 FEIS Acceptance  
Determination

The approving agency simultaneously transmits to both the OEQC and the applicant a letter of its determination of acceptance or nonacceptance (pursuant to Section 11-200-23, HAR) of the FEIS; no comment period ensues upon publication in the Notice.

- FEIS Statutory Acceptance      The approving agency simultaneously transmits to both the OEQC and the applicant a notice that it did not make a timely determination on the acceptance or nonacceptance of the applicant's FEIS under Section 343-5(c), HRS, and therefore the applicant's FEIS is deemed accepted as a matter of law.
- Supplemental EIS Determination      The approving agency simultaneously transmits its notice to both the applicant and the OEQC that it has reviewed (pursuant to Section 11-200-27, HAR) the previously accepted FEIS and determines that a supplemental EIS is or is not required; no EA is required and no comment period ensues upon publication in the Notice.
- Withdrawal      Identify the specific document(s) to withdraw and explain in the project summary section.
- Other      Contact the OEQC if your action is not one of the above items.

**Project Summary**

Provide a description of the proposed action and purpose and need in 200 words or less.

The Kawaiiloa Wind Project (Project) operates a 30-turbine, 69-megawatt wind energy generation facility on agricultural lands located approximately five miles northeast of Hale'iwa on the northern portion of O'ahu. An EIS for the Project was accepted by the State of Hawai'i Department of Business, Economic Development, and Tourism in July 2011. The Project was constructed in 2012 and has been in operation since that time. The Project operates under an approved Habitat Conservation Plan (HCP) and Incidental Take License (ITL) issued by the Department of Land and Natural Resources (DLNR), pursuant to HRS Chapter 195D. The HCP and ITL provide coverage for incidental take of State listed wildlife species, including the endangered Hawaiian hoary bat (*Lasiurus cinereus semotus*). Post-construction mortality monitoring data indicate that the wind turbines are causing a greater number of endangered Hawaiian hoary bat fatalities than anticipated in the approved HCP and authorized under the ITL. Additionally, Kawaiiloa Wind is requesting to add take authorization for the endangered Hawaiian petrel (*Pterodroma sandwichensis*). Accordingly, Kawaiiloa Wind, LLC is seeking approval of a major amendment to the HCP as part of the request to add the Hawaiian petrel, and increase the amount of incidental Hawaiian hoary bat take, authorized under the ITL. Given the increase in estimated take of the Hawaiian hoary bat and the unanticipated take of the Hawaiian petrel, and the resulting increase in intensity of impacts, an SEIS was required.
