N/A	Kauai	Kawaihau Road	Kapaa	96746	N/A	Department of Public Works, County of Kauai	11-200.1-15(c)(1)(2)(4)	Kawaihau #3 Bridge Rehabilitation Project. The proposed action will remove the existing superstructure and replace it with new prefabricated deck planks. The project will not require widening the bridge, the existing abutments will be reused, and no in-stream work will be conducted. The proposed bridge design will not exceed the footprint of the current bridge and will continue to accommodate a single lane road. There will be minimal ground disturbance within the County roadway right-of-way, except the vegetation clearing/foot access areas, which will extend approximately 20 feet beyond either side of the existing bridge railings to allow for smooth pavement and guardrail transitions.	Kawaihau #3 Bridge is a County-owned bridge located approximately four (4) miles mauka of Kapa'a town at 22° 5'58.20"N, 159°22'26.09"W, and carries Kawaihau Road over a branch of Kapa'a Stream. As-built drawings from 1966 refers to the bridge as the "Bridge Across Puhi Ditch of Kawaihau Road." However, the County has confirmed that this bridge does not intersect the former location of Puhi Ditch, and the name "Kawaihau #3 Bridge" is appropriate for this bridge. No work will be done in the water and the Contractor will be required to catch any debris that could fall into the river. Best Management Practices will be employed to ensure no debris enters the stream. The deck will be paved over with asphalt to create a smooth riding surface across the bridge. No changes are proposed to the bridge abutments.
