Marisco, Ltd.	1	Issuance of a month-to-month permit to the Applicant to ensure compliance with and applicability to Sections 171-17 and 171-55, HRS. The proposed blast and paint facility will be a one-to-one replacement of the Applicant's currently existing facility. The proposed new and modernized facility will consist of improvements that will support the Applicant's efforts to mitigate any environmental concerns associated with the currently existing facility, such as discharge of pollutants and grit into nearby State waters. Additionally, the Department of Health believes that the upgraded facility will help reduce the impact on water quality by containing pollutants and illicit discharges.

HWY-TO 21-2.0168	Oahu	Various	Various	Various	(1) 1-1, 1-2, 9-4, 9-6 Various		1 and 3(D)	Freeway Management System, Phase 3. The work includes the installation of closed circuit television (CCTV) cameras, trenching for electrical / communication conduits, and connections to new and existing cabinets.	This work qualifies for the exemption because all the work is within areas that have been significantly disturbed by the existing freeway and interchanges. Also, the work of excavating for conduit trenches, pullboxes, equipment cabinets and pole foundations would be very similar to the installation of a street light standard along the freeway or a traffic signal at an intersection.
