Hazardous Waste Handler Details

Sequence No: 1
Receive Date: 20010914
Handler Name: NORWEGIAN SKY
Source Type: Notification
Federal Waste Generator Code: 2
Generator Code Description: Small Quantity Generator

Waste Code Details

Hazardous Waste Code: D000
Waste Code Description: DESCRIPTION

Hazardous Waste Code: D001
Waste Code Description: IGNITABLE WASTE

Hazardous Waste Code: D002
Waste Code Description: CORROSIVE WASTE

Hazardous Waste Code: D009
Waste Code Description: MERCURY

Hazardous Waste Code: D011
Waste Code Description: SILVER

Hazardous Waste Code: F002
Waste Code Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROETHYLENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F003
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Code: F005
Waste Code Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON

Map Key	Number of Records	Direction	Distance (mi/ft)	Elev/Diff (ft)	Site	DB
					DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Handler Details

Sequence No: 1
Receive Date: 20200708
Handler Name: PASHA HAWAII HOLDINGS LLC
Source Type: Notification
Federal Waste Generator Code: N
Generator Code Description: Not a Generator, Verified

Waste Code Details

Hazardous Waste Code: D001
Waste Code Description: IGNITABLE WASTE

Hazardous Waste Code: K171
Waste Code Description: SPENT HYDROTREATING CATALYST FROM PETROLEUM REFINING OPERATIONS, INCLUDING GUARD BEDS USED TO DESULFURIZE FEEDS TO OTHER CATALYTIC REACTORS (THIS LISTING DOES NOT INCLUDE INERT SUPPORT MEDIA)

Hazardous Waste Code: K172
Waste Code Description: SPENT HYDROREFINING CATALYST FROM PETROLEUM REFINING OPERATIONS, INCLUDING GUARD BEDS USED TO DESULFURIZE FEEDS TO OTHER CATALYTIC REACTORS (THIS LISTING DOES NOT INCLUDE INERT SUPPORT MEDIA)

Response Measure Taken: Absorbents were used to clean up the spill.
BC State Activity:
Invoice To:
Status Comment:
Summary:

Less than half a gallon of Sika concrete bonding adhesive was spilled into the water while Global Specialty Contractors was completing construction work at the pier. The pier was pre-boomed prior to work beginning and the responsible party cleaned the spill using absorbent material.

Feature Description:

THE FORT ARMSTRONG MILITARY RESERVATION PROJECT AREA WAS TRANSFERRED FROM THE CONTROL OF THE NAVY DEPARTMENT AND THE TERRITORY OF HAWAII TO THE CONTROL OF THE WAR DEPARTMENT BETWEEN MARCH 1910 AND JULY 1918. THE APPROXIMATELY 9.087-ACRE PROJECT SITE WAS RESTORED TO THE TERRITORY OF HAWAII ON AUGUST 1, 1956 AND IS CURRENTLY OCCUPIED BY LIGHT INDUSTRIAL LAND USES. IN MAY 1947, ABOUT .76 ACRE WAS RESTORED FOR A ROAD RIGHT-OF-WAY. IN JULY 1963, THE REMAINING 4.94 ACRES WAS DECLARED EXCESS.

Location Longitude: -157.861591

Violation/Evaluation Summary

Note: NO RECORDS: As of Oct 2023, there are no Compliance Monitoring and Enforcement (violation) records associated with this facility (EPA ID).

Handler Summary

Importer Activity: No
Mixed Waste Generator: No
Transporter Activity: No
Transfer Facility: No
Onsite Burner Exemption: No
Furnace Exemption: No
Underground Injection Activity: No
Commercial TSD: No
Used Oil Transporter: No
Used Oil Transfer Facility: No
Used Oil Processor: No
Used Oil Refiner: No
Used Oil Burner: No
Used Oil Market Burner: No
Used Oil Spec Marketer: No

Hazardous Waste Handler Details

Health, Welfare, and Environment The area between downtown Honolulu and Waikiki, known today as Kaka'ako Makai, sits within two historic sea fisheries, called Kukulu'a'eo and Ka'akaukukui, which historically consisted of reef and mud flats that were submerged at high tide. At the end of the 19th century, the government began filling the submerged land to create Kaka'ako Makai as we know it today. In the early 1900s, fill material consisted mostly of raw trash and ash from open-pit trash burning. After 1930, incinerator ash was the primary fill material. By the late 1960s, the incinerator ash and other fill materials had created over 60 acres of fast land in the former Kukulu'a'eo and Ka'akaukukui fisheries Since the 1960s, the state primarily used Kaka'ako Makai for government baseyards, warehouses, and buildings, and leased some of the waterfront parcels for industrial fishing operations like fueling stations, boatyards, ice houses, and fish auctions. "Makai" in the Hawaiian language means "toward the sea;" Kaka'ako Makai refers to the portion of Kaka'ako seaward of Ala Moana Blvd. Kaka'ako Makai is part of the larger approximately 600-acre Kaka'ako area that historically included small tenements of primarily Native Hawaiian and immigrant laborers mauka (inland) of Ala Moana Blvd. Today, about 20 land parcels comprise Kaka'ako Makai's approximately 60 acres. It is the gateway to some of the best ocean recreation in urban Honolulu, including body boarding, surfing, and diving, and the remediated 30-acre Kaka'ako Waterfront Park attracts thousands of residents and tourists to the area each year for picnicking, parties, and playing in the sun. Despite these excellent outdoor recreational opportunities, the lots immediately adjacent to the Kaka'ako Waterfront Park and beach accesses- approximately 30 acres of Kaka'ako Makai- remain blighted with decaying buildings and empty lots, and many homeless have established tents along the roads and in the open lots. The target community, including Kaka'ako residents and the larger Honolulu community, includes a significant percentage of sensitive populations, including elderly over the age of 65 and children under the age of 17, who are especially susceptible to the effects of the known hazardous substances in the soil and groundwater in Kaka'ako Makai. Financial Need Particularly in the last five years, Honolulu County, including Kaka'ako Makai, has been heavily hit by the economic downturn. With an economy that is heavily reliant on tourism, Hawai'i has borne the brunt of the recession over the last few years. OHA has felt the negative impacts as well, with its trust fund losing over \$5.8 million in fiscal year ended June 30, 2012. The presence of brownfields in Kaka'ako Makai contributes to the depressed economy by preventing development of safe recreational, shopping, and dining opportunities in a prime waterfront location between downtown Honolulu and Waikiki. Former Use: Parcel L was one of the last areas in Kaka'ako Makai to be filled. It was filled in and created in the 1960s. A warehouse was constructed in 1963. The parcel was initially used as a container freight station that supported operations in Honolulu Harbor. A Phase I assessment was performed for the Kaka'ako Makai area at multiple parcels including the Property, and identified the following recognized environmental condition: It is likely that ash from the former incinerators is present at the site that might contain lead and dioxins.

Other Description:

Other Desc Cleaned Up:

Desc Hist:

Prior to 1914, the Site property was originally developed with three single-family residential structures with frontage on Cooke Street and a warehouse (northern side). The warehouse on the north side of the Site was utilized for oil drum storage. By 1950 all of the original structures on the Site were removed with the exception of a single-family residence attached to a dry-cleaning business in the west-central portion of the Site. The two single-family residential structures were replaced with commercial stores along Cooke Street, including a restaurant, clothing presser, and a retail property. Between 1950 and 1955, the remaining original single-family residence and attached dry cleaning business were removed; and a 17-room multi-family apartment building (northeast area), as well as an additional single-family residence (northwest area), were constructed on the Site. The Site included these residential structures and the commercial stores along Cooke Street until the late 1980s/early 1990s when the Site was cleared and redeveloped as a paved parking lot. The Site was acquired by Hawaii Community Development Authority in 1990.

Highlights:

The Site includes a 6,400-square foot asphalt parking lot and a 4,000-square foot community garden serving the residents of the nearby Na Lei Hulu Kupuna senior housing development. It is located in a mixed- commercial and residential area of Honolulu known as Kaka'ako Community Development District. The Site is currently owned by Hawaii Community Development Authority. Former Use: Prior to 1914, the Site property was originally developed with three single-family residential structures with frontage on Cooke Street and a warehouse (northern side). The warehouse on the north side of the Site was utilized for oil drum storage. By 1950 all of the original structures on the Site were removed with the exception of a single-family residence attached to a dry-cleaning business in the west-central portion of the Site. The two single-family residential structures were replaced with commercial stores along Cooke Street, including a restaurant, clothing presser, and a retail property. Between 1950 and 1955, the remaining original single-family residence and attached dry cleaning business were removed; and a 17-room multi-family apartment building (northeast area), as well as an additional single-family residence (northwest area), were constructed on the Site. The Site included these residential structures and the commercial stores along Cooke Street until the late 1980s/early 1990s when the Site was cleared and redeveloped as a paved parking lot. The Site was acquired by Hawaii Community Development Authority in 1990.

 Property History:

Feature Description:

THE SITE WAS ESTABLISHED SOON AFTER PEARL HARBOR ATTACK OF 7 DEC. 1941 TO SUPPORT CONSTRUCTION PROJECTS IN PACIFIC. NO RECORDS INDICATE THE DEMISE OF THE SITE BUT THE OPERATION IS BELIEVED TO HAVE BEEN DISCONTINUED BEFORE THE LATE 1950'S. THE SITE IS NOW A PORTION OF THE NEAL BLAISDELL CENTER. A SITE VISIT CONDUCTED ON APRIL 2, 1992 DID NOT INDICATED ANY ENVIRONMENTAL HAZARDS ATTRIBUTABLE TO THE ARMY USAGE.
