at least one night but less than one year. Visitors arriving by transpacific flights are calculated by subtracting the estimated in-transit passengers, returning Hawai'i residents and intended residents from the Airline Passenger Counts. Visitors arriving by cruise ships are calculated by subtracting Hawai'i residents from counts of passengers who came to Hawai'i onboard foreign-flagged cruise ships.

SOURCES OF DATA FOR VISITOR STATISTICS

The data in this report came from the following sources:

Air Traffic Summary Report: All domestic and international airlines with flights to the Hawaiian Islands are required to complete this report of airline passenger counts and in-transit counts and submit them to the Department of Transportation – Airports Division, by the 10th of each month with data for the previous month.

Summary of International Travel to the United States report: The International Visitor Arrivals Program provided the U.S. government and the public with the official U.S. monthly and final overseas visitor arrivals to the U.S. based on using the INS I-94 form data, which all U.S. non-citizens must complete to enter the United States. The National Travel and Tourism Office (NTTO) manages the program. The monthly reports provided counts of international visitors to Hawai‘i by their country of residence. The reports also identified those simply passing through Hawai‘i (in-transit). Canadian and U.S. residents were not included in these counts.

International Survey: Surveys were distributed to a systematic sample of passengers in the boarding area and walkways at the Daniel K. Inouye International Airport on O‘ahu, the Kahului Airport on Maui, the Ellison Onizuka Kona International Airport on the island of Hawai‘i, and the Līhu‘e Airport on Kaua‘i. In 2024, a total of 54,115 surveys were completed and processed. All usable forms were optically scanned and tabulated to produce the results presented here. This survey provided information on visitor characteristics such as party size, visit status, travel method, length of stay, island visitation patterns, accommodations, purpose of trip and demographic data. The survey also collected information on statewide visitor expenditures. The characteristics of respondents were attributed to non-respondents using ascription. The International Intercept Survey form is included in Appendix B.

Domestic In-Flight Survey: The domestic survey form is on the reverse side of the Hawai‘i State Department of Agriculture’s mandatory Plants and Animals declaration form. The dual-sided In-flight forms were distributed to passengers on all flights from the Continental United States to Hawai‘i every day of the year. In 2024, there were 4,290,190 usable forms collected and processed. All usable forms were optically scanned and tabulated to produce the results presented here. This survey provided information on visitor characteristics such as party size, visit status, travel method, length of stay, island visitation patterns, accommodations, purpose of trip and demographic data. Some characteristics of respondents were attributed to non-respondents using ascription. The Domestic In-flight Survey form is included in Appendix B.

Island Survey: Surveys were conducted at the departure area of the airports on all the islands. In 2024, 30,352 completed survey forms were received from the Daniel K. Inouye International Airport for O‘ahu specific data, 15,903 completed forms were received from Maui, 292 forms from Moloka‘i, 144 forms from Lāna‘i, 5,896 forms from Kaua‘i, 5,068 forms from Hilo, and 6,908 forms from Kona. The Island Visitor Survey provided island by island specific information such as purpose of trip, accommodation, length of stay and expenditures. The Island Visitor Survey form is included in Appendix B.

Cruise Visitor Survey: The Cruise Visitor Survey forms are distributed to randomly selected cabins on passenger ships in Hawai‘i during the year. Data collected from cruise visitors include purpose of trip, island visitation and spending by island. The questionnaire used on foreign-flagged ships did not include on-ship spending. In 2024, a total of 10,863 completed forms were processed for cruise visitor information. The Cruise Visitor Survey form is included in Appendix B.

Cruise Ship Passenger Counts Report: All cruise ships which entered Honolulu, Hilo, Kona, Kahului, and Nāwiliwili Harbor reported passenger counts to the Department of Transportation Harbors Division and the Department of Land and Natural Resources. DBEDT obtained monthly cruise ship passenger counts from cruise ship agents and from Hilo harbors. Monthly cruise ship reports are also provided by Hawaii.Portcall.com, a synchronized operating system which simplifies scheduling and billing for ports, pilots, and agents. DBEDT figures specifically look at the number of passengers who arrived in the state on cruise ships. Visitors who flew to Hawai'i and then boarded the cruise vessel were captured in the surveys of air passengers.

Visitor Plant Inventory Survey: The purpose of this survey is to compile an accurate annual assessment of existing and planned visitor accommodations for the State of Hawai'i by island, location, property type (hotel, condo-hotel, bed and breakfast, individual vacation unit, rental house, hostel, timeshare, and apartment-hotel), and class of unit (standard, budget, deluxe, luxury). To access the report online, visit: dbedt.hawaii.gov/visitor/visitor-plant/

Hawai'i Hotel Performance Data: STR, Inc. is the source of hotel occupancy rate, average daily room rate and revenue per available room data. Hotel performance statistics are posted on the HTA website: www.hawaiitourismauthority.org/research/infrastructure-research/

Air Seat Statistics: Since 2013, HTA and DBEDT have used airline schedules from Cirium Diiio Mi (DIIO) as the source of its data on scheduled air seats. DIIO is an online database of airline industry data used by airlines, airports, and destination marketing organizations across the U.S.
