919 Ala Moana Boulevard, Room 308

Honolulu, HI, 96814

ATTN: Ms. Joan Corrigan

Project Summary: (Provide proposed action and purpose/need in less than 200 words. Please keep the summary brief and on this one page):

The Department of Health (DOH) initiated Section 106 of the NHPA consultation with the State Historic Preservation Division (SHPD) in accordance with 36 CFR Part 800. In 1990, the U.S. Environmental Protection Agency (EPA) designated the DOH to act on EPA's behalf, pursuant to 36 CFR §800.2 (c) (4), when initiating Section 106 of the NHPA process in connection with projects funded under the Hawai'i Drinking Water State Revolving Fund (DWSRF).

The DOH is providing funding under the DWSRF to the County of Maui, Department of Water Supply for Pookela Well "B" Exploratory/Backup. The proposed project will utilize federal funding and is considered an undertaking, as defined by Section 106 of the NHPA, 54 U.S.C. §306101 et seq., and 36 CFR Part 800. The proposed project includes plans to drill, test, and develop a well, called Po'okela Well "B", as a backup to the existing Po'okela Well (State Well No. 5118-02) to continue to serve customers while the existing well is under maintenance. The proposed project site is on Olinda Road, 0.3 mile south of Makawao Town. The DOH has requested SHPD's concurrence with its conclusion that no sites of historical importance are expected to be affected by the project.
