About the Hawai'i Hotel Performance Report

The Hawai'i Hotel Performance Report is produced using hotel survey data compiled by STR, Inc., the largest survey of its kind in Hawai'i. The survey generally excludes properties with under 20 lodging units, such as small bed and breakfasts, youth hostels, single-family vacation rentals, cottages, individually rented vacation condominiums and sold timeshare units no longer available for hotel use. The data has been weighted both geographically and by class of property to compensate for any over and/or under representation of hotel survey participants by location and type.

For April 2026, the survey included 165 properties representing 47,798 rooms, or 84.1 percent of all lodging properties with 20 rooms or more in the Hawaiian Islands, including full service, limited service, and condominium hotels. The April survey included 84 properties on O'ahu, representing 29,765 rooms (94.9%); 38 properties in the County of Maui, representing 9,314 rooms (69.1%); 22 properties on the island of Hawai'i, representing 5,347 rooms (79.6%); and 21 properties on Kaua'i, representing 3,372 rooms (64.5%).
