<b>Highways Division</b>									
2020-8(Ma)-01	Maui	Olinda Road	Olinda	96768	(2) 2-4-008, 012, 026 and 027		1	Remove approximately 70 to 100 blue gum eucalyptus trees in poor condition and structurally compromised along Olinda Road in the vicinity of Seabury Hall School up to Waihou Spring Forest Reserve. Trees are vulnerable to weather toppling them over to cause road blockages, utility disruptions, property damage, and potential harm to motorists. Base of tree trunks will be cut to minimize ground disturbances and damaging property fences. Mitigative measures will protect the Hawaiian hoary bat and Blackburn's sphinx moths.	The proposed tree removals qualify as an exemption being a maintenance action on an existing County road. There will be no change in the use of the roadway beyond that previously existing. No adverse environmental impacts anticipated based on consultations with relevant agencies and stakeholders.
