Street Address	Location	Zip Code	TMK	Exemption Type HAR 11-200.1-15 (c)	Project Name and Narrative Description
near 59-100 Pupukea Road	Haleiwa	96712	5-9-011:008	2	Guardrail Installation Pūpūkea Road: The project includes, but is not limited to: removal of existing guardrails, installation of new metal guardrails, construction/reconstruction of asphalt concrete pavements and soil nail retaining wall with concrete barrier.
Vicinity of 3708 Nuuanu Pali Drive	Honolulu	96817	1-9-004:013	2, 3, 4	Emergency Improvements in the Vicinity of 3708 Nuuanu Pali Drive: The work consists of clearing an approximately 55-foot-long section of rock wall that was damaged by the uprooted banyan tree to allow for reconstruction of the wall and installation of a shotcrete soil nail wall on the adjacent slope. A new concrete barrier with rock veneer will sit on top of the soil nail wall. The other three damaged sections of rock wall will remain in place. A new approximately 80-foot-long by 2 ½-foot-tall section of rock wall will be installed in front (on the roadway side) of the existing 1 ½-foot-tall rock wall. Additionally, the area around the wall downhill will be stabilized with turf reinforcement matting and seeding. A total of ten (10) trees are to be removed. This includes two (2) mango trees (<i>Mangifera indica</i>), four (4) ironwood trees (<i>Casuarina equisetifolia</i>), one (1) Alexander palm (<i>Archontophoenix alexandrae</i>), one (1) mulberry (<i>Morus nigra</i>) and two Chinese banyan trees. These trees have been identified as the source of damage for the wall or erosional hazards.
